"Life was simple then, maybe,"
Gay said. "You—"
"Fiddlesticks!" Abigail Houghton
tossed her head. "It's simple enough
to get married. And one male Houghton is not much different from another, I guess. They've all been as proud as Lucifer and as stubborn as mules. Don't you let that fret you. When they love you, they love you for life and that's not a bad fault in a husband. It's talking that complicates things. That, an too much considering other people. I've got the seed-pearl necklace I promised John for his bride sewed into my feather bed. It won't take long to rip out the stitches.'

"You're a darling." Gay bent impulsively and kissed the russet cheek as soft as moth wing beneath her "John will bring me. I'll

The old lady went with them to the door opening into the tiny hall. "Mind you shut the door tight, Debby," she called after them. "Good-by, Gabriella."

"Good-by." Gay turned to smile at John's grandmother. The quizzical expression still narrowed Abigail Houghton's eyes, but her smile was steadfast and encouraging. Debby opened the outer door.

They went down steps and along shoveled path to a gate in the picket fence. The harbor lay be-fore them, touched with the last reflection of the sunset. Why was it? Gay thought. A moment came that you knew you would always remem-ber. This— The dove-gray house behind them muffled with snow, the harbor below, stippled with fading pink and gold. Nothing had hap-pened. Why did her throat ache and quick tears sting beneath her eyelids? Why—?

"Granny is a darling, isn't she?" Debby asked as the gate clicked be-hind them with a frosty snap and they walked, arms linked, along the cleared pavement between shoveled banks of snow.

"Yes," Gay replied. The ache in her throat was still there. She wanted John desperately, urgently, to be walking here beside her. His grandmother was right. They talked too much, she and John. It was dangerous to hurt each other with words. A lovely thing was spoiled if it was only a little marred. When he came tonight-

"You aren't going tomorrow, are you, Gay?" Debby asked, after a

"I think so. Yes." "Well, I can't blame you, I suppose." Debby's voice was desolate. "It's dead enough here, goodness knows. I'll miss you, though, terri-

bly."
"Will you?" Gay asked, drawn from introspection by the sincerity in the lovely young voice. "Why, especially, except to be polite?"

'Because I like to look at you You're so beautiful. And I can talk to you. I can't to anybody else, Mother or Sarah, and the girls I know are pretty small town. I'm different—" She gave an embar-rassed laugh. "I guess all this rassed laugh. I guess an this sounds pretty silly to you."
"No, it doesn't. How old are you, Debby?"
"Eighteen last month."

"How would you like to go back to New York with me?"

Debby stopped, checking Gay's progress, too, looked at Gay, speech-less, her dark eyes wide and shin-

ing.
"Why not?" It had been an impulsive suggestion. But why not? She was an attractive youngster. It would be fun to take her to New York. "Why not?" Gay repeated.

Debby exhaled her breath in a sharp explosion. "Gosh!" she exclaimed breathlessly.

"Would you like to go, Debby?"
"Would I?"

"Come along." Gay laughed and tugged at her arm. "We're block-ing traffic and probably getting frosted ears. There are your courses," she went on consideringly they resumed progress again. as they resumed progress again. "But you could go to a good business school or have a tutor. I'd like to have you. My mother and step-father are away a great deal, but the apartment is always there."

"I can imagine. Your eyes are popping out of your head. Do you think— Will your mother let you?

Would she object?" "She's got to let me," Debby said passionately. "Nothing as impor-tant as this has ever happened to me. Come on!" Clinging to Gay's arm, pulling her forward, Debby took a series of skipping steps along the sidewalk. "Let's hurry home and ask her!"

Dusk was falling when they came

in sight of the Houghton house. A car was parked at the curb.

"That's a taxi from the station," Debby said, checking momentarily a stream of breathlessly eager questions, comments, observations. "Who in heck—? Oh!" she added as a slight man in a heavy over-coat with a brief-case under his arm emerged from the car. "It's Mr. Sewall. He's writing a book about clipper ships and comes out from Portland to see the papers and logs and diaries Mother has. Oh, dear! He'll stay for supper and heaven knows how long afterward and I won't have a chance to talk

"Not for all the rice in China Not for all the bulls in Spain . . .

Debby's voice, rising in contralto cadences above her improvised ac-companiment on the yellowed keys of the square piano, brought to Gay's mind the musical comedy for which the song Debby sang had been written. She, Gay, had gone with Tony Merrill. Todd, in the same party, had been very devoted to Julie Lelange, that evening, Ellen's roommate at boarding school and home with her for the Christmas holidays. It was that evening she had decided, in her own mind, that she would marry Todd. She re-membered, not emotionally but quite accurately, the pluck it had given her heart to watch Todd fall under the spell of Julie's soft dark eyes and Charleston accent, and the relief she'd felt when Todd, later, had confessed to her that the accent had palled and the magnolia blossom grown cloyingly sweet. Funny the things you remembered . . "Not for all the beans in Boston

Not for all the grapes in

France . . Gay, leaning on the shelf of the piano, her elbows braced on mahogany, cracked in a net-work of tiny lines, her chin in the palm of her hand, gave her attention to Deb-by. The child was radiant tonight. The flush in her cheeks matched the deep dark red of the velveteen dress she wore.

The song came to an end. "Can I sing, Gay?" Debby asked, looking up with anxiety in the dark depths of her shining eyes. "I don't believe you even listened." Disappointment clouded her face. kept looking at the clock and listen-ing for John."

"I did listen Debby," Gay assured "I think your voice is very appealing."
"But can I sing?" Debby persist-

"We're not sure whether she has a voice," Sarah said from the op-posite side of the keyboard, "or whether she does it by black magic. A member of the Metropolitan Opera Company spent part of last summer out at the hotel and Debby

ance. "Did you sing for her?" Gay asked.

"Yes-" "What was her opinion?"

"She said Debby hadn't voice enough for opera," Sarah said, "and that no amount of musical educa-

tion would eliminate the huskiness It's something about the formation "I don't care." Debby ran a rip-pling chord. "I don't want to sing in opera. I don't want the husky

"What do you want?" The pa-tience in Sarah's gentle voice inti-mated to Gay that the question had been asked of Debby many times

"You know. I've told you. I want to sing popular songs. On the radio or in a club. Do you think I could, Gay?"

"Mavbe— I don't know." Gav "Maybe—I don't know," Gay added, seeing Debby's face brighten, not wanting to raise false hopes. "I have a friend who sings in a supper club." Sarah's eyes, sherry-colored like her grandmother's but with less visceits of expression widesed in second

vacity of expression, widened in sur-prise not unmixed with shock, Gay

thought. Debby gave a bounce on the piano bench. "Oh, have you?" she cried. "Will I.—" She broke off and ran a se-

ries of noisy chords. "It's personality rather than voice which puts Enid across," Gay went

which puts and across, Gay went on, realizing that Debby had not spoken to Sarah of the possible visit in New York. "That and the fact smart club managers are featuring debutantes this season. Debby has personality-"

"Rather too much at times." Sarah sighed, then smiled. "There'll be no question of anything of the be no question of anything of the sort for some time, anyway," she added. "Debby is too young to make independent plans." "I'm eighteeni" Debby flashed an

mit her to bear a grudge. She played a few preliminary chords then sang again. The sultry negroid minors of "The St. Louis Blues" moaned incongruously in the highceilinged New England room, from the old square piano where another Deborah Houghton had sat at twilight playing gentler tunes, her thoughts with her husband at sea.

Through Debby's singing, she heard a door open and glanced up expectantly, hoping that John had come. His mother entered the room hands dropped from the keyboard into her lap. She glanced quickly at Gay, then to her mother walking toward the piano.

"John hasn't come yet?" Ann Houghton asked with a glance at

Gay.
"Not yet, Mrs. Houghton." "I hope nothing has happened." Her brow cleared. "Mr. Sewall asked me to say good-night to you. He had only just time enough to make the train. Debby seems to have amused you adequately."

"Oh, very much," Gay said quick-

ly. "She sings remarkably well."
"It's an agreeable accomplishment, though I can't always recommend her choice of songs." John's mother smiled and went to sit in the wing-chair beside the hearth.

They walked, arms linked, along the cleared pavement.

Her hands reached instinctively toward the knitting bag on the arm of the chair. Debby had been correct in her prediction, Gay thought.
Ann Houghton looked subtly flattered and pleased. There was a faint color in her cheeks. The dress of knitted silk she wore, dull amber in shade, was becoming. "Mr. Sein shade, was becoming. "Mr. Sewall was delighted with the material I gave him," she went on. "I let him take your great-grandfather's diary. If anything happens to it—" "I should imagine that Mr. Sewall is trustworthy," Sarah said.

"Of course, but with things that could not be replaced—" She took the length of knitting from the bag and her needles flashed in the fire-

light.
"Mother—" Debby rose from the piano bench, stood, her hands ner-vously clasped, irresolutely.

"Yes, Debby?" Ann Houghton raised her eyes.
"Mother!" Debby plunged across

the room to the arm of her mother's chair.
"What is so important? Careful,

dear. You'll make me drop a stitch." "Mother!" Debby burst out in breathless jumble of words. "Mother, Gay has invited me to go back to New York with her. May I please? I want to awfully."

Ann Houghton's faint smile faded. Her eyes turned to Gay who came forward across the room.

"I'd like to take her with me, Mrs. Houghton," she said. "That's impossible. No, dear. It's

very kind of Gay to suggest it, but it's quite impossible." "Why is it?" Debby's color deepened. Gay saw her hands knot into fists as John's hands did when his fighting instinct was aroused.
"Well, there are your courses for

one thing," Ann Houghton said even "You were very eager to take them. You can't very well stop--"But Mother," Debby interrupted,
"Gay says I can go to a business

school or have a tutor."
"We couldn't afford that, Debby."
"But I should like to do it for—" Gay began, then stopped short, checked by the expression which had settled over Ann Houghton's

"No, my dear," she said, still evenly, holding her off, Gay thought, by the reasonable friendliness of her tone. "That's very generous of you, but I think Debby is better off at

"But Mother, why?"

"We needn't go into that, Debby."
"Yes, we will!" Debby slipped off
the arm of her mother's chair, stood
with her hands clenched into fists, her head defiantly lifted. "It's because you're afraid to let one of us get out of your sight for fear we'll have an idea you didn't put into our heads. "Debby!" Sarah cried in soft pro

"It's true. You know it is. You want to do everything for us so that people will say what a wonderful Mother you are. You are. You have been, but I want to go some-where and see something. Oh Mother, I am sorry!" Debby dropped down on the arm of the

chair again. "But can't you see—"
"I see that my judgment is correct." Ann Houghton's eyes remained fixed upon the needles. "You are far too emotional to be trusted away from home."

"I'm not. I'm not really. It's only you who makes me that way. Gay wants me to go with her. Oh Mother, can't I? I never wanted

anything so much."
"You're acting like a child, Deborah." Color burned deeper in Ann Houghton's cheeks. Her voice continued to pronounce words evenly vith maintained control but Gay saw that her hands clasped over the knit ting in her lap trembled. "I thought you had outgrown tantrums. You're being inconsiderate as well as un-pardonably rude. This can't be very pleasant for Gay."

"Oh, I guess Gay knows. I guess she's seen. You know there's no reason, Mother, except that you're afraid, except that you disap-prove—"

"Debby, hush! Come with me!" Sarah crossed the room, laid her hand on her sister's arm. Her face was white. Her eyes, wide and star-tled, met Gay's in fleeting apology, then turned away. "You don't know what you're saying."

