MISS MARY M. ETCHISON

MISS BETTY K. WHITE

Two Local Girls To Attend Annual Tar Heel Girl's State

Miss Mary Martin Etchison, daughter of Mr. and Mrs. E. F. Etchison, Route 2, and Miss Betty Katherine White, daughter of Mr. and Mrs. James T. White, 24 Erwin Street, Cooleemee, will attend the 20th annual Tar Heel Girl's State at Woman's College, Greensboro, June 21-27.

These girls are sponsored by the local American Legion Auxiliary and the Mocksville Junior Chamber of Commerce.

Girl's State was originated and established in 1940 by the American Legion Auxiliary, Department of North Carolina, as an Americanism project to provide high school girls of the state an opportunity to study and practice citizenship in a democracy. The program has developed within several 1,000 young leaders a deeper sense of their responsibilities as citizens and proved to be a practical source of instruction in the structure and operation of State Government.

G. W. Phillips of WOUNG, Greensboro, is director of Girl's State, and Mrs. C. A. Irby, Jr., of Greensboro, is assistant director.

Stolen Car Found Abandoned In Davie

A stolen car was found abandoned Monday in the Liberty Church of Davie County.

Some boys in the area discovered a 1958 Plymouth abandoned in a wooded area and notified the local State Highway Patrol. Their investigation showed that the car belonged to Dan Davis of the Fork community and was stolen last Saturday night in Winston-Salem.

Davie Legion Juniors List Players' Roster

Salisbury Here In Game Saturday Night

The Davie County American Legion Junior Baseball team this year is composed of players from Davie County and other surrounding schools including Gray, Glenn, and Southwest High Schools of Forsyth County; Courtney and Woodleaf.

Rain cancelled the contest for Tuesday night. The Legion Juniors will play at Asheboro on Thursday night and will meet Salisbury here at Rich Park on Saturday night at 8 p.m. On next Tuesday night they will play at Statesville.

Davie County boys on the squad include Fred Pierce, James Latham, Ronald Spry, Bruce Driver, John Osborne, Michael McClamrock, and Nelson Jones.

Some of the outstanding players from out of the county are Southwest pitchers, James Cohn and Morley Matthews; Southwest short-stop, Joby Poteat, who has received honorable mention on the Forsyth All-County team for the last three years; Glenn pitcher, Dave Snow, who won 7 and lost 3 this past high school season and was a member of the Forsyth County All-Star team; and Courtney pitcher, Randall Renegar, who won 7 and lost 2.

Coach Jack Ward said: "We have a lot of talent this year. I feel sure that we will have a successful season if we can get the boys to play together. Since they come from different schools, that will be the only problem."

The complete roster of players this year includes:

- Monty Matthews (Southwest) pitcher
- Leon Phillips (Southwest), outfield
- James Cahn (Southwest) pitcher
- Michael McClamrock (Davie), pitcher
- John Osborne (Davie) pitcher
- Frank Harrelson (Southwest) second base
- Larry Etchison (Southwest) catcher or outfield
- Joby Poteat (Southwest) short-stop
- James Latham (Davie) catcher or outfield
- Horace York (Harmony) third base
- Ronald Spry (Davie) center-field
- Jimmy Royall (Gray) third base
- John Reeves (Gray) catcher
- Jerry Sims (Gray), 1st base
- Billy Faust (Gray) short stop and 2nd base
- Joseph Brown (Gray) short-stop and 2nd base
- David V. Snow (Glenn) pitcher and third base
- Ralph Renegar (Courtney) pitcher and third base
- Douglas Chamberlain (Courtney) outfield and short-stop
- Nelson Jones (Davie) outfield
- Fred Pierce (Davie) second base and outfield.

Two Are Charged In Wreck On Highway 64

Two cars were damaged Sunday in a wreck on Highway 64, West, at the intersection of Highway 901.

State Highway Patrolman R. C. Blalock said that his investigation showed that a 1958 Ford, operated by Johnny Lawrence Crawford, 20, of Statesville and a 1955 Ford, being operated by Gordon Willie Gaither, 20, of Statesville, Route 1, were involved in the accident.

Patrolman Blalock said both cars were travelling east at a high rate of speed and Crawford attempted to pass the Gaither car and met another car. The Gaither car cut into the side of the Crawford car, lost control, and ran off the left side of the road. The Crawford car ran off and struck a bank on the right side of the road.

There were no injuries. Damage to the Crawford car was estimated at \$200 and to the Gaither car at \$200. Both Gaither and Crawford were charged with reckless driving and leaving the scene of an accident.

The first session of the 1959 Boy's State is set for 7:30 p.m., June 14.

Man Sets Mattress Afire In Local Jail

A man lodged in jail Monday night on the charge of public drunkenness used hidden matches to set a mattress on fire and almost succumbed to smoke.

Clifton York was pulled from a smoke filled cell by officers and was taken to the local hospital for treatment. He was later brought back to the local jail and on instruction from the doctor, given a cold shower.

In County Court, Tuesday, York received a suspended sentence of six months and was fined \$50 and cost on the charge of public drunkenness and \$25 and cost on the charge of destroying property.

Testimony by Deputy Ray Sowers showed that York was arrested on the Sheffield Road Monday evening in a drunken condition and was lodged in the local jail. Before being put in jail he was searched and officers thought all matches and the like had been removed from him. A short time later, smoke was observed pouring from the cell. Officers dashed upstairs and found York sitting over the smoldering mattress. The burning mattress was carried outside and other officers carried York, who passed out as he was being led out. York was taken to the Davie Hospital and received treatment and the officers were told to return him to jail and give him a cold shower.

Deputy Grimes Hancock testified that on the way back to jail he found a book of matches stuck in York's socks.

York pled guilty to being drunk but said that he didn't remember anything about setting the mattress on fire.

One of the best tactics of defensive driving is to know and display proper signals.

Former Legion Players Make All-Star Team

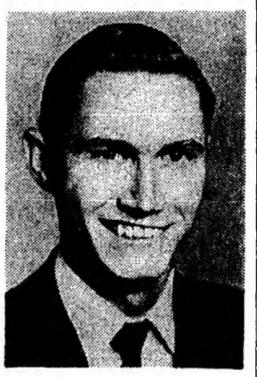

Brack Bailey, of Advance, and Jerry Fox of Statesville, who started out as members of the Davie County American Legion Junior Baseball team, were named this week to the annual Greensboro Daily News All-State college baseball squad.

Bailey, who was a Junior this year at Pfeiffer College, topped all the hitters in the state, and there were big league scouts who tabbed him as the best college hitter in the Carolinas, batted .469 and included seven homers, three triples, eight doubles and 28 BR's. Fox completed his senior year at Lenoir Rhyne and had a record of .423 and had 25 RB's.

Soil Conservation To Assist Scouts

The N. C. Chapter of the Soil Conservation Society of America has selected a state wide educational program in assisting Boy Scouts to earn merit badges in Soil and Water Conservation, Forestry, and Wildlife Management as a special project for the year 1959. The society's objective is "To advance the Science and Art of Good Land Use." The N. C. chapter for the past several years has been active in the Soil and Water Conservation and related work with Boy Scouts. Requirements to earn merit badges by Boy Scouts consist of home study, classroom and field work.

Activities have begun in Davie County to assist Boy Scouts with the Wildlife Management merit badge. Two field trips have been planned with W. C. Phillips, of the Wildlife Commission in charge. The Soil Conservation Service will notify Scout leaders as to the time of the next scheduled meetings and wildlife field trips. Merit badge counselors who will assist the scouts include Soil Conservation Technicians, Foresters, officials of N. C. Wildlife Commission, and other agricultural workers.

SEVEN YOUNG LADIES WILL MAKE DEBUT AT LEAGUE BALL

When the Lexington Charity League stages its fifth annual Sub-Debutante Ball on Friday evening, June 5, at the Lexington YMCA, seven young ladies from Davie County will be presented, it is announced by Mrs. H. E. Hilton, chairman, and Mrs. J. O. Burke, co-chairman, for this year's ball, of Lexington.

The formal affair — always a social highlight — will begin with the figure at nine o'clock, followed by a ball honoring the sub-debs. Several other social affairs are planned in connection with the ball.

On Thursday morning, June 4, at 11 o'clock, the girls and their mothers are invited to the home of Mrs. Smith Young, Country Club Drive, Lexington, for coffee. That evening, the girls and their escorts will be entertained at a picnic and swimming party at the Lexington County Club and the Dutch Club, followed by a figure rehearsal.

Each sub-deb invites two escorts. The young ladies from Davie County are listed as follows: Miss Anne Hendricks of Mocksville, daughter of Mr. and Mrs. Gray Hendricks, with Howard McKenzie Bryant, Jr., chief, and Clarence Frye Ikerd.

Guests of Mrs. Frank Stonestreet this week are her brother, Dr. P. A. Petree, and Mrs. Petree of Baltimore, Md., Miss Data Penny of Harrisburg, Pa., and Miss Ruth Petree of Germantown.

4-H Tractor Operator Contest

A contest in which boys may demonstrate their skill in driving and operating a farm tractor will be held Wednesday, June 10. J. C. Ferguson, Agricultural Engineering Extension Specialist at State College, Raleigh, will be on hand to help with the contest.

The purpose of the contest is to give boys a chance to demonstrate their skill in driving and operating tractors, to demonstrate their knowledge of tractor maintenance, and to promote safety. New tractors of various types will be available for contestants to use. The driving course will consist of about an acre with the contestants pulling and backing a two-wheeled vehicle.

The boys will be judged for timing, safety, and driving ability. Judges will pick a winner to compete in the District Tractor Operator's Contest in Concord on June 24. Prizes will consist of a week's trip to Raleigh for the district winner and a trip to the National Driving Contest for the State winner.

Boys 14 years of age or older who are interested in entering this contest should contact Carol Baker at the County Agent's Office.

Bob Tenery Graduates From Pfeiffer College

ROBERT M. TENERY

Robert (Bob) M. Tenery, son of the Rev. and Mrs. L. M. Tenery, Shelby, will be graduated from Pfeiffer College on June 1, as a member of the third four-year graduating class from the school. Graduating with Bob were 130 other students.

After graduating from high school, Bob attended Furman University 1951-52 and Catawba College in 1952-53. Later he attended Pfeiffer and majored in religion. While at Pfeiffer, Bob was a member of the ministerial group, and pastor of the Lakeview Baptist Church in Albemarle. At present Bob is the pastor of the First Baptist Church in Maypearl, Texas, and is also commuting to Southwestern Baptist Theological Seminary, Fort Worth, Texas, where he is in his second study of pursuit of the B.D. degree.

Married to the former Willo-deane Foster of Mocksville, Bob has four children, Sammy, David, Kathy, and Walter.

MOTORISTS WARNED The local State Highway Patrol has issued a warning that a special drive against inadequate lighting on automobiles is being planned.

Motorists were warned to check the headlights of their cars and tail lights to be sure that all are operating. Also, to check brakes, mufflers, and other operative parts of the car.

The patrol plans to be checking extensively on all these mechanisms. Cars found not meeting requirements will have the drivers subjected to indictment.

Bobby Edwards Finishes At ASTC With Honors

BOBBY EDWARDS

Bobby Edwards, the son of J. O. Edwards of Cooleemee and Mrs. Edna Brown of Raleigh, was graduated "cum laude" from Appalachian State Teachers College Sunday with a major in Business Education and a minor in Social Studies.

While attending Appalachian, Mr. Edwards was an active member and president of Pi Omega Pi, National Business Education Honorary Fraternity, Chi Lambda Chi, and the YMCA. He was also active in Pi Gamma Mu, Honorary Social Science Society, Collegiate Civic Club, Future Business Leaders of America, International Relations Club, and the Future Teachers of America.

Mr. Edwards was selected as "Mr. Representative Future Teacher" and represented Appalachian at the N. C. Education Association Convention in Asheville this spring.

Prior to graduation, Mr. Edwards completed three months of student teaching at Ashley High School, Gastonia. In college, Mr. Edwards was a student assistant to the Department of Social Studies and to the Department of Business Education.

On the basis of service, citizenship, extracurricular activities, scholarship, and promise of future usefulness M. Edwards was selected to appear in "Who's Who Among Students in American Universities and Colleges." The book is published to provide incentive for students to get the most out of college and to recognize those who have been outstanding. It is also the highest honor obtainable at Appalachian.

Mr. Edwards plans to leave for Fresno, California, in late July to accept a teaching position there.

A Rooster Alarm

Residents of the Yadkinville Highway are receiving personal alarm clock service these days from a little bantam rooster. The little rooster belongs to Mr. and Mrs. Curtis Lee Reavis. Each morning around 4 a.m., it begins its tour of the neighborhood. On a strict schedule he covers several houses each and every morning and with almost no variance in the time, gives the crowing alarm.

The little rooster goes first up one side of the busy highway, then carefully crosses over and covers the other side.

Some of the houses visited include Garfield Lapsch, Leo Cozart, Paul Sherrill and T. B. Woodruff, in addition to the Reavis home and there may be others.

Those that have watched the little rooster say that it is amazing at the regular schedule it keeps each and every morning.

Eaton's Pastorium Nears Completion

The members of Eaton's Baptist Church and their pastor, the Rev. Wallace Owen, wish to express their appreciation for the free labor, material and for the donations given for the new pastorium that has almost been completed. The pastor, his wife and daughter, Mary Virginia, have recently moved into the new home.

VERNON'S FOR QUALITY FURNITURE AND APPLIANCES

can you spare 9 minutes to read a message 19 centuries old?

The Sermon on the Mount is for everyone.
Anyone who reads it will be happier today.
Anyone who carries it in his heart will be happier forever. Read...re-read...and understand its words.
No speech ever promised...or delivered...so much.

WHEN he saw the crowds of people he went up on the mountain. There he seated himself, and when his disciples had come up to him, he opened his lips to teach them. And he said:

★ Blessed are those who feel their spiritual need, for the Kingdom of Heaven belongs to them! Blessed are the mourners, for they will be consoled! Blessed are the humble-minded, for they will possess the land! Blessed are those who are hungry and thirsty for uprightness, for they will be satisfied! Blessed are the merciful,

for they will be shown mercy! Blessed are the pure in heart, for they will see God! Blessed are the peacemakers, for they will be called God's sons! Blessed are those who have endured persecution for their uprightness, for the Kingdom of Heaven belongs to them! Blessed are you when people abuse you, and persecute you, and falsely say everything bad of you, on my account. Be glad and exult over it, for you will be richly rewarded in heaven, for that is the way they persecuted the prophets who went before you!

★ You are the salt of the earth! But if salt loses its strength, how can it be made salt again? It is good for nothing but to be thrown away and trodden underfoot. You are the light of the world! A city that is built upon a hill cannot be hidden. People do not light a lamp and put it under a peck-measure; they put it on its stand and it gives light to everyone in the house. Your light must burn in that way among men so that they will see the good you do, and praise your Father in heaven.

★ Do not suppose that I have come to do away with the Law or the Prophets. I have not come to do away with them but to fulfill them. For I tell you, as long as heaven and earth endure, not one dotting of an *i* or crossing of a *t* will be dropped from the Law until it is all observed. Anyone, therefore, who weakens one of the slightest of these commands, and teaches others to do so, will be ranked lowest in the Kingdom of Heaven; but anyone who observes them and teaches others to do so will be ranked high in

the Kingdom of Heaven. For I tell you that unless your uprightness is far superior to that of the scribes and Pharisees, you will never even enter the Kingdom of Heaven!

★ You have heard that men were told, "You shall not commit adultery." But I tell you that anyone who strays from his marriage in

thoughts of lust toward another has already committed adultery in his heart. But if your right eye makes you fall, get rid of it, throw it away, for you might better lose one part of your body than have it all thrown into the pit! If your right hand makes you fall, get rid of it, throw it away! For you might better lose one part of your body than have it all go down to the pit!

★ They were told, "Anyone who divorces his wife must give her a certificate of divorce." But I tell you that anyone who divorces his wife on any ground, except unfaithfulness, makes her commit adultery, and anyone who marries her after she is divorced commits adultery.

★ Again, you have heard that the men of old were told, "You shall not swear falsely, but you must fulfill your oaths to the Lord." But I tell you not to swear at all, either by heaven, for it is God's throne, or by the earth, for it is his footstool, or by Jerusalem, for it is the city of the great king. You must not swear by your own head, for you cannot make one single hair white or black. But your way of speaking must be "Yes" or "No." Anything that goes beyond that comes from the evil one.

★ You have heard that the men of old were told "You shall not murder," and "Whoever murders will have to answer to the court." But I tell you that anyone who gets angry with his brother will have to answer to the court, and anyone who speaks contemptuously to his brother will have to answer to the great council, and anyone who says to his brother "You cursed fool!" will have to answer for it in the fiery pit! So when you are presenting your gift at the altar, if you remember that your brother has any grievance against you, leave your gift right there before the altar and go and make up with your brother; then come back and present your

gift. Be quick and come to terms with your opponent while you are on the way to court with him, or he may hand you over to the judge, and the judge may hand you over to the officer, and you will be thrown into prison. I tell you, you will never get out again until you have paid the last penny!

★ You have heard that they were told, "An eye for an eye and a tooth for a tooth." But I tell you not to resist injury, but if anyone strikes you on your right cheek, turn the other to him too; and if anyone wants to sue you for your shirt, let him have your coat too. And if anyone forces you to go one mile, go two miles with him. If anyone begs from you, give to him, and when anyone wants to borrow from you, do not turn away.

★ You have heard that they were told, "You must love your neighbor and hate your enemy." But I tell you, love your enemies and pray for your persecutors, so that you may show yourselves true sons of your Father in heaven, for he makes his sun rise on bad and good alike, and makes the rain fall on the upright and the wrongdoers. For if you love only those who love you, what reward can you expect? Do not the very tax-collectors do that? And if you are

polite to your brothers and no one else, what is there remarkable in that? Do not the very heathen do that? So you are to be perfect, as your heavenly Father is,

★ But take care not to do your good deeds in public for people to see, for, if you do, you will get no reward from your Father in heaven. So when you are going to give to charity, do not blow a trumpet before yourself, as the hypocrites do, in the places of worship and the streets, to make people praise them. I tell you, that is all the reward they will get! But when you give to charity, your own left hand must not know what your right hand is doing, so that your charity may be secret, and your Father who sees what is secret will reward you.

★ When you pray, you must not be like the hypocrites, for they like to pray standing in the places of worship and in the corners of the squares, to let people see them. I tell you, that is the only reward they will get! But when you pray, go into your own room, and shut the door, and pray to your Father who is unseen, and your Father who sees what is secret will reward you. And when you pray, do not repeat empty phrases as the heathen do, for they imagine that their prayers will be heard, if they use words enough. You must not be like them. For God, who is your Father, knows what you need before you ask him. This, therefore, is the way you are to pray:

*'Our Father in heaven,
Your name be revered!
Your kingdom come!
Your will be done on earth
as it is done in heaven!
Give us today bread for the day,
And forgive us our debts,
as we have forgiven our debtors,
And do not subject us to temptation,
But save us from the evil one.'*

For if you forgive others when they offend you, your heavenly Father will forgive you too. But if you do not forgive others when they offend you, your heavenly Father cannot forgive you for your offenses.

