FOR HONEST BALLOT.

Following clipping from the True American, a democratic of a sister state that joins stern borders, has a particular wholesome utterance in regard to an honest ballot and an honest man, a thing we deem essential to civil peace and political progress, and a thing for which we are all striving, for their spirit, have a just occasion to put firmly in order to in-ducement. The clipping as follows:

It is a dangerous thing to tamper with the ballot box. It is a step from practicing elec-tioneering with the negro as an enemy to perpetrating frauds on white voters. The practice is essentially dishonest, to perjury, is apt even to lead to murder, destroys confidence in the ballot box, and creates an influence which means ruin to the country. When a voter deposits his vote in the ballot box, he should feel confident that it will be legally counted and returned, that it will count as much as any other honest ballot, and that no other dishonest ballot will count for anything. He should feel this confidence when he casts his ballot, and when he receives or believes that fraud is practiced then elections become a farce and respect for law and order is seriously dimmed. Honest men become disgust-ed and many remain away from polls.

The ballot box should be held and its purity protected at all cost. Without this it is idle talk of democratic government, least of the honest rule of a people. In times past serious frauds have been made in Tennessee, and while these were unquestionably evils, they have generally been denied them. Let us hope that in the future no such thing will have even the shadow of a chance to rest upon. — South Standard.

This article deserves close reading for the conditions in N. C. are similar to those in Tenn. Our people are tired of broken promises and mere fraud and they feel by which the voice of the people at the polls is nullified. There must be honest elections again with the masses.

Need More Help.

Often the over-taxed organs of the system cry out for help by Dyspepsia, Nausea, Dizziness, headaches, liver complaints, bow-biliousness. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. 25c at C. C. Sanford's drug store.

Baptist Picnic.

The annual S. S. and Orphan-benefit picnic will be held at the Arden last Thursday in July, 1902. The Hon. E. B. Gleason has graciously consented to deliver the Annual Address. General Manager John and Editor Johnson together with a chapter of the Orphans with their relatives are expected. All kinds of Orphan work are kindly invited to join us and thus make the day pleasant and profitable to all and especially to dependent children.

If A Man Lie To You.

And say some other salve, ointment, lotion, oil or alleged healer is as good as Buckle's Arnica Salve, tell him thirty years of mar-velous cures of Piles, Burns, Boils, Corns, Felons, Ulcers, Cuts, scalds Bruises and skin eruptions prove it's the best and cheapest. 25c at C. NOTICE

Confederate Pensioners.
 We are requested to announce, that all persons who are on the pension rolls will not be required to come to Mocksville nor will they be required to stand another ex-amination. If any old soldier or widow not on the roll desires to try again they can do so. We hope this will be understood by all.

Don't Fail To Try This.

Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure is effected. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. It's a wonder-ful tonic for run down systems Electric Bitters positively cures Kidney and Liver Troubles, Stomach Disorders, Nervousness, Sleep-lessness and expels Malaria. Satisfaction guaranteed by C. C. Sanford. Only 50 cents.

ONE BY ONE.

"G. E. K.," a Concord corres-pondent of the Winston Republic-an, writes that Representative Blackburn of the Eighth District was in Concord last week, and while there was told by ex-Senator Geo. W. Means, "a life-long Demo-crat of prominence," that he will hereafter support the Republican ticket.

One by one they drop out of the ranks, and fall into the line of Re-publican progress. It's a party that does something, and the peo-ple of the South are fast finding it out. Democracy is an opposition party, it even opposes a free ballot and fair count; it's opposed to the poor man's exercising the right to vote.

Saves A Woman's Life.

To have given up would have meant death for Mrs. Cogg, of Dorechester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often, she writes, "I could scarcely breathe and fre-quent times could not speak. All doctors and remedies failed till I had Dr. King's New Discovery for Consumption and was completely cured." Sufferers from Coughs, Colds, Throat and Lung Trou-bles need this grand remedy, for it never disappoints. Cure is guaran-teed by C. C. Sanford. Price 25c and \$1.00.

All-day services will be held at Jerusalem Sunday—preaching in the morning and singing in the afternoon.

Headache

kills, not necessarily suddenly, but SURELY. It preys upon the intellectual powers more than we realize. It consumes the vitality faster than nature can replenish it, and we cannot tell just what moment a temporary or complete aberration of the mind will result. Headache and pain should be promptly re-moved—but properly. Many pain cures are more harmful than the pain. Beware. If you would be safe, take

Dr. Miles' Pain Pills.

"As a result of neuralgia I lost the sight of my right eye and the pain I have suffered is incomprehensible, being obliged to take opiates almost con-stantly. A friend gave me one of Dr. Miles' Pain Pills and it promptly re-lieved me. I then purchased a box and now my trouble is gone. They have also cured my daughter of nervous headache, and I heartily recommend them to others."—W. J. Corley, Bre-mond, Texas.

Doctors Failed.

J. Terry, of Turkey, Kentucky, writes: I have been a sufferer for fifteen years from troubles arising from a disordered liver, and all the doctors in the neighboring towns failed to do me any good. I thought I would try a box of Ram-mon's Liver Pills and Tonic Pel-lets. After using one half box I felt better and was soon perma-nently cured. I keep them in stock constantly since I discovered their valuable curative qualities.

Prominent physicians in expressing opinions as to the case of the KING,

The 80th annual session was held in the opera house at Hendersonville, N. C., June 25th and 26th. The Imperial Hotel was headquarters for the members and a merry party of gentlemen and ladies filled every room. The management of the hotel had amply provided for the needs of the folks and the cuisine was of a favorable comment.

Met by the reception designated by green ribbon and blue and street cars were used for the convenience of the members. A summer car with two mules is owned and Maj. S. V. Dr. Arthur R. Guizard, a prominent physician of Hendersonville, presented an excellent paper on "The Climatic Advantages of This Section." An essay on "Has a semi-weekly any Advantage over a weekly from a Business Standpoint?" was read by Mr. W. F. Marshall, of the Gastonia Gazette. This gentleman's experience was to the effect that a semi-weekly was a paying investment. In the afternoon the visitors were taken in carriages to Mt. Hebron, a distance of five miles. From this point an excellent view of the country for miles around could be had. A fifty foot tower built years ago by "Uncle" Solomon Jones, contains a telescope which aided materially in viewing the beautiful scenery. At night the convention poet, Mr. Mark Squires of the Lenoir Topic read the annual poem which was pronounced a gem by those competent to judge. The president next introduced the Hon. Clyde R. Hoy of the Shelby Star, who delivered an eloquent oration on "The N. C. Editor." After the evening session a German was tendered the convention by the young folks of the town. Mr. Jesse D. Beale, Jr., of the Hendersonville Hustler, led the dances and won favorable comment by his graceful movements and knowledge of the figures.

The Rev. P. R. Law read the historical paper on Thursday morning. He was followed by Mr. H. B. Verner, of the Lexington Dispatch, who read an essay on "How to Run the Country Weekly Best Secure and Retain a Large Circulation."

"The Lights and Shadows of Newspaper Life" was the subject of an essay read by Mr. R. F. Blosing, of the Monroe Journal. The closing essay was delivered by Mr. G. A. R. Manning, of the Henderson Gold Leaf, his subject being "How to make a Country Weekly Pay."

At night the people were laid to rest in the cool embrace of sleep. The banquet was attended with abundant food and lights and the cost of the convention was \$1,200. Mr. J. B. Sherrill, secretary convention, delivered the address, past Williams, spoke of mer resolu-

at Buckingham Palace at 11 o'clock Friday night. A small crowd waited before the palace until the bulletin was brought out and when the good news became known there were cries of "Hear! Hear!" and cheers. Lord Churchill, the acting Chamberlain, drove up to the palace just as the bulletin was issued and he expressed his keen pleasure at the doctor's report of the King's condition. After learning the contents of the bulletin the crowd at the palace quickly dispersed, and the rejoicing which was already apparent in the crowded streets increased in keeping with the terms of the latest report. The Prince and Princess of Wales arrived at Buckingham Palace and remained in company with several of the

Chamberlain, the Colonial Secretary. It is also likely that as soon as His Majesty is pronounced to be out of danger London will indulge in a general illumination. Very few of the illumination devices in the city have been disturbed, their owners awaiting the decision of the Prince of Wales in the matter. The Prince has not yet ordered the removal of the devices from Marlborough House.

It is not impossible that the abandonment of the review set for June 23 will be reconsidered in the interests of the Colonial and Indian visitors, who are greatly disappointed at missing this important entertainment and Indian guests are also being arranged. Thus if there is no set back in His Majesty's progress, there will be a partial revival of the interruption of the festivities.

China Relinquishes Manchuria.

London, by Cable.—In a dispatch from Peking the correspondent there of The Daily Mail says he hears upon the highest authority that in the recent mining concessions agreements with Russia a clause exists under which China virtually renounces all claims to sovereignty in Manchuria.

Fusion in Kansas.

Topeka, Kan., Special.—The People's party State convention named a portion of a State ticket. The convention was the scene of a lively contest all day over the question of fusion with the Democrats, but fusion was adopted. The ticket was submitted to the Democrats tonight and will become a part of the Democratic ticket. The Democrats in their convention at Wichita named a Governor and other State officers, except those chosen by the Populists. By this sort of a combination the allied forces hope to overcome the provisions of the anti-fusion law.

Returning to Work.

Rosnoke, Va., Special.—Advices received by the Norfolk & Western Railway Company indicate that there is little change in the strike situation in the Pocahontas coal region. Three hundred cars were loaded yesterday and it is said that at quitting time last night the number of strikers who had returned to work exceeded the expectations of the operators. Reports indicate that the miners have practically ceased marching in bands.

Park Bill Passed.

Washington, Special.—The Appalachian forest reserve bill has passed the Senate in an amended form which does not, according to the view held by some of the strongest friends of the measure, diminish its chances of ultimately becoming a law. Both Senators Bailey and Clay desired the privilege of a floor at the conclusion of routine business, but both promptly yielded when the presiding officer explained that the park bill had the right of way under the unanimous consent agreement.

Outlook For Cotton Not Good.

Washington, Special.—The Weather Bureau's weekly summary of crop condition says: As in the previous week cotton has experienced favorable conditions over the northern part of the central and western districts and generally throughout the eastern portion of the cotton belt. Lice, are, however, more extensively reported, and some fields in South Carolina are grassy. With very little rain in Texas and scattered showers over the southern portion of the central districts, the growth of cotton has been checked, especially in Louisiana and Texas, and in the last named States shedding, fruiting tops, and unsatisfactory weevil are disappearing.

Brief Mention.

Snow fell in Upper Michigan Saturday night.

The forest fires in Washington State have been gotten under control.

The 50th anniversary of his ordination as priest was celebrated Sunday at Cleveland, O., by Rev. Father Camillus.

The boiler makers' strike on the Great Northern and the Uplon Pacific is causing a general suspension of work in the companies' shops.

New Orleans Cotton Market.

New Orleans, Special.—Spot cotton was steady with a good demand. Quality unchanged. The future market was slightly under bull influence, gaining through continued discouraging weather reports and the liquidation of July. At the opening July commenced to climb upward and soon found points over Monday's closing. Later in the day there was a slight improvement in all months but before the market closed July lost 4 points, the board at the close showing a net gain of 3 points on June, July and August; 5 points on the winter months.

SOUTHERN INDUSTRIAL

Industrial Miscellany.

Authoritative announcement is made of extensive additions of machinery just completed by the Golden Belt Manufacturing Co. of Durham, N. C. This company's plant at Edgemont, a suburb of Durham, has previously been operating 16,000 spindles and 40 looms; this has been added 8400 spindles and 240 looms. This gives the plant a total of 24,400 spindles, 640 looms, opening machinery, carding apparatus and full complement required. This company produces cloth and manufactures same into sacks for shot, corn, seed, etc., made in any size, with printing. It is probable that more than 120,000 was expended for the additional machinery mentioned.

The following are official quotations on cottonseed and processed products as posted at the Cotton Exchange in New Orleans on the 16th inst.: Prime refined oil in barrels, 43 1/2 cents per gallon; off refined oil in barrels, 42 3/4 cents per gallon; prime crude oil, loose, 35 1/2 cents per gallon; off crude, nominal per gallon; prime cottonseed cake, \$27.50 per ton of 2240 pounds; off do., nominal; prime cottonseed meal, \$27 per ton of 2340 pounds; off do., nominal; soap stock, 1.50 cents per pound; linters, per pound—A, 3 1/2 cents; B, 3 1/4 cents; C, 3 1/4 cents; cottonseed in sacks delivered in New Orleans, \$16 per ton of 2000 pounds; in bulk delivered in New Orleans, \$15 per ton of 2000 pounds.

The Independent Refining Co. has been chartered, with a capital of \$50,000. The works and plant of the company will be located at Charleston, S. C. The stockholders are Messrs. C. A. Woods, Marion; E. K. Durgan and Bright Williamson, Darlington; W. F. Stephenson, Cheraw; Morris Israel and R. B. Leiby, Charleston; H. C. Hardison, Wadesboro, and other prominent stockholders in various cottonseed-oil mills in South Carolina. The company expects to handle 60,000 barrels of oil during the season. A meeting for organization will be held at the Charleston Savings Institution on the 24th inst. Mr. Morris Israel will manage the finances of the company.

Arrangements have been perfected at Ninety-Six, S. C., for establishment of a \$200,000 cotton mill, and charter has been applied for. The company takes the title of the Ninety-Six Cotton Mill, and intends to equip a plant of 10,000 spindles and complement. Most of the machinery has been purchased, and J. E. Serrine of Greenville, S. C., has been engaged as architect in charge. The leading incorporators are E. M. Lipscomb of Ninety-Six and Ellison A. Smyth of Pelzer, S. C.

A company was organized last week at Kershaw, S. C., to build a \$25,000 cotton-seed-oil mill of forty tons capacity. The officers of the company elected were John T. Stevens, president; B. W. Heath, vice-president; James M. Carson, secretary, and J. P. Arbuckle and others, all of Greenville. The shipment of lumber last week from the port of Mobile were 4,112,000 feet, and for the season 73,638,247 feet, against 89,574,800 feet last year. Shipments of sawn timber amounted to 686,323 cubic feet, and of hewn timber 350,038 cubic feet.

The plant of the A. De Loach Milling Co. of Atlanta, Ga., was destroyed by fire on the 15th inst., entailing a loss estimated at \$75,000, partially covered by insurance. Five thousand feet of lumber, the property of the company, were also destroyed.

The planing mill of the Tallahassee Lumber Co. at Laurel, Miss., was destroyed by fire on the 8th inst. The loss is estimated at \$20,000, with \$5000 insurance. The other buildings and loading sheds were saved.

Palma, Dictator.

Cuba's New Ruler Would Like to Boss the United States.

The new President of the Cuban Republic has begun somewhat arbitrarily in the matter of ultimatums. In a speech at Cienfuegos a few days ago General Palma announced his purpose to resist the making of any treaty with the United States unless the concessions in favor of Cuban products were much greater than the twenty per cent. provided for in the bill that has already passed the Cuban Congress. That rate of duty is not satisfactory to him. It should be at least 40 per cent, according to his view. He can propensely for dictatorial made manifest. President Palma does not hesitate to tell the United States what it must do. He is not the man to cut down one-half comes to his terms. He demands that the United States should meet his requirements for a military Government. He demands that the United States should meet his requirements for a military Government. He demands that the United States should meet his requirements for a military Government.

Beautiful Girl Lost.

Asheboro, N. C., Special.—Miss Jessie Wall, a daughter of S. W. Wall, Esq., one of the prominent citizens of the county, left her father's house several days ago to visit the dairy near the residence and has not been seen or heard of since. Miss Wall was a beautiful girl, only 17 years of age, and her family is well connected throughout the State. There is no accounting for her strange conduct and the deepest sympathy is expressed for her unfortunate and grief-stricken parents.

Killed in a Cotton Mill.

Asheville, Special.—Wednesday at 1 o'clock a horrible accident occurred at the Asheville Cotton Mills, costing W. A. Buey, an employe of the mills, his life. The lads were returning from dinner when Buck, who was a card-tripper on the belt slack he used his hand to tighten it. When the machine started his hand was caught and he was thrown down. It is supposed that the belt became twisted about his neck, as his head was completely jerked from his body.

THE TARIFF AND MEATS

HOW WOULD FREE TRADE HELP THE SITUATION?

Beef Trust Extorsions Farmers Should Be Punished For a Condition That is in Any Event Only Temporary.

The temporarily high prices of beef and other meats offer no good basis for the contention that there would be no Beef Trust if it were not for the tariff on imported meats and cattle. It is noticed that even among professed protectionists in some quarters there is a disposition to rail against the tariff as primarily responsible for the current high prices of meats, and to mildly suggest that the tariff might be removed or at least reduced wherever it breeds trust making. This is merely a breaking out of the trust trouble of the alarmists in another place. The shaking of the red rag of combinations is quite sufficient to alarm some of the timorous protectionists. To be sure, the Government lays a tariff duty of \$3.75 a head on imported cattle, with the chief purpose of shutting them out entirely. For people can raise here at home all the cattle that can be consumed here and more, too. American producers send to England alone approximately 325,000,000 pounds of beef every year and say 300,000 cattle on the hoof. This policy furnishes a sure market for the farmers and cattle growers and adds immensely to the general prosperity of the country.