"I do know!" Debby wrenched away from Sarah's hand. She stood acing her mother, frightened but defiant. "This is why I wouldn't go to college. I wouldn't let you make sacrifices to send me. You vanted to so that you could keep me tied here, grateful to you, not able to do anything that I wanted. You did that with Sarah and John, Sarah wanted to go abroad with Mrs.

teach women students.
"They are more willing to do as they are told," according to Miss Barbara Kibbee, 25-year-old, 115pound Civil Aeronautics authority flight instructor.

Despite their fear of the air, Miss Kibbee said, average women "know they know nothing about flying, or mechanics, or engineering or physics," and are consequently easy to

"On the other hand," she continon the other hand, she continued, "I find that some men think they know how things should be done and sometimes are not as ready to follow instructions. This is particularly true of middle-aged men, who have been successful in business and who as executives have become accustoned to giving rather than taking orders."

Miss Kibbee, one of the few wom-

en flight instructors in the country, was already a licensed commercial pilot and instructor before her ap-pointment to Rensselaer's pilot training program.

"I haven't found that my sex handicaps me as an instructor," she said. "Some men at first question the idea of being taught to fly by a slender little woman, but after the first flight all this changes. If they see she knows her business and has as much nerve as they have that's all there is to it."

Party Symbols

As the foremost cartoonist of his time, Thomas Nast is generally recognized by researchers as the who introduced the donkey and elephant as symbols, respectively, of the Democratic and Re-publican parties. Although the donkey was used occasionally to lampoon Democrats in Andrew Jackson's day, it apparently did not acquire national status as a symbol until Nast drew it in a political cartoon in Harper's Weekly in 1870. He did not intro-duce the Republican elephant un-

NEW YORK.—More varied in this country than in England are repercussions to the things John Cudahy, United States ambassador

John Cudahy quoted as having said in Criticized for Talk on Belgium an interview in England that aid would be required next win-

ter to save 8,000,000 Belgians from famine. His defense of King Leopold III, is regarded as, to say the least, undiplomatic. Whether Secre-tary of State Cordell Hull will take cognizance of a further statement alleging the correct behavior of German troops in Belgium—criticized in England as wholly out of order-remains to be seen.

Son of an Irish immigrant who went to Milwaukee and made an immense fortune as a meat packer, Cudahy's diplo-matic career began in 1933 with his selection by President Roosevelt as ambassador to Poland. In May, 1937, he became minis-ter to the Irish Free State and was appointed to the post at Brussels in 1939, succeeding Joseph E. Davies when the lat-ter was assigned as a special assistant to the secretary of

Cudahy was the first to advise President Roosevelt-via telephone -of the German invasion of Bel-gium where he remained at his post of duty, narrowly escaping death or injury from bombs, until he, together with all other foreign representatives were requested to leave the country. Later, in Germany, he spent two hours with Leopold of Belgium in the castle assigned to the monarch by the German army and obtained from him a personal letter, presumably divulging the inside story of Belgian capitulation, for

The ambassador is a Harvard man, class of 1910, holding degrees of bachelor of law, Wisconsin, 1913, and doctor of laws, consin, 1913, and doctor of laws, Carroll university. Admitted to the Wisconsin bar in 1913, he practiced until 1917 when he be-came a captain in the United States army. Later he ranched in New Mexico, and from 1923 until 1933, when appointed to Poland, he engaged in real estate.

ONE of the outspoken critics in congress of most, if not all, of President Roosevelt's policies, Sen. Rush D. Holt (Dem., W. Va.) finds

Sherman Minton of Indiana, the colloquys of the two lawmakers have not been regarded by their colleagues as enhancing the dignity of the sen-ate. At all events, Holt's reputa-tion as a senator, who has spoken to more empty seats than any other member of the upper house, past or present, has not been maintained in recent sessions, nor do legislative correspondents note the days the smiles of amused tolerance which used to mark his

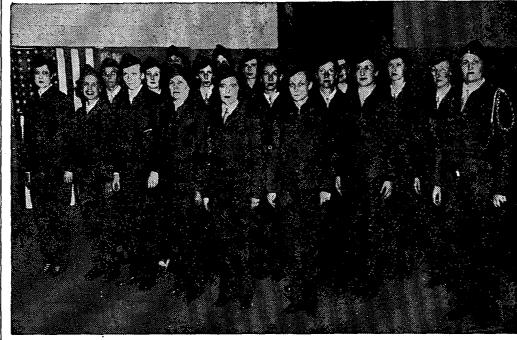

With the exception of Henry Clay, the youngest man ever elected to the United States sen-ate, Holt landed in office in 1935 without benefit of the Democratic machine of his state, though wearing the Democratic label. When he defeated Sen. Henry O. Hatfield, a Republican warhorse, for the senatorial toga, he was 29 years old, too young to assume his seat. The voters of his state knew this, but it made no difference. They just cast their ballots for him anyway. He had to wait six months before the legal office-taking age

Having been at one time an athletic director, at St. Patrick's school in West Virginia, the intincts of this flushed, exalted stripling were all for the old college try from the minute he was sworn in, a manifestation of youthful ebullience violating ar unwritten senate rule calling for silence on the part of a new member.

One of the first things he did was to visit the White House to make it clear that he was in line with New Deal policies, but later it was made equally clear he was a holdout so far as machine politics, state or national, were concerned. As for the New Deal, he fought the court reorganization bill. He repeatedly accused the WPA of political im-plementation. He opposed the cash and carry neutrality plan.

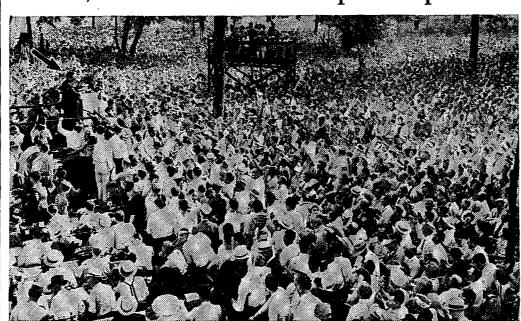

When his present term in the senate ends he will not return, having been defeated in the primary elec-tion in his state last May.

HERBERT MARSHALL'S first talking picture was "The Letter," in which he played Jeanne Eagel's lover, whom she killed. Now he's playing in it again, but this time he's the husband of the heroine, played by Bette Davis. He prefers his current role. "T'd rather be a betrayed,

but live, husband, than a dead lover!" he commented.

Incidentally, two of the most interesting photographs that have come this way recently are of Bette Davis and her stand-in. They're dressed alike, posed alike. If anything, the stand-in is a little prettier than the talented Bette, but she suffers sadly by contrast. Those photographs show the difference between an expert the difference between an expert and an amateur, and they're worthy of any girl's careful study.

COOL DRINKS ARE REFRESHING ON HOT SUMMER DAYS

Even on the stickiest, hottest summer day, a good tart, icy drink will refresh you.

Fruit drinks, in particular, are good; when you drink a frosty tumbler of lemon ade or chilled orange juice, you not only feel cooler, you are cooler. Fresh fruit drinks actually ward off the heat of sum-

Fruit beverages provide the min-erals and vitamins the body requires, and, because of the sugar added for sweetening, are fairly

high in food energy.

It's very easy to serve "soda fountain specials" at home. Any combi-nation of fruit juices makes a delightful and refreshing beverage— provided some of the more tart juices, such as those from lemons, slightly sour oranges, or rhubarb— are used to keep the beverage from tasting too sweet and flat. Use slices of orange or lemon, mint leaves, whole, fresh or canned cherries or berries, for garnishing. Ice cubes for chilling fruit drinks or iced tea might be frozen from orange or lemon juice, to avoid diluting the beverage. Mint leaves, bits of lemon peel or cherries can be frozen into the cubes. For iced coffee, pour some of the coffee into the freezing tray of your refrigerator, and freeze. Then use the coffee cubes for chilling the drink.

Sugar syrup, used for sweetening, is easily mixed throughout the whole drink, and makes

a smoother tasting, smoother textured drink, than unmelted when sugar has been added. To make the sugar syrup, boil 4 cups of sug-

Lemonade.

Follow these three rules if you want to make perfect lemonade: Use fresh lemon juice and plenty of it; sweeten to the taste of each-not sweetening for folks who like it sour-sweeter for those with a sweet tooth; use ice and more ice. For each person served, allow:

1 to 2 tablespoons sugar or honey 1 cup cold water

Extract lemon juice. Add sugar or honey to taste. Stir to dissolve. Add water. Serve over ice in large glasses. Garnish with lemon slice on rim of glass. To make lemon fizz, make lemonade with carbonated water.

INVITING OTHERS TO WORSHIP GOD

LESSON TEXT—Psalm 96.
GOLDEN TEXT—O magnify the Lord with me, and let us exalt his name toether.—Psalm 34:3.

Worship is not only fitting, but altogether natural to the soul aglow with the love of God. Yet it is a sacred privilege to which we may call ourselves and others and in the doing of which we may be helped by an intelligent understanding of its nature and preparation for its prac-

What is worship? How does it differ from prayer, or from praise (which we studied last week)? While prayer, praise and worship belong together and often merge in one blessed art of devotion, we may pos-sibly distinguish between them by saying that in prayer we are con-cerned with our needs; in praise, with our blessings; and in worship, with God Himself.

I. The Call to Worship (vv. 1-3). This psalm has to do with collec-tive rather than individual worship. It is not enough that man should worship God in his own soul, there is an added blessing which comes to us only as we worship with others. So we need to be called together for worship.

True worship centers in "a new song" that is the song of a regenerated heart. Worship is only a formality without life until there is a new song in the heart, and then it becomes life's greatest joy and satisfaction.

Real worship is a "day to day" matter (v. 2), not just something we put on like our "Sunday-go-to-meeting" clothes. Every day we are to worship, and as we do, we shall "declare his glory among the heathen"; among those nearest to us, but ultimately to all the nations of the earth. Worship leads out in a desire that its blessing may be shared with all the people

of the earth. II. The Reason for Worship (vv.

Why should we worship God? He is "great" and is a God so good and gracious that He is "greatly to be praised." He made the heav-ens. "Honor and majesty" stand before Him like sentinels; "strength and beauty" fill the holy place which is "his sanctuary." The very words bespeak that glorious majesty and gracious loving-kindness which im-pel the heart to worship. They en-courage us who need and seek strength and beauty of life to seek communion with Him who dwells eternally in such an atmosphere.

III. The Manner of Worship (vv.

We have suggested that fellowship with God prompts us to worship. Some would feel that nothing more is needed, but experience tells us that, while we may worship any-where, we are helped to do so by proper surroundings and circum-stances. We are told to "come into his courts" (v. 8) and to worship "in the beauty of holiness" (v. 9),

or, as the Revised Version puts it, "in holy array." John Ruskin wisely said: "It cannot be questioned at all, that, if once familiarized with a beautiful form and color, we shall desire to see this also in the house of prayer its absence will disturb instead of assisting devotion; and we shall feel it as vain to ask whether, with our own house full of good craftsman-ship, we shall worship God in a house destitute of it, as to ask whether a pilgrim, whose day's jour ney led him through fair woods and by sweet waters, must at evening turn aside into some barren

place to pray." We are to give or ascribe unto the Lord praise and glory among our "kindred" (v. 7); that is, our own family, as well as in "his courts," His sanctuary. Note that one of the outstanding ways of wor-shiping is to "bring an offering" (v. 8), which means more than casually slipping a small coin in the tion." If our "offerings" are liberal and regular the church will be able to send the news that "the Lord reigneth" to the whole world (v. 10).