★ When you fast, do not put on a gloomy look, like the hypocrites, for they neglect their personal appearance to let people see that they are fasting. I tell you, that is all the reward they will get. But when you fast, perfume your hair and wash your face, so that no one may see that you are fasting, except your Father who is unseen, and your Father who sees what is secret, will reward you.

★ Do not store up your riches on earth, where moths and rust destroy them, and where thieves break in and steal them, but store up your riches in heaven, where moths and rust cannot destroy them, and where thieves cannot break in and

steal them. For wherever your treasure is, your heart will be also. The eye is the lamp of the body. If then your eye is sound, your whole body will be light, but if your eye is unsound, your

whole body will be dark. If, therefore, your very light is darkness, how deep the darkness will be! No slave can belong to two masters, for he will either hate one and love the other, or stand by one and make light of the other. You cannot serve God and money. Therefore, I tell you, do not worry about life, wondering what you will have to eat or drink, or about your body, wondering what you will have to wear. Is not life more important than food, and the body than clothes? Look at the wild birds. They do not sow or reap, or store their food in barns, and yet your heavenly Father feeds them. Are you not of more account than they? But which of you with all his worry can add a single hour to his life? Why should you worry about clothing? See how the wild flowers grow. They do not toil or spin, and yet I tell you, even Solomon in all his splendor was never dressed like one of them. But if God so beautifully dresses the wild grass, which is alive today and is thrown into the furnace tomorrow, will he not much more surely clothe you, you who have so little faith? So do not worry and say, "What shall we have to eat?" or "What shall we have to drink?" or

"What shall we have to wear?" For these are all things the heathen are in pursuit of, and your heavenly Father knows well that you need all this. But you must make his kingdom, and uprightness before him, your greatest care, and you will have all these other things besides. So do not worry about tomorrow, for tomorrow will have worries of its own. Let each day be content with its own ills.

★ Pass no more judgments upon other people, so that you may not have judgment passed upon you. For you will be judged by the standard you judge by, and men will pay you back with the same measure you have used with them. Why do you keep looking at the speck in your brother's eye, and pay no attention to the beam that is in your own? How can you say to your brother, "Just let me get that speck out of your eye," when all the time there is a beam in your own? You hypocrite! First get the beam out of your own eye, and then you can see to get the speck out of your brother's eye.

★ Do not give what is sacred to dogs, and do not throw your pearls before pigs, or they will trample them under their feet and turn and tear you in pieces. Ask, and what you ask will be given you. Search, and you will find what you search for. Knock, and the door will open to you. For it is always the one who asks who receives, and the one who searches who finds, and the one who knocks to whom the door opens. Which of you men when his son asks him for some bread will give him a stone? Or if

he asks for a fish, will he give him a snake? So if you, bad as you are, know enough to give your children what is good, how much more surely will your Father in heaven give what is good to those who ask him for it! Therefore, you must always treat other people as you would like to have them treat you, for this sums up the Law and the Prophets.

★ Go in at the narrow gate. For the road that leads to destruction is broad and spacious, and there are many who go in by it. But the gate is narrow and the road is hard that leads to life, and there are few that find it.

★ Beware of the false prophets, who come to you disguised as sheep but are ravenous wolves underneath. You can tell them by their fruit. Do people pick grapes off thorns, or figs off thistles? Just so any sound tree bears good fruit,

but a poor tree bears bad fruit. No sound tree can bear bad fruit, and no poor tree can bear good fruit. Any tree that does not bear good fruit is cut down and burned. So you can tell them by their fruit. It is not everyone who says to me "Lord! Lord!" who will get into the Kingdom of Heaven, but only those who do the will of my Father in heaven. Many will say to me on that Day, "Lord! Lord! Was it not in your name that we prophesied, and by your name that we drove out demons, and by your name that we did many mighty acts?" Then I will say to them plainly, "I never knew you! Go away from me, you who do wrong!"

★ Everyone, therefore, who listens to this teaching of mine and acts upon it, will be like a sensible man who built his house on rock. And the rain fell, and the rivers rose, and the winds blew, and beat about that house, and it did not go down, for its foundations were on rock. And anyone who listens to this teaching of mine and does not act upon it, will be like a foolish man who built his house on sand. And the rain fell and the rivers rose, and the winds blew and beat about the house, and it went down, and its downfall was complete.

★ When Jesus had finished this discourse, the crowds were astounded at his teaching, for he taught them like one who had authority and not like their scribes.

S & H Catalogs Distributed Here

Joseph N. Crumpler, Winston-Salem, branch manager for The Sperry & Hutchinson Company, announced distribution here of the new S & H Green Stamp Merchandise Catalog. The company's 65th catalog, Mr. Crumpler said, lists twice the number of items as in previous years. More than 1,000 items of merchandise are shown, including an all-electric kitchen, six patterns of sterling silver and 59 decorator items, all new. The catalog has 84 pages, 60 per cent more pages than in previous editions.

Shown in the catalog are products made by manufacturers in this State and available for redemption in 558 S & H Green Stamp Redemption Stores across the nation.

Mr. Crumpler said that the catalog is reported to be the largest single business publication printing order in the nation. "The current S & H Catalog," he added, "indicates the growth of our business. It's being made available to the 23 million families — almost half the families in the U.S.A. — who now save S & H Green Stamps, distributed by more than 60,000 merchants."

This training, followed by two weeks leave, completes the basic Marine Corps training. Graduates are then assigned to specialist schools or a permanent duty assignment.

SO THIS IS NEW YORK By NORTH CALLAHAN

Here and all around the country, it is happy graduation time. Most of us are interested in some one who soon in cap and gown will eagerly face the rostrum and receive that all important roll of paper which we call a diploma. Educators philosophize, ministers pray, and parents and friends congratulate. Often then the young graduate goes forth in quest of a job with so many well-meant words ringing in his ears that he hardly knows what to believe or remember. Yes, hard reality may bring disillusionment later on, but this is no time to dwell on it. Let these young graduates in the full flush of their first great achievement — which seems greater because of its joyful novelty — enjoy this shining hour.

Eggheads mixed with eggs, pretzels, mushrooms, chickens and ducks, along with many other accompanying things at the recent "Plain and Fancy" festival at the Henry Hudson Hotel here. A ballroom was turned into a combination farm and dining room, and the general result was food and fun. Outside the weather was unseasonably warm so that the most popular item was ice water. I never knew before that edibles could be fixed so many different ways, but the delicious samples were there to prove it, as the food industry flexed its meaty muscles and demonstrated eloquently that ours is truly a land of plenty.

The story is told that Major John Eisenhower, son of the President, when he was a second lieutenant in World War II and an aide to his father, was sent one day with a message to a colonel in the front line. "My dad says to watch your right flank," the younger Eisenhower told the colonel. "Fine," replied the puzzled officer, "and what does your mommy say?"

Regardless of political affiliation, New York mourns the loss of one of its leading lawyers, John Foster Dulles. It was in this respected field that he made the fortune which enabled him to become and remain the eminent world diplomat that he was. Those who doubted Dulles' never questioned his ability and religious devotion. Now he is buried in Arlington National Cemetery along with other gallant men who served their country well. It is interesting to note, however, that Trinity Churchyard here at the head of Wall Street, not Arlington Cemetery has the oldest tomb to an unknown soldier. The local plot, which holds the body of Alexander Hamilton, honors the unknown Americans who died in British camps in our Revolutionary War.

Women here are alarmed and colorfully so. The government has announced it may ban 17 coal tar colors used in the production of lipsticks. This island of Manhattan may revert to the pale-faces again, after being populated for centuries with more or less red faces from the Indians to that of Casey Stengel. One manufacturer says the situation is serious, that most lipsticks use these 17 colors which may possibly be harmful. But the manufacturers and girls will come up with something, one can be sure. We now have artificial hearing aids, toupees for both sexes, contrived eye lashes and contact lenses, so why not artificial lips? Why not indeed!

OPPOSITION TO PROGRESS

Down Through The Years . . .

Last week this newspaper carried an editorial entitled: "Mocksville Is Complimented." This editorial dealt with an article praising Davie County and Mocksville which appeared in the national magazine "Public Service," published by the Central Gas and Electric Company.

This article was very generous in its praise of this community and its people, saying in one place: "The residents are energetic, progressive people who are vitally interested in projects that will assure the continued growth and development of their community."

No citizen can read this article without a feeling of pride of belonging to a community that he, too, feels is progressive. As you read this article you think back.

You think back to 1955 when Mocksville had a manually operated telephone switchboard, the rural telephone system in the county had just gone into operation, and there existed the aggravating toll charge between the two. You think of the battle that was waged to get this toll system abolished which was finally accomplished when the people voted to accept a small increase in rates in lieu of the toll. The vote carried over, of course, the opposition of many. Today, however, all apparently are happy over the results and it is recognized not only locally, but nationally, as a progressive move which cleared the way for our modern dial system.

Has there always been opposition to progress and moves to promote progress? As you think back, you know that there has.

You go back to the spring of 1948 and the county school bond vote then. There was opposition but the majority of the people approved the issue and brought Davie County a long step forward in education. That bond issue provided facilities which kept Davie in pace with the times.

You look at some other issues . . . this time at the school and road bond program promoted by the late Governor W. Kerr Scott. You remember the walls of anguish that arose that it would put North Carolina head over heels in debt . . . it would ruin the state . . . that the people of North Carolina couldn't afford such a program as was being proposed. However, again the majority of the people did their own thinking and the issues passed.

Today that program is recognized as the impetus which pushed North Carolina out ahead of her sister southern states. It was a program that brought the farmers in this and other counties out of the mud and with good roads made possible greater economic progress. Also, the school bond money under this program helped many communities bring their school program forward.

Then you think about the matter of a municipal supported recreation program that was proposed by the Town of Mock-

ville. Boy, did this really bring out the opposition! There was all sorts of accusations of tax supported "baby sitting," "not needing anyone to teach our children how to play," and the like.

Again the majority of the people saw through the smoke screen of the opposition, evaluated the program for what it was, and voted to authorize it.

Today you will not see a brochure that is put out describing the assets of this community that does not list the municipal supported recreation program as one of Mocksville's greatest assets.

Then there was the hospital issue. It was such a short time ago that there should be only a few who cannot remember. Yes, there was opposition to Davie County approving bonds and building a hospital. Many fought the proposal "tooth and toenail," as the saying goes.

"It will bankrupt the county!" . . . "It can't support itself, it will have to be supported solely by taxes!" . . . "The only ones to use it will be the welfare patients!" . . . and other such statements were put out in opposition. However, the people of Davie County wanted a hospital and when once allowed to vote, did so overwhelmingly in favor of the measure.

Recently there was an industrial tour through Davie and other counties of Northwest North Carolina. On this tour the visiting executives from all sections of the United States were naturally shown the outstanding features of which the people in the county took pride. Without exception, these features in every county visited included the schools, hospitals, and other public buildings financed by bond issues.

Davie County was no exception. The visitors were taken to the new Davie County Hospital, to the new and unfinished Davie County High School, and county office building. All of these units made favorable impressions and of course it was explained that plans were to finish the new high school in the very near future.

You think of these things as you hear a few people on the streets criticize and voice opposition to a bond issue that is necessary just to bring Davie County up-to-date and give it a finished high school. You hear some propose that a gymnasium is not needed. You head the proposal that an auditorium is not needed. You hear the proposal that a cafeteria is not needed and the remark: "Why I carried my lunch to school in a paper sack." However, as you think back you realize this is nothing new. This is the same opposition that has existed to any and all "go forward" programs down through the years.

But as you think about it you realize that this opposition is not bad. In fact, it makes people stop and think for themselves and you realize that as long as people do that progress will not stop in Davie County.

A Teacher's Part In Our Future

(The following is an essay written by Johnny Ward, the valedictorian of the 1959 graduating class of the Davie High School. The essay was written and submitted by Johnny in the Jaycee Junior Citizenship contest, which was also won by Johnny. The editor feels that the thoughts expressed in this article and the manner in which they are expressed is a great tribute not only to the individual they represent, but to our county and the Davie County High School. We take this opportunity to pay tribute to Johnny Ward for one of the finest articles we have ever read as to his plans for the future and why!)

"If I go to school, Mommie," a little girl asked, "and listen to my teacher, will I learn to tell good from bad?"

"Oh, yes, my daughter," her mother said, "and not only good from bad; you will also learn that which is honest from that which is dishonest; that which is true from that which is false; and that which is sinful from that which is Christian—all this and more, you will learn, my dear, if you but listen to true teacher!"

What is a true teacher? To me a teacher is not a sullen, grouchy person, who is ready to snap at you any minute, but a teacher is a warm-hearted, kind person whose main interest is trying to cause learning to go forward. A teacher helps his students to organize and clarify their thinking and acquaints them with a body of facts so that they can adjust their beliefs to the best available knowledge.

I feel that the teaching profession is the greatest profession in the world, because it will be this profession that will determine the future of our own country. Why do I say this? Because a large portion of each child's or youth's life is spent in the hands of the teacher. Our young people today will be our leaders of tomorrow. From the time a young child starts to school he is greatly influenced by his

teacher. It is his teacher that helps mold his character. It is likely that he will grow up to be just the kind of citizen that his teacher influences him to be.

We should never think of education as drab routine, and uninteresting. But we should think of it as exciting and adventurous. We should think of it as the most vital of all activities, affecting as it does the happiness and well being of children who are to be citizens and therefore, the shapers of the future and the masters of tomorrow.

As I start next fall to prepare myself for the teaching profession, I cannot help but feel that a great responsibility is being laid upon my shoulders. I, along with other teachers, will have the responsibility of determining what kind of county we have in the future. The molding of the lives and characters of hundreds of youngsters will be in our hands. The things I teach them and the life I live before them will influence them as to the kind of citizens they will become.

May I use my ability and the knowledge that I have been able to acquire and will acquire to teach the future citizens of Davie County to live upright, Godly lives, making our county the best county, so that in the future years our citizens will be proud to say, "I was educated in Davie County."

SO THIS IS
NEW YORK

By NORTH CALLAHAN

Now that Nikita Krushchev is calling the turn in many key world events, it is well to note what a prominent local statesman said about him, his comment being based on first-hand knowledge of the unpredictable Russian: "He may seem to be impulsive, bullheaded and excitable. But underneath this surface exuberance there lies a shrewd, calculating and powerful mind, combining the capacity to absorb and arrange a mass of detail, with a cautious, peasant awareness of all the reactions pertaining to a situation in which a bargain is in progress."

With the baseball season under way — something, however, that the New York Yankees seem hardly yet aware of — one is reminded of the time when Dizzy Dean had an argument with Umpire George Barr who refused to answer as Dean repeated his protest. "Mr. Barr," shrieked Dean, "Aint you gonna answer my question?" The umpire replied, "I did. I shook my head." Dean stomped back. "No you didn't. If you had I'd have heard somethin' rattle."

Recently a Federal official made a remark about airplane pilots who spend time walking up and down the aisle chatting with passengers. Having observed such actions myself, and on one flight a pilot who allowed a little boy to sit at the controls, with the door to the cockpit wide open, I made inquiry. Said G. S. Moore, Chief of the Air Carrier operations Branch of the Federal Aviation Agency, "Good operating practices dictate that constant vigilance and attention to duties by all crew members while in flight is required. Public relations while in flight are not required of the flight crew members. Further, passenger en route briefings conducted by a crew member while in areas of high density traffic are not considered conducive to good safety." This is good theory. I suggest that more inspections be made to carry it out.

Local insurance officials tried to find out why a woman was so late in reporting a robbery and questioned her closely about the occurrence. Didn't she suspect something, they asked, when she came home and found bureau drawers opened, closet doors ajar and the contents scattered all about. "Not really," she replied. "I just thought my husband had been looking for a clean shirt."

Over on the high stone banks of the Hudson River some 155 years ago, Alexander Hamilton and Aaron Burr fought the famous duel in which Hamilton was killed. The pistols they used are still here, and may be seen at the Chase Manhattan Bank at 18 Pine Street, 4th floor. They were obtained by the bank from the great-granddaughter of Colonel John B. Church, Hamilton's bro-

ther in law, who furnished the pistols for the duel. This bank has a special interest in these pistols. One of the few things that Hamilton and Burr agreed on — and did — was to establish the Manhattan Company which originally furnished water to New York City. Then entered the banking business and obtained the original charter 160 years ago, under which the present bank operates.

Much is heard of New York City, perhaps not enough of New York State. For example, the highest waterfall east of the Rockies is not Niagara but Taughannock Falls, on Route 89 north of Ithaca, N. Y. On the rural roads of the state are 24 carefully preserved covered bridges. In Suffolk County, Long Island, are a dozen ancient windmills of English design, more than in any other part of the country. Once in Onondaga County a man who was afraid he would freeze to death in the snow wrapped himself in a great curl of hemlock bark, and next morning, neighbors had to chop him out. The pledge of allegiance to our national flag, perhaps the most repeated passage in our language, was written by Francis Bellamy of Mount Morris and Rome, N. Y.

Letters To
The Editor

Dear Editor:
Will you give me a little space in your paper to tell of the great changes in the schools of my day and the present.

When I was six years old I went to a little one room, one teacher school at Dulins. We had no good roads and I walked through the mud, rain and snow. The heating plant was a big open fireplace and the water was brought in buckets from a spring several hundred yards away.

My first teacher was Charlie Davis from Yadin County. Others were Thomas Atkinson, Milton Foster, Jesse G. Foster, Charlie Sheets and others. The school board was comprised of three men: Tom Jones, Frank Summers and Bill Wellman.

Many of the students have gone on to the "Great Beyond," some have moved away. Those that I know to be living in this county are Charlie Howard, Tommie Carter, Lee Ellis, Tom Foster, Cap Gullett, Tom Summers and John Walker Jones. The girls, Esther McDaniel, Mary Jones, Tella Carter, Annis Angell and Jessie Laird.

The schools then were only four months. We learned a little and had lots of fun and we still think of them as the good old days. I hope to see this in print. Thank you.

60 SECOND
SERMONS

By FRED DODGE

TEXT: "The great end of life is not knowledge but action" — Aldous Huxley.

"Say," yelled the farmer who owned a pond. "Don't you see that 'No Fishing Here'?"

"I suredo," said the disgruntled fisherman. "And the fellow who printed that sign sure knew what he was talking about."

It is saddening to observe the vast amount of knowledge which people possess, but do nothing about. It is not ignorance that holds the world back and keeps us from reaching success. It is inaction.