No patriotic American desires to beat the Beef Trust by laying the lash onto the backs of American farmers and the American cattle growers. That is what the practical result would be were this duty of \$3.75 per head removed from imported cattle. If an actual shortage of cattle due to the short corn crop and the drought conditions, offers an opportunity to advance prices to an unwarranted extent, shall the country, therefore, turn about and punish the American farmer for it? Shall the door be opened wide to the Mexicans and the herders of Argentina that they may divide the cattle market with the people of the United States? The suggestion has no element of patriotism—no grain of statesmanship, and small real sound logic from any point of view.

The Lewiston Journal, one of the oldest Maine newspapers, founded and for a long time conducted by the man who framed the tariff law of 1897, is true to its traditions and to him when it says:

"The free traders will run up against quite a proposition when they go forth in the next campaign to lift from American farmers the economic safeguards of the Dingley tariff. Experience shows that this country can produce beef and butter and all agricultural products in abundance. Were this country incompetent to raise beef and to produce butter at fair prices for home and European markets, then we might ask the children of the Aztecs and of Bolivia to help us. Now that under the Dingley tariff the American farmer is marvellously prosperous and barns and lands begin to count for something, it is an insult to our agriculturists to make the conspiracies of the Beef Trust an apology for putting the millstone of Wilson-Gormanism about the neck of our agriculture."

"Meantime, if free traders would help us, why does it not help Great Britain? Beef is higher in London than in New York."—Guthrie (Okla.) Capital.

Cuba's New Ruler Would Like to Boss the United States.

The new President of the Cuban Republic has begun somewhat arbitrarily in the matter of ultimatums. In a speech at Cienfuegos a few days ago General Palma announced his purpose to resist the making of any treaty with the United States unless the concessions in favor of Cuban products were much greater than the twenty per cent. provided for in the bill that has already passed the Cuban Congress. That rate of duty is not satisfactory to him. It should be at least 40 per cent, according to his view. He can propensely for dictatorial made manifest. President Palma does not hesitate to tell the United States what it must do. He is not the man to cut down one-half comes to his terms. He demands that the United States should meet his requirements for a military Government. He demands that the United States should meet his requirements for a military Government.

CONGRESSIONAL NOTES.

Preventing False Labeling.

By a final vote of 67 to 6 the Senate Thursday passed the bill introduced by Mr. Spooner. The bill provides that the president shall select the Panama route if the law officers of this government determine that the Panama Canal Company's property he shall purchase it for \$400,000,000. If the president shall proceed to construct the canal by the Nicaraguan route, the Senate agreed to the conference report on the bill to prevent false labeling of food or dairy products.

Military Academy Bill.

The Senate Friday adjourned to Monday after agreeing to the conference report on the military academy appropriation bill, leaving the amount for new building at \$5,550,000.

The House Friday continued discussion of the Philippine civil government bill all day, and at an evening session Mr. Jones, Virginia; Mr. Hamilton, Michigan; and Mr. Kahn, California, speaking. The House non-concurred in the Senate's selection of the Panama route for the isthmian canal and appointed a conference committee.

Payment of Cuban Funds.

In the Senate Monday Mr. Quay, Pennsylvania, did not succeed in forcing a vote upon his motion to discharge the committee on territories from further consideration of the bill to admit New Mexico, Arizona and Oklahoma as states. Mr. Beveridge, Indiana, chairman of the committee on territories, said the subject had gone over until the next session, when it was to be taken up early.

National Forest Reserve.

In the Senate Tuesday Mr. Gallinger, New Hampshire, moved a resolution declaring "that the present phenomenal prosperity in lines of business and industry in the United States is largely due to the existing tariff law, and the best interests of the country demand its continuance." The bill to create a National forest reserve in the Appalachian mountains was passed. It authorizes a purchase of 4,000,000 acres of land at a cost not to exceed \$10,000,000.

Bills Returned to Conference.

In the Senate and House Wednesday the chairs prayed for the recovery of King Edward. Mr. Gallinger, New Hampshire, addressed the Senate upon its resolution declaring that the phenomenal prosperity of this country is largely due to the tariff laws.

In the House Wednesday the Philippine civil government bill was read for amendment and amendments were adopted prohibiting one corporation in the islands from holding stock in another. The sundry civil appropriation bill, carrying \$60,125,253, was finally agreed to. The House insisted on its rejection of two Senate amendments to the army appropriation bill which was sent back to conference. The House also disagreed to the Senate amendments to the naval appropriation bill providing for building warships in the government navy yards, and it was returned to conference.

asked for a conference. The conference named being Messrs. Lodge of Massachusetts, Allison of Iowa, and Cullender of Texas.

Mr. Mitchell of Oregon, presented a joint resolution of the Legislature of Oregon, asking Congress to appropriate in honor of the Lewis and Clark expedition to the Pacific coast, to be held in the city of Portland, Ore., in 1906. An agency appropriated to the general debt, and Messrs. Hale, Allison and Teller were named as conferees.

Doings of the House.

The House began consideration of the contested election case of Horace V. Butler, from the twelfth Missouri district. In this case the majority of the committee favoring Butler's election is so tainted with fraud and disloyalty that it is impossible to make it valid and recommend to the House that Butler, the sitting member, be legally elected and recommended to the House to retain his seat. Three hours of debate on a side were allowed. The speakers today were Messrs. Smith of Iowa, and Barthold of Missouri, in favor of the majority, and Mr. McMillan of Alabama, in favor of the minority report. The vote will be taken tomorrow.

Embarrassing Prisoner.

To be able to win the approbation of radical and rampant enemies of the Republican party, of protection was a source of great pride to a Republican member of Congress. The Raleigh (N. C.) Post of recent date—a free-trade Bourne of the most pronounced type—feels encouraged to remark:

"When General Grosvenor of Ohio sits from his seat in the House to proclaim with unusual warmth and petulant voice that the Dingley tariff is not a fetter to be worshipped and that present tariff injustice need be modified, he feels encouraged to let the lamp hold out to burn a little longer."

We can imagine the general's flushing a rosy red as he reads this impressive tribute to his statesmanship and his fidelity to the principles of Republicanism.

RED, WHITE AND BLUE

"Is said there's a charm in the magic three, And one that forever is new. Red, white and blue, that's the charm in the Red, White and Blue.

Three colors for our noble flag, they cry, With an order here, here and there, For its star-spangled folds we are willing to die, There's a charm for the Red, White and Blue.

A FOURTH OF JULY SURPRISE

"Harry, will you help me get up a Fourth of July picnic?" asked Sally Boyd one afternoon in late June as they met on the street after school.

Harry Norman felt two inches taller at the idea that pretty Sally Boyd should choose him for her side-camp.

"You see, Harry, we can have the picnic in papa's grove, and he will put up a swing for us, and we will have a nice tent by the spring. Now, I want you to invite any ten boys you please, only none of those naughty, rough boys."

"Any fireworks or firecrackers or cannons?" broke in Harry, his cheeks glowing.

"Yes, I think that would be jolly, but please don't bring any of those horrid toys. They are too dangerous."

"Oh, I'll promise you that all right."

"Well, I have asked the girls to bring some nice things to eat. We will have lots of lemonade."

"Some pink lemonade? That's what all the boys like," said Harry.

"Yes, pink lemonade, pies and cakes and lots of goodies. Oh, what fun!" and the girl laughed merrily.

Suddenly Harry stopped. "I just thought of something. I must go right away and tell the boys all about it."

"Why, what do you mean, Harry?"

"Captain Norman, some naughty boys or tramps have taken all our baskets; we haven't anything to eat," said she.

"What! Do my ears hear aright?" asked the bold captain, putting on a stern, soldierlike air. "And is the lemonade—"

"The beautiful pink lemonade is gone."

"Then let us scour the adjacent forest. The wretches who have done this deed shall suffer." Captain Norman looked very fierce as he led his men into the thicket. The girls could hear his little band beating about the bushes. Once or twice the popping of firecrackers could be heard. The girls grew excited, and gathered before the tent, not knowing whether it was best to run or hold their ground.

"You must be very brave, girls. Our noble soldiers are after the enemy—oh! oh, my! look!" cried Sally.

The bushes parted and four of the

boys appeared carrying a rough, whiskered fellow, whose hands and feet were securely bound. Then followed the brave Captain Norman and the rest of his band, with the baskets.

"Lady, we have recovered your provisions, and have also captured the tramp who was making off with them. What shall be his fate?" asked Captain Norman, as he drew up before the group with genuine military form.

"I am sure I don't know."

DECLARATION of AUTHORITY and its INDEPENDENCE

"There you are, Sally. Just like all girls, you are too inquisitive."

"Please tell me what you are going to do," pleaded the girl, as she laid her hand upon Harry's arm.

"Well, I will tell you if you will promise not to say anything about it."

"Oh, I won't say a single word, I promise."

"Well, then, Sally—and the boy's face grew rosy with mischief—"I am going to have—"

"What? Tell me quick."

"A great big surprise for you!" cried Harry, with a laugh, as he ran away.

"That is just like a boy. Well, I must get the girls together and decide on a list of nice things to eat. Boys are such hungry creatures at a picnic that it will take a lot of goodies to go around."

Bright and early on the morning of the Fourth of July Sally's big brother, seated in a wagon loaded with baskets and the tent, was driving toward the picnic grove. He did not take him long to pitch the tent and put up the swings, and he soon notified Sally that everything was ready for their arrival.

It was a merry little party of girls that soon gathered at Sally's house. Their cheeks were rosy and their eyes were bright as could be. They were all dressed in white, and each wore a sash the pretty American flag.

"Where are the boys, I wonder?" asked one of the girls as the little party left the house.

"Oh, they'll be in the grove, I sup-

"The tent was empty.

"All the tents and pies and bottles of lemonade—gone!"

"I feel just like crying. I don't understand it. My brother brought everything here, and—"

"I guess some tramps must have taken them."

"I wish the boys would come. I'm afraid of tramps. Yes, tramps must have taken all our goodies."

Sally was ready to burst into tears, and quite likely she would have had a good crying spell if a new and strange sound had not reached her ears.

Rat-a-tat! Rat-a-tat!

"It is a drum; yes, and the sound of a fife," said Sally, as the sound came nearer.

And then, down a wide path came a file of soldiers. At their head was Harry Norman, looking very brave and courageous. He wore a pretty little uniform and carried a bright sword. One bright little fellow beat the drum bravely, while two others carried each a stick with a big firecracker fastened to the end.

For a brief period the sight of the young soldiers and the martial music caused the girls to forget the stolen goodies. They cheered the little band as Harry halted his comrades before them.

"Oh, Harry, how lovely you all look! What a lovely time we will—!" Then Sally stopped.

The goodies!

DURING SUMMER MONTHS

Dr. Hartman Gives Free Advice to Suffering Women.

MISS LIZZIE SNEATHING

Dr. Hartman, the Famous Gynecologist and Inventor of Pe-ru-na, Offers to Treat Women Free During the Summer Months.

America is the land of nervous women. The great majority of nervous women are so because they are suffering from some form of female disease. By far the greatest number of female troubles are caused by catarrh.

Women afflicted with pelvic catarrh despair of recovery. Female trouble is so common, so prevalent, that they accept it as almost inevitable. The greatest obstacle in the way of recovery is that they do not understand that it is catarrh which is the source of their illness. In female complaint, ninety-nine cases out of one hundred are nothing but catarrh. Peru-na cures catarrh wherever located.

The following letter was recently received:

136 W. 28th St., New York City.

The Peru-na Medicine Co., Columbus, O.

Gentlemen: What bread and meat means to the hungry Peru-na means to the sick. It is an especially valuable medicine for sick women. I have found that no medicine so quickly restores health and places the body in a normal condition. I but voice the sentiments of women who were once sick, but now are in perfect health."

MISS LIZZIE SNEATHING.

All women who are in doubt as to what their trouble is should write Dr. Hartman, Columbus, Ohio. Give him a full description of your trouble, previous treatment, symptoms and age. He will promptly reply with full directions for treatment free of charge. This is an opportunity which no ailing woman should miss. RIPANS

I suffered from a difficulty about breathing, a sort of breathlessness which was very distressing. It was always worse on just rising. I thought these spells proceeded from something wrong with the heart, but I believe now it is connected with the stomach, for I find Ripans Tablets do me good, and my breathing is better already. I do not have that miserable, depressed feeling and can eat and sleep well.

THE CONSPIRACY.

To break of a ponderous whale,
From the end of its tail
Is a sign of a storm if the weather
Is warm,
Unless it should happen to fall.

Mr. Secret Circular Simmons, Chairman of the Democratic State Executive Committee, has made a grand discovery, almost equal to the discovery of the philosopher. His statement is published in the Charlotte Observer of July the 3rd and while given prominence on the first page, brother Caldwell paid no attention to it Editorially. Mr. Simmons is a great discoverer of excuses for raising the negro issue, already seeing the hand writing on the wall, and knowing that his power in this State is on the wane, he feels it his duty to make a discovery in order to get an excuse to raise the cry of "NIGGER, NIGGER, NIGGER." He does not stop at his discovery but he makes, what in our opinion are grave threats. Listen at his closing words, and if they be not threats what are they?

"All hopes of political success based upon that vote is doomed to disappointment. They must either accept the Amendment in good faith or openly repudiate. They will not be permitted to invoke its beneficent and liberalizing provisions while secretly plotting its assassination."

That sounds like a Czar, issuing his decrees to abject slaves and subjects. Is Mr. Simmons the supreme power and law in this State that he can dictate not only to a pliant subservient Democracy, but to the Republican party as well? Are we to be coerced by such threats? Are we not allowed under the law the privilege of freedom? The Boss's threat to deny us our rights under the recently enacted election law is the rankest of imperialistic decrees. As for us we have heard of no such subterfuges as the Boss has discovered and we doubt its truth. Any discovery he makes concerning Republicanism is overshadowed by his own corrupt practices and intentions. As citizens of this great government, as North Carolinians, with as pure Anglo-Saxon blood as possessed by the Boss, we do not propose being bluffed this early in the fight. The fraud and rascality inaugurated and perpetuated under his regime in 1900 cannot be repeated in 1902. "The and pros with leave" hangs over the heads of his pliant tools, and the spirit of liberty born in the hearts of North Carolina freemen cannot be quenched, nor can it be again trampled under foot by Frank Winston's Red Shirt Brigades. Mr. Simmons and his crowd have for the past 2 months been counting noses, he realizes that Gov. Charlie is plotting for his scalp later on, and he is beginning to see that something has got to be done or he is lost. The people are showing a supreme indifference to his party conventions, the candidates and their immediate friends are the only ones taking much interest, and he knows these things bade no good to Democracy, and those conditions have caused a feeling of uneasiness in the possession of the Boss, and just on the eve of the Democratic Convention, this wonderful seer, dreams dreams and sees visions of impending defeat written on the wall, and after calling together the seers and soothsayers he makes a wonderful discovery, and forthwith issues his decree. Senator Pritchard, Messrs. Moody and Blackburn succeeded in side tracking the Chairman's resolution, hoping and believing that the promise of a fair election in this State

will be kept and corruption and rascality at elections would cease, but Mr. Simmons after seeing and realizing the conditions, decided that it was necessary to raise the Nigger howl again, and thus it was launched on July the 3rd. It won't work Mr. Simmons, for you and your crowd cannot make the people of this State believe that the Republican party is in favor of negro rule, a Democratic phantom hatched in the brains of hungry pie counter followers, who are more intent upon holding the offices and enjoying the emoluments thereof than of serving the people whom you have duped and misled. Your covert thrust at the Republican Judge comes in poor grace from a man who has trampled not only upon the law but upon the rights and liberties of North Carolina freemen. Go back and sit down Mr. Simmons and keep cool. We know you are scared.

Since the above was written the Editor of the Charlotte Observer has the following to say with reference to Boss Simmons' recent night mare.

GIVE US A REST.

We were told that if we adopted the constitutional amendment we would be relieved of the menace of "negro domination." The reasonable presumption was that we would also be relieved of the fatiguing talk thereof. Now we are told of a deep laid scheme, which will mature between the 1st and 15th of October—it will be well to recall this at that time—whereby the amendment is to be overturned and we are to be subjected again to all of the horrors of "negro domination." Of course all this is intended to play upon the fears of the ignorant; equally of course no man of intelligence is going to be scared by it. It is intended to force men to vote from their prejudices and fright instead of voting according to their judgment. But, really, has it come to this that the Democratic party of North Carolina, with the negroes disfranchised, must needs resort to appeals of this sort to perpetuate itself in power? We think not. We haven't so poor an opinion of the party as to fear that an appeal to the reason of the white people of the State, upon its record, would be in vain.

The negro vote is out of the way for good and all. Let us have done with fustian.

So we are to have the "negro domination" and "white supremacy" yawn some more, based upon Chairman Simmons' discovery of a mare's nest. Really, we had not supposed Mr. Simmons was so easily imposed upon. Anybody who can believe the fiction promulgated through yesterday's paper under his name can believe anything, and anybody who would get scared at it would run down his shadow.

SISTER SALLY.

"My sister Sally dreamt a dream,
She dreamt a mighty sumptin,
She dreamt she saw a mushroom
Big as any punkin."

The masses are not losing any sleep over Boss Simmons' recent night mare, and phantom dream.

The prosperous condition of this country under Republican rule is appealing to the great masses as never before, and they are not going to be scared by this fiction vendor, who hatches out every two years a hideous hobgoblin to scare and frighten the people into following the man who has planned and plotted himself into a position which he is unworthy to fill, and which discredits North Carolina at the National Capitol if the late Senator Vance's estimate of him be true. Dream on vile dreamer.

If A Man Lie To You.

And say some oiker salve, ointment, lotion, oil or alleged healer is as good as Bucklen's Arnica Salve, tell him thirty years of marvelous cures of Piles, Burns, Boils, Corns, Felons' Ulcers, Cuts, scalds, Bruises and skin eruptions prove it's the best and cheapest. 25c at C. C. Sanford's drug store.