IV. The Universality of Worship (vv. 11-13).

A world which has felt the blow of man's sin (Rom. 8:22) and has suffered from his wickedness and destructive violence will so rejoice in the righteousness of God's judgment that even the realm of nature will break into joyous worship. What a beautiful picture we see in these verses, how God's creation will lift itself up in praise, the sea in tu-multuous joy, when "the hills shall break forth before you into sing-

ing, and all the trees shall clap their hands" (Isa. 55:12). Can man then hold his peace? Must not "mortal tongues awake" and "all that breathe partake" in wholehearted worship of God? Who then will want to stand among "them that know not God, and that obey not the gospel of our Lord Jesus Christ" (II Thess. 1:7, 8), and with whom God can deal only in judgment of flaming fire?

Negro Publisher To Support Willkie.

Pittsburgh. - Robert L Vann negro leader and publisher who backed President Roosevelt in the campaign of 1932 and 1936, threw his support today to Wendell L. Willkie, Republican candidate for the presidency.

In an article in the Pittsburgh Courier nationally-circulated weeky newspaper devoted to the negro interests, he said:

"We supported Mr. Roosevelt in 232. We supported him with less enthusiasm in 1936; but he is a far different man today.

Because of his change and because of the subtle way in which he has shifted his position toward the American people and because of his willingness to frighten 130, 000,000 people into believing that this country is going to be at war by by Christmas if he is not elected, because of this type of deception and because of his absolute refusal to say a word in behalf of the 13,000,000 negroes in the United States during his seven years in the White House, we cannot support him in 1940.''

hat in his hand.
"Hello—" he said. The smile faded as his eyes moved questioningly about the room, "What's the mat-ter?" he asked hesitantly, "What's going on here?"

Debby conquered her sobs. Her head lifted. "Gay wants to take me back to New York with her," she said, "and Mother won't let me go."

"So you threw a tantrum." Over Debby's head John's eyes flashed a question at Gay. She tried to smile reassuringly but his expression, concerned and apprehensive, told her that she had not succeeded.

"I think it is wiser for Debby to remain at home." Gay saw that Ann Houghton's eyes, lifted quickly to her son, were frightened, now, heard the shaken note in her voice.
"Wiser!" Debby's voice rose again

to an hysterical pitch. She whirled from her mother to face John, standing grave and silent in the doorway.
"You know why she won't let me

voice, cutting through her hysteri-cal outburst, silenced Debby. She went past him out of the room, her head drooping again, her defiance crumpling beneath his stern, uncompromising expression. Sarah fol-lowed. The door closed.

CHAPTER XIV

"What is it, Mother?" John threw off his coat and walked to the hearth. "What started this? What hearth. "What is it all about?"

"I don't think we need to discuss it." Ann Houghton resumed her knitting. During the interval of silence which had followed the closing of the door, she had regained her composure. Her hands manipulated the amber needles steadily. Only the dull red flush that burned in her cheeks betrayed any inward agita-

tion.
"I don't agree with you." John stood with his back to the fire, his glance turning from his mother to Gay, then back again to Ann Houghton. "I find Debby in hysterics, Sarah crying, you and Gay obviously distressed. I should like to know, if you please, exactly what has happened."

Gay's hands tightened on the back

of the chair behind which she stood.
"It was my fault," she said. "I invited Debby to go back to New York with me." "And you don't want her to go?"

John's eyes, grave and concerned, turned again from Gay to his mother.
"I don't think it advisable. Un-

"Why do you object, Mother?" Ann Houghton regarded her son with a studied deliberation which shilled Gay's sympathy, aroused her antagonism. As deeply as memories of her own turbulent adolescence had moved her to sympathy for Deb-by, she had pitied John's mother, too. Now, watching her manner with John, its effect upon him, pity tallized into resentment. Debby's accusations had held a measure, at least, of truth. If she had not seen Ann Houghton's gesture in John's room this morning, if she had not had that revealing glimpse of the possessive passion which burned beneath her controlled and reasonable manner with her children, she might now be convinced that only wisdom motivated the decision she had made. But she had seen. She knew-

break now. "Perhaps you're right," John said doubtfully

"I offered to have her tutored if the courses she's taking," Gay said, "or send her to a business school. It's quite probable that she might make more rapid progress with a tutor than in a class at the high school here."

She had not meant to give an impression of patronage. But that, she saw, was the effect of her words upon Ann Houghton, upon John. "That's very generous, Gay," John's mother said, "but quite un-

"Debby is impression able and immature. It would be mistaken kindness, if you'll permit me to express myself frankly, Gay, to give her, at this time, a taste of something she can't have perma-nently. I'm afraid she would be more discontented than ever when

she returned." "Good Lord, Mother." John's voice held a note of irritation. "No body wants to eat fruit cake for ev-

"I think that sort of fruit cake just now," she said, "would be very bad for Debby. With this notion she has of singing on a radio program or in some place of entertain ment, I'm afraid that being in New York with Gay would turn her head completely."

"I shouldn't allow her to do any thing of which you would disap-prove, Mrs. Houghton."

"I don't question that, but your life is so different from our life here. I'm afraid that the contrast-" "You know Debby is a chameleon Mother. She adapts herself easily

to any environment." "That's just why I don't-" she broke off, glanced quickly at John at Gay. "I'm not presuming to criti-cize your mode of living, Gay, but I'm convinced that for Debby just at this time— If it were Sarah, that would be a different matter."
She folded her knitting into the bag. "I shouldn't think you would want her for a visit after the scene yo just witnessed. I feel that she, that

I, owe you an apology." "No please Mrs. Houghton She was terribly disappointed. It was my fault. I should have consulted you. It's all right. I understand how you feel, but I'm disappointed

John made a restless movement on the hearth. "Then it's settled, isn't it? Debby doesn't go back to New York with Gay. Now may we talk of something else? Food, for instance. I'm starved. Did Huldah make chocolate doughnuts? Come out to the kitchen with me, Gay."

Ann Houghton rose from her chair. "If you please, John, I'd like you to go to Debby with me." "Oh, let her alone. You know how she is when she's had a tan-trum. Don't play up to her and she'll get over it."

"I don't think she's well. She's been herself these past few "You'll turn her into a neurotic if has been. Her every thought has you don't stop coddling her."

"Debby is sensitive in a way which I think I understand better than you." John turned to Gay in smiling xasperation. "What was the use exasperation. "What was the use of my spending four years in medical school and two years interning when mother, by instinct, knows

Again a faint chilling smile touched Ann Houghton's lips

"I should like you to go with me, John," she repeated. "Debby is nervously excited. She'll probably need a sedative to put her to sleep The doughnuts will wait, and Gay will excuse you for a few minutes, I'm sure."
"Certainly, Mrs. Houghton."
"Back in a minute, Gay." John's eyes were pleading. His smile was strained.

"Good-night, Gay."
"Good-night, Mrs. Houghton." John went out of the room with his mother. The door closed. Gay stood leaning against the back of the chair, staring into the fire.

Gay did not turn when the door opened. She remained seated in the chair beside the hearth, looking up at the painting above the mantel "Were you asleep?" John asked, coming to the chair. "I'm sorry I've been so long."

"No, not asleep. I've been getting acquainted with the gentleman up there. It's your great-grandfather, isn't it?' "Abner Houghton-yes."

"Look at me, Gay." She raised her head. Seeing his grave and troubled face, she gave a little cry. He bent toward her. Her arms went around his neck. Their lips met and clung. Presently he drew away, straightened, took her hands to pull her up from the chair. "Did taking Debby to New York mean so much to you?"

"I should have enjoyed having ner, but that isn't important."

"That act she pulled must have been unpleasant for you.' "It wasn't an act " She sat haside him on a sofa with a high back curled at one end like a snail. "Debby meant every word she said."

He looked searchingly into her eyes.. "Do you believe that, Gay?" "Of course I believe it. I've been nere for three days.'

"Mother told me. I hadn't realized--'' "I don't want to discuss your mother, John."

"But you can't believe the things Debby said were true."

"You can say what you like to me, what you think, how you feel."
"No, I can't. When I do, we quarrel. Debby isn't important in as we are concerned. But your mother is. She doesn't want Debby to go to New York with me because she's afraid of me, of the things I can do for her. She wants to be everything to all of you."
"That's natural, isn't it?"

"Natural, perhaps, but selfish.
Yes, selfish, John. Can't you see?"
"If you knew what Mother's life els and elsewhere.

"It would have been better for her, for you, if she had to plan for us, Gay. There wasn't much money. You can't understand, I suppose. "No, frankly, I can't."

"That's because you have the pro-tection of wealth," he said stiffly. "Oh, money! Because my grandfathers left a trust fund for me, we bicker and quarrel." Antagonism sharpened her voice, a sense of the distance widening between them. "You attach too much importance to what I have—"

"It isn't because you have it now," he said slowly, with measured de-liberation. "It's because you've al-ways had it. From the hour you were born every thought you've had, every move you've made, has been colored and shaped by the fact that both your grandfathers were wealthy men. Your mother—"

"How absurd we are!" She gave a short strained laugh. "In New York we quarreled because my mother did not display a properly maternal attitude. Now we quarrel because your mother is a model of

maternal devotion. Oh, is it important, John?"

"We are each of us the product of our separate environments," he said carefully, thoughtfully. "You had nurses and governesses. You were sent to camps, to schools, to the sea-shore in summer, to dancing class. For your birthdays ma-gicians were hired to entertain you sick there were nurses. Mother did everything for us. When we were sick, she couldn't afford to engage a trained nurse. There was no money for elaborate toys, amusement, en-tertaining. Mother made fun for us at home. She scrimped and saved to send me to college, to send Sarah. She managed it in ways you couldn't understand, hamburger instead of steak, never quite enough heat in the house, dried vegetables instead of fresh ones in winter. Sarah's dresses made over for Debby-" (TO BE CONTINUED)

Rubber is the principal contributor to quiet, vibration-free riding, pro-viding cushions between frame and body, bumpers to take the shock of slamming doors, windlaces and gas-kets to keep out drafts, cement to seal joints along the floor, pads to keep feet from skidding off the ped-als, hose for radiator, heater and vindshield wiper, mats for running boards and floor.

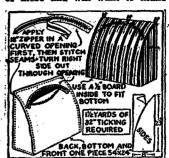

All told, a number of cars have as many as 250 rubber parts, and one of current manufacture has 335. Sixty pounds of rubber products apart from tires is not unusual in a car. Next to rubber perhaps the most

useful non-metallic ingredients are the plastics which serve many use ful purposes of which some are conspicuously new, though really be longing to a family of products with which engineers have been long familiar. BEHOLD this modern version of Banold-time laundry bag. It is made of sturdy ticking in crisp red and white stripes. It hangs flat against the wall with ivory rings over brass hooks. It closes neatly with a zipper and may be consend with one hand. opened with one hand. The zip-per is applied in a curve to make an ample opening, and the bag is held in shape with a board in the bottom. Surely you will want one of these and will want to make

one or more for gifts. Christmas is not so far away, and here is something for a man, woman or child.

Everything you need to know to make this bag is given in the sketch. These directions are not in any of the booklets, so be sure to clip them. There is also an in-teresting laundry and shoe door pocket in Book 4. An easy-tomake garment bag illustrated in Book 1, and twin pockets for a pantry door in Book 3, solve the problem of what to do with clean and soiled tea towels. All these closet accessories make grand gift and bazaar items.