It has been said that knowledge is power. But when knowledge doesn't go into action, it has no power.

In business, politics, religion, and social life, the crying need is not knowledge, it is the will to put knowledge into action. Sales managers rate enthusiasm far above knowledge in selecting sales men. They can "tune down" a man who is too active, but they cannot "tune up" a man who will not act.

Men and women without knowledge, but possessing an enthusiastic desire to act have far exceeded those who have only knowledge. That fact doesn't mean that knowledge should be neglected. It does mean that knowledge, alone, is useless. Action, alone, is better. But knowledge plus action is the combination that opens any treasure house in the world.

What Every Veteran
Should Know

In the event a person receiving a monthly check from the Veterans Administration or a Retired Pay Branch of the Armed Services dies without endorsing his or her check, it should be returned to the sender, W. J. Wilson, Davie County Veterans Service Officer, said this morning.

After the check has been returned to the sender, the County Service Officer said, that the next of kin could apply for any accrued amount due the deceased at the time of his death. Mr. Wilson said that in some Veterans Administration cases, if there is no immediate family, the person who paid the expense of the deceased person's last illness may claim reimbursement.

For further information and assistance you may contact your County Veterans Service officer who is located in Lynn Haven Nursing Home, Mocksville, or Robert F. Curran, District Officer, N. C. Veterans Commission, 202 Frye Bldg., Hickory, N. C.

IT PAYS TO ADVERTISE

IN JUNE . . . Attempting to predict the ending of a North Carolina legislative session is like trying to guess the date of the first frost in autumn. About all you are absolutely sure of is that, come heck or high water, the wheel of time will eventually roll that time on the calendar.

You hear guesses here varying from June 3 — when pay stops — to a solemn July 3 and "that will take them home for a glorious Fourth." Most dates are about the middle of June. But not even the legislators themselves know when it will be — and your guess is almost as good as theirs.

The speed with which several highly controversial pieces of legislation were disposed of last week pointed to — adjournment in June.

DOWNEAST SPLIT? . . . Now friends of Lt. Gov. Luther Bernhardt are saying that there will be so many candidates from east of Raleigh going for the Governor's office in 1960 that eastern counties will divide their votes to such an extent as to open wide the gates for a westerner.

Since Bernhardt is from Concord, they say, he would derive the good from such a split. Nevertheless, from this corner we see it as a knock down — drag-out between John Larkins of Jones County and Terry Sanford of Cumberland County.

We do have splits in the Primary, but they are frequently issue splits — and definitely not the geographical variety.

NO SUPPORT . . . Merchants' groups, said to be miffed because they were not contacted by Sen. James Simpkins of New Bern before he introduced his bill to permit garnishment of wages, gave his measure scant support when it came up for a hearing last Thursday.

Simpkins, a jeweler, is the fellow who ran against Congressman Hep Barden two years ago. Since Labor, which despises Barden, is supposed to have thrown thousands of dollars to Simpkins in the 1956 race, a lot of people wonder just why Simpkins introduced the garnishment bill.

Note: Garnishment of a man's wages to pay his debts is one item upon which Labor and Management agree. Both very much dislike the idea: Labor, because they want to see workers get the full paycheck; and Management, because of bookkeeping difficulties which clipping the check to pay debts would bring to the office.

The N. C. Merchants Association, chief champion of garnishment of wages to pay grocery bills, etc., steered clear of the Simpkins project.

DON'T TAKE LONG . . . Speaking of money, we heard last week about this football player who was having an awfully hard time with math at college.

He was great on the field, but his math teacher told him if he didn't improve, he would have to bust him out of school. Two weeks later he flunked math again and was out.

About four years after this occurrence, the math professor was in the city and got gilded a big Cadillac and parked right near him. Out, dressed like a million dollars, jumped the old football player.

"Is this yours?" asked the prof.

"Yes, Fessor," he said. "I get a new one every year. That way I always keep a good car."

Remembering him as a student, the former instructor was amazed at his prosperity. "How in the world do you do it?" he asked.

"Well, Fessor, I make a little old plastic gadget used in the kitchen. We sell 'em like hot cakes. Make 'em for a dollar each and sell 'em for four dollars. I'll tell you, it don't take long fer that three per cent to really add up."

CONFIDENCE . . . We are not necessarily referring to the current Congress or to members of the 1959 Legislature now gather'd here, but we are passing along to you a thought we recently heard expressed: People in general have more confidence in a lawmaker if he does not talk so much about his political ambitions. When the talks of his wish to be a congressman, an Agriculture Commissioner, a Governor, or Lt. Governor, or U. S. Senator some time, the average person jumps to the conclusion that the legislator's top thought is to make votes rather than to follow his conscience. Ambition often breeds insincerity.

NOTES . . . Charlotte Resident G. F. Thompson is the new manager of the Sperry and Hutchinson (green stamps) Co. for the Southeast. In his new position, Thompson will direct S & H sales activities in the Carolinas and in Georgia and Florida. . . Thompson will have offices in Charlotte. He has been with S & H the nation's oldest and largest trading stamp company, since 1951.

Ted Davis, crack public relations director here for the Employment Security Commission, is taking the lead in the formation of a club in Raleigh for PR directors of various State agencies, firms, and organizations. . . A meeting to determine interest will be held in Raleigh within a few days.

New president of the Carolina Society of Association Executives is Tom Outlaw, the man who has built the N. C. Motor Carriers Association from a one-horse show to a 20 mule team with one of the nearest operations of any organization of its type in the country. . . Rocky Mount is still looking for a new Chamber of Commerce executive.

UNCLE DAVE FROM DAVIE Says:

DEAR MISTER EDITOR:

I ain't too happy about this meeting "at the summit" business. Them Russians will end up talking us out of Fort Knox. We met with old Joe Stalin three times "at the summit" and ever time he sold us Brooklyn Bridge. At Tehran in 1943 he made us promise a second front. At Yalta in 1945 he really took us to the cleaners. He agreed to enter the war with Japan, which was already won. If we'd agree to give Russia a bunch of islands and Fort Arthur fer a naval base, and let 'em run the railroads in Manchuria. The reason he put that railroad item into the bargain was because he was already planning the "police action" in Korea.

Six months later Truman and our fellers met Joe at Potsdam. Harry is a real sociable feller and he thought it might ease the international situation if he'd play the piano fer Joe. But Joe, it turned out, wasn't no patron of the arts, and while Harry was playing the Missouri Waltz fer Joe, the Russians was prying us loose from our shirt. We agreed to cut Berlin up in zones and Joe slipped a joker in the deck when he fixed it so nobody could git into Berlin without crossing Russian territory.

With such past successes, Mister Editor, it ain't no wonder that them Russians is strong on this meeting "at the summit" business. Ed Doolittle's cow has went dry and Ed is temporarily buying his dairy rations at the country store. He come home yesterday with a pound of colored oleomargarine, so his old lady told mine.

Yours truly,
Uncle Dave

He said he found it cheaper and to him grease was grease. The reason I mention it here, Mister Editor, is to show how people in this country has lost their pride. I can recollect when, if a farmer's wife slipped a little coloring in her butter, they kept it a household secret, the same as they would keep it a secret if their daughter had a child born out of wedlock. But now they make no attempt to keep their pride, just like Ed coming home with a pound of oleo, plain out in the open fer everybody to see and hear about.

Well, Mister Editor, I had a birthday last week. I ain't what I used to be no more. There was a time when June meant moonlight and roses and I would rave about 'em both. Now the moonlight just makes the dogs howl, and the roses give me hay fever. But each birthday has its advantage. It brings me closer to drawing by old age pension. I'm looking forward to that fine day when I'll sit about \$40 a month fer life and can retire, if not in peace, at least in prosperity — so the Government tells me.

Yours truly,
Uncle Dave

record of the names, social security numbers, and wages paid to his employees who are covered by social security. This means if the farm worker is paid \$180 in cash or works for 20 days or more on a time basis during the year. Most day laborers are covered by social security. Also, a domestic servant working for a farm operator is generally considered an agricultural employee. Since a

sharecropper is considered self-employed, he is responsible for making wage reports on labor he hires. A farm crew leader is usually self-employed also and makes the reports on his crew, unless he has signed a written agreement naming the farm operator as the one responsible for this. If the farm employer has paid cash wages covered by the social

security law to one or more employees, he must secure an employer's identification number from Internal Revenue Service and

make his reports on Form 943, Self-employment income goes on Schedule F of Form 1040. By keeping records and making prop-

er reports of his own earnings and those of his workers, a farmer is doing his part in making social security earnings records correct.

Social Security In Davie County

"A farmer has legal rights under social security, and he also has legal obligations," stated J. G. Liebensberger, Manager of the Salisbury Social Security District Office. All self-employed farmers must keep a complete and accurate record of their income and expenses. This need not be a complicated bookkeeping system, but may be a simple list kept currently. It should include all farm income, such as eggs, vegetables, proceeds from crop insurance, patronage dividends, and fair prizes, in addition to the main crops or livestock sold. Part of the overall farm income may be received by other members of the farmer's family. For example the wife may raise vegetables or prepare canned or bakery goods for sale.

A farmer is required to keep a

CHEVY BESTS

Independent experts and official facts and figures prove Chevrolet's ahead of its field in seven big ways.

BEST BRAKES... In direct competitive tests of repeated stops from highway speeds, conducted by NAS-CAR*, Chevy out-stopped both the other leading low-priced cars—and why not? Chevy brakes are far larger, built with bonded linings for up to 66% longer life. BEST TRADE-IN... Check the figures in any N.A.D.A.† Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two." BEST STYLE... Popular Science magazine sums it

up: "The fact is, in its price class the Chevy establishes a new high in daring styling..." It's the only car of the leading low-priced three that's unmistakably modern in every line. BEST ECONOMY... No doubt about this: two Chevrolet Sixes won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car. BEST ROOM... Official dimensions reported to A.M.A.‡ make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars. BEST

ENGINE... Every motor magazine has given Chevy's standard and Corvette V8's unstinted praise. As Sports Cars Illustrated puts it: "Indeed, this device is surely the most wonderfully responsive engine available today at any price." BEST RIDE... You'll be able to tell this yourself, instantly. But Motor Trend magazine expresses it this way: "... the smoothest, most quiet, softest riding car in its price class."

EXCESS COTTON AND TOBACCO FARMS

Performance Reporters are now visiting cotton and tobacco farms for the purpose of determining the planted acreage. In a few days farmers will be receiving their notices of the acreage planted. Farms receiving notices of excess acreage are urged to contact the ASC office immediately to request remeasurement or disposition.

FARM STORAGE EXPANDED THROUGH LOANS

More than 10 million bushels of grain storage capacity was placed on the Nation's farms in

the first quarter of 1959 as a result of ASC's storage facility loan program, according to Zeno O. Ratcliff, Jr., Chairman of the North Carolina State ASC Committee.

Storage facility loans totalling more than \$2,000,000 were made during the January-March period to approximately 2,700 farmers, Ratcliff said. In addition, 182 farmers borrowed a total of \$286,000 to finance mobile crop drying equipment for use in connection with storage facilities.

During 1958 nearly half a million bushels of grain storage capacity was added on North Carolina farms. Storage facility loans totalling \$155,000 were made during that period in this State. In addition 81 North Carolina farmers borrowed a total of \$69,000 to buy drying equipment for use in connection with storage facilities.

Loans of up to 80 percent of the cost of grain storage facilities are available through ASC offices to help farmers meet the need for farm grain storage.

Certification Required On Discount Tobacco Varieties

Plans for identifying the discount varieties of flue-cured to-

bacco have been made, according to H. D. Godfrey, ASC State Administrative Officer, including the certification which farm operators are required to make. The Secretary of Agriculture has announced that certain varieties of flue-cured tobacco — Coker 139 and 140, and Dixie Bright 244 — again this year would be supported at one-half the support rates for comparable grades of other varieties. Farmers who harvest any of the discounted varieties on any farm which they operate will be issued a "limited support" marketing card to indicate that the tobacco is not eligible for full support.

At the time tobacco is measured, the farm operator will be requested to make a certification as to whether any of the discounted varieties are being produced on the farm. Godfrey cautioned farm operators to be very careful in making this certification because a false statement will make them liable for criminal and civil penalties. He stated that the farm operator should not certify that discounted varieties are not being produced unless he is sure that the certification he is making is correct. If the farm operator makes a certification that he has not planted on his farm any of the undesirable varieties and later wishes to change this certification, Godfrey stated that he may do so by making a request to the County ASC Committee or its

representative. A new certification will then be completed which will replace the original certification made by him. In any event, the burden of proof that discounted varieties are not being produced will be upon the farm operator. Godfrey stated also that field determinations will be made by Variety Identification Specialists employed by the State ASC Committee. The certification by the farm operator, however, will be obtained in each case at the time the tobacco acreage is measured.

Support Rate Announced On 1959 Rye Crop

Eligible producers of rye in North Carolina will have their 1959 crop supported at the rate of \$1.07 per bushel according to Zeno O. Ratcliff, Jr., Chairman of the State ASC Committee.

This rate is based on the national average support price of 90 cents per bushel for rye grading No. 2 or better, or grading No. 3 on the factor of test weight only. The 1959 national average support price of 90 cents per bushel is 20 cents less than the 1958 rate. The rate in this state is reduced in the same amount, \$1.27 last year compared with \$1.07 this year.

According to Ratcliff, price support will be carried out as in previous years through farm and warehouse stored loans and purchase agreements. Support will be available from harvest time through Jan. 31, 1960. Loans will mature on Feb. 28, 1960.

Ratcliff further cautioned Tar Heel farmers that the support program on rye or on any of the other grains actually cannot help farmers at all unless they can avail themselves of approved storage space for their production. He further stated that any county office in the state will be glad to discuss storage problems with interested farmers.

Driver Education Courses Being Taught This Summer

61 Sign-Up For Course At Davie High School

By GORDON TOMLINSON
Although formal schooling ended last month for Davie County students, a very important instructional course is continuing on through this summer. Each day, two instructors devote periods in both the morning and afternoon towards giving state approved instruction in driver education.

This summer driver education being taught to 61 youngsters by Walter G. Morris and Mrs. Millicent Sofley. The course consists of 30 classroom hours; six hours behind the wheel; 18 hours observing in the car. The course requires 18 days total time to complete.

The car, a Chevrolet fully equipped for instructional purposes, is provided through the courtesy of the Pennington Chevrolet Company.

The general objectives of the driver's education course is to reduce motor vehicle accidents to the minimum. The aim is through the course to instill in as many young drivers as possible a sense of civic responsibility with regard to driving motor vehicles and to promote through increased uniformity of instructions, a high standard of performance in motor vehicle driving. Many feel that the course enables every trainee to use motor vehicles with greater safety, efficiency and pleasure.

The high school course in driving consists of two well-defined parts. The first concerns itself with the mastery of specialized instruction related to the driving of a motor vehicle. The student here assimilates knowledge, develops understanding leading to new thought relationships, molds an attitude of civic and social responsibility, and acquires ability to think independently and critically about the activity which he is learning to perform.

The second part, the practical application of information being mastered, consists of learning to operate an automobile safely and skillfully. This the student accomplishes through a series of planned learning experiences at the control of a real automobile.

Beginning with manipulation of the car controls, the student acquires the necessary habits and skills for driving a car and develops confidence and poise in his own performance at the wheel. Here the student learns to give personal expression to the knowledge, understanding, appreciations, and attitudes already

Recreation Begins

The summer recreation program at Rich Park will get underway on Monday morning, June 15th. Jim Wall and Mrs. Tom Hunter will serve as directors again this year.

Morning sessions from 9 a.m. to 12 noon will feature games and handicraft sessions. There will be no afternoon sessions at Rich Park. Instead, swimming groups will be planned for each afternoon. These groups will be organized according to swimming ability and will be comprised of those who take part regularly in the morning program.

The directors urged all local boys and girls to come out and take part in these programs.

Rotary Learns About Local Poultry Growth

Rotarians learned about the growth of the poultry industry on both the local and national level at their regular meeting, Tuesday.

Arthur Upshaw had charge of the program and discussed the various phases of this industry. He pointed out that one man can produce a million pounds of meat per year in chickens.

Mr. Upshaw then conducted a tour of two local poultry farms; that of E. C. Morris and George Hendricks . . . which have the capacity to grow 30,000 chickens at a time.

President Grady Ward presided. Special guests included Bob Smoot of Salisbury; J. K. Sheek, Jr., and Jim Beahler.

Mocksville Little Leaguers Win Game

The Mocksville Little League won a thriller of a baseball game last Thursday afternoon from the Coolemeec Rebels, at Rich Park. The final score was 6 to 4 in favor of the locals.

The game was tied 4 and 4 until the last inning. There were players on first and second base and it was the last of the last inning. Two players came and struck out. Then Donnie Jones came to bat and knocked a triple to center field that sent the locals out in front. Jones also hit a home run at the beginning of the game and had a single to add to the score.

Jerry Hayes pitched the entire game and he also hit a home run. David Walker hit a home run, and Kenneth Boger and Paul Harpe each collected a run a piece for the score.

UNCLE DAVE FROM DAVIE Says:

DEAR MISTER EDITOR:
Well, school has let out for another year and the fellers at the country store Saturday night was paying their respects to this modern education system. One feller asked me to write a piece for him this week, on account of my having a complaint he wanted to make public. I'll give it to you just like he told it to me.

This feller says that modern education has got so high-falutin that the parents can't even understand the report cards their kids fetch home. He says it used to be that a kid in school got A,B,C,D,E, or F on reading or somepun. Now they give him a mark on "aptitude" or "energy" or mark it down that the kid is "emotional" or maybe ain't washed his teeth today. This feller says the idea in having a kid bring home a report card is to let parents know how he's doing in school. If he gets a C on reading, they'll know he's doing pretty good, and if he gets a F in arithmetic they'll know he takes after his Ma and ain't much on figgers. But now they don't know no more when they get the report than they did afore he brings home. All they know is their offspring is good or bad in "aptitude" or somepun.

This feller wants the school folks to just rig up a report and send it home that tells the simple fact of how the kid is doing, without all the extra trimmings

about being "emotional" or "industrious." He says that if the parents was smart enough to understand all that junk they wouldn't be sending the kid to school in the first place. They'd be teaching him at home. That's the way this feller gives it to me, Mister Editor, and I'm just passing it along to you fer what it's worth.

As a rule, I don't read them Washington columnists, not if I can help it. But last night I got to reading one by mistake and saw where rose bugs had about ruined Mamee's roses this year. I never dreamed, with all the money they're spending in Washington, that they didn't have a Bureau For The Protection Of The White House Rose Garden, with a Director, Field Superintendent, Bureau Chemist, Book-keeper, Receptionists, and Janitor. They could take such a organization and tit it in with the U. S. Department of Agriculture, and then they could set up a Liaison Department. It seems a Liaison Department is one that links up two departments, giving 'em three instead of two, creating many more jobs. Somebody shore went to sleep at the switch on this one. Them politicians could take this situation and create 200 jobs out of it, maybe 300 if the rose bugs got wore along in July.