OUR ARMY.

Our Democratic friends have spent a lot of breath in abusing the boys who are upholding the flag. They have called them butchers and all kinds of ugly names. They have had much to say about the cruelties practiced in the Philippines by our soldiers, yet not one of them has called the attention of the public to the fact that most of the officers who have been tried over there by Court Martial are Southern men. Possibly Mr. McKinley and President Roosevelt made a mistake in appointing these men to army positions. Maj. Waller is a Virginian. Capt. Glenn is a Southerner, and both have been court martialled. We don't think these officers disregard the usages of civilized warfare, for they had to deal with a savage foe, and it required severe punishments to break up these Morro bandits. If a Republican had said that these officers possibly acquired their training in the South among the Red Shirt brigade, a great howl would have gone up, but Mr. Democrat, they are Southern men, at least a part of them are, and may be they are Democrats, who knows?

Shootings in Wilmington.

In order to give Major Waddell and the 'hungry pie hunters jobs, is White Supremacy and a laudible and patriotic work, but to defend the honor of the nation in the Philippines by killing the savages who shoot and mutilate our soldier boys, is a great crime in the eyes of the Bourbon Democracy.

Americans Hewn Limb From Limb.

Manila, June 18.—The bodies of the sergeant, two corporals and four privates of the Fifth Cavalry who were captured May 30 by Ladrones at Binangonan, Risal province, this island has been recovered. Most of the bodies had been hewn limb from limb, and it was found impossible to recognize four of the dead men. A number of arrests in the matter have been made and nine men have been absolutely identified as belonging to the band of radores which captured the Americans. The identified men include two members of the police force at Tereas, Moron province. The American soldiers were buried to-day together; it was impossible to make separate interments.

Fine Sword for Major Waller.

Norfolk, July 2.—The design of the sword to be presented by Norfolk citizens to Major L. W. T. Waller has been chosen. The scabbard will be of silver with tenkarat gold shoe and hands. The hilt will be of gold with Waller's monogram, the marine corps insignia and presentation inscription. The presentation will not take place until Major Waller's throat has improved so as to allow him to make a speech.

Need More Help.

Often the over-taxed organs of digestion cry out for help by Dyspepsia's pains, Nausea, Dizziness, Headaches, liver complaints, bowels disorders. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. 25c at C. C. Sanford's drug store.

Baptist Picnic.

The annual S. S. and Orphanage Picnic will be held at the Arbor the last Thursday in July, 1902. The Hon. R. B. Glenn has kindly consented to deliver the Annual address. General Manager Boon and Editor Johnson together with a chapter of the Orphans with other visitors are expected. All friends of Orphan work are kindly invited to join us and thus make the day pleasant and profitable to all and especially to dependent children.

Doctors Failed.

J. Terry, of Turkey, Kentucky, writes: I have been a sufferer for fifteen years from troubles arising from a disordered liver, and all the doctors in the neighboring towns failed to do me any good. I can't think of the name of the medicine I would try a box of Raton's Liver Pills and Tonic Pellets. After using one half box I felt better and was soon permanently cured. I keep them in stock constantly since I discovered their valuable curative qualities.

Will the Poll Tax Delinquents Be Disfranchised?

To the Editor of The Observer:
There is a report current on the streets that the executive committee intends to exclude from the primary those who from inadvertence or inability failed to pay their poll tax. Can you enlighten us on this respect? It was pretty openly said while the constitutional amendment was pending that it was for the purpose of disfranchising negroes, but it was never understood that its object was to disfranchise white men, and if that has unfortunately been done, is it the intention of the committee to drive them from the councils of the party?

Those agreeing with us should come out to the polls, and vote with this understanding, as that is the only way to remedy these evils—otherwise they are upon us to stay.

J. T. ANTHONY.

Mr. Anthony is no doubt a Democrat, and in this letter of inquiry to the Charlotte Observer discloses the fact that many white men were misled in voting for the Constitutional Amendment, thinking it would only disfranchise negroes. The appeal to passion and prejudice generally results in misleading the people. The disfranchisement of about 30,000 white men in North Carolina has put these people to thinking, as never before. You can't fool all the people all the time.

Supreme Court sustains the Foot-Ease Trade-Mark. Justice Laughlin, in Supreme Court, Baltimore, Md., has just issued a decision in the case of the Foot-Ease company against the manufacturer of a shoe with the name 'Foot-Ease' on it. The decision is in favor of the Foot-Ease company and its manufacturer. The manufacturer had tried to have the name 'Foot-Ease' declared a generic name, but the court has ruled against him. The court held that the name 'Foot-Ease' is a trade-mark and is entitled to protection. The manufacturer had argued that the name was a common name and should be free for all to use. The court said that the name 'Foot-Ease' had been used by the manufacturer for many years and had become known to the public as a trade-mark. The court therefore granted the injunction sought by the manufacturer and allowed the name 'Foot-Ease' to remain on the shoes.

Good Service. Some few days ago a policeman was sent to serve a summons on a notorious poacher. This person, who lived alone and had evaded service successfully for some time, was the owner of a male goat. Mr. friend, whom I will call Mac, went to the poacher's house; but the wily poacher, observing his approach, had fled, leaving the door unlocked. Mac saw the goat tied up in a corner, entered, and solemnly read the summons to him, after which he stuck the copy on his horns. He then went home and indorsed the paper thus: "Served by leaving a copy of this summons in defendant's residence at ... with an inmate," etc.

"DEAR MRS. PINKHAM:—I suffered four years ago with a tumor in my womb, and the doctors declared I must go to the hospital and undergo an operation, which I dreaded very much and hesitated to submit. "My husband consulted an old friend who had studied medicine, although he was not a practicing physician, and he said he believed that Lydia E. Pinkham's Vegetable Compound would cure me. "That same day I took my first dose, and I kept it up faithfully until twelve bottles had been used, and not only did the tumor disappear, but my general health was very much improved and I had not felt so well since I was a young woman. "As I have suffered no relapse since, and as I took no other medicine, I am sure that your Compound restored my health and I believe saved my life."—Mrs. D. ARNOLD.

A SENATORIAL FIGHT
Bailey, of Texas, Takes Beverage By the Throat

RESULT OF A BITTER DISCUSSION
Texan Claimed That He Had Been Insulted, and Proceeded to Demand Satisfaction.

Washington, Special. Senator Bailey, of Texas, assaulted Senator Beveridge, of Indiana, Monday night, just after the Senate had adjourned from its executive session. The Texas Senator was dragged and separated from his opponent by some of those about the Senate. He was very angry and threatened severe harm to the Indiana Senator. The episode was the result of a heated controversy which the two Senators had during the afternoon, when Mr. Beveridge had said that Senator Bailey had made "an unwarranted attack" upon Senator Penfield, of the State Department. In executive session Senator Beveridge, like other Senators who spoke, lighted a cigar and took a seat on the Republican side. He was still sitting there when the Senate adjourned. Mr. Bailey crossed the aisle and walked through the seats until he was facing Senator Beveridge.

THEORY OF PROTECTION.

Foot's National Free and Ausere South India Industrial Independence. The protective tariff policy came into existence under the first administration. The protective principle was the cardinal doctrine of the great statesman Alexander Hamilton. It was his dream, Alexander Hamilton. It had many advocates in George Washington and the other great men who surrounded the Father of our Country during the eight years in which he served as chief magistrate. It has been aptly called the national policy for the reason that it exalted America above every other nation and proposed to develop its industries and its resources in order that the nation might attain industrial as well as political independence. It was conceded at the beginning that to establish this policy would involve some sacrifices. It was conceded at the beginning that there would be higher prices for some commodities as a result of protection; but it was argued that the compensating benefits would more than offset this. Throughout the development of this system these hopes have been fully realized; and that whereas at the beginning we were essentially at the mercy of European manufacturers, we are to-day practically independent of them and through home competition there has been a constant decline in the price of all the great staple articles of manufacture. American labor has throughout the entire period of our national existence commanded a higher price than similar labor performed in any other portion of the world. The American laborer has grown in independence, intelligence and opportunity with the development of this system, until to-day he occupies a place undreamed of by his predecessors of a generation ago.

A FAMOUS PRIVATEER.
Dunkirk, France, recently celebrated the two-hundredth anniversary of the death of its most famous citizen, Jean Bart, the great privateer, whose name is now borne on the cruisers of the French navy. The eminent mariner, says the Westminster Gazette, was no less famous for the roughness of his manners than for his prowess on the high seas. The story is told when Louis XIV summoned him to Versailles he lit up his pipe in the ante-chambers, and refused to put it out. "I acquired the habit of smoking," he said to the gentleman-in-waiting who remonstrated, "in the service of the King and the King is too just to object to my indulging in it." His reply to the King on the occasion of his promotion is also famous: "Jean Bart, I have made you a commodore," said his majesty. "You have done well, sire," was the old salt's answer.

The Lucky Cuban Planter.
The American farmer pays American wages and American taxes. He is paying now the cost of the war which gave Cuba her independence and will go on paying pensions on the same account for many years to come. The benefit given to the Cuban planters is taken out of the pocket of the American farmer. But the Cuban planter pays neither American pensions and wages nor American taxes. He does not pay a dollar of the cost of making his island independent. The only way he gets anything from him for all that was spent to make him free is by putting a tariff on his sugar and tobacco. But the Secretary of War and Economics says that we are under obligations to the Cuban planters and they are under none to us. It is this view which is suggested before the Spanish-War Weyer would still be Captain-General and the Secretary of War would not be dividing with him the honor of reconcentration camps and the butchery of children.—San Francisco Call.

Telegraphic Briefs.
Wm. Young, for many years a leading grain merchant of Baltimore, died from paralysis. Mr. Young was one of the incorporators of the Baltimore corn and flour exchange, and a member of the chamber of commerce.

Had to Be Candid.
To very men who raise this issue are the men who have found fault so strenuously in the past with those who have favored a protective tariff, because the farmers had no part nor lot in it. It was in response to this complaint that a duty was placed upon beef cattle, the product of the American farm. Now that duty has been done, these same complainers are raising a howl and saying the duty on cattle and beef is the foundation of the Beef Trust. It is so hard for some people to be candid when discussing a question that so materially affects the living of so many of the people of the country. The trust question in all its bearings ought to be discussed on a higher plane than that of petty partisan politics.—Knoxville (Tenn.) Tribune.

THE AMATEUR TINKER

HIS FONDNESS FOR MEDDLING WITH THINGS!
Just Now the Tariff Engaged His Attention, and He is Gladly to Give His Opinion. He is Glad to Give His Opinion. He is Glad to Give His Opinion.

Several days ago the Dispatch called attention to the fact that Representative Roberts of Massachusetts was anxious to revise the tariff laws. Mr. Roberts was elected to Congress as a Republican, but since taking his seat he has been painting terrible pictures of what the present tariff would do to the next Congressional elections. He is circulating a petition among his colleagues calling for a caucus, at the question of considering the necessity of tariff revision shall be discussed, and, if possible, a program for party action shall be adopted.

Periodically throughout our history the free trader by appealing to various selfish interests here and there to vote for all but cheapness has persuaded the American electorate to elect a Congress and a President favorable to the free trade doctrine. Every such triumph has been followed by a period of industrial depression characterized by falling prices, business failures, low wages and enforced idleness. There has been no exception. This generation had its experience between 1893 and 1898. Almost every man old enough to vote can remember very vividly what took place then. Yet it is practically certain that in the next national campaign, which is just upon us, another appeal will be made to the people to vote for a cheap era, and if a sufficient number of them can be caught by this state bait it can be confidently predicted that history will repeat itself. It cannot be otherwise.—Cedar Rapids Republican.

Business World Hat.
Business men do not want the tariff disturbed at this time. A feeling of confidence prevails, and enthrallized by the prospect of stability the most enterprising class is branching out. Manufacturers can closely calculate margins of profit and afford to risk what let the tariff tinker get in their back, and what must happen?

Only Genuine Brand.

MEDICAL EXAMINER

Of the United States Treasury Recommends Peru-na.

The Women Also Recommend Peru-na.
Miss Blanch Grey, 174 Alabama street, Memphis, Tenn., a society woman of Memphis, writes:
"I was a society woman whose nervous force is often taxed to the utmost from lack of rest and irregular meals. I know of nothing which is so much benefited as I feel my strength giving away, and it soon made itself manifest in giving me new strength and health."
"After taking several remedies without result I began last year to take your valuable remedy, Peru-na. I was a complete wreck. Had palpitation of the heart, cold hands and feet, female weakness, no appetite, trembling, sinking feeling nearly all the time. You said I was suffering with systemic catarrh, and I believe that I received your help in the nick of time. I followed your directions carefully, and can say to-day that I am well again. I cannot thank you enough for my cure."
Peru-na cures catarrh wherever located. Peru-na is not a guess nor an experiment. It is the absolute scientific certainty. Peru-na has no substitutes—no rivals. Insist upon having Peru-na.

Dr. Llewellyn Jordan.
Medical Examiner of the U. S. Treasury Department, graduate of Columbia College, and who served three years at West Point, has the following to say of Peru-na:
"Allow me to express my gratitude to you for the benefit derived from your wonderful remedy. One short month has brought forth a vast change, and I now consider myself a well man after months of suffering. Yellow sufferers, Peru-na will cure you."
Peru-na immediately invigorates the nerve-centres which give vitality to the mucous membranes. Then catarrh disappears. Then catarrh is permanently cured.

RIPANS.
I would feel bloated after eating the plainest meal. I would suffer with headache that nearly drove me crazy and would be so nervous that if any one spoke a little quick to me I would cry. I could not help it. I was not fit for any kind of work. Since I have been taking Ripans Tablets the neighbors and my friends notice the change and inquire the cause. I always say Ripans did it. I take one after each meal and one before retiring.

A Good Family Medicine
 W. E. Lee Wilmoth, Top of Alleghany, West Va, writes: I have used Ramon's Liver Pills and Tonic Pellets for the past five years in our family. I do not hesitate to say that they are the best. They are mild in action, splendid in effect, besides being pleasant to take and requiring one only at a dose. To all who are unable to pay large doctor's bills I would say, always keep a box of Ramon's Liver Pills in the house to use in case of necessity.

From Yadkin.
 Mr. Editor:—Please allow me space in your paper to suggest a ticket for Yadkin County, for O. S. C. J. L. Crater, Sheriff, Isaac Shores, Register of Deeds, W. A. Royal, Treasurer, J. G. REPUBLICAN CONVENTION.
 The Republicans of Davie County met in Convention Monday for the purpose of electing delegates, quite a large crowd considering the busy season. The Hon. G. A. Reynolds was present and made a strong speech which was well received; his speech was along conservative business lines, and was a strong appeal to the people to lay aside prejudice and be governed by reason, and to look at politics from a business standpoint. After the speech, the Convention was called to order by Dr. Kimbrough, Chairman of the Executive Committee; the Editor was made chairman and A. T. Grant Jr., secretary. The election of delegates followed: To State Convention W. A. Bailey and C. G. Bailey, alternates C. M. Sheets and John Smithdeal, Congressional, W. C. Douglas and J. L. Sheek, alternates B. B. Bailey and Dr. Kimbrough, Judicial, A. T. Grant Jr. and John H. Sprinkle, alternates J. W. Etchison and G. W. Sheek, Senatorial, Dr. J. M. Cain and J. F. Moore; alternates, W. F. Furches and M. B. Brock. The delegates to the State Convention were unanimously instructed to cast the vote of Davie County for the Hon. D. M. Furches for Chief Justice. After which resolutions were adopted, (which will appear next week), and the convention adjourned.

Uncle Peter Hunley Dead.
 Peter Hunley, the Blacksmith, familiarly called by all, white and black Uncle Peter, dropped dead last Thursday morning about half past six o'clock. He was out in his corn patch at work when death came. We do not know how old he was but suppose he was nearly 80 years of age.
 Uncle Peter was born and raised a slave in Va., but had been a resident of Mocksville for many years, working at his trade of blacksmithing. Quiet, polite and lawabiding, he was liked and respected by everybody in the town. Uncle Peter talked to us during the campaign of 1900 when the Amendment was under discussion, and we could not help pitying the old man, born a slave, made a freeman and given the right to vote, a privilege he clearly prized, and one which he seemed loth to part with, yet he would say, "Everything will come right, &c." The old man passed over before he had experienced the loss of this privilege.
 A good negro, A good citizen. He lived a life which should be emulated by others of his race. He had from his savings bought a home, where he spent his last days. He was a member of the Presbyterian Church and lived a consistent christian life, we had great faith in Uncle Peter's piety, we believe he lived as near right as he knew how. He left a widow and Sussan, to whom we extend our sympathy.

No Time to Lose
 You cannot afford to disregard the warnings of a weak and diseased heart and put off taking the prescription of the world's greatest authority on heart and nervous disorders—**DR. MILES' HEART CURE.**
 If your heart palpitates, flutters, or you are short of breath, have smothering spells, pain in left side, shoulder or arm, you have heart trouble and are liable to drop dead any moment.
 Major J. W. Woodcock, one of the best known all operators in the country, dropped dead from heart disease recently, at his home in Portland, Ind., while moving his law—*The Press.*
 Mrs. M. A. Birdsall, Watkins, N. Y., whose portrait heads this advertisement, says: "I tried this through gratitude for benefits I received from Dr. Miles' Heart Cure. I had palpitation of the heart, severe pains under the left shoulder, and my general health was miserable. A few bottles of Dr. Miles' Heart Cure cured me entirely."