NOTE: These homemaking booklets are a service to our readers and No, 5 just published contains a description of the other numbers, as well as 32 pages of clever ideas fully illustrated. They are 10 cents each to cover cost and mailing. Send order to:

20 years, no doubt, they will still be telling how, in 1940, the same Sem-yon, then commissar of defense, led more than a regiment of his follow-ers back to the payrolls from which they had been briefly booted.

When Russia blundered to victory over fallen Finland her armies obeyed a double-barreled leadership. Alongside the or-thodox military commanders marched as many political comveto. Thousands of dead Russians proved the weakness of this command system, and this week Moscow announced that commissars were out on their

Overnight, however, they got back in the army, still. Now they are assistant commanders for political assistant commanders for pointed affairs. The old power of veto is gone, but the pay check will be the same. Timoshenko fixed it all up as briskly as any ward boss ever drummed up jobs for the faithful.

Timoshenko has been fixing things up ever since Lenin got a stranglehold on imperial Russia, for himself as well as his party. He is rough and tough, and on the record he has what it takes to get ahead under Communism. His jaw is wide and hard. His eyes have a "Sez you!" glint. His thin hair grows close to a hard poll, offering no purchase for an enemy's hand.

He got his first real boost in 1937 when he was made commander of the North Caucasian Corps area. His last and best, however, came in May of this year. Then he reached his current job. He is pretty high up now. And in Russia, under Stalin, the higher they go the hard-er they fall. So those fellows may not be permanently on the payroll

She has long maintained that health, housing, recreation, child welfare and general public well-being are bedrock essentials of any defense program. With the above appointment she became the first woman to be "drafted" in the current mobilization of hu-man and material resources.

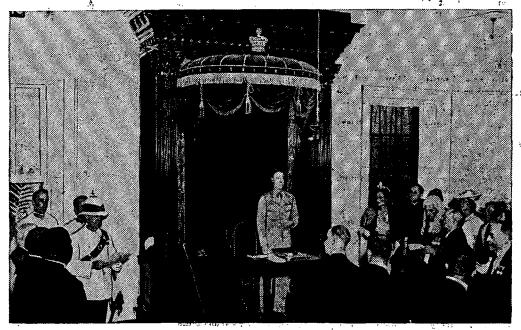

Miss Elliott is a Quaker and col Miss Elliott is a quaker and college professor—dean of the woman's college of the University of North Carolina. For 21 years she has been professor of political science at this ollege and has achieved unique distinction in her daily classroom takeoff from the morning newspaper, rather than a text book.

Her theory of education is to proceed from the particular to the general; she thinks Mill and Adam Smith should be left on the shelf until the student can generalize from every-day facts as they come to him in the news. She is wary about theories.

One of her main jobs as consumer adviser is to watch prices. While she has fought profiteers, she is no alarmist about gouging, and believes that all elements in producing and marketing processes will be co-opera-tive if they are sensibly and fairly mobilized. However, she tarry modules. However, she has at hand a portfolio of pretty stiff laws, with the department of justice standing by, if she finds it necessary to invoke

TT SEEMS that those year- ↓ old twins, Beverly and Barbara Quintanilla, are to play just one baby instead of two in Warner Brothers' "Four Mothers," and all because William Keighley used his head.

The script called for Priscilla Lane to be the mother of a one-year-old child. One of the laws that give directors gray hair is that an infant can't be kept under the lights for more than 20 minutes, and can't. work more than two hours a day. So Keighley did some arithmetic and engaged twins for the role. claims that the scheme has two advantages-it doubles the shooting time, and though one baby isn't in the right mood at the big moment, her sister may be full of ambition

Members of the company of "Virginia" were sitting around on loca-tion, waiting for the shooting to start; off at one side, a young lady

was crocheting. She seemed to be so expert that one of the extras, a local girl, asked if she'd teach her The pretty crocheter was most affable about it; when the director, Edward H. Griffith, called the playr. dward n. Griffith, called the players together at last the pupil thanked her. "By the way," she said, "What's your name?" The crocheter replied "Call me Madeleine—Madeleine Carroll."

Maybe this is bribery—but Director Mitchell Leisen has told Ray Milland and Claudette Colbert, co-stars of his picture, "Arise My Love," that if they complete their roles ahead of schedule he will buy each of them a tailored suit. Director Sam Wood also became clothes-conscious wood also became clothes-conscious and sent little Betty Brewer two sweaters and a plaid skirt for being such a good girl when Claudette's husband, Dr. Joel J. Pressman, took her tonsils out. Not to be outdone by all this generosity, Claudette is working between scenes on a blanket which will be a gift for the Ray Milland heir, little David Daniel.

Paulette Goddard danced three numbers with Fred Astaire for scenes in Paramount's "Second Chorus" and set a record that probably won't be broken in Hollywood for many years to come. Though fore, she did it so well that every dance photographed perfectly in one take, thanks to working like a dog at rehearsals.

Frank Capra seeks realism in his pictures. When Gary Cooper had to protest a decision to a baseball um-pire in "Meet John Doe," Capra asked Pat Flaherty, former major league pitcher, what players usually

"You've never seen it printed, have you?" asked Flaherty. Capra shook his head. "Then you wouldn't want to use it in the picture, would

So the protest will just sound like an angry speech by Donald Duck.

"The one, the only, the original Professor Quiz," who recently celebrated his 200th consecutive week on the air, has been broadcasting for four years—during that time he's received almost 2,000,000 letters, containing more than 12.000.000 ques and has paid out more \$25,000 in prize money. He's not superstitious, but he refuses to go on the air without the battered old felt hat from which the questions are selected at the broadcast-it was borrowed years ago from a station manager in Charlotte, N. Donna. Woods' fine soprano voice was going to waste in a mediocre girl trio, and the "Collegians" were a male trio that wasn't getting the breaks, not so long ago. But when they joined talents and became the "Smarties" things began to happen

DESSERTS FOR THE BEGINNER (Recipes Below)

With fall fast creeping upon us, | ing powder and salt. Cream shortyou brides of the past few months are eagerly looking forward to the end of the vacation season. Then you can proudly show to your friends and newly acquired relatives that you are becoming not only a pro-ficient hostess and homemaker, but

also a first-rate cook.

Perhaps you'll decide upon a tea for your friends, serving dainty sand-wiches, small cookies or tiny frosted cakes. But the families usually anticipate a family dinner which tends to make the bride feel that they
will arrive with an extremely
healthy appetite and a critical eye.
When you plan your first family dinner, select a menu that is not only simple to prepare and easy to serve, but one that will require only a few minutes in the kitchen.

Start the meal off with a bang Create a favorable impression right at the beginning of the meal. An appetizer that is fairly highly seasoned, small in amount, piping hot or well chilled, and one that whets the appetite instead of retarding it, will insure a successful meal. The guests' natural curiosity will be appeased, and they will settle back in their chairs satisfied that the "new

cook" is a good one.

The bride who can make a perfect floating island need not dread the problem of company dessert There is nothing more delicious or generally welcome than the old favorite, especially when it is made with orange juice and combined with

slices or segments of the fresh fruit. It is not the only "easy-to-make" beginner's recipe, but you will find that the others will help you in selecting your company desserts. Many of them are suitable when you entertain at a dessert luncheon, or after an evening of cards.

Orange Floating Island. (Serves 6) 3 eggs (slightly beaten)

% teaspoon salt 3 tablespoons sugar 1½ cups milk (scalded) ½ cup orange juice 2 egg whites (beaten stiff) 4 cup confectioner's sugar

1 teaspoon vanilla Orange segments or slices Combine egg yolks, salt and sug-ar; gradually stir in hot milk and or-

ange juice. Cook over boiling water 5 minutes or until mixture will stirring constantly. Cool quickly in large serving dish or sherbet

dishes. To make the "islands": bea egg whites until stiff; gradually beat in the confectioner's sugar and add the vanilla extract. Drop by spoon fuls onto custard. Chill. Garnish with wafer-thin slices of the whole, unpeeled orange or with orange seg-

Frozen Rice Pudding.

1/2 cup rice quart milk % cup sugar % teaspoon salt 1/4 teaspoon nutmeg 3 eggs (beaten)
1 teaspoon vanilla extract
14 teaspoon almond extract

1 cup cream (whipped)
Wash and cook rice in boiling water for 5 minutes. Drain. Put rice, milk, sugar, salt, and nutmeg in the top of a double boiler and cook 45 minutes. Stir in slowly the beaten eggs and continue cooking 5 min-utes more. Add flavorings, chill and then fold in the whipped cream. Pour into freezing tray of automatic refrigerator. Set cold control to lowest degree and freeze.

Chocolate Marshmallow Cake. (Serves 6-8)

1½ squares unsweetened chocolate (1½ ounces) 2 tablespoons sugar 1/2 cup water teaspoon vanilla 1 cup cake flour 1 teaspoon baking powder 1/4 teaspoon salt % cup shortening % cup sugar 2 eggs (beaten)

THE EVER-PRESENT GOD

LESSON TEXT—Psalm 139:1-12, 23, 24.
GOLDEN TEXT—If a man love me, he will keep my words; and my Father will love him, and we will come unto him, and make our abode with him.—John 14:23.

"The Psalm of the Unavoidable God''—so Abingdon characterizes Psalm 139, but goes on to say, "It's main theme is 'God Cares.' He cares personally and individually." The omniscience and omnipresence of God, in the trying of the hearts of men, rightly brings fear to the ungodly, but to those who love and serve Him it can bring only assurance and joy.

The sublime concept of God here presented is an evidence of the divine inspiration of the Bible, for no human philosopher could ever have attained to or expressed such an understanding of the true nature of God. Only the infinite, all-knowing God, speaking through man, could give us this magnificent Psalm. It

I. God Knows Everything (vv.

He is entirely unlimited in His true and eternal knowledge things. Man is always limited in his knowledge of himself, of the world in which he lives, and of God, ex-cept as He reveals Himself. Our knowledge is not only partial, but progressive, going from one fact to another; but God knows all things perfectly and entirely from the beginning, yes, from all eternity.

One might well suppose that such a Being would be concerned only with the great and mighty forces of the universe, but we are told that He has an exact and intelligent understanding of and interest in even such simple details of life as our downsitting and . . . uprising.

God is not so foolish as man. He does not put things and power above personality. He is interested in you and in me—is vitally, personally and blessedly concerned about each one of us. Knowing all about us, He builds a garrison of understanding love around us (v. 5; see Phil. 4:7 R. V.), and keeps His eternally powerful but tender hand upon us, if we permit Him so to do. Reader, have you submitted your life to His. have you submitted your life to His control through Jesus Christ out Lord?

II. God Is Everywhere (vv. 7-12). In our humanity we are limited, not only in knowledge, but also in our ability to be in more than one place at a time. The Bible tells us what our reason would expect; that God, the infinite One, is everywhere at all times. This does not mean (as the pantheist would have us believe) that God is lost in na-ture, bound up in the rocks and trees, but that He is everywhere immanent in majestic power and love, sustaining all things, control-ling and directing the destinies of His universe. He is not afar off, letting the world care for itself (as the deist would say),

"But here in present majest;

The man who would hide from God and flee from the Holy Spirit finds no comfort in these verses. He may attempt to hide in heaven or in the abode of the dead, but God is there. If he could ride with the speed of morning light (v. 9) to the uttermost parts of the earth, God is there before him. Darkness, which men think will hide their evil deeds, is like daylight to "Him with whom we have to do" (Heb. 4:13).