Yours truly,
Uncle Dave

DRIVER EDUCATION CAR . . . is turned over to the Davie County Consolidated High School by O. K. Pope, center, representing the Pennington Chevrolet Company. Mr. Pope is shown above presenting the keys to Walter G. Morris, driver education instructor, while Mrs. Carl Sofley, also an instructor, watches the proceedings. The car is to be used for the teaching of driver education courses which are now in session at the local high school.

Town Adopts Tentative Budget Of \$123,114.51 For 1959-60

Tax Rate For Year Is Increased To \$1.10

The Town of Mocksville has adopted a tentative budget estimate for the year of 1959-60 of \$123,114.51. This is the largest budget in the history of the town, exceeding the \$113,104.25 budget for the fiscal year of 1958-59.

The tentative budget estimate also provides for an increase in the tax rate of .050 on the \$100 valuation, with the tax rate for 1959-60 being proposed at \$1.10.

Town officials pointed out that the main reason for the increase in the tax rate was the construction of the water line to Huntington Creek and payments on the bonds.

The tax rate is based on property valuation in Mocksville of \$6,655,730. During the past year the property valuation in the town increased \$179,855. The property tax is anticipated to bring in \$73,213.03 in revenue.

Other anticipated revenue for the town is as follows:

License, permits, fines and miscellaneous revenue, \$8,711.48; Franchise and intangible tax, \$5,700; Water Department, \$29,100; Sewer Department, \$6,000.

The complete tentative budget estimate is published elsewhere in this issue.

Davie Bills Pass House

Status of local bills in the General Assembly were reported this week by the Institute of Government.

Bills raising the salaries of Davie County officials and the Town of Mocksville officials both passed the House of Representatives last week and were sent to the Senate.

Introduced by Rep. B. C. Brock, HB 987, provides for increase in salaries for all Davie County officials. This bill passed the House on June 1, received in the Senate and sent to the committee on Salaries and Fees.

Introduced by Rep. Brock, HB 1177, provides for a salary of \$600 per year be paid to the mayor of Mocksville and that each commissioner receive \$200 per year. Payment is to be made semi-annually and become effective July 1. This bill passed the House on June 5.

HB 988, introduced by Rep. B. C. Brock, increasing the membership of the Davie County Board of Education to seven members and naming E. C. Morris as the additional member, passed the House last week and went to the Senate. It was referred to the Education Committee.

HB 978 introduced by Brock and others, prohibiting phrenology, passed the House on June 4, sent to Senate and referred to Judiciary No. 2 committee.

White Liquor Costs Man \$625

A half-gallon jar of white liquor plus a second offense of operating a car intoxicated resulted in fines totaling \$625 and cost for a Winston - Salem man Tuesday.

Judge A. T. Grant fined Raymer Buckston Hicks \$500 and cost on the charge of operating a car intoxicated; \$100 and cost on the charge of transporting; and \$25 and cost on the charge of illegal possession. Notice of appeal to Superior Court was given.

Hicks was arrested by State Highway Patrolmen R. C. Blalock and William G. Wright on Sunday night while operating a 1956 Plymouth on Highway 601 North. He was arrested on the charge of driving intoxicated and the other charges of possession and transporting were filed when a half-gallon jar of non-taxpaid liquor was found in the car.

Judge Grant also ordered the car held pending the appeal to Superior Court.

MRS. PAUL BLACKWELDER

Mrs. Blackwelder Named Librarian

Mrs. Paul Blackwelder of Mocksville has been elected librarian of the Davie County Public Library. She will succeed Mrs. J. Frank Clement, who has resigned. Mrs. Clement plans to retire from active work as of the first of September.

Mrs. Blackwelder was graduated from Queens College in Charlotte with an AB degree and from the University of North Carolina with a degree in Library Science. She has had experience as a librarian in Amelia, Va., and Rock Hill, S. C. This past year she taught in the Mocksville Elementary School.

She will assume her duties as of Sept. 1st.

Man Pays Fines In Charges Growing Out Of Wreck In Mocksville

Fines totalling \$360 and cost were levied against a man in Davie County Court, Tuesday.

Judge Grant fined Charles E. Master \$300 and cost on the charge of operating a car intoxicated and \$50 and cost on the charge of reckless driving.

Masten was operating a car that was involved in a collision with a milk truck in front of the Mocksville Baptist Church on North Main Street around 1:30 a.m., May 30.

This was Masten's second offense of driving drunk.

Judge Grant found Masten not guilty on the charge of driving after revocation of license when it was shown that although it was through an error, Masten had received a letter from the Department of Motor Vehicles outlining the procedure for the reinstatement of his license. Masten was in the process of obtaining his license when the error was discovered and at the time of the wreck had in his possession a receipt from the license examiner.

The Davie County American Legion Junior Baseball Team showed that they are going to be a team to watch in League I of Area III as they blasted their way into first place by winning the first three games of the season.

Last Thursday night, right-hander Bruce Driver stunned Asheboro's strong nine by breezing to a 6 to 2 victory. He fanned eight batters while yielding only four hits.

Ronald Spry led the locals offensively as he batted in three runs. Dave Snow and Joby Poteat had two hits each.

Saturday night the local Juniors thrilled the large home crowd with a 9 to 2 win over Salisbury. Fast baller Dave Snow fanned 16 batters as he went the distance on the mound.

Dave Snow contributed the deadly blows as he pounded out three hits, including two doubles, to drive in four runs. Fred Pierce and Jerry Sims also had two hits each for Davie.

Tuesday night the Davie lads came back in the last inning with three runs to defeat Statesville, 5 to 4.

With the score 4 to 2 in favor of Statesville, Fred Pierce led off in the ninth inning with a free pass to first. Then second baseman Frank Harrelson lashed a triple to left centerfield. Leon Phillips, outfielder, followed with a game tying double. Then with one out, Joby Poteat looped a single to right field that drove across the winning run.

Bruce Driver, who relieved Jim Oahn in the third inning, was the winning pitcher. He has now won two against no losses. Joby Poteat had three hits for the locals. James Latham, Jerry Sims and Leon Phillips each had 2 hits.

The Davie Juniors are undefeated with a 3 to 0 record. They play Thomasville Wednesday night in a game that was originally scheduled for June 2nd. On Thursday night they meet Lexington at Rich Park in a game at 8 p.m.

Coch Jack Ward's squad goes to Greensboro on Monday night and returns home to meet Spencer at Rich Park on Tuesday night, June 16.

Mocksville Day Nursery Receives State License

The Mocksville Day Nursery, located at 908 Hardison Street in Mocksville, has received its state license from the State Board of Welfare, Child Care Division, of Raleigh. This is the first Day Nursery to meet the State and local requirements as a State licensed Day Nursery.

The Mocksville Day Nursery is owned and operated by Mrs. Hugh E. Partin. Mrs. Partin, a former kindergarten teacher, has had many years of experience in working with children of the Day Nursery age. She opened the Mocksville Day Nursery approximately two years ago. Since that time, she and her staff have been working since last October to meet the requirements for a State license.

The nursery is opened at 8 a.m. and closes at 6 p.m. It is licensed for children two to six years of age. A hot lunch is served at noon and refreshments are served in mid-morning and mid-afternoon. The children are grouped according to ages . . . The two and three-year-olds in one group and the 4, 5, and 6-year-olds in another.

This grouping gives the children the advantage of association and activity with children of their own ages. Each group has the advantage of educational toys suited to his age level. The older children have access to varied handicrafts. Both groups have outside play periods under the supervision and with outside play equipment.

Mrs. Partin is the wife of H. E. Partin, a member of the Davie County High School faculty.

Driver Education Courses Being Taught This Summer

61 Sign-Up For Course At Davie High School

By GORDON TOMLINSON Although formal schooling ended last month for Davie County students, a very important instructional course is continuing on through this summer. Each day, two instructors devote periods in both the morning and afternoon towards giving state approved instruction in driver education.

This summer driver education being taught to 61 youngsters by Walter G. Morris and Mrs. Millicent Sofley. The course consists of 30 classroom hours; six hours behind the wheel; 18 hours observing in the car. The course requires 18 days total time to complete.

The car, a Chevrolet fully equipped for instructional purposes, is provided through the courtesy of the Pennington-Chevrolet Company.

The general objectives of the driver's education course is to reduce motor vehicle accidents to the minimum. The aim is through the course to instill in as many young drivers as possible a sense of civic responsibility with regard to driving motor vehicles and to promote through increased uniformity of instructions, a high standard of performance in motor vehicle driving. Many feel that the course enables every trainee to use motor vehicles with greater safety, efficiency and pleasure.

The high school course in driving consists of two well-defined parts. The first concerns itself with the mastery of specialized information related to the driving of a motor vehicle. The student here assimilates knowledge, develops understanding leading to new thought relationships, molds an attitude of civic and social responsibility, and acquires ability to think independently and critically about the activity which he is learning to perform.

The second part, the practical application of information being mastered, consists of learning to operate an automobile safely and skillfully. This the student accomplishes through a series of planned learning experiences at the control of a real automobile. Beginning with manipulation of the car controls, the student acquires the necessary habits and skills for driving a car and develops confidence and poise in his own performance at the wheel. Here the student learns to give personal expression to the knowledge, understanding, appreciations, and attitudes already (Continued on Page 5)

Recreation Begins

The summer recreation program at Rich Park will get underway on Monday morning, June 15th. Jim Wall and Mrs. Tom Hunter will serve as directors again this year.

Morning sessions from 9 a.m. to 12 noon will feature games and handicraft sessions. There will be no afternoon sessions at Rich Park. Instead, swimming groups will be planned for each afternoon. These groups will be organized according to swimming ability and will be comprised of those who take part regularly in the morning program.

The directors urged all local boys and girls to come out and take part in these programs.

Rotary Learns About Local Poultry Growth

Rotarians learned about the growth of the poultry industry on both the local and national level at their regular meeting, Tuesday.

Arthur Upshaw had charge of the program and discussed the various phases of this industry. He pointed out that one man can produce a million pounds of meat per year in chickens.

Mr. Upshaw then conducted a tour of two local poultry farms; that of E. C. Morris and George Hendricks, which have the capacity to grow 30,000 chickens at a time.

President Grady Ward presided. Special guests included Bob Smoot of Salisbury; J. K. Sheek, Jr., and Jim Beahler.

Mocksville Little Leaguers Win Game

The Mocksville Little League won a thriller of a baseball game last Thursday afternoon from the Cooleemee Rebels at Rich Park. The final score was 6 to 4 in favor of the locals.

The game was tied 4 and 4 until the last inning. There were players on first and second base and it was the last of the last inning. Two players came up and struck out. Then Donnie Jones came to bat and knocked a triple to center field that sent the locals out in front. Jones also hit a home run at the beginning of the game and had a single to add to the score.

Jerry Hayes pitched the entire game and he also hit a home run. David Walker hit a home run, and Kenneth Boger and Paul Harpe each collected a run a piece for the score.

UNCLE DAVE FROM DAVIE Says:

DEAR MISTER EDITOR: While school has let out for another year and the fellers at the country store Saturday night was paying their respects to this modern education system. One feller asked me to write a piece for him this week, on account of him having a complaint he wanted to make public. I'll give it to you just like he told it to me. This feller says that modern education has got so high-falutin that the parents can't even understand the report cards their kids fetch home. He says it used to be that a kid in school got A,B,C,D,E, or F on reading or somepun. Now they give him a mark on "aptitude" or "energy" or mark it down that the kid is "emotional" or maybe ain't washed his teeth today. This feller says the idea in having a kid bring home a report card is to let parents know how he's doing in school. If he gets a C on reading, they'll know he's doing pretty good, and if he gets a F in arithmetic they'll know he takes after his Ma and ain't much on figgers. But now they don't know no more when they sit the report than they did afore he brings home. All they know is their offspring is good or bad in "aptitude" or somepun. This feller wants the school folks to just rig up a report and send it home that tells the simple fact of how the kid is doing, without all the extra trimmings

about being "emotional" or "industrial." He says that if the parents was smart enough to understand all that junk they wouldn't be sending the kid to school in the first place. They'd be teaching him at home. That's the way this feller gives it to me, Mister Editor, and I'm just passing it along to you for what it's worth. As a rule, I don't read them Washington columnists, not if I can help it. But last night I got to reading one by mistake and saw where rose bugs had about ruined Mamie's roses this year. I never dreamed, with all the money they're spending in Washington, that they didn't have a Bureau For The Protection Of The White House Rose Garden, with a Director, Field Superintendent, Bureau Chemist, Book-keeper, Receptionists, and Janitor. They could take such a organization and fit it in with the U. S. Department of Agriculture, and then they could set up a Liaison Department. It seems a Liaison Department is one that links up two departments, giving 'em three instead of two, creating many more jobs. Somebody shore went to sleep at the switch on this one. Them politicians could take this situation and create 200 jobs out of it, maybe 300 if the rose bugs got wore along in July. Yours truly, Uncle Dave

DRIVER EDUCATION CAR... is turned over to the Davie County Consolidated High School by O. K. Pope, center, representing the Pennington-Chevrolet Company. Mr. Pope is shown above presenting the keys to Walter G. Morris, driver education instructor, while Mrs. Carl Sofley, also an instructor, watches the proceedings. The car is to be used for the teaching of driver education courses which are now in session at the local high school.

Town Adopts Tentative Budget Of \$123,114.51 For 1959-60

Tax Rate For Year Is Increased To \$1.10

The Town of Mocksville has adopted a tentative budget estimate for the year of 1959-60 of \$123,114.51. This is the largest budget in the history of the town, exceeding the \$113,104.25 budget for the fiscal year of 1958-59.

The tentative budget estimate also provides for an increase in the tax rate of .050 on the \$100 valuation, with the tax rate for 1959-60 being proposed at \$1.10.

Town officials pointed out that the main reason for the increase in the tax rate was the construction of the water line to Huntington Creek and payments on the bonds.

The tax rate is based on property valuation in Mocksville of \$6,655,730. During the past year the property valuation in the town increased \$179,655. The property tax is anticipated to bring in \$73,213.03 in revenue.

Other anticipated revenue for the town is as follows: License, permits, fines and miscellaneous revenue, \$8,711.48; Franchise and intangible tax, \$5,700; Water Department, \$29,100; Sewer Department, \$6,000. The complete tentative budget estimate is published elsewhere in this issue.

Davie Bills Pass House

Status of local bills in the General Assembly were reported this week by the Institute of Government.

Bills raising the salaries of Davie County officials and the Town of Mocksville officials both passed the House of Representatives last week and were sent to the Senate. Introduced by Rep. E. C. Brock, HB 987, provides for increase in salaries for all Davie County officials. This bill passed the House on June 1, received in the Senate and sent to the committee on Salaries and Fees.

Introduced by Rep. Brock, HB 1177, provides for a salary of \$600 per year be paid to the mayor of Mocksville and that each commissioner receive \$200 per year. Payment is to be made semi-annually and become effective July 1. This bill passed the House on June 5.

HB 988, introduced by Rep. E. C. Brock, increasing the membership of the Davie County Board of Education to seven members and naming E. C. Morris as the additional member, passed the House last week and went to the Senate. It was referred to the Education Committee.

HB 976 introduced by Brock and others, prohibiting phrenology, passed the House on June 4, sent to Senate and referred to Judiciary No. 3 committee.

A Tale Of N. C.

Stephen Leary is 12 years old. He is the son of Mr. and Mrs. Peter Leary of Washington, D. C. Mrs. Leary is the former Agnes Sanford of Mocksville.

One night recently when he was supposed to be in bed, his mother found him at work on a composition which turned out to be a poem on how he felt about the State of North Carolina.

His mother was so pleased with his literary efforts that she said she could not punish him for staying up past his bedtime. The poem written by Stephen is as follows:

The people of the North State, are by far the finest in the nation, really they are— So kind, so generous, hospitable too— When you're in Carolina, you never feel blue. The people in the North State aren't rich or poor, And people are going there, more and more. The farms are the finest for miles around— The crops grown are the best to be found— So if you aren't satisfied where you are now, Go to North Carolina, and feel better, and how!

White Liquor Costs Man \$625

A half-gallon jar of white liquor plus a second offense of operating a car intoxicated resulted in fines totaling \$625 and cost for a Winston-Salem man Tuesday. Judge A. T. Grant fined Raymer Buckston Hicks \$500 and cost on the charge of operating a car intoxicated; \$100 and cost on the charge of transporting; and \$25 and cost on the charge of illegal possession. Notice of appeal to Superior Court was given.

Hicks was arrested by State Highway Patrolmen R. C. Blalock and William G. Wright on Sunday night while operating a 1956 Plymouth on Highway 601 North. He was arrested on the charge of driving intoxicated and the other charges of possession and transporting were filed when a half-gallon jar of non-taxpaid liquor was found in the car.

Judge Grant also ordered the car held pending the appeal to Superior Court.

V. F. W. Show To Be Thursday And Friday

The local Veterans of Foreign Wars will present a musical comedy on Thursday and Friday night of this week at the Mocksville school auditorium.

Called "Around The World In A Day," curtain time is set for 8:08 each night. The show will feature all local talent, and will be under the direction of Miss Irene Jones, of the production company putting on the play.

The show will be advertised by a parade Thursday afternoon at 5:30 p.m. This parade will feature the Cedar Valley and the Everglades bands plus such other participants as the Riding Club, the Motorcycle Club, and netries by the new car dealers, fire departments and police department.

Featured in the show on Thursday and Friday evenings will be P. C. Grubb, pianist; Missy Waters, Julia Craven, June Jones, Judy Creason, Sue Brewer, Kay James, Bobby Smith, Rocky Howard, Abe Howard, Slick Hartley, James Swicegood, Ray Lagle, Ida Christian, Roselea Hendricks, Lois Allen, Luellie Yates, Phoebe Laird, Judy Hampton, Yvonne Call, Dale Smith, David Smith, Jane Jones, Brenda Jones, J. D. Purvis, Jr., Robert Purvis, Linda Swicegood, Annett Marsh, David Cozart.

Illegal Machines

Any coin-operated amusement machine except juke boxes found in Davie County after July 1st will be confiscated, Sheriff Ben Y. Boyles announced this week.

This action followed a ruling by the state attorney general's office that possession, operation, or even storage of such machines is illegal in North Carolina. Since local law enforcement officers were unaware that such a law existed and had not been enforcing it, Davie County officials felt it only fair to warn residents that the machines will be seized.

Legal machines include such games as miniature bowling, shuffleboard, race tracks, "shoot-em-down" types, and any machine which provides a score.