ANSWER, MR. SIMMONS.

In 1900 Boss Simmons and more than 100 other Democratic lawyers signed a written opinion that the Amendment was constitutional water-tight. Now in the face of this opinion of these learned Democratic Attorneys, the Boss says the Republicans are going to knock it into smithereens. Did Mr. Simmons and his learned attorneys know what they were saying when they signed this opinion?

2nd. Some time ago Mr. Simmons' crowd charged that the Republicans were raising a big campaign fund with which to pay the negroes poll tax in order to enable them to vote. Now if the Republicans had arranged to have an Amendment declared void, and thus let in negroes, whites and all, why Mr. Simmons would they be fools enough to pay these poll taxes as you allege, when they would be permitted to vote without it, if your last contention had any truth and foundation in it?

The Boss is striking at the air, as at yet, has not pricked a bubble, but is making a big stock of himself by the ridiculousness of his various propositions. Mr. Simmons, in our opinion is working this scheme at this time in order to enable his machine to capture the negro vote next November. We believe the Democratic machine is working for the negro to-day, and Boss Simmons wants Senator Pritchard to come out in such a manner that he and his crowd can go to the negroes, and say, "the Republicans have kicked you out, now come and vote with us; we will do more for you than the Republicans can or will. We, the Democrats have given you offices—we made Judges of two or three hundred of you in 1900—we have gone on your bonds for Postmasters, and your cussed radicals for appointing you. Do you see?"

In conclusion Mr. Simmons, if the Republicans are as big fools as your manifestoes, dreams and visions would indicate, if we were in your place we would not make an assinine creature of myself to no good purpose. Republicans are going before the people on the great economic questions of the day, and you and your crowd can chase rain bows to your hearts content, but you are not going to fool all the people by a jug full.

THE "BOSS" AGAIN.

Boss Simmons is out in another long letter giving reasons why the people should be treated to another Nigger, Nigger campaign. Republicans are under no obligations to the Boss, and should pay no further attention to his demands. He has no right to demand of Republicans a show of hand as it were. If the Boss will attend to his own party affairs and let Senator Pritchard manage his, the people will do the rest next November.

Don't Fail To Try This.

Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure is effected. It never fails to tone the stomach, regulate the liver, invigorate the nerves and purify the blood. It's a wonderful tonic for run down systems. DAVIE COUNTY REPUBLICAN CONVENTION.

RESOLUTIONS ADOPTED BY THE REPUBLICANS IN CONVENTION AT MOCKSVILLE MONDAY JULY 7, 1902.

The Republicans of Davie County in convention assembled, do resolve

1st. We point with pride to the Republican administration of Davie county affairs. The offices are filled by honest and competent officials, and the finances of the county are in good shape. Our County Commissioners since their incumbency have reduced the railroad bonded debt from \$27,000 to \$15,000, and thus saved the tax-payers many thousand dollars. They have also paid 100 cents on the dollar on all obligations, and have reduced the tax levy, thus decreasing the tax upon the people.

2nd. We congratulate the people of North Carolina upon this participation in the great prosperity which has come to them through the Republican party along protective lines, and the legislation which has given us a good financial system guaranteeing to every man a dollar worth 100 cents, whose purchasing power is equal to that of the most enlightened and favored nations of the world.

3rd. That the restoration of confidence by reason of the wise legislation of the Republican party has encouraged the building of cotton mills and various manufacturing plants, especially in our southland, thus giving employment to labor and affording a ready market for all of our products at remunerative prices.

4th. That we deplore the untimely death of the lamented Wm. McKinley at the hands of an anarchistic assassin. In his death the whole country lost a wise, good and patriotic ruler, who had done all in his power to restore good feeling and heal the wounds between the sections. Under his wise administration the war with Spain had been fought to a conclusion and an honorable peace was concluded between the nations and the majesty and honor of our country and flag had been protected and upheld.

5th. We congratulate his successor, President Theodore Roosevelt for following and upholding the traditions, the promises and pledges made by the Republican party and its late lamented President, and pledge him our best efforts in aiding him to uphold the principles of the Republican party, which are and will conserve the best interests of the entire people throughout this great country of ours.

6th. We appeal to the people of Davie County and the State of North Carolina regardless of past party affiliations to join with us in the coming election in an effort to defeat the machine Democracy for its broken promises and pledges to the people made.

6th. We arraign and denounce the Democratic party in the State for the inauguration of corruption and fraud in elections, and for passing partizan and unfair election laws, whereby it deprived thousands of the right to register and vote, and also for denying to Republicans fair representation on election boards and for its fraud and corruption in counting and making returns of elections.

8th. We further arraign and denounce them for repealing the ancient writ of mandamus, thereby protecting and upholding the equality and fraud of its registrars and election officers, thereby depriving the people of rights guaranteed them under the laws; also for its appropriation of the people's money to defend and protect these officers in the violation of their sworn duty.

9th. We further denounce them for the greatest and most disgraceful partizan act of the century, in impeaching the two Republican judges of the Supreme Court for partizan ends.

10th. We pledge the people, if successful in the coming election

to advocate and urge the passage of wholesome laws which will be both fair and liberal to the people, as well as to the corporate interests of our State.

11th. Recognizing the force and import of that clause in the constitution which says that "all elections ought to be free," we promise the people if successful at the polls next November to urge the legislature to enact into law a fair, honest and rigidly impartial election law giving to every man entitled to vote a right to vote and have that vote counted.

12. We congratulate the Hon. J. C. Pritchard, U. S. Senator from this State for the wise, impartial and liberal manner in which he has performed the many and arduous duties developing upon him, always regardless of the best interests of his people and State, we commend him to our countrymen and pledge him to our best efforts in procuring his reelection to the position he is now so ably filling.

RESPECTABILITY.

The Republican county convention was held here Monday to appoint delegates to the State, congressional, judicial and senatorial conventions. Charles A. Reynolds, of Winston, was present and made a speech in the interest of the Republican party. It is said that his speech was a diversion from the usual Republican speech but was a conservative one and left impression on disinterested parties that the Republican party had accepted the amendment in good faith and would make their fight on national issues. If this be true and Mr. Reynolds' advice, or rather his line be headed the Republican party will have a more respectable following whether they ever win or not in the State.—Davie Times.

The above was clipped from the Davie Times of July 10th. Some things in this sounds sorter like Boss Simmons' manifesto. In the first place Republicans believe in observing the law, but we do not think it necessary to tell and assure the Democratic machine how and what we are going to do in the coming campaign. We are not asking them to put us in possession of their plans, and schemes. We know they are going to drag in the "Nigger," and stuff ballot boxes if necessary to carry the election. The Republican party is not ashamed to go before the people and ask its support. We are going to ask and demand a fair election.

Now as to respectability of the Republican party, we have this much to say. We don't have to go to the Machine Democracy to get respectability, if we did, the last State of the party would be worse than the first, for a crowd who have been stealing nigger votes for 35 years, stuffing ballot boxes, parading the country in Red shirts toting shot guns and Winchester to overawe the people and then to talk about the respectability of the Republican party makes itself ridiculous.

THE CORPORATION TAX.

The Coolee Cotton Mills through their book-keeper Mr. T. V. Terrell, and Mr. T. B. Bailey, attorney, applied for a release of the \$100, on Monday last. The last legislature it seems tried to grind corporations to death. They not only require them to pay taxes as do individuals on a fair valuation of their property but under section 91, chapter 9 levied a graduated franchise tax. Now under section 77 of chapter 9 they have levied a privilege tax on merchants also a tax on their sales. All this in addition to their property tax. The sheriff has collected a portion of these franchise taxes, and if the Commissioners were to release one from its provision, in justice they would be compelled to refund this tax collected from these merchants. This tax should not have been placed upon them, for it's double taxation and is unjust. We wish it was so that they could release all of them from the payment of this unjust tax, placed upon them by the last legislature.

County Commissioners were in session Monday, settling with Co. officers.

AN AWFUL DISASTER

Johnstown Suffers Another Fearful Visitation.

SWIFT DEATH IN MINE EXPLOSION

Dead Bodies of Many Victims Taken Out With Difficulty—Sorrow Prevalent Over the City.

Johnstown, Pa., Special.—This city suffered another awful visitation rivaling the calamity of 1889. The disaster came in the form of an explosion in the Rolling Mill Mine of the Carollus Steel Company last Thursday. A Friday dispatch gives the following particulars: "This has been a day of heroic rescues at the Rolling Mill Mine of the Carollus Steel Company. Thrilling experiences attended the efforts of the 40 brave and doting fellows who went down into the bowels of the earth with a very faint hope to spur them that still they might be in time to restore to life some of those who are entombed. Death lurked everywhere around them, but undaunted they surged forward, gaged with the noblest of human purposes. The reward of their efforts was the saving of the lives of 14 of their fellowmen and bringing them again into the sunlight back to loving families. Dead and maimed bodies were located but no effort was made to bring them out of the vast theatre of death until every human vest was put forward towards seeing that no living soul might escape their aid. That done, the dead were attended to and put in tram cars, brought up and exposed to the morbid gaze while being transferred to wagons in which to be taken to the morgue. Eighty-seven dead bodies were recovered from the mine between daylight and midnight. Still a party of officers and miners battled on, the miles inside of flying ambulances word would come to the surface by some mysterious means that another group of remains had been exposed to the vision of the searchers. There are dangerous headings in the Klondike section of the mine yet to be explored. No one knows how many more dead may be found there. The mine officials refrain from guess work on the subject.

A feeling prevails that 150 is a low estimate of the casualty list. Johnstown spent the day in horror-stricken. From dawn to dusk flying ambulances coursed the streets bearing gruesome burdens from mine to morgue, from morgue to homes.

At midnight President Powell Stackhouse was seen at the mouth of the mine and gave out the following statement: "The disaster is an awful one and came on us entirely unexpected. The mine had been inspected only three days ago and was pronounced in satisfactory conditions. In the 30 years that the mine has been in the operation no serious accident has occurred. The cause is yet indefinite, but I believe it was caused by gas escaping from the fifth heading which was closed and was not being worked because it contained gas, into the sixth heading.

The number of casualties is now placed at 125. No list of the names of the dead miners can be given, for the majority of them were foreigners and were known only by check and not by name. The only way their names will ever be known if the bodies are not recovered in time for identification will be by their families sending their names to us.

The mine in which the dreadful thing occurred is one of the largest coal mines in the United States, according to the statement of officials tonight. From the entrance to the mine to the river there is a distance of three miles. The Klondike section in which the explosion occurred is about two miles from the Mill Creek entrance.

The mine is divided into a large number of headings, levels and sections. The section on the left and right of the headings is the most known as right and left by the miners. The men who escaped this afternoon have spent years working in it. Otherwise they could never have reached the surface. Lights were out and there was no way for them to find their way to the top had they not known the mine perfectly. The few survivors who have escaped from the depths of the mines describe the conditions as frightful. Outside of the "Klondike" the mines are safe and uninjured.

Osborne In Lure Trouble.

Norfolk, Va., Special.—With the hope of obtaining a confession from Charles Frederick Osborne, held for the murder of his wife in Stillwater, Oklahoma, and suspected of murdering another here, several weeks ago, the police are thinking of subjecting him to the famous "third degree." Osborne is indifferent and does not show the grief-stricken countenance that he did at his trial. He pretends to remember nothing, not even his wife's name, and those who once thought him innocent now pronounce him the worst villain unhung. Commonwealth Attorney Tilton will give a definite decision as to whether he will hold Osborne here for murder or allow the Oklahoma authorities to take him.

Gaynor and Greene Again.

Washington, Special.—The papers in the case of Gaynor and Greene, in which the department of justice seeks the aid of the State department to secure the extradition of the men named here reached the state department, and a review has been referred to a reviewing authority and when Secretary Hay is in possession of all the essential points in the application he will report to consider the case. It is not certain when the application will be presented.

Serious Floods in Kansas.

Manhattan, Kan., Special.—The flood situation in the valleys of the Blue and Kaw rivers is becoming more serious and many families have been forced to leave their homes for higher ground. The Blue is a raging torrent, 21 feet deep and still rising. It is running over the Union Pacific tracks several feet deep for a distance of two miles, taking a short cut to the Kaw river, just west of Manhattan. The body of a dead man floated up here on the Kaw. It could not be caught.

PAID THE PENALTY

A Double Execution in Salisbury—Story of Two Crimes.

SWIFT DEATH IN MINE EXPLOSION

Dead Bodies of Many Victims Taken Out With Difficulty—Sorrow Prevails Over the City.

Salisbury, Special.—Dick Fleming, rapist, and Arch Conley, murderer, paid the penalty of their crime Tuesday morning, both necks breaking in the drop. It was an extremely successful execution and death, or what is death so far as the power to feel is concerned, must have been practically instantaneous. Only a few scarcely perceptible twitchings, the result of reflex muscular action, gave any suggestion of remaining life in either. The drop fell at 10:54 and the attending physicians pronounced Fleming dead at 11:05 and Conley at 11:06. The bodies were taken down at 11:20 and a careful examination followed. When the black cap was removed by the physicians it was seen that there were present on the faces of the dead men none of the frightful marks left by a death in which even partial strangulation plays a part. Both were composed and natural in their expression. The sheriffs present from other counties joined with the physicians in the opinion that the execution had been carried out with significant success and congratulated Sheriff Julian accordingly. Conley's body was placed in a basket provided for his relatives and will be sent by express to be buried in the afternoon at the county home.

Conley's crime was the murder of Gus Davis, a well-known young colored man, on the 22nd last November. Conley was a stranger here, only stopping over on his way to Birmingham, Ala. He had had a quarrel with Davis several days before the killing and had expressed an intention to do him bodily injury. The killing took place as both, with a number of other colored youths, were in the act of leaving a festival which had given near the passenger depot. The circumstances were peculiarly atrocious. Upon a slight quarrel he jumped upon Davis and stabbed him with a knife. Then as the injured man broke away and ran as fast as his condition would permit, crying to the crowd to take care not to let Conley kill him, the latter overtook him and stabbed him several times in the most savage manner, causing his death in a few minutes. He was found two hours later, about 1 o'clock in the morning, under a bed in a negro woman's house on Church street. After convictions he was given the benefit of an appeal to the Supreme Court, but without avail.

Fleming's crime, committed on the 18th last February, was of even a more aggravated nature. The house of a lone widow in the upper part of the town, where he was living with the younger son of her husband who was taken into the dead of night by Fleming, in company with one or more companions, and the poor woman foully and brutally outraged. Fleming entered through the door after it had been forced and turned on a lamp which had been burning. It thus happened that he was the only one whom the victim, Mrs. Belle Livingston, could identify without difficulty. Besides her testimony a glove proved to have belonged to him was found just outside the door. On a description furnished by Mrs. Livingston, Rich Blanton, the man who was respited yesterday and a third negro named Ed. Woods, who had been seen with Fleming some time before the crime was committed, were also taken into custody. On the trial Fleming's guilt was evident and Woods was acquitted by the jury after a brief statement that she believed Blanton to have been one of the men who committed the assault, but refused to identify him positively. For Blanton an alibi was introduced which was strong evidence, though somewhat conclusive nature of it considered fully established. An appeal to the Supreme Court was heard, Fleming made an alleged confession, stating that he was alone when he committed the crime, thus making a charge of conspiracy between himself and Mrs. Livingston. It has been suggested as a plausible explanation, that Fleming wished to save Blanton, whom he knew to be innocent, without involving the guilty party or parties.

Destructive Fire at Clinton.

Clinton, Special.—Clinton, the county seat of Sampson, a town of about 3,500 people, was swept by a disastrous fire Sunday and the loss is estimated at \$100,000, with about \$20,000 insurance. It was the worst fire in the town's history, and the conflagration is a calamity to that community.

Child Killed by Lightning.

Richmond, Va., Special.—A terrible thunder storm swept over this section Monday evening. At the farm of C. J. Sless, in Powhatan county, three of the children, Annie, Hugh and Florence, and a little girl from this city, named Weaninger, went into a field near the house to drive up a feed. Lightning struck a tree in the yard just as the children were driving the cows under it, and tore it to pieces. Annie aged 20, was instantly killed; Hugh aged 10 and Florence, who was younger, were rendered unconscious, and the Weaninger child was badly shocked. Mrs. Sless, who was watching the children from a window, was stunned but soon recovered.

Cotton Crisis Becoming Acute.

London, by Cable.—The cotton crisis in Lancashire is growing acute. A meeting has been called for July 11, to consider the replies to circulars advocating joint action of the spinners in reporting to short time. The general opinion is that a curtailment of the production on even a more extensive scale than heretofore will be necessary to avoid heavy losses.

Notes of News.

The Governor pardoned Melvin Taylor, of Buncombe, convicted last June of manslaughter and sentenced to two years on the roads. The pardon was recommended by the judge, solicitor and many citizens. It was shown that Taylor was greatly imposed on by the man he killed; that the latter was the aggressor and that Taylor's character was good.

ASKING FOR HELP.

A New Turn in the Great Anthracite Coal Strike

NATIONAL DEFENSE FUND PLANNED

A Movement on Foot By Which the General Public Will Be Asked to Assist the Strikers.

Wilkesbarre, Pa., Special.—A national defense fund to which all organized labor and the public in general will be asked to contribute is the latest proposition floated on foot to help the striking anthracite coal miners in need of assistance in their struggle for higher wages and a shorter work day.