But why flee from a loving God? Why not come to Him in loving obe-dience, and then with the psalmist rejoice that we "cannot get beyond the circle of His love"? What a blessed truth it is that wherever these lines are read-in the home, the church, in a hospital, in a jail, in an airplane, in the depths of a mine, in darkness or in light, in the great city, or by one living alone in the wilderness—God, the infinite, all-knowing, eternal, loving God, is there. He is right at your side, reader. Turn to Him, count on Him, love Him, serve Him.

III. God Searches Man's Heart

Verse 3 of our psalm teaches that God searches the hearts of all men. but here we find the psalmist wisely inviting God to search his own heart. It is one thing to know a universal truth; it is another matter to make it personal. It is one thing to know that God, against my will, is pointing out to me the sin and rebellion of my heart; it is quite another thing to open my heart vol-untarily to His searching scrutiny.

Why did the Psalmist ask God to search him? That in trying his thoughts any wickedness might be revealed and put away. That is the important point. It is not enough to know that sin is there. We must ask God to give us grace to put it out, that He may then lead us in the "way everlasting."

The Word of God points the way of righteousness in both heart and life. Who will decide this day to walk in that way-in fellowship with the all-knowing, ever-present Lord?

/ Kate sat up straight in the chair beside the long triple window in Kit-ty Cameron's drawing-room and closed the book she had been reading as Gay and Todd came into the room.
"Hello," she said, removing her eading glasses.
"Hello." Gay returned her greet-

ing cheerfully.
"Hello, Kate," Todd said smiling. Kate's keen eyes regarded them peculatively. "Where have you been?" she asked.

"Driving in Connecticut." Gay dropped into the chair opposite Kate's. "It's a heavenly day." "Grand. Summer at last." Todd stood beside Gay's chair, looking especially handsome, Kate thought, in a light flannel suit and a green shirt with a darker green tie which accented the lights in his hazel eyes.

"Anthony Adverse. Since I can no longer get a kick out of telling people I haven't read it, I thought I might as well. But riding in Connecticut." Kate's eyebrow lifted. "Aren't you working these days?"

'What are you reading, the diction-

"This was business." Todd grinned at Kate with a light-hearted air which raised the eyebrow high-er. "An estate the bank may risk a mortgage on. We were looking it

"Gay must have been a great help," Kate said dryly.
"Moral support," Gay said, smil-

ing.
"I've got to run along," Todd said.
"Will eight be too early, Gay?"
"Just about right, I should say."
Gay smiled lazily up at Todd. "Tell
your Dad I think it's a safe risk,

except that the well-sweep, though picturesque, is a fake."
"I'll remember that." Todd start-ed toward the door. "'Bye, Kate.

Good-by, Gay. See you at eight."
"You should learn to control your voice, Todd."
"What big ears you have, Katie.

'Bye. Eight o'clock, Gay. Don't move. You look too comfortable. I

think I can find my way out."

His footsteps sounded along the hall. The grill of the lift slurred and clicked. Kate looked at Gay and clicked. Kate looked at Gay leaning back in the chair beside the

"Hats are getting crazier and crazier," she said.
"Yes, aren't they?" Gay pulled

off the scrap of straw to which Kate referred. "That one looks like a fez without

"None. You're going out for din-

"Yes. And dancing afterwards."
"Well, thanks for this fleeting glimpse of you."

"Do you mind? I won't go if you do. I know I haven't been home with you much and it was nice of you to come in and stay with me while Kitty and Robert are away." "Go on. I don't mind. I have Anthony here for company. Quite a lad, too, I've gathered from the portion I've read thus far."

"Do you mind, really? You ound-"Oh, go on." Kate regarded Gay in silence for a moment. Then, "I

suppose you know what you're doing?" she said.

"What do you mean?" Gay's ince turned to the windows through which showed a glimpse of blue sky and early June sunlight.

"You know what I mean. Don't pretend that you don't."

"Todd understands." "If he does, it's more than I do. You break your engagement, upset the entire family, and then you proceed to spend a part of every day

with him. "Don't scold me when I'm cheerful. Todd and I are just very good

"Which, I suppose, is the reason he comes in here fairly dripping moonlight and roses. There's nothing like a good friend to put a song in the voice and a shine in the eyes." "There's no pleasing you." Gay ughed. "When I stayed at home laughed. you urged me to go out. Now that I'm following your advice, you scold

me."
"You have no sense of proportion. You either act like a hibernating ground-hog or a slightly intoxicated moth. You're going too hard." Kate's brows drew together in a frown. "You're so thin you scarcely frown. cast a shadow and your eyes are too big for your face."
"It makes me interesting look-

"Oh, nonsense! I don't like wha "That should be Todd."
"That should be Todd's concern shouldn't it?"

"I know. You needn't tell me. None of my business."
"I'm sorry, Kate. It's all right. Todd has gotten all over being in love with me."

Kate looked at her with an ex-pression of studied derision which

"Nothing." Gay's eyes fell from Kate's anxious face to the hat in her lap.
"Excuse me. I've wondered, but

We're having dinner at the Heron Club. The food isn't much but the music is good. Denny O'Connor is there again. I adore his songs."

"That's right. Change the sub ject. Has something happened? I was afraid—"

"You were right. It isn't, it hasn't worked out." Gay lifted shadowed eyes dark with pain which contra-dicted the half-smile trembling across her lips. "'East is east and west is west,' as Mr. Kipling pointed out. What's that about the rich young man and the camel and the

needle's eye? You, with your rectory training, should understand. It applies to young ladies who have too much money, as well." She sagged down in the chair, her hands "I'm so tired, Kate."

"Don't go out. Go to bed. I'll bring you something on a tray."

She sat erect, forcing animation into her gestures, her voice, her smile.

"I want to go. When I'm dancing where there are people—" She sprang up from the chair. "Oh, how I hate good times!"

"Gay!" Kate rose and went to "There's no sense in this, you her. know. Go to bed. You're as white as chalk."

Gay stood by the windows look ing out into the clear atmosphere still bright with the after-glow of

the sun. "June," she said, barely audibly. "It's lovely at the cabin now. There are wild strawberries in the meadow across the road and the ferns are

uncurling along the lane." "I wish you'd never seen the cab-

"Do you? I don't. I wouldn't have missed it. I'm grateful—' "You're half sick, Gay," Kate cried desperately. "Please go to

"I'm going out to dance." She turned from the windows, not look-

ing at Kate.
"If it takes the rain to make the pretty flowers," she sang a little off-key. "Have you heard Denny off-key. "Have you heard Do'Connor? He's marvelous."
"Well, if that's a sample—"

"Are you criticizing my voice?"
She swayed toward Kate, dropped
her head against Kate's shoulder.
"It just takes time, doesn't it? Kate, how much time does it take?"

The music stopped. Todd led Gay to the seat against the wall upholstered in peacock-blue leather. "Are you having fun?" He seated himself beside her. "Has anything happened since this afternoon?"
"I am." She turned to smile at him brightly. "No, nothing has happened. Why do you ask?" "You're so quiet. I thought you enjoyed this afternoon." "I did." She raised her glass.
"Did you tell your Dad that we

thought the property was a pretty good risk?" "You're unhappy, Gay." "That's very ungrateful of me. When a gentleman takes a lady dancing the least she can do is to be bright and merry."

"I don't care about that." Todd's face above the conventional black and white of his dinner clothes was very grave. "Is there anything I can do?"

She was silent for a moment. Then, "I must do it myself," she said, slovyly, listlessly. "I should have made it a clean break three months ago. I've always distiked loose ends."

"Gay-" He bent toward her. "Do you think of what I told you, of what I've been telling you all

"Very often." Her glance lifted, then fell to the table. Her fingers twirled the slender stem of the glass. "Will you?" he asked very low.

Her eyes lifted again, met his eyes steadily. "I couldn't do that to you, Todd."
"But if I'm willing to take a

"We'll neither of us have any peace," she said thoughtfully, "un-til — He, John —" She paused, glanced away.

"You know that you can talk of him to me." "Yes, I know. You've been—". Her voice faltered. "I can't tell' you."

"You do-like me, Gay?" "You are my best and my dearest

"Then why not? You say that he that John, half expects it. Wouldn't it be the most simple solution? We could go away, now, tonight, down into Maryland. You can't keep on ilke this. You're making yourself ill. I know you love him. But you love me, too, in a different way. And if he's—"

"It would be a simple solution for him, for me, too, perhaps. But you, Todd? You're too fine to have anything but the best. You'd be sacrificing yourself—"

"To have you, even the part of you that has always belonged to me? That's not a sacrifice. It's pure selfishness, Gay. I'm conceited nough to think that in time—"

"And you're probably right. I don't know-"

"We've always come together again, after either of us has-strayed." He smiled. "You remem-ber when I was pretty crazy about Julie? I woke up one morning while visiting her in Charleston, and couldn't wait to get back to you. I had myself all primed for abasements and declarations and when I burst in on you at Southampton all von said was. 'Go change clothes, Todd. We're sailing in a race this afternoon."

"I remember." A faint reflection of his smile curved her lips. Encouraged by the smile, he went on eagerly, persuasively. "And when you were running a temperature about that aviator— What was his

Great Lakes Area Yields Valuable Data on Indians

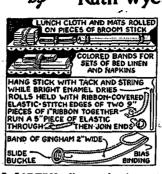

Indians had a feast on the beach of an island in Lake Huron at some time between 500 and 800 A. D. The fact that this feast was held, how ever, is not nearly as important as the fact that there were Indians in the Great Lakes region from 1,100 to 1,400 years ago. Until recently no definite evidence had ever been produced to prove that there were human inhabitants of this area at such an early date.

Searching for early Indian data on Great Cloche island, just north of Manitoulin island in the Georgian bay region, Dr. E. F. Greenman, University of Michigan archeologist, discovered the remains of this ancient Indian meal. Later Dr. Greenman returned to the island with Dr. George M. Stanley, Michigan geologist, to determine the age of the

Evidence that Indians held such a feast on the beach of Great Cloche island consists of the discolored sand and stones on which their fires were built, scraps of foreign flint and quartz, and bones of fish and animals which made up their meal. Evidently the meal consisted of moose, deer, beaver, sturgeon and another unidentified type of fish.

The beach on which the Indians ate their meal, now 28 feet above the water of Lake Huron, says Dr. Stanley, was on the water level when the red men visited the island hundreds of years ago.

MODERN linen closets are tucked in spare corners all over the house, always as close as possible to the place that the linens will be needed. Towels may be found in the bathroom, napkins in the pantry or kitchen and bed linens near the bed rooms.

I have sketched the whole story here of how one homemaker keeps her linen shelves in order. likes to keep things in sets identified with colored bands and thinks it is more efficient to roll

many pieces than to fold them. The best napkins may be banded in blue and white, luncheon mats may be rolled on a red stick with a red band and green may be used for the bridge table cloth. Linen holders like these would make attractive gifts, too. And speaking of shelves and drawers; girls adore the stocking case in Book 3, and the drawer pads in Book 4; and they make dainty gifts for any one. By LEMUEL F. PARTON

N EW YORK.—Producing "Gone With the Wind" turned David O. Selznick's hair gray. He worked 51 hours without sleep and stoked up on benzredine every now and then, in not the stoke to hong

With Morpheus order to hang on to the finish. Liquidating his company, Selz-

nick International Pictures, Inc., shaping a new one to meet changed conditions due to the war, will no doubt be easy after all that. The liquidation and the formation of David O. Selznick Productions, Inc., is a major adjustment in the film industry, after International's Herculean efforts and sucress in filming the classics.