Mrs. Blackwelder was graduated from Queens College in Charlotte with an AB degree and from the University of North Carolina with a degree in Library Science. She has had experience as a librarian in Amelia, Va., and Rock Hill, S. C. This past year she taught in the Mocksville Elementary School.

She will assume her duties as of Sept. 1st.

Man Pays Fines In Charges Growing Out Of Wreck In Mocksville

Fines totalling \$350 and cost were levied against a man in Davie County Court, Tuesday. Judge Grant fined Charles E. Masten \$300 and cost on the charge of operating a car intoxicated and \$50 and cost on the charge of reckless driving.

Masten was operating a car that was involved in a collision with a milk truck in front of the Mocksville Baptist Church on North Main Street around 1:30 a.m., May 30.

This was Masten's second offense of driving drunk. Judge Grant found Masten not guilty on the charge of driving after revocation of license when it was shown that although it was through an error, Masten had received a letter from the Department of Motor Vehicles outlining the procedure for the reinstatement of his license. Masten was in the process of obtaining his license when the error was discovered and at the time of the wreck had in his possession a receipt from the license examiner.

Fork Tigers Swamp Heritage Little Leaguers

After losing a hard fought game last week to Mocksville by 8-3, the Fork Little League Tigers bounced back for a free hitting 15-2 victory over Heritage.

Superb hitting by Bill Kooz was backed by almost flawless fielding by infielders Larry Bailey, Donald Ray Jones and James Hartman.

The big bat of catcher Charles Bailey boomed for extra bases, and Randy Bailey's grand-slam home run gave Kooz the working margin for his first victory against one defeat.

Fork plays next Thursday at Cooleemee, June 11, at 5:30.

On Thursday, June 18, Woodleaf will be at Fork. Gametime is 5:30.

Local F.H.A. Delegates To Attend National F.H.A. Meet In Chicago

The Davie County Chapter of the Future Homemakers of America will send delegates to the National Convention in Chicago the week of July 13-17.

Local delegates to the national convention will include Jean McClamrock and Theresa Foster, and FHA advisor, Mrs. June Reichle. These delegates will be among 80 youth from North Carolina to attend the 1959 National Convention at the Conrad Hilton Hotel in Chicago.

These delegates will participate with FFA'ers from every state including Alaska and Hawaii, and from Puerto Rico and the Virgin Islands, on plans for a new Program of Work to guide this national High School organization for students studying homemaking.

"Every teenage delegate will have some special responsibility to carry out during the week," explains Mrs. Faye T. Coleman, North Carolina State FFA Advisor. "This will make the National Convention a lively demonstration of the ability of today's youth to work constructively toward an over-all goal of helping individuals to improve personal, family, and community living."

Theme chosen by a youth planning group for the convention is "Future Homemakers of America - Blueprint for Action." During the week, outstanding educators will help the FFA delegates to find ways to put their new National Program of Work for 1959-62 into action. Objectives of the new program will serve as themes for the general sessions and focus FFA'ers attention on developing their potential abilities, understanding family members, knowing the value of home economics education, and promoting good will at home and abroad.

Former Davie Resident Made Lt. Governor Of Optimist International

DR. DAVID R. STROUD, JR., Dr. David R. Stroud, Jr., of Rocky Mount, son of Mr. and Mrs. D. R. Stroud of Mocksville, and former resident here, has been elected lieutenant-governor of Zone 2 in Optimist International District 18, and will work with seven clubs under his supervision during the coming Optimist year.

Dr. Stroud was elected at last week end's state convention of District 18, held in Charlotte. Parker Helms, president of the Rocky Mount Club, said, "This is a distinct honor for Dr. Stroud and also for our club, which was organized only two years ago. It is unusual for a club as young as ours to receive a state office."

During the convention the Rocky Mt. Club was recognized as the sixth-ranking club in the state, and the Optimist bulletin was lauded as one of the state's finest. Zone Two, of which Rocky Mount is a member, was announced as the leading zone in North Carolina. Others in Zone Two are Raleigh, Wilson, Durham, Goldsboro and Greenville. Two Optimists from Raleigh were elected to the highest state offices. Reginald R. Brown was elected District 18 governor for the coming year and Bill Cope was selected as district secretary-treasurer. Dr. Stroud has been one of Rocky Mount's leading Optimists since the club's organization. He was a charter member and served as president during the club's first year. He is currently chairman of the club's Membership and Attendance Committee.

S.C.S. Women of Western N. C. Meet at Lake Junaluska June 17

Local Women Attend As Delegates

Methodist women from this and all parts of Western Carolina, will gather at Lake Junaluska on June 17 to 19 for the 19th Annual Meeting of the Women's Society of Christian Service of the Western North Carolina Conference.

One hundred delegates, representing 912 local societies with a membership of 43,000 women, will attend the meeting. These delegates will come from 11 districts, Asheville, Charlotte, Gastonia, Greensboro, Marion, North Wilkesboro, Salisbury, Statesville, Thomasville, Waynesville, and Winston-Salem.

Mrs. Clarence C. Cranford of Asheville, will be in charge of the meeting, as president of the Conference. Mrs. Miss E. Frutcher of Asheville, is president of the Western North Carolina conference.

Mrs. C. R. Crenshaw, Mrs. Miss Price and Miss Mary McNeil will attend the meeting as delegates from the First Methodist Church, Mocksville, which is in the Thomasville District.

Outstanding speakers will present a picture of mission work in the foreign fields and in the home field. Three recently from the foreign field will tell of their experiences. These are Miss Ola Callahan, missionary to Mexico for 28 years; Miss Elizabeth Callis, who has completed four years in South Burma; and Mrs. Sallie Mendenhall from the Philippines.

Mrs. Laura Wellsof Hayesville will describe the program of Rural Work sponsored by Western North Carolina Conference.

Mrs. E. Louise Nichols, a field worker of the Woman's Division of Christian Service, will address the group twice. On Thursday she will speak on "Sermon on the Mount," and on Friday morning her topic will be "We Hear The Voice."

The main feature of the opening session will be the president's message. There will also be a special service honoring the women who have died during the year. This will be led by Mrs. Crowell of Asheville.

Other speakers on the program are: Dr. D. E. Wassen of Western College; Dr. R. P. Marker of the N. C. Christian Advocate; Mrs. W. A. Bales of Greensboro; Mrs. Mary Floyd of Pfeiffer; Mrs. Carl King of Salisbury; an officer in the Southeastern Division; Mrs. Lucille Brown of Allen High School in Asheville; Mrs. Marion B. Wood of Winston-Salem; and Mrs. H. J. Jr. of Gastonia, a member of the Board of Missions of the Methodist Church.

There will be three new features of the program this year: a Dinner by the lakeside at 7:30 p.m.; a service at 8:00 p.m. by Glenn King of the Assembly staff; a service honoring the missionaries and deaconesses attending the conference, this at Lambuth Inn; World Federation of Methodist Women program presented by Asheville women. Mrs. Mary McNeil is director; Mrs. Thompson Phillips is narrator; and Charles W. Davis is soloist. The women of the Greensboro District will serve as hostesses. They will have charge of the registration and other arrangements. They plan a tea for all the delegates on the lawn adjacent to the auditorium. They will also have an informal tea for the members of the Executive Committee on Tuesday afternoon. W. B. Hall of High Point,

Lutheran Mission Is Organized Here

A Lutheran Mission has been organized in Mocksville. At the present time this Mission is meeting in the National Guard Armory on Railroad St., across from the Masonic Picnic grounds. A sign has been erected on North Main Street with an arrow pointing in the direction of the Mission.

Each Sunday the Sunday School hour is 10:45 a.m., with the worship service at 11:45 a.m. Boyce Whitener, a rising senior at the Lutheran Theological Southern Seminary in Columbia, S. C., will serve the Mission during the summer. He is residing at 608 North Main Street in Mocksville.

Mr. Whitener said that "for several years now Lutherans who have moved into Mocksville have found no church home. The result has been that a group of interested people have exerted every effort to see that a church home for these people is provided."

"The efforts, prayers and interest of these people have resulted in the organization of a Lutheran Mission. There is no doubt whatsoever that Mocksville will soon have an active Lutheran church to function along with the other fine congregations of our city," said Mr. Whitener.

FUNERALS

R. C. SHAW, 65
Funeral services for R. Clyde Shaw, retired mail carrier, were held Monday afternoon at the Harmony Baptist Church. The Rev. W. R. Kimberlin officiated. Burial was in the Rocky Springs Church Cemetery with Masonic honors.

Mr. Shaw died Sunday at his home in Harmony after an illness of about six years.

Mr. Shaw served in the Army during World War I for 18 months. A large part of his service was in France and Germany. Following his discharge he worked at the Winston-Salem Post Office as a city carrier from 1923 to 1928. He was then transferred to Harmony and from 1928 to 1942 he served patrons on Rural Route 1.

He was a mail clerk at the Danville, Va., Post Office from 1943 to 1948 when he was transferred back to Harmony and Rural Route 1. He held this post until retirement.

Mr. Shaw was a member of Harmony Masonic Lodge and was a past master. He was a member of Harmony Baptist Church and served as Sunday School superintendent for a number of years. He also taught the Men's Class for a long time and was a deacon.

Surviving are the widow, Mrs. Annie Wright Shaw; two sons, Dr. Frederick Clyde Shaw of Lenoir and Robert W. Shaw of Lumberton; three grandchildren; two sisters, Miss Duo Shaw of Harmony, and Mrs. Spurgeon Anderson of Mocksville; and three brothers, T. T. Shaw of Harmony, Rt. 1, Dewey Shaw of Hagerstown, Md., and Dr. L. R. Shaw of Statesville.

James Smith, 75
Funeral services for James Parker Smith, 75, a retired farmer of Route 1, Mocksville, were held Saturday, June 6, at Pleasant View Baptist Church at 11 a.m. by Rev. E. L. Martin, C. T. Henderson and Johnnie Swisher. Burial was in the church cemetery.

Mr. Smith died Thursday, June 4, at Baptist Hospital, Winston-Salem, after an illness of one week. He was a native of Georgia and had resided in Iredell County for about 30 years.

He is survived by his wife, Mrs. Lottie Mae Dove Smith; five sons, J. W. and Glenn B. Smith, both of Statesville, John B. Smith of Route 1, Harmony, and William F. and Leroy Smith, both of the home; three daughters, Mrs. J. B. Good of Route 1, Harmony, Mrs. Charlie McClamrock of Mocksville and Mrs. William Smith of the home; 15 grandchildren; and one brother, W. B. Smith of Statesville.

Control Of Internal And External Parasites In Livestock

Horn flies are the worst on cattle this year than we have seen in many years. A heavy infestation of horn flies will take two pints of blood each day from each cow and as you know, it takes a lot of feed to generate two pints of blood.

N. C. State College went to abattoirs from end of the State to the other and checked intestine from cattle that were slaughtered. Almost 100 per cent were infected with different types of worms and a large percentage contained several different species of worms.

Now is a good time to check over your younger calves and if they are not thrifty, these should be wormed with phenothiazine following recommendations on the container.

Temporary Pasture

Now is a good time to check on supplementary grazing and prepare to use any type of annual plant that you may have that you can use during hot summer months when milk production will be low. Two hours each day on supplementary grazing will keep the mid-summer slump from occurring in your herd.

There is a lot of Johnson grass that can be used in Davie County to good advantage for temporary grazing during June, July, August, and September. With plenty of nitrogen you would be surprised how much feed you would get from an acre or two of Johnson grass.

With people having the majority of their cattle freshen in July, August, and September in order to build their bases, it is awfully hard to keep the cows from going into a very bad slump in October and

Senator Jordan Reports:

By SEN. B. EVERETT JORDAN
WASHINGTON — The current controversy over Nike-Hercules and Bomarc Missiles is frightening.

It is frightening because it has brought to a head the wide differences of expert, technical opinion about how the United States should go about defending itself against enemy air attack. It's implications are far-reaching, and it means simply that the people charged with defending the United States are in serious and wide disagreement.

When Secretary of Defense McElroy testified before the Senate Armed Services Committee, he

November when they are putting on a heavy coat of hair for the winter months and especially first calf helpers freshening in July and August without supplementary grazing. During September and October, they will go way down in milk production and it is hard to get them back up during the winter.

Now is a good time to plan your fall supplementary grazing by planning to have a few acres of ye, ryegrass, crimson clover, oats or whatever mixture that suits best on your farm.

Side-Dressing Corn

For every two pounds of actual nitrogen, under average management problems, should produce one bushel of corn. As a rule, on the average nitrogen costs Davie County farmers from 12 to 15 cents per pound of actual nitrogen. For 25 to 30 cents you should increase corn yields one bushel which would probably be from \$1.25 to \$1.50. People who do not top-dress corn should by all means apply nitrogen this year and if not using recommended amounts, should use from 80 to 100 pounds of actual N. This is one sure way of increasing farm income with very little risk.

said he hoped Congress would "hold our feet to the fire" concerning the various missile programs. In effect, he admitted that the military could not agree, and asked Congress to make the decisions.

The Armed Services Committee decided. It decided by virtually cutting out the Nike-Hercules missile program and carrying on the Bomarc program. The Nike-Hercules is an Army short range missile designed as a last minute mechanism to defend metropolitan and key industrial centers. The Bomarc is an Air Force missile of longer range designed to reach out and knock down approaching planes up to 400 miles away from target. The Nike-Hercules has been operational for some time. The Bomarc is still in the development and test stage.

These, on the surface, seem to be the basic facts involved in the air defense systems of the Army and of the Air Force.

As soon as the Armed Services Committee acted, however, all kinds of charges, confusion, and uncertainties cropped up. The Army immediately attacked the action, and very soon a campaign was started to belittle the Air Force Bomarc. Then the Air Force retorted with charges that the Nike-Hercules was ineffective, even at short range.

I have made an honest effort to get the facts; to find out exactly how the technical data stack up. It has been in this area that I have been frightened and most disturbed. It is one thing for the Air Force and the Army to disagree on policy. It is something else for each of them to try to discredit technical data of the other, but this is what is going on.

As a result, Congress is in the position of being given completely contradictory information about which there should be no room for doubt.

This matter involves the survival of the United States. There is no room for petty politics or pride.

The time has come when either the Secretary of Defense or the President, or both, must sit down

SENATOR SAM ERVIN SAYS

WASHINGTON — Congress is now in the midst of one of its most important functions — appropriating money for the fiscal year beginning on July 1. Not only is this of the greatest importance, it is one of the most difficult of all the duties of a legislative body.

It is worth repeating that the Federal Government spends more for defense than on any other category of its activities. This large amount requires the most diligent analysis to protect the taxpayer from wasteful expenditures, something that is not always achieved. There is a certain amount of waste in defense that is hard to eliminate due to, for example, rapid changes in technology. But the responsibility of Congress to keep waste to a minimum is a heavy responsibility in these days of giant budgets. As a consequence, months are necessary to get final action on some appropriations.

The problem of what is essential is troublesome. To illustrate this point, there are urgent pleas made for specific appropriations by groups and individuals who do not wish economy to set in with their activities but who favor stringent economy in other fields of activity. This creates a complex situation in determining what is essential.

The fact that Congress has

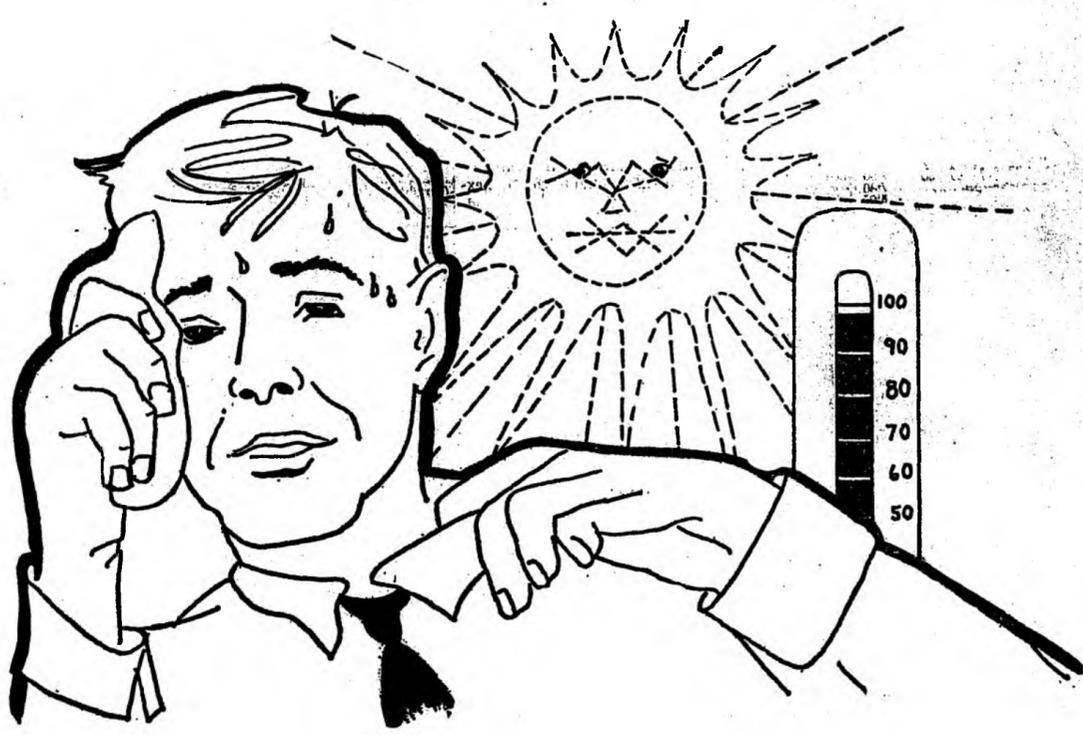

at a table with the military leadership and make decisions in the interest of the Nation instead of in the interest of the pride of the Army, the Air Force, or the Navy.

Congress is not asking too much when it asks for reliable technical information about what this or that machine or missile will do. It has asked, but it has not been answered.

No date has been set by the Senate Rackets Committee for testimony here in connection with the Henderson strike. The Committee began hearings about racketeering in the Gary, Indiana, area. A return appearance of Teamsters President James Hoffa is pending. Once a decision is made by the Committee to hold hearings, the details and scheduling are left to the staff. That is a course we have always followed and the Henderson strike procedure will be no different insofar as the Committee is concerned. When the hearings are held, it is the staff's estimate that about two or three days will be all that is necessary to devote to the matter.

