ship or moral progress. Without it there could not have been Florence Nightingale, Moses, Socrates, St. Paul, Jesus.

Would you and I want our children always to give up easily and run away from hard things? Would we want them never to be stubborn?

Testably not involved

But no such stubbornness as we have considered here is accompanied by violent or explosive rage. Yet, we ordinarily associate strong expression of anger with stubborn after a dozen spankings. Around such refusals to obey a command. Then, if the child (of any age) fails to do what you want him to do and paniful only what you want him never to o succeed, you must refuse to pick up that block even after a dozen spankings. # **Davie Farmers Add To Cash Income Through Dairying**

On the front page of this week's issue you will see two pictures about J. H. Sparks, Davie county farmer who has gone into dairying to increase his farm income. Mr. Sparks went about the matter in the right way. He got expert aid in selecting his bull and began raising good milk cattle. Aside from the fact that he now has a steady income from his herd. he also has substantial sum in the registered hei-

# Man Converts Inventions To Uses Of Killing

Since the topic of war seems to be ever present in conversation we respond to a comment made the other day by a local man. He spoke of the modern inventions and discoveries used in war and blamed the dreadfulness of advance knowledge on scientists who invented the "cruelties." We have not forgotten certain history lessons of ancient wars one of which lasted thirty years and cost the lives of a far greater number than the World War and those of Spain and China in more recent years. The fact that inventors have given us many instruments of destruction is no reason to lay the blame of misuse on their shoulders. The automobiles and airplanes, used for transportation and pleasure, have taken their toll, the railroad comes into the picture of accidents, the radio is a blessing but through it wishe aware of too much tragedy. Medicine gives us new drings and cures, but if dope is used by addicts should mediring lawaitlawed!

The Theory inventions are not to be blamed for man's misuse. The original knives were hewn for the purpose of getting food, not for killing men. The inventions should not be ruled out but they should be put to proper use for the benefit of mankind.

In the "Here and There" column of your favorite newspaper which specializes in "all the county news for everybody" you have perhaps already noticed a little item which said that 9,661 books had been loaned to Davie folks during the last three months by the traveling bookmobile.

During this time there have been 1,023 persons in this county who have borrowed books. Such a demand shows that the people of Davie want good books to read and appreciate an opportunity when they are offered. In fact the bookmobile always runs out of a supply on making its

Sound reading is one of the best means of helping people to think for themselves. When people do their own thinking they are not so ready to believe half-baked opinions of those with an axe to grind.

ILLUSTRATED SUNDAY SCHOOL LESSON

After the feast of the Passover Jesus took His disciples to Garden of Gethsemane, on the Mount of Olives. Eight of them He left, taking with Him James, Peter and John, asking that they watch with Him while He went aside to pray

After His prayer Jesus came to the three apostles and found them sleeping; "Could ye not watch with me one hour? He asked sadly. Three times He went to pray by Himself, and always He His apostles sleeping when I came back to them.

The third time He came to His sleeping apostles He told them to "sleep and He saw lights and men coming, and said: "Arise, let us be going: behold he is at hand that betrayeth Me." Judas

# "Uncle Bill" and "Aunt Note" Set Mail Record on Golden Wedding

was written by John Cannon, rambling, able staff correspondent of the Greensboro Daily

ADVANCE-The records of James L. Talbert, postmaster at this little Davie county town, show that on February 20 Uncle Bill and Aunt Note—that would be Mr. and Mrs. William Ross Taylor-received more mail than any individual has received on one day at the Advance postoffice during the past 15 years.

Even if there are no film stars or candidates for governor living here, that is a pretty fair showing, especially considering the fact that they have no publicity agent or counsel on public relations. But on second thought, maybe they do have, which brings into the picture, a golden wedding, a muddy lane, cookies, peanuts and apples at the end of it.