Harry White, of New York, secretary of the National Garment Workers, and member of the executive committee of the National Civic Federation, held a long conference with President Mitchell during which the plan was approved by the miners' chief, and Mr. White will at once begin preparations to carry out the plan. President Mitchell wants it understood, however, that the miners' union will accept no aid until their own resources are exhausted. Mr. White came here authorized by several labor organizations. He says: "Mr. Mitchell says that before soliciting outside support the miners at work must take the example themselves and that the country has a right to know their earnings to sustain their fellow members in the hard coal fields who are fighting their common battle. This will be determined upon at the Indianapolis convention. Efforts will also be made to organize a movement among the unions and others may be prepared to collect funds when the time is propitious. Public men will also undertake an independent movement and receive subscriptions from those not connected with labor organizations. This movement will be organized in New York city and the labor organizations and sympathizers in all the principal cities of the country will be called on to appoint committees to carry on similar work."

All friendly newspapers will be asked to publish the plan and the organizers will also undertake an independent movement and receive subscriptions from those not connected with labor organizations. This movement will be organized in New York city and the labor organizations and sympathizers in all the principal cities of the country will be called on to appoint committees to carry on similar work."

"It involves the raising of a given amount of money each week with which provisions of other necessities will be purchased in New York city and the approval of President Samuel Gompers. The entire plan is contingent upon the Indianapolis convention of mine workers voting down a motion for a general strike, as in that event the strike would be lost and the miners' funds would be cut out of it as it would be out of the question to try to maintain the vast number of people who would be involved. The operators are counting on the means of the miners' cash becoming exhausted when it is demonstrated to them that the funds will be forthcoming the instant indefinitely prolonged, the situation will be changed materially."

Personally, Secretary White disapproves of the proposed general suspension of work, as well as of sympathetic strikes in general. On the other hand, he reports says: "Without notice to the commissioner or to the attorneys representing the Montreal jailer, who hold his appointment under the provincial authorities, within a few minutes after service of process had been returned to the miners by special train back to Quebec. As there were other judges at Montreal exercising habeas corpus powers and in such cases the Canadian laws give a judge in the district of Quebec no authority to bring a prisoner from Montreal on habeas corpus. It was believed that the Montreal court would have adopted so extraordinary a course without notice to parties in interest, except under high official pressure. The attorneys at that time appearing in the proceedings for the fugitives, and moving to have that done, understood among other things that Fitzpatrick, Parent, Tascheran, Rox & Cannon, which firm the Hon. Charles Fitzpatrick, Minister of Justice for the Dominion of Canada is a member of, which firm Mr. Cannon, son of the deputy attorney for the province of Quebec is a member of, which the Hon. B. N. Parent, Prime Minister for the province of Quebec is a member; also Mr. Honors Gervais, law partner of Hon. Mr. Archambault attorney general for the province of Quebec, also Mr. Chauveau, son of the extradition commissioner of Quebec."

Tragedy by Crazy Man.

Boston, Special.—At Roxbury, Tuesday Herbert Hill, 21 years of age, shot and killed his sister, Mrs. Alice Riley, and inflicted serious wounds on his mother, Mrs. Amelia Hill. This latter was struck in the back of the head apparently with the butt of a revolver. Hill is said to be demented and to have been under treatment for mental troubles from a specialist for some weeks. He is still at large.

Manila, by Cable.—A large body of Moros from Masau, island of Mindanao armed with 21 rifles, recently planned to ambush a pack train of the Lake Lanao column, but the Americans were warned in time, and anticipated the attack. One shell from a mountain gun dispersed the Moros. The Moros in the towns of Masau and Bacolod are growing more aggressive. General Chaffee has advised General George V. Davis to disregard the insulting letter received from the Sultan of Bacolod and to remain unresponsive unless attacked or in the event of an overt act being committed.

Five Telephone Men Killed.

In a negro funeral in Charleston the crowd rushed to get a look at the coffin and 20 persons were injured.

Whole Family Murdered.

Enid, O. T., Special.—Near Prudence, 30 miles southwest of here, the bodies of a man, a woman and two children, apparently members of one family, mutilated into almost unrecognizable masses, were found. The bodies had been stripped of all clothing, leaving no means of identification. It is supposed that the family were strangers traveling overland and that they were robbed and murdered by men who then made off with their team and belongings.

The Rev. Charles M. Sheldon, of Kansas, author of "In His Steps," denies that Miss Elizabeth Mayer, of Hiawatha, in that State is the heroine of his latest book, "Born to Serve." Nevertheless it is said Miss M. fitted the case exactly. Though the daughter of a well-to-do farmer, she worked her way through college as a domestic in a prominent Topeka family.

SOUTHERN INDUSTRIAL.

Helping the South.

(Charleston News and Courier). In an address delivered in Atlanta a few days ago Mr. R. H. Edmonds, editor of the Manufacturers' Record, made a strong plea for manual and technical education for Southern boys. He declared that unless the South develops its own limited facilities for the many white boys who would gladly avail themselves of the opportunity, it will be enabled them to win in competition with the technical experts of other sections. It would be a virtual surrender position to let a man equipped with the mauler-loader go to withstand an assault from one holding a position naturally weaker, but equipped with the repeating rifle and the breath-taking cannon.

General Industrial Notes.

The annual meeting of the Alabama Commercial and Industrial Association will be held at Gadsden July 9 and 10. Among the topics to be considered will be a business view of Alabama's new constitution, a technical school for Alabama, municipal problems and reforms, insurance rates and risks, diversification of industries, plantation life in Alabama, an Alabama exhibit at St. Louis, and river and harbor legislation. The association is composed of various commercial clubs and has worked systematically to increase its usefulness to the business men of Alabama. Mr. W. P. Lay, of Gadsden is president, and Mr. L. L. Gilbert of Montgomery, is secretary and treasurer.

Hugo Pizzoli, United States consul at Turin, Italy, is in this country trying to negotiate the delivery of a 600,000 tons of bituminous coal for export to Italy. It is thought in New York that the coal may be bought in Alabama.

WHOOPEE!!

"There is more brains and character in this convention," said Mr. Cameron Morrison, "than in the whole Radical party of North Carolina."—*Monroe Journal*.

The above contains much truth, and we will try and show our readers wherein it's the truth. "There is more brains" in the Democratic party to concoct false issues to mislead the people; "more brains" to organize Red Shirt brigades; "more brains" to stuff ballot boxes; "more brains" to count more votes in Halifax County than there were registered voters, and thus make Halifax County, with only about 2800 whites of voting age, and 4300 negroes of voting age, the banner Democrat county of the State, thus giving Mr. Aycock 4318 votes, for Governor, and giving Halifax 44 votes in the convention. Just to illustrate, Davie county has about 2300 whites of voting age, Halifax cast 44 votes in the State Convention at Greensboro, and the White County of Davie cast 6. Why certainly it's got brains—it takes brains to do such things as count the negro vote for the Democratic ticket, and yell negro domination at Republicans.

New as to character, we have seen that a party that can be its brains in committing fraud, stuffing ballot boxes, shooting negroes, rotten-egging white men, and committing perjury in securing a election returns, naturally according to all law, human and Divine, has a great moral character, which it would be foolish and absurd, for a Republican to call into question. Character, why certainly, a great character have they.

Now who is Mr. Cameron Morrison anyhow? Up to 1898, if we are correctly informed, he belonged to the Republican, a no brain character party; that year he joined the Red Shirt Democracy, and at once marvelously absorbed both brains and character, and forthwith became a great man and a leader of Gods chosen people. He Red Shired Richmond County into the Democratic column, and in 1890 handed himself into a seat in the Legislature, and in 1902 very nearly got himself nominated by the Divine rulers for Congress. We congratulate the Republican party for getting rid of such brains and character as is possessed by Mr. Cameron Morrison. It don't need automatic vote counters in its ranks, if it expects to have even a little character left.

The Republican party should thank God, and congratulate itself for the loss of the brains and character carried to the Democratic party by Cameron Morrison, the mighty. Great sakes alive, what a loss, and how will it make out in the future, time only can disclose. Here we go Mr. Morrison, can't you head us?

We extend our congratulations to the Democratic party upon the acquisition of the brains and character of the Republican party, carried over in a body by Cameron Morrison.

INTOLERANCE.

You cannot fool the public eternally and forever. There must be charity, forgiveness and tolerance as well as religion.—Greensboro Record, Dem.

Nothing we have seen lately in a Democratic paper struck us so forcibly as the above. At no time in the history of our country was there such a display of the spirit of intolerance as for the past few years. It has entered the church, and is sapping its power for good. The Amen Corner, brethren, cannot tolerate a man unless he is a Democrat. Some of the preachers are so infested with it, that their religion has been lost sight of, and their influence for good destroyed. They have forgotten the Biblical injunction—"Keep your selves unspotted from the world," "Love one another," &c, and are so intent on keeping on the good side of their Democratic brethren that they cannot tolerate a Republican, unless he has a good bank account. As for us, we want nothing to do with such people. We know what the Bible teaches, whether we belong to a church or not, and people who can not treat those who differ with them with ordinary courtesy, in everyday life and intercourse can go to heaven, if they can in their own way; as for us, we will take to the woods. Our opinion is, simply this, Where there is no charity and tolerance, there is no religion, and all the preachers in the world could not convince us to the contrary. "Nero fiddled while Rome was burning."

DEMOCRATIC STATE CONVENTION.

The convention which assembled in Greensboro last week did what the Bosses decreed, nominated Judge Clark for Chief Justice almost unanimously. Judge Connor and Mr. Walker were nominated for Associate Justices, Mr. Beddingfield for Corporation Commissioner, and Mr. Joyner for Supt. of Public Instruction.

If all is true, that has been charged by the Democrats Judge Clark is unfit to sit upon the bench and should have been defeated, but the Machine no doubt was under obligations to him, for the part he played in the recent campaign, and for his assistance in the impeachment of the Republican Judges, and no doubt in our mind that what Judge Clark held a card up his sleeves, which the Machine did not want him to play at this time. We personally are glad that Judge Brown was not nominated. From the report of the convention read in Democratic papers one would think Maj. Steadman's estimate of the crowd pretty good, cursing, and passing the lie were favorite expressions. Boss Simmons speech, they say fell flat, when he suggested another campaign on the "nigger" issue. His explanation of the management of the Democratic administration, which has collected about four hundred thousand dollars more taxes than collected by Republicans, and has had to go to New York and borrow two hundred thousand dollars is alarming, and shows the people what they may expect if the Democratic party is continued in power in this State. A change is badly needed, and if all signs do not fail, Republican success is assured. From all accounts, there were nearly as many people in attendance at the Republican-convention at Wilkesboro as at Greensboro. All we ask is a fair election with all fraud eliminated, and we will be content. Let Republicans do their duty and victory is assured.

THE DEMOCRATIC CONVENTION.

Our attention has been called to a protest signed by the Ministers of Greensboro, published in the Charlotte Observer of the 18th.

It seems that Maj. Steadman's estimate of the crowd was anticipated by the city fathers suspending the ordinance requiring the saloons to close early, and the city fathers extended the hour to 12 o'clock mid-night, and left it open for the Republican Convention also which assemblies on Aug. 28th. We hope Senator Pritchard and the Republican State Executive Committee will notify the city fathers of Greensboro, that, the usual hours for closing the saloons will be acceptable to them, and that we do not desire an extension of the closing hours for the benefit of the Republican Convention. Maj. Steadman's estimate of his own convention "bringing peanut politicians, mean whiskey and tobacco to town," we hope will not apply to the State Republican convention. The Democratic party claims to contain the wealth and intelligence, but from all accounts of the recent Democratic Convention it was a howling mob, too much intelligence stimulated by mean whiskey must have gotten in its work, from Democratic accounts of the convention. We will appreciate all the courtesies the good people may see proper to extend to us on Aug. 28th, but close your saloons as usual gentlemen, we can get all we may need at the usual hours, and we hope none will get too much on that occasion. We are going to meet there as a deliberative body, to put up a good ticket, and one which the people of North Carolina will elect, and we will need cool heads, and a wise determination to do that which will redound to the best interests of the people, and the Republican party. We know some things about the generous hospitality of the good people of Greensboro, for we have been there, but we decline with thanks this 12 o'clock mid-night extension, and request the city fathers to leave it open for the next Democratic Convention, if they desire.

THE STATE TREASURY BANKRUPT.

Mr. Simmons in his speech to the Democratic convention at Greensboro last week, informed that the State treasury had run short, and that the State of North Carolina had borrowed two hundred thousand dollars from New York to meet the deficit. After taxing everything in sight, and some things two or three times, and raising about a half a million dollars extra, our State is bankrupt. Mr. Simmons cannot lay this extravagance on their part, on anybody but the Democratic party. New offices created with big salaries, impeaching the Republican Judges, appropriating the taxes to defend indicted Registrars and many other useless and extravagant expenditures which we will touch upon later on.

DEMOCRATIC EX-GOVERNOR BECOMES A REPUBLICAN.

Clarksburg, W. Va., June 28. Ex-Governor William A. McCorkle, of Charleston, has turned his back on the Democratic and will hereafter espouse the republican cause. He was governor of this State from 1893 to 1897, and was elected by the democrats. In Pittsburg a day or two ago he said: "Give me no more Democratic administrations. I've had enough of them. Republican power has brought my state the greatest era of prosperity it has ever experienced. Everybody who wants work can work, and those who have money are getting good returns on their investments. I hope there will be no more democratic administrations. They always cause a fear of upsetting things and somebody is generally the loser. The recent Republican administration has brought about confidence and prosperity. My state, of which I am proud, is keeping in line, and is well up in the procession of business and general prosperity, which I sincerely hope has come to stay. West Virginia is now solidly republican, and I believe will stay so."

WIFE'S INGENUITY.

Saves Her Husband. The author of the "Degeneration of Dorothy," Mr. Franklin Kinsella, 226 W. 25th St. New York City, was the victim of a little by play—but he can best tell the story himself. "I must confess that I have been the victim of an innocent deception which turned out all for the best, however."

I had been resting under the belief, for some years, that coffee served as a lubricant to my cerebral convulsions, in other words, "made the wheels go round," and I had an idea that I could not work without it as a stimulant. I soon paid the penalty in nervousness, loss of flesh, insomnia and restlessness, none of which troubles would yield to any or all medicines. I finally got in rather a bad way and my wife took a hand in the affair all unknown to me. She purchased a package of Postum Coffee and first gave me one half Postum and one half coffee. In a little time she had me down to clear Postum, and I was none the wiser. I noticed that I was getting better, my nerves were steadier, and I began to gain flesh and sleep nights. My work was performed far better than in my old condition. Commenting upon my improved health one morning I was told the truth. "Tis to laugh," so I submitted gracefully and joined the Postum ranks. Experience teaches that boiling is half the game. When the directions are carried out the result will be as fine as a cup of rich, fragrant coffee as ever delighted the senses without ruining the nerves."

BARRELS OF MONEY

Staring Figures Showing Wealth of Steel Combine.

MANY MILLIONS IN ASSETS

Big United States Steel Corporation Gives Out Figures That Show Its Enormous Wealth.

Newark, N. J., Special.—The answer of the United States Steel Corporation to the suit brought by J. Aspinwall Hodge, Wm. H. Curtiss and Bernard Smith, who asked for an injunction to prevent the company from carrying out its bond conversion plan, was filed Tuesday, before Vice Chancellor Foley. The case was put over until July 23. The answer was sworn to by Chas. M. Schwab as president.

"The assets of the properties of the subsidiary companies, it is stated, included 400 producing mills of the value of \$300,000,000; 75 blast furnaces of the value of \$48,000,000; iron and Bessemer ore properties of the value of \$70,000,000; coal and coke properties of the value of \$100,000,000; natural gas fields of the value of \$20,000,000; cash in bank to the amount of \$66,000,000 and over \$80,000,000 of material in process of manufacture. The total value of the company's property, including cash and cash assets, is placed at \$1,400,000,000 by Mr. Schwab in an affidavit which is part of the corporation's reply. The company's earnings are stated to be at the rate of more than \$140,000,000 a year. A saving of \$30,000,000 a year is credited to the ore properties and it is estimated that the ownership of transportation facilities saves the company \$10,000,000 annually. The earnings of the coal and coke properties are stated to be more than \$1,000,000 a month. The statements as to values and earnings were presented to disprove a charge by the plaintiffs that Mr. Schwab, the president, and Mr. Trimble, the secretary, made a false certificate when they certified that in their judgment, the properties were worth at least the par value of the preferred stock after deducting all indebtedness.

The conversion plan was agreed upon at a stockholders' meeting May 19. The answer admits that the conversion plan included \$300,000,000 of stock owned by P. Morgan & Company. It denies that any of the acts contemplated will work fraud or injury to the complainants, but says that on the contrary such acts when consummated will be greatly to the benefit of the corporation and to the benefit of every shareholder. It says that some of the directors are members of the syndicate formed by J. P. Morgan & Co., to float bonds and that that fact was conveyed to stockholders in a circular dated April 17, 1902. It is further declared that the directors so interested constituted a minority of the board of directors, that they were individually at the time of the formation of such syndicate and now are owned by holders of large interests of the stock of the defendant corporation, and that they became parties to said syndicate and assumed their proportion of the liability thereof in order to assure the success of the plan of purchasing and retiring the preferred stock, as they believed such plan to be of great value to the defendant corporation and its stockholders.

Mr. Schwab's answer contains the following statement of the value of the corporation's property which estimate he says he regards as below its real value: Iron and Bessemer ore properties \$700,000,000; plants, mills, fixtures, machinery, equipment, tools and real estate \$300,000,000; coal and coke fields (87,889 acres) \$100,000,000; transportation properties, including railroads, 1,467 miles, terminals, docks, ships, (112) equipments, (23,185 cars and 428 locomotives) etc., \$80,000,000; blast furnace \$48,000,000; natural gas fields \$20,000,000; limestone properties \$4,000,000; cash and cash assets \$66,000,000. Total \$1,418,291,000; total \$1,400,291,000.