On the Gary, Indiana, area racketeering matter before our Committee, we heard testimony of almost unbelievable corruption. There, as in other places, we found that a complacent public is a fertile breeding ground for corruption. In the Hoffa hearings, I hope that we can find out why there have been no apparent efforts made to clean up the corruption already exposed, corruption that would be hard hit if Congress passed the Kennedy-Ervin Labor Reform Bill.

generally followed a moderate course has resulted in some criticism from a few groups professing to speak with unbounded wisdom about the course that Congress should take. These charges usually spring from groups promoting accelerated action in civil rights, for instance. There are those who imply that Congress will be disciplined by the voters for failure to enact more extreme programs. To me, the lack of realism in Congress is due to the inexperience of solution by Congress and that those who advocate the extremist point of view do not represent the thinking of the majority of people. It must also be said that on the other side of the political spectrum there are those who take the extreme position that Congress should do absolutely nothing to rock the boat. To date, Congress has rejected both viewpoints.

Why not be comfortable at home, too?

If you enjoy working or shopping in air-conditioned comfort, why not have this same comfort in your home, where you spend two-thirds of each day?

And why not make that comfort extend all year 'round, with an electric heat pump that provides cooling and heating automatically, safely, economically!

The electric heat pump uses only air and electricity; thus it eliminates the need for buying or storing fuel. And because there is no flame, there are no products of combustion such as soot, dust, fumes, etc. You enjoy clean, filtered air that contributes to more healthful living, keeps your drapes and furniture dirt-free.

Ask about the electric heat pump for your home comfort. Call your Duke Power office now for more information. Duke Power neither sells nor installs the electric heat pump but will provide the names of qualified dealers in your area.

Community Development Enrollment Is Sought

Additional enrollment in the community development program and an offer of burley tobacco stems by R. J. Reynolds Tobacco Company were the items discussed at the board of directors meeting of the Northwest North Carolina Development Association, Wednesday, June 10, in Elkin. County and home agents, community division leaders, and representatives of the tobacco company met with the board.

The R. J. Reynolds Tobacco Company offered for the exclusive use by Northwest farmers burley tobacco stems for fertilizer use. The stems, which have the equivalent fertilizer value of \$15 to \$18 per ton, will be offered at \$5.00 per ton at the factory. The stems will be sterilized and therefore cannot spread any plant disease. Further information on this project will be printed and distributed to area farmers in the near future.

Reports were made revealing that 87 communities had already enrolled in the community development program for 1959 and that at least 19 more were expected before the June 15 deadline. Miss Anamerle Arant, state economic agent, said that community development is tailoring made progress planned at the grassroots. She added that any one person could have an idea but that it takes many people to make the idea work; thus it is with community development.

Mrs. W. T. Roth, division chairman for community development said that a small community is just as important as any other and that the program could only be successful if people in a community work together to make it a better place to live.

Entry blanks will be accepted at the Northwest North Carolina Development Association office, P. O. Box 1408, Winston - Salem, until June 15. Communities in the 11 county Northwest area are urged to enter this community development program, said Wayne

Local C.A.P. Unit On Two Missions

The Mocksville Flight of the Civil Air Patrol participated in a search for a missing aircraft last week.

On Tuesday, June 2nd, the local flight was alerted. A Beechcraft T-34 was reported missing in the Asheville area.

On Wednesday morning six members drove to the Salisbury airport. Lt. Harvey Beck and BM Glenn Everest flew their L-16 aircraft. BM Frank Marshall and Cadets Patsy Everest, Kay Matthews and Hugh Partin, together with six members of the Rowan County squadron, went by automobile to the Asheville - Hendersonville Airport.

All of the members with the exception of Lt. Beck and Hugh Partin returned Thursday evening. Lt. Beck and Partin flew as observers in helicopters during the search Friday.

The missing aircraft was found Friday afternoon. It had flown into the side of a mountain. The pilot was found several feet from the aircraft. It appeared that he had been killed instantly.

On Saturday, Lt. Beck, 2nd Lt. Mildred Beck, Glenn Everest, and Cadets Patsy Everest, Kay Matthews, Don Caribell, Joe Stafford and Hugh Partin went to Shelby for a SARCAP practice mission on which they were observed by representatives of the 14th Air Force. The L-16 was flown by Lt. Beck and BM Glenn Everest while the cadets worked on the flight line, stood guard, and operated the radio.

CLASS REUNION

Cards To Stage Baseball Try-Out

Winston-Salem, N. C. will be the hub of intensive baseball activity on June 15 and 16 when Cardinal scout Eddie Lyons will stage a baseball tryout camp at Ernie Shore Field. It was announced today by Farm Director Walter Shannon.

"Changing times have made us more selective in our scouting endeavors, and we are holding these camps only in certain key places chosen by our scouts," Shannon remarked. "Certainly there are a lot of players living in areas that are not scouted as frequently as others who deserve a chance to find out whether or not they are ready for professional baseball. Tryout camps give them that break. Besides, it is physically impossible for our scouts to see all of the players in their territories, and camps make it possible for them to look at a group of players at one time."

Workouts will get underway promptly at 10 a.m. To be eligible a player must be in the 17 to 23 year bracket. No equipment is needed other than a glove, shoes and a uniform if the player has one. The Cardinals will supply the balls, bats, and catching equipment.

"We want to point out, too," continued Shannon, "that all of us are dedicated to the job of helping baseball newcomers realize their ambition to get to the big time. In other words, it is a matter of personal interest in the player from the very beginning and nothing will be left undone in the way of developing his ability and showing him that he wisely chose the Cardinals for his baseball career."

A player signed to a contract will be refunded any expense incurred as a result of attending the camps. To participate in try-outs an American Legion player must have a letter of approval from either his Legion coach or Post Commander.

Tanglewood Barn Theater Opens June 23

Tanglewood Barn Theater will open its second season of professional summer stock performances at 8:15 p.m. Tuesday, June 23, with a production of "The Tunnel of Love."

The comedy by Joseph Fields and Peter DeVries will run through Sunday, June 28. Matinees will not be held this year, but the same number of performances of each play will be given by opening on Tuesday instead of Wednesday night, managing director James Walton said.

Three "star" productions to be announced later, will be given July 7-12, July 28-Aug. 2, and Aug. 11-16. The stars also will be named later.

Other plays scheduled are "Solid Gold Cadillac" by Howard Tieschmann and George S. Kaufman, June 30-July 5; "Bell, Book and Candle" by John Van Druten, July 14-19; "Dial M for Murder" by Frederick Knott, July 21-26; "Summer and Smoke" by Tennessee Williams, Aug. 4-9; "Three Men on a Horse" by John Cecil Holm and George Abbott, Aug. 18-23; "Diary of Anne Frank" by Frances Goodrich and Albert Hackett, Aug. 25-30; and "The Loud Red Patrik" by John Boruff, Sept. 1-7.

The cast will arrive June 17 to begin rehearsals.

THE NEWSPAPER... ALL THINGS TO ALL MEN... AND BY ALL TAKEN FOR GRANTED

THINK OF RUNNING A HOME WITHOUT NEWSPAPERS!

Take for example your own favorite newspaper. The index of its contents is an index of your interests... a listing of and an answer to your wants. Help for you and your home!

Instead of struggling singlehandedly with scores of perplexities, the homemaker, thanks to your newspaper, has recourse to skilled experts galore, whose counsel and help is always at hand when needed. Food, health, child care... columns on these and many other home subjects are in your newspaper. Fashion, society, beauty, budgeting... the cavalcade of columns goes on. Included are entertainment, sports, stock market listings, the comics, everything from international commentaries to local obituaries. All this in addition to a bundle of information about your community, your nation, your world, and the universe around you.

A modern realist has said: "One who drops a coin on the newsstand and picks up a paper buys a piece of himself every day." Look back a bit. Socrates stands in the first rank of philosophers, yet his ultimate advice to the world was "Know Thyself."

Today's great text book on self is your newspaper! Your taken-for-granted newspaper, is packed with living lessons on self... is the continuing study of man, his successes and failures, his glories and weaknesses, his inspirations and aspirations, his life and death... and yours, and ours. The daily recordings of our times, the lives of ourselves and our fellow men is found only in the print of our newspapers.

It's intensely interesting, this deepening drama of man and the world around him. Instructive too, because the truths in this newsprint text book are basic, and adaptable to every phase of our lives.

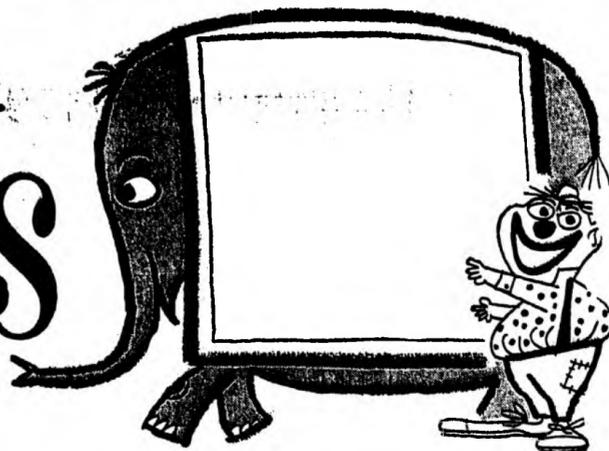

Newspapers help families live more intelligently, and help them to better enjoy living. They help them understand themselves, and their neighbors. They help them bear trouble and make money. And, because these printed text book truths are a record, not a recollection, they—more than any other daily expressions—find constant and repeated use in the home.

DIARY OF THE WORLD... BOOKKEEPER OF ITS BUSINESS... DEFENDER OF ITS HUMAN LIBERTIES AND THE GREAT TEXT BOOK ON SELF YOUR NEWSPAPER IS ALL OF THESE THINGS!... THINK OF RUNNING YOUR HOME WITHOUT NEWSPAPERS!

Mrs. J. Frank Clement Retires

This week Mrs. J. Frank Clement, librarian of the Davie County Public Library, announced plans to retire at the end of the summer. Mrs. Clement says she is retiring in order to travel and "just enjoy life." She has served as country librarian for 13 years.

Since Mrs. Clement became librarian in 1946, the Davie County Library has grown from 3,056 volumes to approximately 12,850 volumes. Circulation has increased from 11,283 to 87,139. The budget in 1946 was \$3,712 for the year. This year, the budget which has been approved by the board of county commissioners and the Mocksville Town Board is \$8,500.

The Davie County Library owns furnishings valued at approximately \$12,000, most of which was purchased locally from the Hanes Furniture Company and made possible through the generosity of Don Headen.

Under the guidance of Mrs. Clement, the library has grown in all phases of services rendered to the people. In 1948 the library began the operation of a bookmobile. It owns a Gerstenslager Bookmobile with an International body. It is operated throughout the county and services all the schools. Mrs. E. F. Etchison is the bookmobile librarian.

Mrs. Clement's success as librarian may be attributed to her personality, her understanding of how to handle the public, and her ever readiness to accommodate anyone . . . young or old . . . who came to the library seeking information.

This newspaper joins the people of Davie County in expressing appreciation to Mrs. Clement for her years of devoted service to the people of Davie County and extend to her the best of wishes for continued happiness.

Our Differences

All civilization is based on the respect of the rights of others. This is the underlying theme of all religion . . . of all philosophy . . . and the motives behind all rules and laws.

This respect for the rights of others is necessary because of our differences as human beings

We differ as to religious beliefs, and these differences take the form of the various church denominations. We differ as to political beliefs, and thereby are created the political parties. We differ as to our interests, aims in life, and abilities, and thus we have the diversification of professions and trades.

However, regardless of all our differences, the general purpose of each and every life remains the same, that is . . . serving humanity in the interest of giving and receiving the best.

Most of the problems of mankind arise when we become intolerant of the rights of others. When we condemn without reason the right of another to be different be it religious, political or social. When we make the matter of a difference a personal matter rather than a characteristic.

You as an individual have a right to your own belief and the freedom of expression of these beliefs . . . but so does

everyone else. Never can you claim for yourself a right that you are not willing to give others.

Today you have too many pushing too hard for personal victory without due consideration of the effect it may have on others. Civilization as it is today, few personal victories can be achieved without stepping on the toes of others. Naturally certain reactions must be expected, whenever this occurs.

Davie County has been progressive and has made the strides it has because generally speaking the rights of one another have been respected. The various churches exist and to some extent work together in the best interest of their community, yet all the time retaining their own individual practices and belief. The two political parties have respected the rights and privileges of one another. Although differing widely at times in methods and beliefs, the aim of each has always been to provide the best for Davie County.

Davie County and its people will continue to face problem after problem as we move forward into the future. How we resolve these problems to the everlasting benefit and progress of the county will be dependent upon our ability to look past our differences and side issues, and do what is best for our community and county.

Your Food Dollar

Family breadwinners who think food prices have been going up are in for a surprise when they hear the facts.

According to Paul S. Willis, president of the Grocery Manufacturers of America, Inc., the American family can buy the 1959 grocery basket at prices which are no higher now than they were in 1952. In fact, they're a little lower now.

It may also be a surprise that this steadiness of food prices, combined with increasing wage rates, makes it possible for the average factory worker to buy the government's "standard monthly basket of farm foods" from the earnings of 40 hours' work compared to 51 hours in 1952 . . . 11 hours less work than it took seven years ago.

It was pointed out that while the market basket of today can be bought for about

the same amount of money as seven years ago, Americans are actually spending more money because they are voluntarily upgrading their standard of eating.

Moreover, consumers derive many benefits from modern foods with their built-in conveniences. Many of the convenience foods cost less than the price of the ingredients which make up the product — to say nothing about the time and the labor to prepare them. Some examples of these money-savers are the baking mixes, baby foods, instant foods, and frozen orange juice.

What is important isn't how many dollars our grocery basket costs but how long we must work to earn the food basket. This is the real measure of food prices and today food is one of the best buys in the country.

Maderia's famed embroidery is a home industry with careful government supervision, the National Geographic Magazine says. Children of five or six learn the art in a government school. A government agency imports the fabrics from Ireland

and Switzerland, stamps them with designs, and sets standards of excellence for some 70,000 pieceworkers.

Monhegan Island, a rocky outpost 10½ miles off Maine, lives by lobstering, the National Geographic Magazine says. In a good season a top fisherman harvests as much as 15,000 pounds of lobster. As Monhegan has only 60 permanent residents, it operates not as a town but as a plantation—a civil unit with minimum government.

Guano is more precious to Peru than gold. Collecting the droppings of sea birds from the rocky islands strung along the Peruvian coast is a major industry, the National Geographic Magazine says. Peru's guano islands and walled nesting grounds on the mainland are the largest bird sanctuaries of their kind in the world.

"WHY ART THOU CAST DOWN, O MY SOUL? AND WHY ART THOU DISQUIETED IN ME? HOPE THOU IN GOD: FOR I SHALL YET PRAISE HIM FOR THE HELP OF HIS COUNTEenance" — PSALM 42:5

SO THIS IS NEW YORK By NORTH CALLAHAN

SENATOR SAM ERVIN SAYS

The talk around this town nowadays is about monkey business. And at this stage, the monkeys are one-up on the humans — or maybe the Darwinians would not make such a distinction. Always ready to recognize an elevating circumstance, New Yorkers hand it to the two female monkeys who rose above anything we mortals have ever yet tangibly attempted, and soared some 300 miles above the earth from which height they doubtlessly looked down in disdain as the so-called human race which has deigned to consider itself above simian things. At least they rightfully can deny that they ever should be known as lower animals again.

Speaking of animals, I dropped in to the D'Essens, Bernie and Lorraine, on West 18th Street and this time it was not an occasion for the blessed event of a wolf hound, but of the birth of a book by Lorraine entitled "Kangaroos in the Kitchen," an expression used in this column some two years ago. Visiting this genial couple is always enjoyable because one not only sees them but flames in the living room, kangaroos in the kitchen, basset hounds in the bathroom, wombats in the woodshed, crows in the closet, and cats in the cabana. These are rare animals trained to keep clean in the house as well as to appear on television. You've seen them

on all the big time shows and Bernie and Lorraine make training them a business. The book tells how they got into this occupation. "Our animals go forth into the market place, polished, preened and generously perfumed," Lorraine says. In the back yard, I noticed celebrities of the entertainment world crowded around the animals, while from nearby apartments, neighbors gaped in obvious wonderment, one woman looking down for hours from her perch atop a ten story building adjoining. Lorraine must be a good cook too, for the barbecued ribs served had the best sauce I have tasted since I sampled the like in Texas.

According to modern educators, it's old fashioned to memorize things. Perhaps so, but some of the best things I remember I learned by rote from a teacher who gave us a good whack if we so much as forgot a word — so we didn't. Couples from Shakespeare, verses from the Bible, poems of Longfellow, Tennyson and Wordsworth filled our weekly assignments. I can proudly hold forth with the wise words now, often to the astonishment of kids who are free to do what they want to in school — which is too often nothing. One thing is certain: If I had not been made to learn these beautiful passages from literature, I would never have done it. Now I am glad I did, and am sure it would be an ever-lastingly good idea if again our children were forcefully assigned to memorize some of the great things written in the past.

Not far from where I live is the Glen Island Casino in New Rochelle. For those of you over 40 this should bring back pleasant memories of the Casa Loma orchestra and others which played here. Outstanding perhaps among the big-time bands which made this place famous was the radio in the 1930's was Ozzie Nelson and his orchestra with a featured singer named Harriett Hilliard. Of course she is now Mrs. Ozzie Nelson and they have a successful television show. Ozzie met Harriett in 1938 when he was playing at the Casino here and hired her as his girl singer. Well, she's been carrying the Nelson tune ever since.

Few sons are able to stand up to the stature of their famous fathers, but Thomas J. Watson, Jr., is an exception. Last year, for the first time after a phenomenal record set by Watson, Sr., the International Business Machine Corporation had a gross revenue of over a billion dollars. Not that being the son of the head of the company hurt his chances — for from it — but the younger Watson did come up the hard way by showing his ability, according to authentic reports. I once interviewed his famous father who built the big firm from scratch and must say that any one who can fill his shoes deserved a big hand.

Nowadays it isn't enough to drive defensively. You must drive as though everyone else on the road is an idiot. And, unfortunately, most of the time you'll be right.

KIDD BREWER'S Raleigh Roundup

TRUMP CARD . . . Those members of the Legislature wanting to hold the line on appropriations and taxes have in their deck a trump card: payless days which began for every solon here Thursday, June 4. That is why those senators and representatives who are bucking the administration had scant hope this past weekend that teachers will get much of a pay raise. Telephone lines were hot . . . Teachers are flying the coop every month to better paying positions. If the Legislature really wanted to help them, they should have started on the project two months ago — and not on the last pay-day. As of this past week end, chances were about 100 to one against the \$10,000,000 item so much in the news would remain in the budget. There seemed to be too much Big Time opposition. It was a case of too little—too late. Too little maneuvering, too little planning . . . and too late in the session . . . the trump card.

BAILEY ITEM . . . Although the late U. S. Senator Josiah William Bailey was certainly not regarded as a particular friend of Governmental spending projects, an item given approval last week was right up his alley: The setting up of \$1,000,000 by the Congress for a dam project on the Yadkin River five miles upstream from the Wilkesboro.