Back a week or so ago, folks in this neighborhood were a little stirred up when Uncle Bill got into an argument on divorce. Some of the hot stove philosophers had contended that the Bible had nothing in it about divorce. Uncle Bill knew better than that but when it got nosed was looking up authorities on this proposition some of his friends began to tease him about making inquiries of this

You can pay a lot more than the modest Chevrolet price for a motor car. But you'll find yourself asking, "Where can I get any more beauty, driving and riding ease, road action, safety and all-round value than I get in Chevrolet for '40?" Particularly when you consider Chevrolet's extremely low prices and Chevrolet's exceptionally low cost of operation and upkeep!

# C. C. C. Camp Offers Chance

# For Farm Improvement

Davie county will have a C. C. C. camp, located at a picturesque site on an elevated spot at the outskirts of town. In other counties where the camps have been located farmers have found that the work done has been of great value in the improvement of their farms. The greatest trouble has been for the boys and the Soil Conservation Service to get around to meet the demands for their labor. Applications in some counties have been so heavy that there was work scheduled which would require two years

The primary object of the work obviously must be to encourage better farming practices. No group of boys could possibly do all of the work which is needed done. But under supervision they can show how farm land can be reclaimed and production increased.

counties have been reluctant to see the camps move. But LOG CHURCH These boys live under military discipline and other move they must and do in order for all of the counties to have a share of their effort. Now is a fine opportunity for Davie, both to increase the value of its farm land and to have an increased purchasing power by the more than 200 who will shortly be with us.

# **Joys Of Spring Dampened**

# By Talk Of "Big Push"

Spring is coming! They tell us the sap has started to run. Winter is giving us just about all that she has left after a season of surprises. Some of the birds are trying to get tuned up for a preliminary concert even though the accompaniment is the scraping of a coal shovel. But according to indications, spring is coming! This should be a happy season for any land, a hopeful sign for all people. The fact that statesmen who have been studying the foreign situation tell us that spring will bring the "big push" when nations will take advantage of the change in weather to destroy, this fact destroys the joy of spring. We only pray the foreign and the religious life of the remainder of the dold log churches in the mountain section of Western North Carolina. ## Country Newspapers

## **Reach Most Buying Power**

"Most of our country is in the country", spoke a voice on the radio. And so they look to the small town of the U. S. as a medium in buying and selling. A press bulletin gives us the idea of the demands of the small town buvr. We have a fairly accurate check of the number of cents of a country dollar that goes for food, clothing, autos, churches, recreation and tobacco. There is a survey of the gasoline consumption, amount of insurance sold, number

of movie houses and percentage of youngsters in school. Our interest lies principally in the importance of the weekly newspaper and what it means to the small town reader. The print of your home paper is of importance to you. Weather forecasts, foreign news, national affairs are ecessary to make up news. But to home town folks nothing is as important as local names. A riot in Zanziba can't compare to the news that Mrs. Jones is confined to MRS. DYSON her bed with flu, and she had charge of the church supper! The latest war news doesn't create the stir of the new baby at Mrs. Smith's house. The sinking of a boat is too bad but overlooked in the reading of the local basketball

## **Modern Conveniences**

## Have Brightened The Home

Housewives are beginning to make plans for a period of housecleaning and kitchens in the towns will enter into being the cog of a family clean-up campaign. Hopes for new paint and prayers for new gadgets are flitting through many a head. The pictures of 1940 kitchens leave the women a bit envious. But most of today's work-rooms outshine the models of years back when poor lighting, poor ventilation, wooden floors and table-tops to be scrubbed, lamps to be cleaned, coal or wood stoves to be fired, all made housekeeping real labor. With paint cans and family saws busy, many of our kitchens of today resemble yesterday's parlors!

## **Auto Drivers Should**

## Protect Dumb Animals

# **REA Farm Show To Feature Modern Home Conviencies**

Applications of electric power to lighten farm labor and relieve nousehold drudgery will be feature demonstrations of the big REA two-day farm equipment show on the J. W. Arnold farm near Asheboro on Highway 62 beginning April 11, 1940 at 7:30 o. m., Thursday night,

Small irrigation systems help make the farmer independent of the weather. A vegetable garden, truck crops, cannery crops, and, with larger irrigation systems, good size pastures, may be carried through a dry period unharmed by use of portable sprinkling systems. A portable irrigation system will be set up and put into actual operation in the field close to the big tent. While major irrigation sys-