Although he weighs 200 pounds, Mr. Selznick was always light on his feet. He is a second generation producer, but he started from scratch, after his father, L. J. Selz nick, a Russian immigrant, had made and lost millions in the film business. When David was 21, his father had tried to fill some inside straights, without any luck and the young man had a one-dollar bill, with which to start his career, plus some schooling in movie-making and his old man's yen for taking a

He saw possibilities in Luis Angel Firpo for a profitable quickie. He pencilled out a plot, borrowed \$2,000 from a friend, paid Firpo \$1,000, took a few shorts of the Wild Bull of the Pampas and within three days took a proat of \$875 on his film. He went on from there to his gallery of the classics, including "The Tale of Two Cities," "David Copperfield," "Little Lord Fauntieroy," "The Prisoner of Zenda," and "Tom Sawyer."

In Russia, the family name was Zeleznick. Zeleznick pere left home at 12, met disillusionment as a harddriven factory hand in England, and found his slice of the American dream waiting for him when he landed here, as a jeweler, banker, promoter and film-producer. All

this, and his own venturesome ca-reer, has made the younger Selznick eager to film America only as a going concern. Six feet, one, muscular and energetic, he has a placid face rarely caught in a frown—unless somebody tells him that "Rebecca" was a better film than "Wind." That burns him up.

THE Nizam of Hyderabad is said to be the richest man in the world, but he gets his shoes halfsoled three or four times and wears Nizam Is World's ing. Hence, Richest Man, Yet his gift of Paragon of Thrift \$400,000 to the British to buy American planes is a gesture some-what like that of the late Hetty Green suddenly buying somebody a drink—and she never drank. As

his fortune is rated around \$2,000 -

000,000, the gift represents a similar strain on his resources.

The Nizam, a pale, bent, nervous little man, worried and watchful, lives in splendor, but his sometimes fabulous expenditures are for requirements of state. Although he has 400 up-to-date automobiles, he rides in a 26-year-old car and frequently walks quite a distance to save gas. For ceremonial journeys he keeps a train steamed up, with 22 pullmans needed to accommodate his entourage.

This writer never could get it quite straight as to how many men the Nizam could bury in diamonds. Estimates vary from four to seven. At any rate, there are always "men working" signs around his palace, as his diamonds, emeralds, rubies and gold-pieces are being shoveled this way and that. He fusses a lot about just where and how his treasure is stored, and is always adding it up and shifting it somewhere else.

In 1926, the British were worried about signs of unrest among the Mohammedan potentate's 15,000,000 subjects. There were reports that he was becoming autocratic, and if anyone drove up in a car he liked, he might add it to his collection. The viceroy interfered and certain controls were set up which seemed to settle everything nicely.

A Bomber's-Eye View of City of London

Here is an aerial view of a section of London's waterfront as it appears to the bombardier of a raiding ane. In the foreground are some of the piers and warehouses that stretch for miles along the Thames across the river, magnificent public buildings and residential estates. London, heart of England, and nerve center of the British empire, has been in a continual state of alarm recently, as Hitler's air armadas swoop in from across the channel. The Thames is a silver signpost that leads air raiders right to the front door.

F YOU plan to be driving in Tucson, Ariz., early in October make sure in advance whether you'll be allowed to or not. For there'll be three days when it will be the only city in the United States without an automobile, truck, motorcycle or even a gasoline scooter on its streets.

And it's all because of the movies. "Arizona" will have what's known in the trade as its world premier in Tucson, and the city is planning quite a celebration—a governor's state ball, a three-day 1860 fiesta in the adobe city of Tucson, built for the picture, a rodeo with national roping and riding stars, and Indian pow-wows. Jean Arthur, William Holden, Warren William and all other members of the cast will be specially honored.

Some of the best stories about a movie are not heard until it is fin-ished and the principals have gone on to other pictures. Here's one. Arriving at the set for "He Stayed for Breakfast," Columbia's new comedy starring Loretta Young and Melvyn Douglas, visitors found the set barred to outsiders. They were

Denis Day became singing star of the Jack Benny show because an inflamed appendix kept him out of law school. To preserve the color of green regetables cook them uncovered.

A teaspoon of honey dropped nto the heart of a cored apple when preparing apples for baking gives them a delicious flavor.

Bake apples with only a small amount of sugar so that the characteristic flavor is not disturbed.

When preparing gelatin desserts, if left-over fruit juice is used in-stead of water, the desserts will be much richer.

The flavor of apple pie is greatly improved by sprinkling a little lemon juice over the layers of sliced apples as they are placed in the pan.

To remove a slight iron scorch mark from white clothes rub the scorched area lightly with peroxide. Then rinse it thoroughly in cold water. Peroxide removes the color from colored clothes, however.

Punches and fruit beverages improve upon standing. Place them in covered jars and store them in the refrigerator for at least 24 hours. A tart beverage is also more refreshing than a thick sirupy one.

Ammonia and water in equal proportions will remove varnish from furniture.

Our Deepest Chasm

The deepest chasm in the United States and in continental North America is Hells canyon on the Snake river, directly along the border between Oregon and Idaho. This abyss, formed by the Wallowa mountains of Oregon and the Seven Devils range in Idaho, is about 75 miles long. For over 40 miles it averages 5,510 feet in depth.

At one point it is 7,900 feet deep, almost a mile and a half from rim to river, which exceeds by some 1,800 feet the 6,100-foot maximum Grand canyon in Arizona. Pathfinder.

 There was a time in America when there were no set prices. Each merchant charged what he thought "the traffic would bear." Advertising came to the rescue of the consumer. It led the way to the established prices you pay when you buy anything today.

'TEA IS SERVED AT FOUR O'CLOCK'

Is the tea party the thing of the shire sauce and salt and pepper to east? I sincerely hope not because taste. Spread between slices of thinthere is nothing quite so comfy and relaxing as a good cup of tea. you can make it even more delight ful by sharing it with a few of your friends.

The tea hour may be the time to become utterly feminine, with lazy discussions on the fashions of the day, the latest movie, and even tales of cute sayings of Johnnie and Mary Jane.
Or it may be en-

larged with masculinity, with the trend of the con-versation leaning more toward curent events, politics, books and even the arts.

A tea party is one of the sim-plest methods of entertaining, because even though your resources may be limited, you can ask a few friends to drop in for tea.

I have a friend who quite often gives teas on Sunday afternoons. They are highly successful, not be-cause of her lovely silverware or china, (because here I must confess that most of her china does not even match); they are successful rather, because her friends gather for the pleasure of chatting with one an-other. Conversation flies fast and furiously—but the group is held to gether by one common bond, the

tea cup.

The most meager necessities The most meager necessities would include a tea tray, on which the tea set and napkins are placed, a table from which to serve the tea, glistening china, and well-polished

If the party is small you may, as hostess, pour the tea, asking the guests to help themselves to cream or lemon and sugar. If it is a larger party and it is necessary for you to constantly greet your guests as they arrive, ask one of your friends to preside at the tea table for you.

The tea that is served must be good. It not only must be fresh, but must be hot to be palatable and soothing. If the weather is warm you may like to serve both hot and ced tea. Serve the iced tea in tall glasses which have been chilled prior to serving. Sliced lemon and powdered sugar are necessary acessories for iced tea. Place the ice cubes in an attractive ice bucket with the ice tongs near by. As an added bit of color and flavor, garnish the completed beverage with sprigs of fresh, cool mint.

Dainty sandwiches, hot buttered toast, thin slivers of cinnamon toast and small English muffins are appropriate to serve with tea. Popuar accompaniments to tea are sandwiches made from nut bread, sliced very thin, and buttered.

You may like to use some of the suggested accompaniments for your next tea party, to give you that much sought-after distinction as a discriminating hostess.

Hot Tea. Rinse teapot with boiling water.
Allow 1 teaspoon of tea for each cup and "one for the pot." Place tea in teapot, and pour freshly boiling water over tea leaves. Cover and allow tea to steep 3 to 5 minutes, as desired. Remove ball or bag containing the leaves, and serve at

THE VOICE OF WISDOM

LESON TEXT—Proverbs 4:10-27.
GOLDEN TEXT—Keep thy heart with all liligence; for out of it are the issues of ife.—Proverbs 4:23.

What to do and how to do it—these are the vital things which the book of Proverbs imparts. It deals with every condition of life, good and bad, in the revealing light of God's holiness and love. Good advice may have its value, but we also need to know how to put it into practice. Therein is wisdom dis-tinguished from knowledge. A man may have an unbelievably great store of knowledge, and yet be a foolish man because he does not have the wisdom to use it.

Knowing that these notes are used by a great many boys and girls, as well as by their teachers, the writer would suggest an outline for next Sunday which can be remembered by everyone who has ever crossed a railroad track. What does the warning sign say? "Stop, Look, and Listen." Then what? If all is clear, go ahead. That is just what our lesson tells us. Stop, for someone has a message for you; look, at the two ways of life; listen, to the wise words of counsel. Then go straight ahead in the right way.

I. Stop (vv. 10-13). Life moves on at a rapid pace. One of the devices of the devil to gain and keep his hold on us is to keep things moving so fast that we never stop to think, or to heed the counsel of others. The wise man has something of importance to say to the young man whom he calls his "son." Let us stop and give heed to his warning, for we are assured that it will mean for us a long and happy life (vv. 10, 12).

Nobody but a fool would hasten past such a "stop" signal, nor thrust aside this opportunity for life-giving instruction (v. 13). Here is something far more important than mathematics, literature, or economics. Here is life.

II. Look (vv. 14-19).

There are really only two ways of There are really only two ways or life—"the path of the just . . . that shineth more and more unto the perfect day" (v. 18), and "the way of the wicked," which is only darkness and stumbling (v. 19). There is no middle way. We cannot walk in both paths; it is "either—or." Young people should get hold of that fact, for in these days there is a constant attempt to blur the colors, making things neither black nor white, but gray; neither good nor bad, but just advisable or inadvis-

The moral laws of God are not changed; right is still and will eter-nally be right, just as wrong is and always will be wrong. Wickedness is so wrong that it causes men to spend sleepless nights trying to en-trap others (v. 16). But no one need go that way; just do not "enter" that path, "avoid it," and if by chance you have wandered into it, 'turn from it" (v. 15). God will

help you. III. Listen (vv. 20-25). Listening is important business, calling for real attention and application. Especially is that true as one listens to the truth of God. It should be received by an attentive ear (v. 20), kept before one's eyes and pondered in the heart (v. 21). Such listening is sure to bring results, and we find them enumerated

in verses 22 to 25.
Life is assured to those who heed he words of God's messenger; not just a bare existence, but a healthy life (v. 22). God's spiritual children are not (or at least should not be)

invalids or weaklings.