J. W. Bailey has been dead now for nearly 13 years, which gives you some idea of how long the project has been in the making. When I was Senator Bailey's assistant, he used to talk about how much such a dam would mean to the entire Yadkin Valley area which winds down through Northwestern and Piedmont North Carolina.

The matter of whether the dam should be for flood control or for power — or for both — did not seem important to Senator Bailey in this particular instance. We are glad to see one of this great man's dreams take the first step toward reality.

THE BIG ROAD . . . Speaking of projects of value to the State, one which can mean so much to Northwestern North Carolina is apparently being delayed by terrain. The big interstate highway traversing the Piedmont north and south is already on the drawing boards. As we get it, the difference of opinion on The Big Road at this time, is over where it will enter North Carolina from Virginia.

The Blue Ridge enters North Carolina in the Sparta area. If the highway enters in this area or west of this area, most of the heavy construction work — grading, blasting, bridging, etc. — will be in North Carolina. However, if the road runs well east of this section, the most troublesome part of the project will be over in Vir-

60 SECOND SERMONS By FRED DODGE

TEXT: "Knowledge gives weight, but accomplishment gives lustre." — Chesterfield.

A very homely man became a proud father for the first time. "Don't you think," he asked his wife one day, "that's it's time for the baby to call me 'Daddy'?" "No," replied his wife, "I've decided to keep him ignorant of whom you are until he gets a little stronger."

It is time to say a few words in favor of ignorance. The possession of all knowledge is not as important as some believe. Too many people spend too many hours learning too much that is not used. We should not be awed by them. They are curiosities, like circus freaks. Until they put their knowledge to constructive use, they should be considered just like that—freaks.

Ignorance has much more to commend it. Ignorant man struck the first fire and constructed the first wheel. Thomas Edison had less formal schooling than today's 12 year old. Ignorance made most of our great men and women successful. They felt an urge to do things. They didn't know what couldn't be done, so they did it. They acted in ignorance, but they acted.

We ordinary folk should not feel inferior to those with great knowledge. Only shame should be in doing nothing. Copyright 1958 Fred Dodge

100 SAVED DAILY Every day in the year, more than 100 men, women and children are saved from cancers that would have killed them ten years ago. But thousands are still dying needlessly, according to the American Cancer Society. A yearly checkup is the best protection.

If you dislike waiting, then phone your license examiner for an appointment when you license is to be renewed, says the N. C. Dept. of Motor Vehicles.

FISHING ON SUNDAY . . . A lot of fishermen in this State were very much worried recently when they saw they would be violating a law carrying up to a \$500 fine and 30 days in jail for fishing on Sunday.

The bill was introduced by Craven County's Sam Whitehurst. Sam's bill would make Sunday net fishing legal in that county and would reduce the penalty for Sunday net fishing in inland waters to a maximum of \$50 instead of \$500. When the bill hit the press, the word "net" was left out. As the Wildlife Commission points out, there is no law against fishing on Sunday — if it doesn't interfere with your conscience.

Letters To The Editor

Dear Editor: I have just finished reading your article, "Down Through the Years," in the current issue of the Enterprise. I take this opportunity to commend you for the kind of leadership that you are giving the people of our county as we travel the road together down through the years. I know that you will continue to hammer away in this manner in the process of molding and shaping public opinion to the end that further progress will be made in providing the much needed opportunities for the fine boys and girls of Davie County, Sincerely, S. Social Security In Davie County

Among the different family benefits payable under Social Security are payments on behalf of adopted children. There has been some misunderstanding apparently concerning this phase of the law. J. G. Liebenberger, district manager of the Salisbury Social Security office, advised today that his office is concerned with the many questions arising in regard to children's benefits.

Mr. Liebenberger pointed out that "our definition of a child includes the wage earner's natural, legitimate child, step-child or legally adopted child." The 1958 amendments to the Social Security law broadened the term "legally adopted child." This example was given to illustrate this new change: A child who was living with the wage earner at the time of his death but was not adopted by him may be entitled to benefits if the wage earner's surviving spouse adopts the child within 2 years after the wage earner's death, or within 2 years after Aug. 28, 1958, whichever is later.

According to the local manager, recent inquiries have prompted the emphasis on this type benefit. Mr. Liebenberger suggested that "when you are in doubt about whether a benefit can be paid, always contact your social security office. Your neighbor may advise you about fixing your television, but when it comes to social security question, be sure to ask your social security office."

MRS. E. A. RAYBUCK

Sunday afternoon visitors of Misses Julia and Juanita Sofley were Mr. and Mrs. Glenn Smith, Mrs. Holt Howell and children, Kathy and Ronald Gene; and Mrs. Bill Pilcher and daughter, Julia Ann.

Mr. and Mrs. Frank Burton and son, James Gray, vacationed last week end at Myrtle Beach, South Carolina.

Mrs. B. A. Smith returned home on Friday of last week after spending some time with her mother, Mrs. Julia Howard, at the home of Mr. and Mrs. A. D. Stewart, Sr., in Winston - Salem, who has been ill for several weeks. Mrs. Alvis M. Laird spent the week end at the Stewart home and Mrs. Howard's condition has improved enough that she has moved to the home of Mrs. B. A. Smith on Monday of this week.

Mr. and Mrs. Bill Collette and Sarah Lou and James Laird returned home on Thursday of last week after vacationing in Florida for a week. St. Augustine, Silver Springs and Daytona Beach were some of the points of interest they visited. They spent some time with Mrs. Collette's and Sara Lou and James, aunt and uncle, Mr. and Mrs. L. A. McClearen at Jacksonville Beach. They also visited Mr. and Mrs. Howard McEachin in Jacksonville.

Mr. and Mrs. Cornell Allen and son, Mike, of Charlotte were week end guests of Mr. and Mrs. Francis Reid Ellis and daughter, Patricia.

Among those visiting Mrs. Albert Howard at Davis Hospital last week were Mr. and Mrs. Holt Howell and children, Kathy and Ronald Gene; Mrs. Bill Pilcher and daughter, Julia Ann; Mrs. E. A. Raybuck; Albert Howard; Mr. and Mrs. Herbert Smith and daughter, Brenda; Mr. and Mrs. Glenn Howard and sons, Steve and Larry; Hanley Sofley, Theo Brown and the Rev. Wade G. Rogers. Mrs. Howard is still unable to have surgery, but is undergoing medical treatment at the present time.

Dawdn Allen has returned home from State College where he recently completed his freshman year, to spend the summer

with his parents, Mr. and Mrs. Richard Allen.

Mr. and Mrs. Frank Laird and daughters, Lydia and Helen; Mrs. Holt Howell and children, Kathy and Ronald Gene; Alvis Laird; Albert Howard; Mr. and Mrs. T. R. Myers and sons, Jimmy and Tommy; Mr. and Mrs. O. R. Riddle; Mrs. Bill Pilcher and daughter, Julia Ann; Mr. and Mrs. Glenn Howard and sons, Steve and Larry; Mr. and Mrs. E. A. Raybuck; Mrs. B. A. Smith and son, Buford; and Mr. and Mrs. Amory Riddle and family were among those attending the birthday celebration of Joe Howard Sunday.

Mr. and Mrs. Glenn Smith and Albert Howard enjoyed a barbecue chicken supper Saturday evening on the back lawn of Mr. and Mrs. Holt Howell and children, Kathy and Ronald Gene.

Mr. and Mrs. Bill West and son, Mark, entertained Mr. and Mrs. Clint West and daughters, Ernestine and Christine, with a grilled hamburger supper in their backyard Saturday evening.

Lester Beauchamp, son of Mr. and Mrs. Junie Beauchamp, who has been a patient at Davie County Hospital, returned home Saturday.

Edna Laird and Mr. and Mrs. Garfield Owens and son, David, have the mumps at the present time.

Mr. and Mrs. T. O. Barnes and family of Lexington, Mr. and Mrs. Charles Yates and son of Trinity, and Mrs. Tommy White and children of High Point were Sunday afternoon guests of Mr. and Mrs. Calvin Barnes and family.

Mr. and Mrs. C. W. Allen, Mr. and Mrs. Glenn Allen, Mr. and Mrs. Cornell Allen and son, Mike, were entertained at an outdoor cookout by Mr. and Mrs. Francis Reid Ellis and daughter, Patricia, Saturday evening at their home.

Rad Barnes, Terry and Ronnie Smith, Ronnie Bates, Jerry McCulloh and Melvin Gregory spent the week end at Myrtle Beach, S. C.

Major D. T. Lambert, now enforcement officer for the N. C. State Highway Patrol, was once a barnstorming pilot who carried paying passengers on hair raising flights over Eastern North Carolina before joining the patrol in 1929.

Price Support On Small Grains

The harvest season for small grains is now here. The prices for grains are usually lower at harvest time than during the rest of the year. Many farmers could realize a greater profit from small grains if they took advantage of the price support program. Farm stored loans are available to Davie County farmers. By placing grain under loan and selling on a higher market can mean a higher price per bushel. The 1959 crop of small grains will be supported in North Carolina at the following rates:

Oats: 60c per bushel
Rye: \$1.07 per bushel
Barley: 88c per bushel
Wheat: \$2.00 per bushel

All of these prices are subject to premiums or discounts depending on the grade of the grain. Any farmer with grain for sale should investigate prior to selling grain. Farm stored loans on grains are available at the Davie County ASC Office.

Wheat Farmers To Vote On 1960 Support Level

The main issue at stake in the referendum of wheat farmers scheduled for July 23 will be the parity level at which the crop will be supported for complying

farmers. According to H. D. Godfrey, State Administrative Officer for the Agricultural Stabilization and Conservation Committee, a favorable vote will set the support rate at 75 per cent of parity on the 1960 crop while an unfavorable vote will drop support to 50 per cent of parity.

The wheat allotment for North Carolina for 1960 is 295,879 acres. This compares with our State's wheat allotment for this year of 296,356 acres and is based on a National allotment of 55 million acres. The same 55 million acre allotment prevailed this year since that is the minimum fixed by law. The slight decrease in the allotment for this year is brought about by reduced planting trends in this State. The 295,879 acre allotment to that State compares with a 10,636,275 acre allotment for the State of Kansas and a 30,000 acre allotment for the State of Arizona. Kansas is the largest wheat producing State and Arizona is the smallest in the commercial area.

In discussing the issues at stake in the coming referendum, Godfrey says that in addition to the level of support, growers will be making a choice for or against marketing quotas and over-planting penalties. However, he stressed the fact that acreage allotments will remain in effect regardless of the outcome of the referendum, and planting within

these allotments will still be a requirement for eligibility under the price support program and the Soil Bank Program.

Reminder on Wheat Mixtures for 1960

Farmers are again reminded of the change in the "wheat mixture" provision starting in 1960. For next year mixtures of oats containing more than 20 per cent by weight, barley containing more than 25 per cent wheat by weight, and rye containing more than 10 per cent wheat by weight will be classified as WHEAT ACREAGE. All farmers should keep this change in mind when making plans for next year's grain crop. Keep in mind also that this determination is at harvest time. Practically all "mixtures" that have been being approved will be classified as wheat under the 1960 program.

Mrs. Evans Crowned

The members of the Second Presbyterian Church's Missionary Society closed its "Queen Contest" on Sunday night, May 31, by crowning Mrs. Amanda Evans as "Queen of the Missionary Society." Mrs. Evans' crown was won as a result of having raised the highest amount of money of all the other contestants. The

contest proceeds, totaling some \$225, were used to purchase a maroon carpet for the church worship center.

the second highest amount of money was Mrs. Sylvella Williams. Prior to the crowning of the queen, the Missionary Society sponsored a brief program and

the speaker for the occasion was Mrs. P. D. Johnson, wife of the minister, who took as her topic: "Are We Workers For Christ or Wanderers?"

NORTH CAROLINA MEANS BETTER LIVING

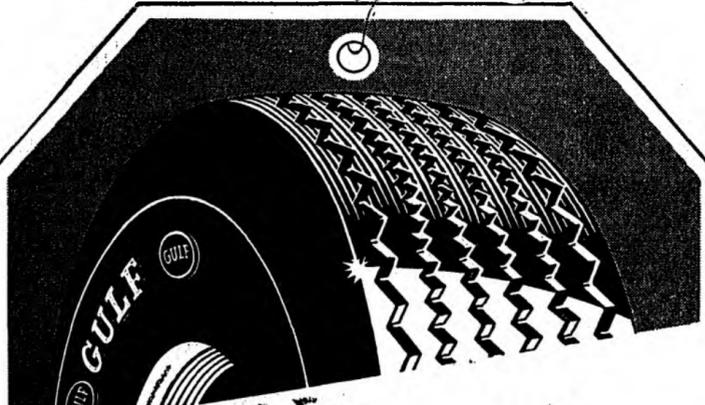

A whole new recreational activity has grown up in the central areas of North Carolina in the last 5 years, with the opening of the huge artificial power lakes to cottagers and water sport enthusiasts. For example, water skiing is now a popular sport in the Piedmont all the way from Henderson in the North to Charlotte in the South.

And as accessibility and leisure time increase in these areas, an enlightened people are finding that "legal control" of the sale of beer and ale is also a part of the better living that is their North Carolina heritage.

Lynn Haven Nursing Home Gets Medical Care License

Local Home Operating Under Dual State License

The Lynn Haven Nursing Home of Mocksville has been granted a license by the North Carolina Medical Care Commission.

This license indicates that the local nursing home meets the most rigid standards for operation and is under the direct supervision by the Medical Care Commission.

In addition to the Medical Care Commission license, the Lynn Haven Nursing Home is also licensed by the State Welfare Dept.

The standards set up by the Medical Care Commission for the operation of nursing homes concern themselves more directly with the qualified medical care and treatment available to the patients as well as building and housekeeping standards.

Owned and operated by Woodrow J. Wilson, a Registered Nurse, the nursing home had its original start in 1951 on Wilkesboro Street with 16 beds.

In 1953, a new building was completed at its present location just off Salisbury Street. At that time Mr. Wilson had a staff of only eight employees and cared for 30 patients.

In 1954, two wings were added at the back of the building to increase the capacity to 36 patients. In 1957, another addition was added to increase the capacity.

THEODORE LLOYD JUNKER

Lloyd Junker Is Accident Victim

Theodore Lloyd Junker, age 18, was fatally injured last Wednesday in an automobile collision eight miles west of Conway, S. C. He and friends were on their way to a vacation at Myrtle Beach when the accident occurred.

State Highway Patrolman W. B. Wetherington said that Albert Nesbitt, 17, of Charlotte was driving the car in which Lloyd Junker was riding. Nesbitt was not seriously injured in the head-on collision with another car being driven by Mrs. C. H. Martin of Conway. Mrs. Martin was hospitalized along with two of her passengers, Donna Martin, 12, and Harriet Stephens, 11. The head-on collision occurred on an incline.

Funeral services were held for Lloyd Junker on Friday at the First Presbyterian Church in Mocksville. The Rev. William Long officiated. Burial was in the Philadelphia Presbyterian Church Cemetery in Mecklenburg County.

The son of Mr. and Mrs. T. L. Junker of Mocksville, Lloyd attended the Mocksville school and the Davie County High School. During the past year he attended the Fishburne Military School and just recently received his certificate of graduation.

He is survived by his parents; a brother, Bill Junker of the home; a sister, Mrs. John Long, Jr., of Hickory; and a nephew, John Long, III.

Burialbearers included William Long, Ramey Kemp, Garvin Allen, Joe Brown, Jimmy Flowers and George Junker.

Park Reservations

Citizens were reminded this week that it is necessary to make a reservation prior to using the picnic area or the baseball field at Rich Park.

G. H. C. Shutt is currently handling the reservations for the park. Anyone desiring to reserve the picnic area or the ball field should contact Mr. Shutt.

Pickup Turns Over On Highway 158, Tuesday

A man was hospitalized Tuesday afternoon after rolling his 1951 Chevrolet pickup truck at Oak Grove on Highway 158.

W. C. Blanton of the Gladstone Road near Cooleemee was taken by ambulance to the Davie County Hospital for injuries suffered in the wreck.

Mr. Blanton, driving in the direction of Mocksville, lost control and travelled approximately 281 feet on the left shoulder of the road, then whipped back across the highway, rolling the truck completely over and back on its wheels.

State Highway Patrolmen R. C. Blalock and W. G. Wright investigated the accident.

SO THIS IS NEW YORK By NORTH CALLAHAN

To drive from one end of Long Island to the other seems almost like crossing the state of Texas, but it is worth it, especially from a scenic and historic point of view. There was a time in old New York that when a man became rich, he bought an estate on Long Island. As a result, the island became famous as the playground of the eminent and wealthy. You could choose most any famous name in American business or industry and most likely he would have a place on Long Island. Among those were the Vanderbilts, the Coulds, the Whitneys and naturally, the Roosevelts, the Republican ones, that is.

Now with housing developments, industrial sites, high taxes, both income and estate, as well as the trend toward smaller homes, the big Long Island estate has almost disappeared. The great showplaces of homes that once decorated the hilly north shore or the rugged ocean side elsewhere are now mainly memories in the nostalgic minds of mellowing dowagers or dim recollections by their children. The best-known residence is that of former President Theodore Roosevelt known as "Sagamore Hill" and located at Oyster Bay. This large frame house has become a national shrine and its 23 rooms are filled with trophies and papers from the colorful career of this, our most versatile President. A man accustomed to doing things in a big way, T. R.'s "lot" was 63 acres in size and here with his lively children he would romp and relax to his heart's delight. The estate is a far cry from his modest birthplace at 28 East 20th Street in Manhattan.

The plays scheduled are: June 23-26: "Tunnel of Love,"

President Grover Cleveland was a New Yorker, though he came from upstate, but he did spend some time as a guest on Long Island. Once when he developed a cancer in his mouth, he was brought here, taken aboard a yacht and secretly operated on while the craft sailed leisurely up Long Island Sound. President D. Roosevelt had his manor up the Hudson River but had many friends on this island, and his Secretary of War, Henry L. Stimson lived near Huntington, not far from where the poet, Walt Whitman once made his home. The latter's house has been restored. William Cullen Bryant, editor-poet, lived at Roselyn Harbor, L. I.

The first great New York City merchant, A. F. Stewart, built Garden City which is known as "The cathedral town of Long Island" because of the large Episcopal church there. Something over a hundred years ago, the great Daniel Webster spent his vacations fishing in the lakes and streams of Long Island. James Fenimore Cooper wrote one of his famous novels while staying at an inn in Suffolk County. Later, John Drew, the famous comedian, had an estate at East Hampton where today a theater stands as a memorial to this man who has been called "the last great figure of what many regard as the golden age of our theater." He was a good friend of Mark Twain.