Earned By a Mob.

Clayton, Miss., Special.—White Miss Tucker, a highly connected young lady, of this section, was riding in the country Wednesday, she was assaulted by a negro. She was so violently pulled from the buggy that both her legs were broken, and she now lies at the point of death as a result of her injuries. The negro was soon captured and held by a posse of citizens, but they were unable to protect him, and he was taken from the people, saturated with oil, tied to a tree and burned.

Torpedo Boats Have Mishaps.

Norfolk, Special.—The torpedo boat Biddle ran aground near the Rip Raps last night and remained in a helpless condition until floated Thursday morning by the government tug Mahawk. The Biddle, apparently uninjured, then proceeded out the capes. The Barney, another torpedo boat, met with an accident to her propeller and probably will have to be docked.

GREENE SUBMITS AFFIDAVITS.

He Says That Erwin Wanted Five Hundred Thousand Dollars.

Quebec, Special.—Friday's proceedings in the Gaylor-Greene case consisted principally in the filing of affidavits and depositions. It was only a short time before the judgment of the court that Mr. McMaster of the prosecution, made his argument on motions to quash habeas corpus writs issued by Judge Charon, on June 20th, last. The proceedings were opened by Mr. Tschereau, counsel for the prisoners, who produced affidavits of Benjamin D. Greene that on May 17 Mr. Erwin called on him at the Windsor Hotel, Montreal, when Erwin said to Greene: "If you will pay \$500,000 to settle the whole matter, I will go at once to Washington and advise its execution."

Greene replied that he could not stand that, because he had not money enough to pay his half of the amount, but that Erwin said: "Gaylor has enough, I don't know where it is, but he has it."

"If you will say \$200,000 I will talk with Colonel Gaylor about it," Greene said.

Erwin replied, the affidavit continued: "That will not be enough."

Greene then added: "What do you think of \$300,000?" He said he didn't think of it, but he thought he would go through the rest of your life hunted wherever you go, and you must remember that if you are extradited and are in Georgia it will be to take a settlement. "Well, any amount you don't know how we can pay any money because that would be an admission for that part that we have received money wrongfully, and that we have not done."

Mr. McMaster read an affidavit signed by Mark Erwin, in which he denied the allegations contained in the affidavits of Mr. Greene and Mrs. Gaylor. Regarding the interview between Greene and himself, Mr. Erwin stated that on his return to his room in the Windsor on the afternoon of May 17 he found a note there in which he recognized the handwriting of S. R. D. Green, which note was as follows: "If you can call to see me at any time today, you will do me a great favor."

The original of this note is in possession of Mr. Erwin and was shown to the court. Mr. Erwin then requested permission to go to the room of the defendant to see the note and the latter opened the conversation by saying that while he knew that Erwin had been prosecuting him vigorously for over two years, he wanted to thank him for having always treated him with general consideration. He then asked if the extradition proceedings at Montreal proceeded for any length of time it was probably he might desire to give bonds on forfeited recognizance which he said were secured by assets put up by Gaylor and himself with the sureties. Mr. Erwin then stated that he must carry with him the dismissal of the criminal proceedings. I replied that if there was no law for settling the criminal case, but that if he made restitution of the government's actual loss, I did not know what view of leniency might be taken by the government. A gentleman in the matter and the amount he offered in settlement of the government's civil claim was not sufficiently large for me to recommend to the Attorney General. The other affidavits practically contain the same statement as that mentioned this week in Mr. Erwin's reply to Mr. Tschereau's statement.

Erwin's affidavit contained the substance: "I called his attention to the fact that he and Gaylor had already forfeited bonds in the sum of \$400,000 each. He replied that he had left the United States because he had received never to be put in jail or convict; that he had come to Canada with the expectation that after a year or two his friends in the United States would effect a settlement of the civil claims of the government against him and then he would return to his home in the United States. He said that he had not given his personal word that he would not run off from the prosecution, but he would pledge me his word of honor that if I would agree to his giving bond before Judge LaFontaine he would not run off. He then referred to the fact that the government had already tied up by civil proceedings half a million dollars of assets, of what the government claimed was O. M. Carter's share in the fraud and asked me what was the exact amount the government claimed, that he and Gaylor had received as their share. I replied that he claimed that he and Gaylor had received \$1,400,000 as their share in the fraud. He replied that he was in no position, and had not sufficient means, to meet such a claim, but that he and Gaylor would refer to pay the government \$300,000 in liquidation of the entire litigation to include the \$50,000 claimed on forfeited recognizances."

Many Carpenters Strike.

Jacksonville, Fla., Special.—Twenty-two hundred union laborers in all branches of the building trades went out on a strike Friday, because the contractors refused to accede to a demand for an eight-hour day. Practically all building operations are temporarily suspended. A mass meeting of several hundred labor men was held in the open air at night addressed by prominent union men. The strikers were urged to obey the law and abstain from dissipation and violence. At a meeting of the Central Labor Union a general strike of all organized labor was discussed, but no definite action was taken.

Fatal Street Duel.

Metropolis, Ill., Special.—In a duel on the street Ben Faughn, of Metropolis, was shot and killed by Jas. P. Abbott. Abbott made several remarks to ladies in a hotel against which Faughn remonstrated. Abbott is now in jail. Intense excitement prevails and a lynching is momentarily expected. Faughn was a Knight of Pythias and a semi-professional baseball player.

Coronation August 9th.

London, By Cable, Special.—An official notification was issued Friday morning that by the King's command the coronation of King Edward and Queen Alexandra will take place August 9. Rehearsals of the procession from Buckingham Palace to Westminster Abbey took place and the officials of the various State Departments concerned in the abey ceremony are again busy with preparations for the crowning.

Fighting the Cholera.

Manila, By Cable.—The municipal health board of Manila has decided to remove 40,000 natives from the slums to suburban camps in an effort to check the spread of cholera here. The object is to clean and disinfect the disease centers. The camps will be sanitariously conducted. The municipality rents the ground, builds the camps and feeds the indigent persons.

Destructive Floods.

Keokuk, Ia., Special.—Heavy rains in central Iowa are sending a flood on the prosperous Missouri farms which will ruin many of them and cause losses, aggregating at conservative estimate, \$2,500,000. There seems to be no hope tonight for the country between the Mississippi river and the Missouri bluffs between Keokuk and Hannibal, 300 square miles, mostly corn laid by with some thousands of acres of wheat in the fields.

Ordered to Porto Rico.

Wilmington, Special.—The United States revenue cutter Algonquin, for the past two and a half years on this station, has received orders transferring it to Porto Rico. The vessel sailed at once for Baltimore to have an ice plant installed and a new ventilating system put in preparatory to departing for Uncle Sam's new possession. Just before the Algonquin sailed this afternoon a few of her sailors deserted on account of not caring to go to Porto Rico. It is understood that one of the new revenue cutters now building will be sent to this station when completed next fall.

KILLED BY BOILER EXPLOSION.

Serious Accident Caused by Explosion of Engine.

Washington, Special.—H. C. Carter, of Fairfield, Hyde county, brings the news of a serious accident on Mr. C. Simmons' farm Friday, as the result of which a negro was instantly killed and Simmons' two sons barely escaped. Simmons was engaged in threshing oats on the farm and had to return home upon an errand. While away he left the engine in charge of Henry Morris, colored. From some cause the water was out of the boiler but the steam showed it to be filled, though the cocks closed to work. The negro found out the mistake too late. He attempted to fill the boiler with cold water, causing it to explode, scattering pieces over the farm. Morris was knocked over sixty feet, and instantly killed. Dennis Simmons, aiding his father, was knocked down and into a ditch, completely covered with wood, and also burned badly but not enough to disfigure him. His escape is miraculous. Enoch Simmons, the youngest son, was knocked out of the table where he was feeding a threshing, but not hurt. If Mr. Simmons had been a few minutes earlier returning to the engine from home he doubtless would likewise have met death. Simmons is one of the first citizens of Hyde county.

Pou Renominated.
Raleigh, Special.—The Democratic congressional convention of this district met at noon Tuesday in the city hall. It was called to order by James Richard, the district chairman, and it was orally representative body. James B. Phillips, of Nash county, was made president of the convention. Ex-Congressman B. H. Bunn placed in nomination Edward W. Pou, and the latter was renominated by acclamation, amid some cheering, and he was gratified. Bunn's nominating speech was a capital one. So was Pou's acceptance. Bunn brought out the fact that two years ago Nash was the only county in the district which had no solid vote.

The convention adopted resolutions expressive of great satisfaction at the course of North Carolina's congressional delegation, and particularly Senator Simmons and Congressman Pou. A resolution was also adopted expressing a gratification at the franchise amendment and pledging all efforts to maintain it against secret assaults as well as open ones.

Engineer Killed.
Raleigh, Special.—Barly Tuesday morning, Engineer James R. Watson, of the Seaboard Air Line, whose home was here, was instantly killed, and in a rather singular manner. A car loaded with lumber broke loose from the yards and ran about three miles north. Engineer Watson was going north with a passenger train and ran into the car. One of the pieces of lumber, passed through the cab and broke Engineer Watson's neck. The timber then lodged on the tender. The front of the engine was twisted and broken. Engineer Watson was about 45 years of age and leaves a wife and several children. His wife very recently urged him to give up railroad work and he promised to do so soon. There was a rumor regarding the cause of the accident, that the yard master thought he had found all of them, but that the one which killed Watson went further than any of the others.

Kitchen Renominated.
Greensboro, Special.—The congressional convention of the fifth district Monday evening, elected by acclamation, by clamation to succeed himself, and elected the following members of the district executive committee: J. C. Buxton, of Forsyth; Elias Fulp, of Stokes; E. D. Watt, of Rockingham; A. L. Brooke, of Guilford; R. A. Freeman, of Alamance; D. B. Nabers, of Caswell; A. E. Hughes, of Orange; P. C. Graham, of Durham; C. B. Wilson, of Person; W. H. Harris, of Granville.

Stirring speeches were made by Messrs. Buxton, Fulp, Watt and Freeman. The judicial convention of the ninth district immediately convened on the adjournment of the congressional convention and nominated A. L. Brooks by acclamation to succeed himself. He also made a warm speech.

Short Term of Court.

Albemarle, Special.—The shortest term of court ever held in Stanley was in session just two hours Monday. It is the regular time for holding the July term for the trial of civil cases only. Judge Walter H. Neal arrived on the noon train, called the court at 1:30 and adjourned the term at 1:30. Not a single case was heard, the entire docket being laid over until next term. Part of the practicing attorneys are in the throes of a political fight, the sheriff is also opposed for the office.

He Expelled Himself.

Richmond, Special.—The General Assembly convened for the first time under the new constitution. The only member of the assembly who refused to take the oath of office was a member of the House of Delegates from Mecklenburg, to take the oath to uphold the new organic law. When the Speaker, acting under a resolution, called upon the members to rise and take the oath, Mr. McClanahan rose and said: "I will never take that oath. There is no power to compel me to do so. I emphatically refuse." He then gathered his papers together and departed from the capitol. Under the constitution his seat is thus vacated. The members of the Senate took the oath individually.

To Go to Mobile.

New Orleans, Special.—It has been learned here through officials of the Louisville & Nashville that the office of Mallory Steamship Line will shortly be removed from Galveston to Mobile. This is said to be the result of the removal of the Southern Pacific's through freight business from Texas points from Galveston to Mobile. The Mallory people are understood to be opposed to competing with the Southern Pacific with Galveston as the Southern port of both lines.

King Edward Afloat.

London, By Cable.—King Edward left Victoria station at 11:30 o'clock Tuesday morning for Portsmouth to board the royal yacht Victoria and Albert. With Queen Alexandra he was conveyed from Buckingham Palace to the railway station in an ambulance drawn by two horses. The vehicle was driven at a walking pace. There was no demonstration on the arrival of the ambulance and a party blue jackets removed the King to the royal saloon car, formerly used by the late Queen Victoria.

Fatal Race Riot.

Columbia, S. C., Special.—In a riot between whites and blacks at Orangeburg, in which guns and pistols were freely used, Isaac Smith, colored, was killed and several others wounded. It is said the negro was a non-combatant. The exact cause of the trouble is not known.

Ey Wire and Cable.

A \$100,000,000 tobacco company, to compete with the American combine, is said to be forming in London.

A Keokuk Iowa dispatch says: "Another ford has come and caught everybody by surprise. The levee of the Keokuk Cannanng Company broke and 1,000 acres of cucumbers and tomatoes and 2,000 acres of corn were flooded. The loss of the farming company is said to be \$10,000 and to farmers twice as much more."

Ordered to Porto Rico.

Wilmington, Special.—The United States revenue cutter Algonquin, for the past two and a half years on this station, has received orders transferring it to Porto Rico. The vessel sailed at once for Baltimore to have an ice plant installed and a new ventilating system put in preparatory to departing for Uncle Sam's new possession. Just before the Algonquin sailed this afternoon a few of her sailors deserted on account of not caring to go to Porto Rico. It is understood that one of the new revenue cutters now building will be sent to this station when completed next fall.

TOWNS DESTROYED.

Furious Storms Devastate Section of The Northwest

GREAT DAMAGE FROM A TORNADO

Many Lives, It is Thought, Were Lost in The Northeastern Portion of North Dakota.

St. Paul, Special.—Tremendous damage, and it is thought great loss of life, were caused by a tornado which Tuesday night swept in a southerly direction from the boundary across the northeastern portion of North Dakota. Three towns, according to reports, were totally wiped out and wrecked and there is no communication with the section of the State where the most serious devastation is thought to have been worked.

The little town of Borup, on the St. Vincent line of the Great Northern, was an absolute wreck. The final report was that the entire town was wiped out and hardly a structure of any sort left standing. The report from Borup came in very soon after the storm struck and contained no information as to the casualties. With other fragments of reports that the towns of Eldorado, about seven miles from Grand Forks and Thompson, between Grand Forks and Larimore, had been destroyed. At Thompson a confused mass of wreckage directly across the main line. Stores and residences are in ruins and the main portion of the town is wiped out. The population is about 200.

A fragment of confirmation from Eldorado, but these indicate the destruction of that town of about 250 people. Neither of the reports from Thompson or Eldorado speak of loss of life. This is partially accounted for by the fact that they were obtained before the reports had been received from the outlying districts. The reports indicate that the tornado developed southwest of the Lake of the Woods county and took a course down across the northern portion of the State, traveling toward the east. It seems to have been unusually wide and the effects of the storm outside its primary line unusually severe.

The Northern Pacific is unable to gain the slightest information over its wires from the stricken district. Lines and relief trains have been started from the stricken district.

Barly Wednesday morning what is thought to have been the edge of a tornado struck St. Paul. Its onslaught was sudden and fierce, high winds and a rain of hail being the predominant feature. No reports from Minnesota indicate any serious storm damage, the destruction being apparently confined to North Dakota.

The following St. Paul special has been received: The blizzard here and Grand Forks, N. D., Grand Forks was between two storms, both of which were of terrific violence and the outer edges of both of which passed over the city. The two storms traveled in parallel directions and the latter, which was the more powerful one, was about 10 or 15 miles apart. Their course was southerly. A heavy fall of small hail stones came with the first and the second the ground was covered with stones measuring two inches in diameter. Many crops are ruined and damage done has been done by the wind. The depots at Eldorado, Thompson and McDonalds were blown away. Thompson is badly wrecked and numerous farm buildings destroyed. In Meckintosh, Gibbs, Conway and other towns north and west great damage has been done. It is reported to have destroyed thousands of acres of grain and to have done considerable damage to property in eastern North Dakota and western Minnesota. The storm continued south and east, crossing the Red River and doing damage along the Winnipeg line of the Northern Pacific. Union, recently visited by a storm, was again a sufferer. At Borup several buildings were damaged and two miles from Lake Park, on the main line of the Great Northern, there was a passenger car in which there were several stock men, was blown from the tracks. The occupants were not seriously hurt. Between Lake Park and Glen a family was reported to have been killed. Many farm buildings in northern Minnesota were destroyed, and some domestic stock killed. The wheat was just heading and is so luxuriant in growth that the plant is badly tangled, but it was estimated last night that the crop was about a Barley and early oats were almost ripe and those crops will be a total loss wherever the storm struck.

Textile Notes.

Announcement of the Ninety-Six Cotton Mills of Ninety-Six, S. C., was fully made recently. J. E. Sirmire, of Greenville, S. C., architect and engineer in charge of the building, let contracts for all buildings and machinery required. The equipment will include 10,000 spindles and 250 looms, manufacturing about 4,000 pounds of fine sheeting daily; 150 operatives employed.

Union Cotton Mills, Inman, S. C., has completed the building and is rapidly installing equipment of textile machinery. There will be 2,000 spindles and 450 looms, all driven by electricity. The investment is \$50,000.

Union (S. C.) Cotton Mills has declared an annual dividend of 2 1/2 per cent. on common stock, which amounts to \$21,000. Lockhart Mills of Lockhart, S. C., has declared a semi-annual dividend of 3 per cent., amounting to \$12,000.

H. C. Townsend Cotton Mill of Anderson, S. C., reported at length last week, that it expects to double the plant before the year expires.

Spalding Cotton Mills of Griffin, Ga., has declared a dividend of 10 per cent. on its surplus fund.