Keeping the heart right (v. 23) keeps the whole life right, and the way to be sure that the heart is right is to fill it with God's Word (v. 21). Then see how the whole life responds; the lips speak no forward (R. V. wayward) or preverse words, and the eyes look straight ahead along the shining path of the

Now that we have stopped to give attention to the Lord's word through His messenger, and looked carefully at the two ways of life, and listened to words of wisdom and guidance, what comes next? Do we stand idly by and commend ourselves for our wisdom, or do we sit down and take our ease? No. Being assured that the way is clear, we

IV. Go Ahead (vv. 26, 27). God wants His people to move on to greater glory and usefulness. At the Red sea, God told Moses, "Speak unto the children of Israel that they

go forward."
"Move forward! valiant men and strong, Ye who have prayed and labored long; The time has come for you to rise, For lot the sun rolls up the skies."
Thoughtful, vigilant, lest he be led into a bypath on the right or left, turning his feet away from ev-

ery evil path, the child of God goes forward, and as he goes the road becomes brighter and brighter with the glory of the presence of the Lord, shining more and more until that perfect day when he shall find him-self at the end of his journey and at home forevermore in the Father's

WENDELL WILLKIE MAN OF ACTION

Republican Candidate for President, Like Thomas Jefferson, Has Wide Interests.

In the two and one-half months since his unprecedented and spectacular nomination for the Presidency, by the Republican National Convention. Wendell Willkie has demonstrated to the country his dynamic personality and driving energy as well as his quick and clear mind.

Few men have ever been nominated for the Presidency who have as wide and universal an interest in many fields of endeavor as Wendell Willkie. In that respect he has been compared to Thomas Jefferson who was as well versed in architecture as he was in the law-knew as much about farming as he did about political philosophy.

Born 48 years ago in the small town of Elwood, Indiana, Wendell Willkie was educated for the law. But before he received his degree in that profession, he taught history in the high school at Coffeyville, Kansas; drove a bakery wagon; worked as a barker for a tent hotel in Aberdeen, South Dakota, as a field hand in harvesting wheat in Oklahoma and as a laborer in California. He has labored in steel mills and sugar

Once embarked on the practice of law, Wendell Willkie defended labor unions with his father; enlisted in the army the day this country declared war on Germany in 1917: became a lawyer for a rubber company; and finally went to New York as counsel for Commonwealth and Southern Corporation and then. when the sick company needed resuscitation, as its president. Even paid tribute to Willkie's candor, honesty and ability.

sty and addity.

Nurtured in a home filled with ooks, Wendell Willkie throughout his life has been a constant reader of books-all kinds of books. He reads rapidly and, with a photographic-like mind, retains what he has read. standing newspaperman.
Though Willkie has sat among the great and learned, he has never lest his touch with his Indiana origin. Though he likes books, he likes peo-ple more. He is as much at home in conversation with a truck driver farm laborer as he is with an industrial tycoon or college President. Typical of the man is the fact that his faith in American agriculture is from his salary in Indiana farm land. Operating these farms on a 50-50 basis with tenants, Wilkie now knows as much about farming as he does about law.

Indeed, like the Roman of old, Willkie might say "nothing human is foreign to me." But that thought would never occur to Willkie because he believes that when a man commences to compare himself to a Cicero or Napoleon, people had bet

"Jerry Conover." Gay's smile eepened. She leaned back against the leather upholstery, looking out across the dance floor where coumellowed light.

"You called me up one day and asked me to take you dancing," con-

tinued Todd. "Because he was magnificent in the sky but no use at all on a dance floor. And you took me. As I remember the subject of aviation was never mentioned between us. Not for six months, at least. Yes, all that's true," she added thoughtfully. We'd have something—"

The music had stopped. It began again, a familiar tune. A voice, meltingly tender, sang— "Red sails in the sunset

"Our tune. You bribed them to play it. When you spoke to the waiter a few minutes ago—"
"All's fair in—" He smiled with a twinkle in his hazel eyes. "Will you dance with me. Gay?

In silence they walked to the edge of the floor. She slipped into his arms, so accustomed to his dancing technique that her position, her steps, conformed instinctively with his. They circled out across the floor, rhythmically, with practiced ease, moving as though they were one person, her red-brown head close to his blond head, her dress of cream-colored lace, starched to crispness, as fragile as frost-work, a delicate silhouette against the black of his evening clothes.

"That's the way it is with us, Gay," he said after a moment. "No false starts, no stepping on each other's toes, no necessity for apolo-

There can be no peace for either you or me while we continue to fight something that is too big for us, something which we cannot alter or control.

I want peace for you, for myself. You will find it in your work. I will find it, eventually, in the life which Todd and I, together, will create. Don't be bitter or self-reproachful. read what she had written. It seemed adequate. There was nothing to add except her name. She wrote it quickly, folded the sheet of note-paper, enclosed it in an envelope, found a stamp. "Dr. John L. Houghton," Dr. Sargeant's address in Portland. Her writing was clear, each letter distinct and carefully formed. It betrayed no sign of emo

tion. She was glad of that. There was nothing to indicate hesitancy.

She glanced at the clock on the night stand beside her bed. Better to mail it now than to wait until morning. She rose, stooped, picked up her evening wrap. Standing be-fore the mirror, she slipped it on, secured the fastenings with delib-

eration and smoothed back her hair. When she turned, she saw the letter, a cream-colored oblong on dark desk pad. She returned to the desk, stood for an instant holding the letter in her hand, then, moving swiftly and quietly, went out of the

ter," he said, with a drowsy grin.
"Very important, William." She went out through the door he held open for her into the quiet street. There was a mailbox at the cor-ner. Her high narrow heels clicked on the concrete pavement. The air was balmy and smelled of the riv er. The sky was sown thickly with stars. The letter made no sound falling into the box, but the click of the lid against the slot when her hand released it startled her as

Walking back to the apartment house, saying good-night to the doorman, going up in the lift, she mar-veled at her composure. Whenever, during the last three months, she had thought of making a clean break with John, she had anticipated the pain it would give her. Now that she had written and posted the letter, she felt only a sense of relief.

though a shot had been fired through

Had she gotten over it without being conscious of the process? she wondered as she prepared for bed. Nothing in the mechanical movements involved in writing and posting the letter had shaken her except the click of the mailbox lid. Her hand, as she brushed her hair, was steady. Her face, in the mirror above the dressing-table, was com-posed, thin as it had been all spring, the cheek bones accented, shadow: under her eyes. No hint of the shat-tering emotion she had anticipated. She felt more tranquil than she had for months, physically weary, as though she could sleep forever.

She lay beneath a light coverlet in the soft narrow bed, her arms crossed beneath her head, looking up at the disk of light that the bedstand lamp printed upon the ceiling. At some time, during the past three months, had she stopped loving John? No, not that—But had she accepted the inevitable? Had she been recovering all these weeks since she had returned from Maine? Had the lecision she had avoided, finally made, brought tranquillity rather than the pain she had anticipated?

She didn't know. She felt sleepy, blissfully released from tension and She turned, pulled the lamp cord. Darkness pressed against he closed eyelids, heavy and soft, blotting out objects, smothering thought, quieting as an opiate, blessedly welcome. Her hand, moving to an accustomed position beneath her cheek felt heavy. She sighed, murmured and was asleep.

CHAPTER XVI

Gay dropped down on a bench in Central Park and glanced at her wrist-watch. Ten minutes of two. Kate would have had luncheon without her, wondering where she was. Todd would probably have called He had said last night . . . She sighed and put it out of her mind, her weary glance returning to the Park. So children rolled hoops again. Why did they combine pink geraniums with those striped green and dark red plants? Where did all and dark red plants? where did all the strange-looking people one saw come from? How long did it take a letter mailed at midnight to reach Portland, Maine?

Would he receive it in the late afternoon delivery today? Was there a delivery in the afternoon? Why hadn't she called the post-office this morning when she woke and realized what she had done? Wouldn't there have been time enough, then, to stop the letter? All sorts of red-tape, she supposed, and she hadn't been sure that she wanted it stopped. She wasn't sure now. In spite of the way her heart ached and the faintness which made her so weary, hadn't she done the right thing, the best thing for both herself and John?

There was Todd, of course. But if he was willing to take a chance— Strange how calm she'd been last night, dancing with Todd, half promising to marry him, writing that letter to John and posting it. She'd slept, too, deeply and restfully. It was not until this morning when she woke that she had realized what she had done. This morning—How long would it take a letter mailed a little after midnight to reach Port-

land Maine?

The words she had written re curred to her. "We have hurt each other too much and too often." That was true. But the hurts they had paved walk beneath sun dappled for cent since 1930.

given each other were not comparable to the suffering she was endur-ing now, to what John would suffer when he read her letter. She imagined him tearing it open in the hall of Dr. Sargean't home, eagerly, because he loved her letters, anticipat-ing in the envelope which bore her hand-writing, a momentary release from work which was, to him, unfrom work which was, to him, uninteresting and exacting. Sitting on the park bench, she tortured herself by watching his expression change, seeing the brightness fade out of his face, his lips quiver with pain, the agony in his eyes . . "I'm going to marry Todd, very soon, by the time you receive this, perhaps—" But she wasn't going to marry Todd, not very soon, not even as long as John lived and loved her, as long as she loved him with this as long as she loved him with this as long as she loved him with this aching intensity that throbbed with every throbbing beat of her heart. She was not going to marry Todd. That was settled the night she and Kate had arrived at the cabin, when John came in and she had watched his expression change from brusque inquiry to astonishment, to the soft and joyous radiance that had shone in his eyes.

But why shouldn't she marry Todd? She loved him dearly, in quite a different way. But wasn't that

A letter mailed at midnight-She could drive to Portland in ten hours or less. Leaving now, she would be there before midnight. Or she might drive as far as Boston tonight and go on to Portland in the morn-ing. Her heart beat quickly, hope-fully. She took a few rapid steps

But John would have had the letter by then. Would he? She wasn't sure. And to go dashing up there would be a concession. He had not come to her here. They had parted, after the time she had spent in his mothe.'s home, not entirely recon-ciled, a distance between them which both recognized but which neither had made an effort to close. If he loved her, and wanted her— He hadn't been able to leave, of course. But now that Dr. Sargeant had returned— Gay's chin lifted above the scarf knotted at her throat under the jacket of her dark flannel suit. She wouldn't humble herself to return to Maine. She wouldn't-Why shouldn't she? Was it pride, false-pride, the wilful arrogance she had fought against, that was re-straining her? Was it pride that, last night, had compelled her to half promise Todd she would marry him, to write the letter to John? Pretty stupid to let pride rob you of the thing you wanted more than anvthing in the world. She was hardly aware that she had until she found herself running through the park to the nearest point at which she might hope to hail a cab, a tall beautiful girl in a dark tailored suit and a small bright hat, running along a lige, running brethlessly, excited to a cab, to Maine, to John. Kate came out from the dining-room as Gay burst into the hall of

"What does that have to do with my going to Maine?"
"Well, you don't think I'd trust

you to go alone, do you?" "Will you go with me?" Gay caught Kate's hand and gave it a squeeze. "Kate, you are a lamb."
"Nonsense!" Kate pulled her hand away. "Go on and pack."

"It's nice, isn't it?" Kate said as Gay turned the car into the street on which Dr. Sargeant lived. "They're elms, aren't they? Did you ever see so many, so tall?" "It's nice now." Gay's eyes strained ahead for the square frame

She drew in at the curb, pulled the brake, shut off the motor. "I lo, Admiral Byrd?" she called. (TO BE CONTINUED)

Consumption of Cheese Shows Upward Trend

Americans are eating more cheese, says the bureau of agricultural economics. The upward trend in consumption has been especially noticeable during the past seven or

eight years.
In depression years, from 1929 to 1932, the per capita consumption of cheese dropped slightly. Since then the trend has been sharply upward greater than in 1930.

During the past five years the use of cheese has averaged 5.34 pounds per person, compared with pounds in the 1925-29 period. 1910-14 it averaged 4.28 pounds in 1900-1904 the average was 4.04

pounds per person.