It is stated that a Philadelphia syndicate will invest \$1,000,000 in the establishment of a knitting plant for the production of hosiery and underwear at West Point, Va. Names of the interested parties have not been announced as yet, but it is known that plans and specifications for the mill and equipment are being prepared. The two main buildings will be 50x230 feet and 50x210 feet each, boiler horse-power boilers. The machinery will be driven by electricity. Paper boxes in which to pack the product will also be made. West Point investors will also be interested.

Plans and specifications have been completed of mill building for Pell City (Ala.) Manufacturing Co., fully reported several months ago. The structure will be of brick and concrete, one story high, 224x540 feet, and an equipment of 12,000 spindles and 250 looms is proposed. The Ramsey-Reilly Engineering & Construction Co., 2024 First Street, Birmingham, Ala., has charge of the erection of this \$500,000 plant, and is asking bids on the erection of the building.

Coolesmee Cotton Mills, Coolesmee, N. C., has appointed Jas. E. Corman superintendent of its plant. Mr. Corman retires from the superintendency of Hickman Mills at Graniteville, S. C. E. W. Thomas, present general superintendent of the Coolesmee Company, will assume, in addition to his former duties, the duties of J. H. Webb, retiring secretary treasurer.

Probably 200 miners were killed by an explosion of fire damp in the Rolling Mill mines of the Cambria Coal Company at Johnstown, Pa. Poisonous gases have prevented the rescue of any of the entombed miners.

SOUTHERN INDUSTRIAL

For North Carolina.

Just before the adjournment of Congress Hon. John H. Small of the first district of North Carolina submitted, under the rules of the House of Representatives, some remarks which ought to have a wide influence upon the welfare of his State. The remarks were quite extended and were a splendid description of the resources of North Carolina. With a great deal of pains Congressman Small had gathered and arranged in an attractive and comprehensive form an array of facts about the climate, the people, the agriculture, the manufactures, the forest, mineral and timber resources, the fisheries and the educational conditions in the State. Circulated ready in the Congressional Record in the report of the committee on the State where the most serious devastation is thought to have been worked.

The Little town of Borup, on the St. Vincent line of the Great Northern, was an absolute wreck. The final report was that the entire town was wiped out and hardly a structure of any sort left standing. The report from Borup came in very soon after the storm struck and contained no information as to the casualties. With other fragments of reports that the towns of Eldorado, about seven miles from Grand Forks and Thompson, between Grand Forks and Larimore, had been destroyed. At Thompson a confused mass of wreckage directly across the main line. Stores and residences are in ruins and the main portion of the town is wiped out. The population is about 200.

Industrial Miscellany.

It is announced that the Thompson Lumber Co. of Grand Rapids, Mich., has acquired possession of some valuable real property in Mississippi, together with about 23,000 acres of fine timber land. The saw mill property is located at Boyce, on the Yazoo & Mississippi Valley Railroad, about 129 miles south of Memphis, Tenn. The mill has a capacity of 65,000 feet of lumber a day. The purchase was made by Mr. B. H. Thompson, a member of the company, from the bank at Friar's Point, and the transfer has been legally completed.

The transfer of the property of the Refuge Oil Mills at Vicksburg, Miss., to the Southern Cotton Oil Co., was effected last week. The Southern now owns four mills in Mississippi—the Refuge at Vicksburg, the Columbus Cotton Oil Co. at Columbus, the Planters' Mill at Greenville, and the new mill now building at Kosciusko. The management of all these mills will be under Capt. E. M. Durham.

One day last week there arrived at New Orleans a train of forty cars loaded with 15,000 barrels of flour from Minneapolis, Minn., and the next day a train of thirty-five cars, 2,100 tons of tobacco, arrived. Both trains were intended for export.

J. J. Feliter, of Ravenna, Texas, has written to the Manufacturers' Record that he is anxious to interest outside parties in building and equipping a \$200,000 cotton mill in his town, Navasota to substitute \$100,000 and the outside parties \$100,000.

It is announced that the Fruit Dispatch Co. of New York, which controls ninety-three foreign and passenger steamers, has established a line between Central America and Charleston, S. C., the first vessel of which is to arrive this week.

The Pechontas extension of the St. Louis, Memphis & Southern Railway has been opened for business. It is about forty-two miles long.

Figured Lawns going cheap at the RED FRONT. The Record until Dec. 1st for 25 cts CASH.

Sullivan Booe of Walkertown is visiting relatives in town. It will pay you to see our special bargains in shoes and slippers.

Mr. M. R. Chaffin of this place showed us an almanac last week, published in 1839—53 years ago. "BLUE BIRD" FLOUR 22.20 per 100 lbs., at Swink & Deadman's, Cooleemee, N. C.

Miss Lizzie Crump, of Salisbury, who has been visiting Miss Laurel Sanford, has returned to her home. Lawns and Dimites are going to sell regardless of price while they last. Williams & Anderson.

Don't forget the Baptist Orphanage picnic July 31st. It's a worthy cause, and all who can should patronize it. Hon. Chas. Price of Salisbury, was elected President of the State Bar Association, which met at Asheville recently.

The town has widened the street leading out to the Poor House, and it improves the looks of things in that part of town very much. Mr. Jas. Call who lives near Mocksville, was in town Saturday with 15 turtles, says he has caught 40 odd in 3 days. He is a pretty good turtle catcher.

Children's Day exercises will be held at Oak Grove Church next Sunday. Preaching will be at 11 in the morning. Public are cordially invited. The protracted meeting at Center Church will begin on Wednesday Aug. 6th and continue until the 15th, services on Sunday 11 o'clock a. m. instead of 9:30.

Chief Justice D. M. Furbush spent a portion of Tuesday in Mocksville on his return home, after a visit of several days among relatives in the Farmington neighborhood.

The Republican State Convention will meet in Greensboro Aug. 28th and will nominate among others, a man who will put the fixings on Judge Clark.

The Raleigh Press is eating its crow in fine style—no paper, has made a more bitter fight, and showed up Judge Clark in his true light as has the Post, yet it's "give to vote for him. We could not do it.

THE BEST PRESCRIPTION FOR MALARIA. Chills and Fever is a bottle of Grove's Tasteless Chill Tonic. It is simply iron and quinine in a tasteless form. No cure—No pay. Price 50c.

C. C. Williams of Redland was in town Saturday.

Miss Myrtle Wilson, of Winston, is visiting friends here. County Commissioners were in session Monday, settling with Co. officers.

Senator Pritchard will open the Campaign at Pittsboro, Chatham County, on Aug. 5th. See call for Republican Senatorial Convention for this district, at Yakinville, Monday Aug. 4th.

Collector Harkins has recommended the appointment of G. W. Sheek of this place for Brandy Gauger. Republican Congressional Convention for this district will meet at Lexington August 27th to nominate a candidate for Congress.

J. F. Kurfess and wife of Louisville, Ky., who have been visiting relatives in the County left on Monday evening train for their home. Miss Jessie Loyd of Va., Miss Annie Hobson of Jerusalem, and Miss Kate Hobson of Cleveland spent Friday with Mrs. E. H. Morris.

The foundation has been laid for a splendid school building at Cooleemee. The Managers are to be congratulated for the interest taken in the education of the children. WANTED 5 YOUNG MEN from Davie County at once to prepare for positions in the Government service—Railway Mail Clerks, Letter Carriers, Custom House and Departmental Clerks, etc. Apply to Inter-State Comm. Inst. Cedar Rapids, Ia.

Solicitor W. C. Hammers' fiasco at Salisbury has come to a conclusion. Wonder if it was necessary to suspend the investigations in order to get the usual Democratic majority in Rowan County? The Governor's \$400 reward and proper prosecution of the matter would no doubt bring results, but an election is to be held in November.

YOU KNOW WHAT YOU ARE TAKING. When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle, showing it is simple iron and quinine in a tasteless form. No cure no pay. 50c. Marse Glenn Williams made an assault on Hon. A. E. Holton in Winston last week. Marse Glenn has a reputation for fighting. We remember seeing him make an assault on Dr. Hunt in a Democratic convention at Salisbury several years ago; we hear that he once got on his horse and rode to a saw mill to whip the saw mill man, but left without doing any damage. He will strike a snag one of these days, and when it's over he will not look so much like a Methodist preacher.

A Good Family Medicine.

W. E. Lee Wilmoth, Top of Albemarle, West Va., writes: I have used Ramon's Liver Pills and Tonic Pellets for the past five years in our family. I do not hesitate to say that they are the best. They are mild in action, splendid in effect, besides being pleasant to take and requiring one only at a dose. To all who are unable to pay large doctor's bills I would say, always keep a box of Qamon's Liver Pills in the house to use in case of necessity.

MASONIC PICNIC.

The Masonic Picnic will be held at Mocksville, Thursday, Aug. 14th. Prof. Chas. Mebane will deliver the address, and Gen. Julian S. Carr will speak to the old Soldiers. Everybody invited to be present, and contribute to the orphans.

Doctors Failed.

J. Terry, of Turkey, Kentucky, writes: I have been a sufferer for fifteen years from troubles arising from a disordered liver, and all the doctors in the neighboring towns failed to do me any good. I thought I would try a box of Ramon's Liver Pills and Tonic Pellets. After using one half box I felt better and was soon permanently cured. I keep them in stock constantly since I discovered their valuable curative qualities.

GREAT TIME IN RALEIGH.

THREE DAYS OF SPLENDID PLEASURE AT FIREMAN'S TOURNAMENT, JULY 22-23-24.

Raleigh is getting ready for a magnificent time next week. The North Carolina's Fireman's Tournament will be held there on July 22, 23, and 24, and this means a series of thrilling events.

All the railroads give reduced rates. Raleigh will have its doors wide open and guarantee a jolly time to all. The five departments of over thirty-two towns will be here, and there will be excitement of all kinds—such as Steamer Contests, Hook and Ladder Contests, Hand Reel Races, Hose Wagon Races, Wheelbarrow Races, Individual Foot Races, Band Concerts, Grab Reel Contests, Great Base Ball Games. Three days will be filled with enjoyment, and big money prizes are offered.

At night there will be lawn parties and vaudeville. The city is very attractive now. Pullen Park and the Zoo draw crowds. A visit to the Capitol and to the splendid State Museum should not be forgotten. Remember the dates and go. President McNeill, of the State Fire Association, says this is going to be the greatest meeting yet held. The programme of the different events certainly promise great sport and enjoyment.

WHAT POLICIES DOES THE DEMOCRATIC PARTY REPRESENT?

The Kansas City platform was the last authoritative declaration of principles, and binds the organization until the next national convention shall take action. Its demands have been so discredited by events that several State conventions of the party have not dared to reaffirm them. In Tennessee, Missouri, Nebraska and Kansas, where the influence of Mr. Bryan is still paramount, they have been formerly approved. In Indiana, Illinois, Maine Georgia and Pennsylvania the have been ignored as too dangerous even to be mentioned. That they are not actually dead is demonstrated by the fact that they have in no instance been renounced.

In India "the quantitative theory" of money was pointed to which Gov. Hill says that Democrats are united, and as to this, he and Col. Bryan are agreed. They are in favor of allowing the Philippine Islands to secede and to set up an independent government. I had my eyes opened as to secession years ago as clearly as they have been later with reference to the matter of money. I believe in a Union "one and indivisible—now and forever," and am no more in favor of allowing the Philippines or Hawaii or Puerto Rico to kick loose from the United States than I would approve the withdrawal of South Carolina or Massachusetts or New Mexico or Arizona or Alaska.

If our institutions are good enough for Kentucky, certainly the Philippine Archipelago can stand them. I will vote for no man who proposes to surrender an inch of American soil. Our island possessions are invaluable to us, and Dewey was right when he told Senator Beveridge that he believed that God had directed him in sailing into Manila bay on that May morning four years ago. Manila is to be the great sample room and market place for our surplus products, designed for Asiatic consumption. Why should our farmers toil and our manufacturers spend their energies and capital in providing enormous supplies for foreign consumption if there are to be no buyers? England, Germany, France and Russia have depots or bases of supplies on the Chinese coast, and would have us absolutely fenced out of the Asiatic trade if we did not have the Philippines. Liverpool is the great entrepot of Europe.

Our surplus cotton, beef, pork, wool, wheat and corn are shipped there for distribution over Great Britain and the continent, and even as far as Northern Africa Western Asia. Manila will be the Liverpool of the Orient, and belongs to us, and will be invaluable in the trade movements of the future. There are 800,000,000 people—one half the population of the globe—whom we will reach directly or indirectly through our control of the Philippines, and yet the so-called Democratic party of Kansas City declared in favor of letting them go, and its Representatives in Congress, during the session just closed, repeated the folly—ought I not rather say, crime? And why? For no comprehensible reason save to oppose what the Republican Administration favors.

Through the same peanut idea of politics we lost Cuba, which will be of such strategic importance when the Isthmian canal is constructed. Can anybody name anything practical or patriotic of which the Democratic party is peculiarly the champion?

It says it is against trusts, but

name of the Democratic party.

The Bryan Democrats of New York in their platform also favored the initiative and referendum, which was endorsed at Kansas City under the name of "direct legislation."

Mr. Bryan, who is the only leader of the regular Democracy with more than local influence or following, is a firm believer in this policy, which is subversive of the most valuable feature of our system of government. Of course it is in the very teeth of the constitution, which was wisely adopted to protect the country from the passions of the hour. If the people cannot be depended on to select good representatives, how can it be hoped that they will do better in proposing or deciding as to what laws we shall have?

A few weeks ago the people of Connecticut were called on to vote for or against a new constitution, which a convention of their own choosing had been months in framing. Important as this was, only 15 per cent of the voters went to the polls. Of course under the initiative and referendum, prejudice would rule, and the politicians of low degree would have such laws adopted as would best suit their selfish purposes.

HERE IS ANOTHER LIVING ISSUE.

Here is another living issue on which Gov. Hill says that Democrats are united, and as to this, he and Col. Bryan are agreed. They are in favor of allowing the Philippine Islands to secede and to set up an independent government. I had my eyes opened as to secession years ago as clearly as they have been later with reference to the matter of money. I believe in a Union "one and indivisible—now and forever," and am no more in favor of allowing the Philippines or Hawaii or Puerto Rico to kick loose from the United States than I would approve the withdrawal of South Carolina or Massachusetts or New Mexico or Arizona or Alaska.

If our institutions are good enough for Kentucky, certainly the Philippine Archipelago can stand them.

Through the same peanut idea of politics we lost Cuba, which will be of such strategic importance when the Isthmian canal is constructed. Can anybody name anything practical or patriotic of which the Democratic party is peculiarly the champion?

It says it is against trusts, but

what specific measure to bridle or

destroy them have any of its leaders proposed? The only practical law we have against them was introduced into a Republican Congress by a Republican leader and is being vigorously enforced by a Republican President.

They say they are against protective tariff, but the gentlemen who are now proposing to lead the party are the ones who thwarted tariff reform in the Fifty-third Congress, when Senate, House and President were Democratic. No doubt Mayor Head, of Nashville, who the member of the Democratic National Committee from Tennessee, had this in mind when in a recent interview he said:

"While I am very much in favor of Democratic harmony, I am equally anxious to secure a Democratic victory which will not be barren of results, as some of our so-called Democratic victories have been in the past."

Cleveland was viciously opposed and the force of his administration destroyed because he would not support free silver by the very gentlemen who are now side tracking this question until they can find a more propitious occasion for bringing it to the front again.

HIGH PRICES

The weather is very cool for July, a coat feels in place all the time. We are having fine rains every few days and this naturally makes all stock-men feel good, as such is good range feed and good hay crops and the result of this good grass is nice beef this fall. The live stock business is better this year in the West than for 20 years, cattle prospects here were never so good as now—beef steers in Chicago, Omaha and Kansas City "over markets" is selling now gross weight from \$6.50 to \$8.00 per hundred weight. It don't require a choice steer at all to net us \$50.00 and many sell for \$75. These high prices are only due to a great shortage in cattle, statistics tell us there is more than 900,000 shortage in cattle since last year and our export trade is growing daily, this will, we figure keep cattle high for years.

The prices of horses has stiffened here more than 50 per cent. the past three years, partly due to the different wars, part to so much railroad work in the West and a great due to the horses being better bred. I have sold several at home this year for \$100 per head, but this money buys a very choice horse here.—Masco, Dem.

In glancing over the Masco, one of our Exchanges, we ran across a letter by H. Ralph Hall of Garrett, Wyoming. The above is clipped from Mr. Hall's letter, and is given to our readers for the purpose of showing up the Demagogues who are squalling trusts, trusts. Right recently much has been said about the beef trust, and it may be that they deserve some criticisms but how can the butchers pay 8 cts. per pound on foot for cattle and sell it at the same price they did when they paid 4 and 5 cts. per pound. Mr. Hall shows every unbiased person that the stock-men are doing well and that the trust is making money for every man who has a beef for sale, but because those who have stock don't give it to those who have none, our Democratic friends raise a wail against the trusts. We used to handle cattle under Mr. Cleveland's administration, and we have sold good beefers for less than 20c per pound. The farmer in this State who has a good fat cow can get 3 or 4 cts, and if he had it in Kansas City or Chicago he might get 6 or 8 cents per pound. The country is prosperous, and while the farmers who have made failures in their crops are hard up hereabouts, is no reason or argument against the great general prosperity all over this country, and the Demagogues can't fool all the people either.

FITZ GOES DOWN.

Big Champion of the Prize Ring Gets Beaten in Eighth Round.

A BLOODY AND TERRIFIC COMBAT

Both Men Put Up a Fair and Vigorous Battle For the Championship—Both Satisfied.

Ring-side, San Francisco, Special.—After fighting a battle of eight rounds that was fought with brilliant and courageous work, Robert Fitzsimmons Friday night fought his last claim upon the heavy weight championship. He was knocked to the floor by James Jeffries and counted out after he had so badly punished the champion that it was a foregone conclusion among the spectators that the Cornishman must win. Bleeding from a number of gashes in the face, apparently weakened, and clearly unable to cope with Fitzsimmons' superior skill, Jeffries delivered two lucky punches as Fitzsimmons paused in his fighting to spear to him, and turned the tide. The battle was brief, but noteworthy, and will live in pugilistic history. Fitzsimmons tried once to rise from the mat, but sat down again in helplessness and heard himself counted out, where but a moment before he had apparently all the better of it. "I will never fight again," said the battle-scarred veteran of the ring when he had sufficiently recovered to talk. "The fight was won fairly and to the best man belongs the laurels."

"You are the most dangerous man alive," said Jeffries, in return, "and I consider myself lucky to have won when I did."

Jeffries added: "I know Fitz had a cutting punch and would land it some time in the fight. He is certainly a wonder. He is the greatest fighter at his weight that ever lived. As old as he is he is the best and cleverest, the hardest-hitting man ever met and I want to give him credit, as I know all who saw it will, for the great fight he put up. I have no plans for the immediate future."

Fitz said later that the blows that put him out were left short arm jolts under the ribs and a right to the eye. He added: "I fought in the way I did because my hands were gone when I entered the ring. I injured them on Wednesday boxing with Hank Griffin. My right hand in particular was almost useless, I am confident now, even more so than ever, but that was the battle with Jeffries. I was done."

Dr. L. C. Cox, who has been summoned to attend the fighter, made an examination of the defeated pugilist. He announced that Fitz's ribs were not broken, but that his right side was badly bruised, the muscles being scratched and as to cause the Cornishman great difficulty in breathing.

Fitzsimmons had been fighting at a furious pace, cool and deliberate, and chopping the champion to pieces with the terrific rights and lefts that have made him famous. His right arm, however, was under a series of hot exchanges Fitz paused with his guard down and spoke to the champion. The latter's reply consisted of the two terrific blows that brought back to him the fleeing champion and forever removed the veteran Fitz from the fight. Fitz took his defeat with amazing good cheer. He walked to the center of the ring and raised his hand addressed the multitude, saying: "The best man has won. Had I beaten Jeffries tonight I would have conceded him the championship and retired forever. I retire just the same now, but without having accomplished my ambition. I am satisfied."

After the fight Champion Jeffries was seen in his dressing room. He was jubilant over his success, despite the visible scars of battle. He said to an Associated Press correspondent: "Well, I have won, just as I expected to. Well, was a fierce fight—the fiercest I have had—but I won. Yes I got a good beating, as far as the marks of battle count, but then I rather expected that."

Statistics of Great and Permanent Value Concerning Our Agricultural Resources.

Washington, Special.—The census bureau issued a bulletin giving the condition of agriculture in the United States for the year 1900. It shows that there were at that time 5,739,657 farms in the entire country, valued at \$1,674,694,247. Of this amount, \$5,500,198,101, or over 21 per cent, represented the value of buildings, and \$1,174,496,056, or over 70 per cent, represents the value of lands and improvements other than buildings. The value of farm implements and machinery was \$761,251,450, and of live stock \$3,078,050,041. These values, added to the value of the farms, gives a total value of farm property amounting to \$20,514,001,438.

The total value of farm products for the year 1899 is given at \$4,739,118,753, of which amount \$1,718,990,321 was for animal products, including live stock, poultry and bee products.

The bulletin places the average size of farms in the United States at 146 acres, and it is stated that 49 per cent of the farm land is improved. The total acreage for the entire country is given at 3,511,232,331 acres.

The number of farms in the United States has increased in every decade for the last fifty years, and so rapidly that in 1900 there were nearly four times as many farms as in 1850, and 10 per cent more than in 1880. The total acreage of farm land has increased 10 per cent in 1850 and 1880 respectively, but the number of farms, thus involving a steady decrease in the average size of farms. Since 1850, however, the total acreage has increased more rapidly than the number of farms, so that the average size of farms has increased. The total area of improved land has increased in every decade since 1850.

A comparison by States indicates that the most densely settled in the agriculture of the country are, beginning at the West, Minnesota, Iowa, Illinois, Indiana, Ohio, Pennsylvania and New York. Together they contribute 44 per cent of the total value of property and 88 per cent of the total value of farm products. Texas leads with the greatest number of farms, 352,190, and also with the highest average 125,807.07. But only a little over 15 per cent of the farm lands in Texas was improved, and the value of the farm land in Texas was less than in Pennsylvania, Ohio, New York, Missouri, Iowa or Illinois, being \$982,476,273. Missouri ranks second in the number of farms having 224,876. Other States having more than 200,000 farms are: Arkansas, 228,273; Georgia, 224,591; Illinois, 264,151; Indiana, 221,897; Iowa, 228,822; Kentucky, 231,667; Michigan, 205,261; Mississippi, 220,503; New York 226,720; North Carolina, 224,337; Ohio 276,719; Pennsylvania, 224,337; Tennessee, 224,425.

Iowa leads the list in the percentage of improved lands, more than 86 per cent of the farm lands of that State being improved. Illinois follows with more than 84 per cent, Ohio comes next with 78 per cent, and is followed by Indiana with 75 per cent. Tennessee occupies the first position in the matter of the total value of farm lands, the figures for the State being 2,004,316,897. Other State values are: Tennessee, \$4,802,025; Texas, \$62,478,273; Virginia, \$22,815,977. The live stock farm lands, of the other states are put down at a value of \$1,505,244,273, or more than 36 per cent of the whole; the hay and grain lands at \$6,378,544,543 or 31 per cent of the whole, dairy products over 5 per cent; cotton over 5 per cent; there are 512 coffee farms in the country, valued at \$1,832,913.

Stunned By Lightning.
Greensboro, Special.—In an incident electric storm here lightning struck the residence of Mr. D. D. DeLoach in two places, on a chimney and the eaves of the house. His three-year-old boy was lying on a rug in front of the fireplace and was stunned for half an hour, recovering without apparent injury. The little fellow was literally black from the soot that was hurled over him, and the chimney, as clean as a pin, and electric broom instead of bolt had passed down it. The lightning striking the eaves of the house did slight damage, soot reaching a metal gutter and going to the ground.

Sheep Killed by Lightning.
During the storm Thursday evening lightning killed 25 Southdown sheep belonging to Mr. Martin C. Davis, who lives on a farm four miles from Charlottesville. When the storm began the herd of sheep, 25 in all, gathered under a tree in the pasture close to Mr. Davis' house. The stroke of lightning killed, almost instantly, all the animals except one.

Illinois follows with more than 84 per cent, Ohio comes next with 78 per cent, and is followed by Indiana with 75 per cent. Tennessee occupies the first position in the matter of the total value of farm lands, the figures for the State being 2,004,316,897. Other State values are: Tennessee, \$4,802,025; Texas, \$62,478,273; Virginia, \$22,815,977. The live stock farm lands, of the other states are put down at a value of \$1,505,244,273, or more than 36 per cent of the whole; the hay and grain lands at \$6,378,544,543 or 31 per cent of the whole, dairy products over 5 per cent; cotton over 5 per cent; there are 512 coffee farms in the country, valued at \$1,832,913.

Says Strike Can Be Won.
Indianapolis, Special.—President Mitchell, of the United Mine Workers, expects to leave Indianapolis for Wheelersburg, where he will probably remain at the headquarters Thursday or Friday. His intention, it is understood, is to remain in the anthracite region until the strike is settled. Secretary Wilson says he does not expect any more large donations until later. It is understood Mr. Mitchell and his associates are convinced that they can win the anthracite strike if they can hold out for ten weeks longest.

Forty Houses Burned.
Birmingham, Ala., Special.—Fire which broke out Tuesday morning at Brookside, a town of 1,000 inhabitants, situated in Jefferson county, 10 miles from Birmingham, destroyed a number of houses and about 40 residences, causing a loss of \$50,000. The greater part of the stock and furniture in the burned buildings was saved, but considerably damaged. The insurance is tight.

To Oppose Swanson.
Roanoke, Special.—The Republican Congressional convention of the Fifth district met at Rocky Mount and nominated Hon. E. A. Davis, of Franklin county, by acclamation to oppose Hon. Claude A. Swanson, Democrat, the present representative from that district. Several speeches were made denouncing the work of the late constitutional convention.

FEARS FOR SAFETY.

Claimed That German Emperor Might Be Attacked

HE IS ASKED NOT TO VISIT POSEN

Berlin, By Cable.—Court Chamberlain Von Morawski, a Polish landowner, has appealed to Emperor William not to visit Posen during the army maneuvers to be held in September, as His Majesty might be attacked. The chamberlain fears that some Polish fanatic might attempt to harm the Emperor. Real feeling is described as at fever heat and several Berlin journals take the view that it would be unwise for the Emperor to expose himself unnecessarily. It is accordingly likely that the Emperor will not visit Posen. Chamberlain von Morawski permits himself to change his plan of his account of the timidity of his advisers. He goes anywhere he thinks duty calls him and, besides, it is his purpose to see the government's Polish policy while in Polish territory and his giving up of personal supervision of the maneuvers would be impractical. The Polish question is regarded as the most pregnant in the government's domestic policy. While no observer believes the Polish agitation can really amount to much ultimately, it is embarrassing the relations with Russia and Russia. The Poles in Galicia enjoy local self-government and press privileges which are not in vogue in Prussian Poland, and constitutional contrasts are made in the Austro-Hungarian empire in the provinces of Posen that annoy this government and tend to weaken the Triple Alliance. Indications are given that the Russian frontier a Prussian population in sympathy with Russia. Count Von Bulow, the German Imperial Chancellor, is well aware of the Polish agitation, and it is quite likely he will devise measures to quiet the extreme violence of the Polish feeling.

Troika at Paris.
Paris, By Cable.—A serious disturbance occurred Wednesday at 10:30 o'clock on the terrace at Cafe de Mussé de Cluny. The police cleared the cafe. Several persons were injured and 25 arrests made. Some disorderly meetings of Catholics were held during the course of the evening, resulting in scuffles and the making of arrests. The agitation provoked by the order of Prime Minister Combes to close the Congregationist schools recalls to some extent the scenes which were played in the Premier's campaign during the 1880 Democratic elections in favor of the nuns and the teaching trials are taking place in Paris and many places in the provinces, where the police presented themselves at the schools and ordered that the institutions be closed. Up to the present, however, no serious incident has been recorded.

Accused of Robbery.
Greensboro, Pa., Special.—The climax in the alleged robbery of nearly a quarter of a million dollars in money and bonds from the venerable Jacob Byers was reached here when William Byers, a leading lawyer of the West, was arrested on charges of conspiracy, and two of larceny. The information was made and sworn to by Jacob Byers, the reputed owner of the lost bonds and money, aged and infirm, and who has been unable to raise relief had no idea of the nature of the conspiracy or of the charges against him. The bail bond was fixed at the sum of \$250,000. Late tonight Attorney Byers had not secured bonds.

Fire Chief Overcome by Heat.
Owensboro, Ky., Special.—The plant of the Owensboro Planning Mill Company and the plant of the Continental Tobacco Company were destroyed by fire Wednesday. Loss, \$100,000. Chief of the Fire Department, Ernest Tenney, was overcome by heat and is in a critical condition.

Serious Fire at Camden, S. C.
Columbia, S. C., Special.—The Columbia fire department has taken chemical engines and dynamite to stop the fire at Camden. The loss at 1 o'clock was \$60,000 and relief had not been secured. The block containing the postoffice and bank is in flames and there seems no chance of saving any of the 15 business buildings in it.

\$50,000 Fire at Annapolis.
Annapolis, Md., Special.—A fire that broke out in the heart of Annapolis Wednesday morning destroyed nine buildings, including St. Martin's German Lutheran church, and the large general store of A. J. Ewell and caused a loss estimated at \$50,000. The fire started in the confectionary store of B. Wiegard, in State Circle. An overheated bake oven is supposed to have been the cause.

Teachers Killed in Cuba.
Washington, Special.—The War Department has received the following cablegram regarding the school teachers who have been missed from Cuba, June 10th: "John E. Wells, 209 Montgomery avenue, Providence, R. I., and his cousin, Louis A. Thomas, same address; Ernest Heger, 1413 Vine street, Cincinnati, O.; Clyde A. France, Berea, O., missing from Cuba, murdered by ladrones. Bodies recovered. Leader of the murders killed; eight others captured by the constabulary."

Killed by a Woman.
Carbondale, Ill., Special.—The Jaubert Brothers, who operated a small coal mine near Craville, were both shot to death at their home by the wife of one of the men. The bodies were recovered from an assault by the husband on his wife which was followed up by his brother after the former had been killed. The jury exonerated the wife.

WILL NOT ACC...
McLaurin Not Seeking a Federal Appointment
Palmetto Senator Expresses Determination Not to Occupy Office in Court of Claims
Oyster Bay, N. Y., Special.—Senator Roosevelt is in receipt of a letter from Senator John H. McLaurin, South Carolina, declining the proffered appointment to the vacancy on the bench of the United States Court of Claims. The President, it can be seen, much regrets Senator McLaurin's decision, as he believes that the senatorial experience and his years of Attorney General of South Carolina would have rendered him a particularly good addition to the Court.

G. V. Sheek has been appointed Deputy Collector, with headquarters in A. C. Patterson's office at Greensboro.

Mr. W. A. Weant is bragging on his Cuban painter, says he can take one color of paint, and make your house have a variegated appearance.

Chas. McCulloch's baby died last Monday July 14th, and the remains were laid to rest in the family burial ground Tuesday. Rev. S. D. Swain conducted the funeral services. Our sympathy is extended to the bereaved parents.

T. M. Bailey who formerly clerked in the Post Office at this place, was recently appointed to a billing clerk's position in Salisbury. After two weeks service he has been promoted to baggage master with double the salary he got as billing clerk. We are glad to note this promotion, and Tommie's success. He and Sam are, both good business boys and deserve success. They both served under us, before going to Salisbury, and we are glad to hear good reports from them.

Need More Help.

Often the over-taxed organs of digestion cry out for help by Dyspepsia's pains, Nausea, Dizziness, Headaches, liver complaints, bowal disorders. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. 25¢ at C. C. Sanford's drug store.

Revenue officers Broadnax and others were in town last week.

THE BEST PRESCRIPTION FOR MALARIA.

Chills and Fever is a bottle of Grove's Tasteless Chill Tonic. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 50¢.

THE RECORD UNTIL DEC. 1st FOR 25 CTS CASH.

Doctors Failed.

J. Terry, of Turkey, Kentucky, writes: I have been a sufferer for fifteen years from troubles arising from a disordered liver, and all the doctors in the neighboring towns failed to do me any good. I thought I would try a box of Ramon's Liver Pills and Tonic Pellets. After using one half box I felt better and was soon permanently cured. I keep them in stock constantly since I discovered their valuable curative qualities.

We call attention to an article on the editorial page written by W. M. Beckner of Kentucky. As our space is limited, we could not give the whole letter, it will appear later. Mr. Beckner used to be a Democrat, and his arraignment of the Democratic party, and his reasons for not supporting its candidates is a strong appeal to the thinking people of the South. The time has come for the people of the South to exercise their brains more, and their passions and prejudices less. Read it.

A Good Family Medicine.
W. E. Lee Wilmoth, Top of Alleghany, West Va., writes: I have used Ramon's Liver Pills and Tonic Pellets for the past five years in our family. I do not hesitate to say that they are the best. They are mild in action, splendid in effect, besides being pleasant to take and requiring one only at a dose. To all who are unable to pay large doctor's bills I would say, always keep a box of Ramon's Liver Pills in the house to use in case of necessity.

In the Winston Journal we notice an account of the assault on Mrs. Bogan Cash by one Smith, near Smith Grove, in which it is asserted that the whiskey men are shielding Smith from arrest. This is, we understand entirely unfounded and does the whiskey men of that section of Davie County a grave injustice. From what we can learn, there was really no assault made on Mrs. Cash, but Smith was under the influence of whiskey and used insulting language which resulted in his getting pretty badly knocked out. It's had enough, and there is no necessity for lugging in outside parties. The whiskey men are not always the worse men in the community and should not be charged with acts with which they have nothing to do.

YOU KNOW WHAT YOU ARE TAKING

When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle, showing it is simple iron and quinine in a tasteless form. No cure no pay, 50¢.

A Correction.

We published a notice of a protracted meeting at Center Church Aug. 8th and inadvertently failed to say that it would be conducted by Rev. Mr. Crumpler. Mr. Jack Diggins requested us to make the announcement. He did not tell us that the meeting would be held in the Methodist Church at that place, and we have no right to presume that Mr. Diggins intended to convey the idea that it would be the regular meeting held by the pastor Rev. W. C. Willson. If any wrong impressions have grown out of it, the Editor is possibly to blame in not using Mr. Crumpler's name. Mr. Willson says there will be no protracted meeting at Center Church at that time; we are informed that there will be one in the vicinity of Center, held under a tent, Aug. 6th at night.

Don't Fail To Try This.

Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure is effected. A Good Hearted Man,

or in other words, men with good sound hearts, are not very numerous. The increasing number of sudden deaths from heart disease daily chronicled by the press, is proof of the alarming prevalence of this dangerous complaint, and as no one can foretell just when a fatal collapse will occur, the danger of neglecting treatment is certainly a very risky matter. If you are short of breath, have pain in left side, smothering spells, palpitation, unable to lie on side, especially the left, you should begin taking