This upward trend in the use of cheese, the bureau points out, has been in contrast with the trends in consumption of many other staple food products. Consumption of but-ter during the past five years was about the same as in the pre-war years of 1910-14, but considerably less than in 1900-1904. In the pas 40 years the trend in per capita consumption of meats has been down

By types, consumption of Ameri can or cheddar cheese has shown the greatest increase. From 1930 the greatest increase. From 1830 to 1937 the increase was 33 per cent. This cheese is the principal type produced in the United States, making up over 71 per cent of the total in recent years. The second largest increase—32 per cent—has been in the consumption of cream or neufchatel cheese. Consumption of Swiss cheese has increased 23 per

To Check Constipation Get at Its Cause!

Get at its Lause!

If constipation has you down so you feel heavy, tired and dopey, it's time you did something about it. And something more than just taking a physic! You should get at the cause of the trouble.

If you eat the super-refined food most people eat, the chances are the difficulty is simple-you don't get enough "bulk." And "bulk" doesn't mean heavy food. It's a kind of food that isn't consumed in the body, but leaves a soft "bulky" massin the intestines. If this common form of constipation is your trouble, eat Kellogg's All-Bran regulariy, and drink plenty of water. All-Bran isn't a medicine-di's a crunchy, toasted cereal, And it will help you not only to get regular. Made by Kellogg's in Battle Creek. If your condition is chronic, it is wise to consult a physician.

Trick of Reclaiming The Discarded Chair

By RUTH WYETH SPEARS.

THERE were two of these old bent-wood chairs—both with cane seats gone and a badly scarred varnish finish. "Get them out of my sight!" their owner said, "I can't stand the thought of wood bent and forced into unnatget them out of sight and used

them too. The trick was done with slip covers made, as shown here.

became a side chair for the living room dressed in richly colored cretonne in soft red and blue-green tones with deep wine bind-ings. The legs of the chair were sandpapered and stained mahoga-ny to tone in with the cover. The cane seat was inexpensively re-paired with a ready made seat of plywood reshaped to fit by first cutting a paper pattern to fit the seat of the chair and then using the pattern as a guide as indicated here. Next week I will show you how the other one of these old chairs was used.

NEW YORK.—Whether Benedict Crowell is a good prophet or not may yet be revealed. Mr. Crowell, assistant secretary of war in the World Experiences of war has been

ant on de-fense, by Secretary Stimson. Ad-dressing the Institute of Public Af-fairs at the University of Virginia, July 11, 1931, Mr. Crowell said:

"Should a great war ever again engulf our country, American manufacturers, including the new industrialism of the South, as well as the older industrialisms of the North and East, without waste of time, material or priceless human lives, will perform their essential function of munitions supply . . . our national security is on a sound foundation.'

Mr. Crowell, who was a consult-ing engineer before he became a Cleveland banker and industrialist, is a brigadier general in the ord-nance reserve. His specialty, as as-sistant secretary of war, was in organizing our munitions industries for the war effort.

He was widely praised for his efficiency in this and gained fame as the most ruthless cutter of red-tape in the army high command. This may have some-thing to do with his selection as defense consultant at this mo-ment. Yale university, his alma mater, recognized the above service by giving him an honorary master of arts degree in

A native of Cleveland, 71 years old, Mr. Crowell began his business career as a chemist with the Otis Steel company. He rose in executive positions and at the same time gained technical qualifications which made him a metallurgist and con-sulting engineer.

He is the author of several books, including a six-volume series called "America Went to War," of which Robert Forrest Wilson was co-author. One of these volumes is entitled "The Armies of Industry," singularly pertinent to problems and backendeavor.

Reporters, interviewing Mr. Crow ell in the old days, frequently used to note his resemblance to ruby Bob Fitzsimmons, and deduce, from this his capacity for hitting and staying-

IN HIS novel, "Le Couple," published in 1925, Victor Marguerritte, the French writer, foresaw the disaster which was to overtake French Prophet France. He described the

Of Doom Accepts debacle quite Conquest Foretold accurately, but put the date at 1943 instead of 1940. Today, the author accepts the conquest, which he tragically described and mon cause with the querors. He denounces General De Gaulle and his followers as the hire-

lings of England. In present and future clinical research into the fall of France and its causes, M. Marguerritte's lament and prophecy, as of 1925, will be interesting. After describing the alliance of French politicians with "Prussian and Bavarian junkers," and the subsequent collapse and

conquest, he says: "And then we shall be reap-ing what we have sown. It will be the result of our policy of at-tempting the semblance of grandeur-stupid because it is not warranted by our power, nor by our national wealth, nor by our trickling birth-rate, nor by our exhausted finances.

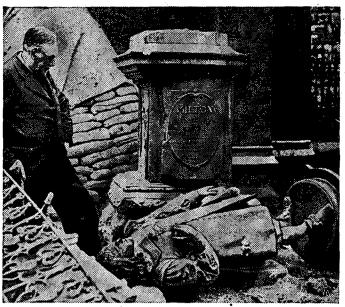

Years of self-indulgence, mad pleasure-seeking, the softening of moral fiber and the ebbing of national vitality, he said, would precede the final destruction of the French nation. The League of Nations, he predicted, would be a ghastly failure.

M. Marguerritte is the son of a famous French general of the Franco-Prussian war. In his study were medals and memorials of his father's war service. He is a stal-wart man, tall and straight with abundant pompadoured hair and a Van Dyke beard.

He was a member of the Legion of Honor and honorary president of the French Society of Men of Letters. Poincare, no defeatist, had urged his Legion of Honor decora-tion. This and all his other honors were stripped from him when he published an offending book, "La Garconne.

He had been for 10 years an officer in the French army. In his books, which he continued to write during his army service, he cham-pioned virile French nationalism. Now, at 73, he watched France "reap what she has sown."

Nazis Bomb Poet Milton's Tomb

The statue of John Milton, the famous blind poet of Great Britain, is toppled from its pedestal by a Nazi bomb that fell on St. Giles, one of London's oldest churches. In the churchyard lies the tomb of the great poet. The interior of the church itself was also damaged by the blast.

Both Their Hearts on Wrong Side

The Smith twins. Bell and Nell, of Decatur, Ga., are in reverse. Their hearts are on the right sides of their bodies, instead of the usual left side. Their spleens, too, are on the wrong side—right instead of left, and their livers, to make the turnabout complete, are on the left instead of the right side. Their eyes, strangely enough, have exactly the same measurements, and exactly the same ailments, a rarity, even in identical twins. The girls are eight years old.

His name should be remembered because he wrote and directed "Down Went McGinty," one of the funniest and best pictures that has been launched in some time. He didn't want any big stars or glamour players; Brian Donlevy, Akim Tamiroff, Frank McHugh and Muriel Angelus suited him fine. He just wanted to write and direct a comedy. THE USE AND ABUSE OF WEALTH

LESSON TEXT-Proverbs 11:24-31: Luke :11-13. GOLDEN TEXT—Lay up for yourselves easures in heaven.—Matthew 6:20.

Money-its making and using-is a matter which constantly concerns all of us as long as we live in this world. It is the medium of exchange whereby the labors of one man may be exchanged for the la-bors of another, in the purchase of goods and services. It may be used to send a messenger to the ends of the earth with the good news of salvation or, on the other hand, it may be the ready instrument to destroy both body and soul of those who abuse it. Man may have money, and be a blessing, or money may have a man, and be a curse.

I. The Right Spirit in the Use of

Money (Prov. 11:24-26). .
What a man does with his money is only a reflection of what he is in his inmost life. The spirit which withholds unless there is a return to itself in pleasure or profit is a selfish and ungodly spirit. To atternpt to present one's self before the world as a follower of Christ and to have that attitude toward ½ cup green pepper (chopped fine) I tablespoon pimiento (chopped fine) I tablespoon parsley (chopped fine) what one possesses is to deny by one's acts the testimony of one's

Not all "scattering" (v. 24) is commendable. It is possible to be careless and wasteful, and that nei-ther honors God nor helps our fellow men. Then, too, a man may scatter liberally, as the farmer does when he sows seed, knowing that he will have a richer harvest for himself. That is only a different type of selfishness.

mixture thickens and is smooth. Add eas, green pepper, pimiento, pars-The man who knows "God, that ley and sliced eggs, and stir gently to avoid breaking the egg slices. giveth to all men liberally" (James 1:5), scatters not only his money, but his riches of mind and spirit in Season with salt, pepper, paprika and lemon juice. Serve hot on butself and what he has to God-and to man as he serves God-and rich is his reward. In sad contrast is the man who keeps his possessions, but finds that withal he has only barren leanness of soul and life.

II. The Good and Bad Use of Money (vv. 27-29). Toss cabbage, pepper, olives and green onions lightly together. Serve

The man who looks for good finds t, and the one who looks for trouble finds that, too. That is true in the use of money as well as elsewhere in life. One way to end up in certain disappointment is to put your trust in money, for, while it opens many doors, it cannot open the door to heaven, and, while it can buy most things, it cannot buy health and happiness. To seek good, seek the Lord and His righteousness, and you will "flourish as a branch." You may not have the riches of this earth, but you will prosper in those things which are of eternal val-ue. You will be wise in the conduct of the affairs of your own house (v. 29) and life, because you are 'wise of heart.'

(v. 30 R. V.). "And they that be
wise shall shine as the brightness of the firmament; and they that turn many to righteousness, as the stars

for ever and ever" (Dan. 12:3).

The glory that awaits the believer in this life and in the life to come as well as the judgment which inevitably must fall on the sinner (v. 31), should urge us on in the winning of souls. But even more than that, the love of God, and "the love of Christ" which "constraineth us" (II salt, baking powder and sugar. Cut in the shortening. Combine beaten egg and milk, and add to mixture. Mix lightly, blending only until the dry ingredients are moistened. Place Cor. 5:14), should cause us to put ourselves and our money into His hands, to be used in the winning of souls. Could there be any better use of money? in greased muffin pans and bake in a hot oven (400 degrees) approx-

IV. The Test of the Use of Money (Luke 16:11-13).

Ultimately each one of us must give an account to God of the manner in which we have lived. These verses and others indicate that one of the matters for which we must answer is the manner in which we have used or abused the money or other possessions with which God has blessed us.

We are stewards, and only as we demonstrate our faithfulness and wisdom in the use of the "unright-eous mammon" (v. 11); that is, the money of this world, can God en-trust us neither here or in the world to come with His true riches.

Let us be very clear about this point today. It does make a vital Miss Howe, in her Book, "Household Hints," gives you some short-cuts to sewing which will prove bendifference to your spiritual life how you regard money. A New Serial by the Author of THUNDER SHIELD

Frederic F.
VAN de WATER
HIDDEN WAYS

A delightfully entertaining mystery yarn by a superb story teller. "Hidden Ways" is packed with action, excitement, romance and good, wholesome humor. Frederic Van de Water has created real flesh and blood people—and enough thrills center around them to satisfy the most avid reader of detective tales. It's a story every member of the family will like—particularly those who like chills and thrills.

Death... and a blackbearded stranger

Both serve to change the life of young David Mallory, whose burning ambition is to become a New York newspaper man. He gets his chance when murder is committed in a swanky apartment house where he is temporary switchboard operator. David forms a successful sleuthing partnership with Miss Agatha Paget, an elderly lady whose amazing antics are always a source of wonderment to those about her. You'll like this great mystery story—it's Frederic Van de Wa'er's best yarn!. Read it serially in this paper.