In East Hampton, Long Island, also stands what is in some ways the most famous home in the world. It is the boyhood residence of John Howard Payne who wrote the immortal song, "Home, Sweet Home" which was inspired by this shingled house. Though it is not an elegant estate, this cozy house, surrounded by shrubs, clinging vines, a picket fence and near a storied windmill can be seen to have all the elements of the beloved home which became known around the world. Other interesting towns on Long Island are friendly Woodhaven and picturesque Riverhead.

It is not clear who discovered Long Island. Some reports have it that Henry Hudson first set eyes on the elongated region 350 years ago and that he tarried for a time on Coney Island. From the looks of the crowded beaches there today, as well as the folk-filled midway, one can easily understand why Henry would linger here. But whoever started this fascinating island off on its interesting and important history, was a real innovator.

The Intermediate Sub District M.Y.F. will have a picnic on June 23 at 6 p.m. at Tanglewood Park. The members and their families are requested to bring baskets and drinks to table No. 2.

Barn Theatre To Open June 23 At Tanglewood

Tanglewood Barn Theatre, at Tanglewood Park on Highway 158, will open its second season of professional stock plays June 23 at 8:15 p.m.

A longer season and expanded facilities will be featured at Tanglewood Theatre this summer. Director James Walton announces that the season will open Tuesday, June 23, with "The Tunnel of Love," a comedy by Joseph Fields and Peter DeVries and will run for 11 weeks instead of ten as of last year. Performances will be given six nights instead of five. Matinees have been eliminated because of the greater demand for night shows and, Mr. Walton said, to give the cast more daytime rehearsal time.

The company will arrive June 17 and will go into rehearsal immediately. Improvements in physical facilities of the barn theatre, made possible by an anonymous donor, include a shed roof over the entrance to protect customers from rain; another roof over the sliding door at the side; office expansion, so that three windows will be open to handle tickets, and expanded dressing room space.

The plays scheduled are: June 23-26: "Tunnel of Love,"

by Joseph Fields and Peter DeVries, comedy. June 30 - July 5: "Solid Gold Cadillac," Howard Tichman and George Kaufman, comedy. July 7-12: Star Production. July 14-19: "Ball, Book and Candle," John Van Druten, comedy. July 21-26: "Dial M For Murder," Frederick Knott, mystery. July 28 - Aug. 2: Star Production.

Aug. 4-9: "Summer and Smoke," Tennessee Williams, drama. Aug. 11-16: "The Loud Red Patrick," John Boruff, comedy. Aug. 18-23: "Three Men On A Horse," by John Cecil Holm and George Abbott, comedy. Aug. 25-30: "Diary of Anne Frank," Frances Goodrich and Albert Hackett, comedy. Sept. 1-7: Star Production.

MRS. ROBERT R. TRIGG

Mattie Mae Killian Weds Robert R. Trigg

The Associate Reformed Presbyterian Church was the scene of the lovely wedding of Miss Mattie Mae Killian of Mocksville, N. C., and Robert Riley Trigg of Waynesboro, Mississippi, on Saturday, June 13th, at 4 o'clock. Rev. Arthur M. Rogers officiated at the double ring ceremony.

Miss Killian is the daughter of the late Sidney A. Killian and Mae Fischel Killian of Chester. Mr. Trigg is the son of Mr. and Mrs. John H. Trigg of Waynesboro, Miss.

The church was decorated with a large basket of white glads and daisies with three seven-branch candelabra entwined with ivy.

Mrs. Jake S. Colvin, organist, and Stephen Pope, soloist, rendered the wedding music. Ushers were Melvin W. Faile of Rock Hill and Dock H. Price of Chester.

Glenn Faile of Shaw AFB was the groom's best man. Miss Lib Shirley of Atlanta, Ga., was the maid of honor. Miss Waltz light gown was a creation of turquoise nylon marquisette over tulle, designed with a fitted bodice and a bouffant skirt. She wore a matching head bandeau of net and seed pearls.

She carried a basket of pink carnations and snapdragons. The bride, given in marriage by her brother, Sidney A. Killian, was lovely in a princess style gown of imported ivory satin, designed with a decollete neckline, a Chantilly lace eton jacket with long tapered sleeves and a basque bodice. The bouffant skirt was fashioned with unpressed pleats which fell into a waltz length train. Her double tiered fingertip veil of bridal illusion was attached to a matching lace crown, embroidered in seed pearls. She carried a white Prayer book topped with a white bronze throned orchid showered with stephanotis and white satin streamers.

Mrs. John A. Shirley wore a rose dress with black accessories and a white carnation corsage. A reception was held in the social hall of the church after the ceremony.

Mrs. Trigg graduated from R. B. Sanford was presented a certificate on Sunday, June 7, at a service at the First Presbyterian Church. The certificate was given in recognition of his service and faithful work as clerk of session the past 22 years in the church.

The Rev. W. F. Long, and D. J. Mando attended Synod Tuesday and Wednesday held at Queen's College, Charlotte.

Miss Jo Cooley, Miss Betty Sue Troutman of Statesville and Miss Corinne Brown of Troutman spent Saturday and Sunday in Waynesville where they attended the Western North Carolina Paraplegia Association Chapter. Miss Cooley spoke to the group on "Aims and Purposes of a Chapter," in hopes of getting a chapter for the North Carolina Paraplegia, Assn., there.

Guests of Mr. and Mrs. Marvin Waters this week for a few days were their daughters, Mrs. J. D. Potts of High Point and Mrs. W. F. Amos of Asheboro.

SOIL SAMPLES

Information has been gathered by Soil Conservation and Extension Agents in Davie County and State Soil Conservation has checked information in surrounding counties. From the figures arrived at, which seem to be very accurate, by taking soil samples and following recommendations as to analysis and amount of fertilizer, Davie County would add approximately four million dollars to income from the crops that are being grown each year.

LAWNS

I have noticed in town and all over the county, lawns being freshly mowed have turned brown and some of them look very bad at the present time. I believe the cause of most of this trouble is that lawn mowers are set to mow too closely. I noticed several lawns yesterday were drying up and after checking them, the places were mowed one-half inch above the ground and this is sure death for lawns.

It is recommended for Bermuda or native grasses that lawn mower be set at least two inches high. For fescue it is recommended that lawn mowers be set to mow four inches high.

I believe you would have a much prettier lawn that would stay green much more of the time if all lawn mowers were set to mow three to four inches high.

Federal Gasoline Tax Refund

A refund of federal tax on gasoline is available to farmers under the same conditions as last year. Refund Form 2240, entitled "Claim for Refund of Federal Tax on Gasoline Used on a Farm," are to be mailed to all farmers who filed an application in 1958. In addition, the District Office of the Internal Revenue Service in Greensboro is mailing a supply of forms to each county agent for distribution to farmers who request them.

Instructions concerning the gas tax refund will be sent along with the forms. This information should be helpful to farmers in filing application for tax refund.

A refund of 3 cents a gallon may be claimed on any gasoline purchased and used on the farm for farming purposes during the period July 1, 1958, through June 30, 1959.

Refund claims should be filed after June 30, and before Oct. 1, 1959, on Form 2240.

The farmer should mail his completed form to the District Director of Internal Revenue, Greensboro, N. C.

A farmer who files a claim for refund on Form 2240, or expects to file one, should keep sufficient records to enable the Internal Revenue Service to verify the accuracy of the refund claimed. No special form is required but the records should establish:

- (a) dates of gasoline purchases and number of gallons purchased, and
- (b) the number of gallons used

Three Locals To Attend F.H.A. Convention In Chicago In July

Two local girls and their advisor will attend the 1959 National Convention of Future Homemakers of America to be held at the Conrad Hilton Hotel in Chicago, Ill. July 13-17.

Miss Jean McClamrock, daughter of Mr. and Mrs. Walter S. McClamrock, of Avon St., and Miss Theresa Ann Foster, daughter of Mr. and Mrs. Elmo Foster, of Route 3, will be accompanied by Mrs. Paul Reichle, Jr., F.H.A. District Advisor and teacher of Home Economics at Davie County High School in Mocksville.

The five day convention, planned and carried out by the teenagers themselves, will give North Carolina delegates opportunity to exchange ideas with F.H.A.'ers from all states, Puerto Rico, and the Virgin Islands. Theme for the Convention, "Blueprint for Action," is planned to help delegates find ways to use their new National Program of Work for 1959-62 through which they will emphasize developing their potential abilities, understanding family members, knowing the value of home economics education, and promoting good will at home and abroad.

The girls will be among the 2,000 teenage delegates to the 1959 National Convention of Future Homemakers of America, July 13-17, at the Conrad Hilton Hotel in Chicago, Ill.

Miss McClamrock, 16, an 11th grader at Davie County High School, has been a F.H.A. member since 1957 and has served as chapter incoming Historian and on various committees. In addition to her F.H.A. activities, Jean is a member of the local Girl Scouts, Science Club at school, and M.Y.P. at her church.

Miss Foster, 16, an 11th grader at the local school, has also been a member of F.H.A. since 1957 and has served on several committees and has been elected president of the local F.H.A. chapter for the coming year. In addition to her F.H.A. activities, Theresa is a member of the Office Club, Literary Club, Math Club, Safety Club, at the school, and she has served as secretary of her Sunday school class for the past conference year.

Future Homemakers of America is the national organization of students studying homemaking in junior and senior high schools. National membership totals nearly 500,000. The North Carolina F.H.A. Association has 24,083 members in 471 chapters.

Army Reserve Starts New Unit In Rowan County

Rowan's oldest Army Reserve unit has been deactivated by Headquarters U. S. Third Army, Fort McPherson, Ga. The 228th Transportation Company, (Terminal Service) first activated on March 14, 1944, as a Quartermaster truck company (Aviation), has been replaced by the 991st Transportation Co. (Heavy Truck).

Captain Peter P. Cooper, commander of the 228th, will command the new unit. Nearly all other personnel of the 228th are being transferred to the 991st. Executive officer will be First Lt. William J. Hawkins of Granite Quarry. Intelligence officer and training officer is First Lt. Arthur T. Edwards of Salisbury, and Personnel officer is Second Lt. Jacland F. Reville of Statesville. Acting maintenance officer is Master Sgt. James F. Wilkie of Salisbury.

Truckmaster, or field first sergeant of the new unit will be S. Sgt. Wilbert J. Boggs of East Spencer. Assistant truckmaster is Sp. 5 Daniel H. Warlick of Salisbury, and motor sergeant is S. Sgt. Lewis H. Leazer of Salisbury. The unit is without a first sergeant as M. Sgt. William Mitchell was transferred to Georgia in his civilian employment. First truck platoon leader is First Lt. Hawkins, assisted by platoon sergeant Glenn Harrison of Salisbury. Second truck platoon leader is First Lt. Edwards, assisted by Platoon Sgt. Jerry Husser of Advance.

The 991st is authorized four officers, one warrant officer, and 116 enlisted men, and at present the unit is up to strength.

Mission of the new unit is to be ready for mobilization at any time, without additional training time, to provide truck transportation for the movement of tanks and other heavy or bulky vehicles, and to transport heavy, bulky or oversized cargo. At its present strength the 991st is capable of operating 24,000 ton-miles daily, generating around the clock, the unit is 100 per cent mobile when fully equipped with vehicles.

The first week end training assembly of the new unit was Sunday, June 14, and was devoted to the Army Proficiency test.

Members of the 991st reside in Kannapolis, Concord, Mocksville, Statesville and Lexington as well as Rowan County.

The 228th saw service in England, France and Germany during World War Two, before reverting to a reserve status in November, 1948. The unit was awarded battle citations for service in Normandy and Central Europe, where it was part of the "Red Ball Highway" transportation system which supplied General Patton's dash across France.

MORE ABOUT LYNN HAVEN

ity of the Lynn Haven Nursing Home to 60 patients.

From a staff of eight employees in 1953, today a staff of over 40 is required to operate the home. This staff operates around the clock, providing nursing care on three shifts: 7 a. m. to 3 p. m.; 3 p. m. to 11 p. m.; and 11 p. m. to 7 a. m.

Lynn Haven has a full capacity of patients most of the time. In 1958, the patient census average was 59.6 per day. There are patients at the home now from 17 counties and six states.

The Lynn Haven Nursing Home is suited for patients requiring specialized nursing care and medical supervision. It is recognized by the State Welfare Department as providing specialized nursing care.

The local nursing home has the most modern facilities and equipment. It has recently been renovated and redecorated throughout.

Mr. Wilson received his degree as a Registered Nurse from the St. Joseph's Hospital in Philadelphia. He has had special training in the care of the aged and in physiotherapy.

Pallbearers were Burley Boger, Clyde Hutchins, Elmer Allen, William Howell, Duke Pope and Clyde Jordan. Burial was in the church cemetery.

Social Security In Davie County

An important provision in the 1958 amendments to the social security law will affect many beneficiaries whose annual earnings are more than \$2000.

Effective with months beginning January, 1959, benefits are payable for any month in which a beneficiary does not earn over \$100 in wages or render substantial services in self-employment, regardless of his total yearly earnings. This means that even those who earn more than \$2000 a year can receive benefits for some months if the new test applies to them.

All social security beneficiaries can be classed in three general earnings categories. These categories and how they affect entitlement to monthly social security checks are as follows:

- 1. Annual earnings of \$100 or less. Checks are payable for every month of the year.
2. Annual earnings of more than \$100, but less than \$2000. Checks are forfeited for each \$80 of the total earnings which exceed \$1000. For example, if annual earnings are \$1380 two checks would be forfeited. Checks are payable, however, for each month in which an employee's earnings do not exceed \$100 or in which a self-employed person does not render substantial services in his business.
3. Annual earnings of more than \$2000. No checks are payable if an employee's earnings exceed \$100 for each month of the year, or if the self-employed person performs substantial services for each month. However, benefits are payable for any month in the year in which the beneficiary does not earn over \$100 in wages or not render substantial services in his business if he is self-employed.

Further information about the new earnings test may be obtained from any social security office.

Tractor Workshop

A tractor workshop for vocational teachers of the western district was held at the Glenn High School in Charlotte last week.

J. H. Warren and others of A & T College were in charge of the workshop. Four tractors were brought in from the community and repaired by the group for experience in tractor maintenance.

The meeting was attended by the vocational teachers of the western district. A. L. Spales attended the meeting as representative of the Davie County Training School.

Ag Teachers Hold Workshop

The Western District of Vocational Agricultural teachers held their annual profession meeting at the Davie County Training School last week. C. E. Dean and A. P. Bell of A & T College in Greensboro were in charge of the workshop.

Mr. Dean discussed the supervised farming program and farm visits of all day students. A visit and survey was made of the supervised program of Paul Horn of the Boxwood community and Bernard Gaither of the Boeotown community. Paul Horn has one acre of hybrid corn and one-fourth acre of garden. Bernard Gaither has 50 chickens and one-fourth acre of sweet potatoes.

The new project record book was discussed by A. P. Bell. The new record book will enable the boys to keep an accurate record of farm business, social security, and income tax.

The meeting was attended by 22 members of the Pico and Atkins groups of the Western District. Lunch was served at the Davie County Training School. Mrs. B. T. Williams served as hostess.

DOTS Playground

The Davie County Training School playground opened Monday with a group of 38 arriving at 8:30 a. m. and staying until 6 p. m.

Little League and Pony League baseball teams were organized, with four teams for the former and two teams for the latter. In the first game Monday morning the Dodgers beat the Braves by a score of 17 to 16. Newman Dalton was the winning pitcher and those collecting hits were Cecil Clement, Eugene March, Richard Carter, Charles Clement and Charlie Holman.

In addition to baseball, ping pong, and carrom were popular games the first day at the playground.

Mrs. Clyde Studevent, Jr., will be in charge of arts and crafts. She is organizing a program for the younger boys and girls to participate in this creative work.

Lloyd Junker

Someone once said: "There is but this difference between the death of old men and young; that old men go to death, and death comes to the young."

Death came to Theodore Lloyd Junker of Mocksville last Wednesday. It was sudden . . . it was shocking . . . and it left this entire community stunned.

Lloyd was a popular young man of this community and at 18 year of age was preparing himself to travel down the road of life. Just within the last few weeks he was awarded a certificate at the 79th graduation exercises at the Fishburne Military School of Waynesboro, Virginia, which he attended during the past year.

At the Fishburne Military School, Lloyd served in the band which was designated as "Honor Company" for the year. As a cadet, he helped the Fishburne Battalion to win for the 31st consecutive year the coveted designation of Honor ROTC School. The inspection was conducted in the spring by a board of officers appointed by the department of the army.

This week this newspaper was to have carried a full account of the graduation exercises at the Fishburne Military School

in which Lloyd received his certificate. However, instead we carry the notice of his tragic and untimely departure from our midst.

To many, the tragedy in this case is that of a measurement of time . . . the fact, that Lloyd was only 18 years of age and had the major portion of his life to live. However, as Henry Wadsworth Longfellow has so ably pointed out:

"What is time? . . . The shadow on a dial, the striking of the clock, the running of the sand, day and night, summer and winter, months, years, centuries . . . these are but the arbitrary and outward signs . . . the measure of time, not time itself. Time is the life of the soul!"

Time is not always a true criteria by which to judge a life of an individual. Some people exist for a great number of years without ever living. Others cram a lifetime of experiences into a few short years. The latter is true of Lloyd Junker.

Lloyd will be missed. He will be missed by his family . . . his friends . . . and his community. However, his life will be remembered by those who knew him and in that way he will continue to live in many hearts.

Decline of Patriotism

This past Sunday, June 14, was Flag Day. However, few in this and surrounding communities bothered to observe the day set aside during the year to honor "Old Glory."

Highlights of a speech delivered by Charles H. Brower to Treasury officials in Washington points up need in America for a rebirth of the old time patriotism that once distinguished our forebearers:

"Among the great skills that we Americans boast is our ability to package things . . . cars and furniture and even life insurance.

"Finally, I am afraid we are learning how to package people. They will shortly be coming bright and shining from our collegiate assembly lines. They will be shaped on one side by taxes and on the other by benefits. All impurities, such as ambition, discontent, curiosity, desire and pride, will be carefully removed . . . and replaced by security and welfare.

"Yes, we are soon going to be packaging people and we are going to homogenize society. Furthermore, we are going to save millions of dollars on statues. For statues are erected . . . not to committees or bureaus . . . but to great men and women. And in a homogenized society the cream will never come to the top

"Our greatest dangers do not threaten

us from across the sea. Our greatest dangers are within ourselves. For our creed of rugged individualism has degenerated into an individualism that is no longer rugged. We know how to ask, but we have forgotten how to give. We know what we are owed, but we have forgotten what we owe . . .

"Today there is a sign beside the Parade Ground at West Point which reads: 'Visitors are reminded to stand and remove their hats when the flag passes by in review.' But once we didn't have to be told.

"Today new buildings are going up all over the land, with flagpoles not even included in the architects' plans. On the older buildings the halyards hang limp and flapping. Yet the flag used to fly from tens of millions of homes whenever a holiday provided a reasonable reason . . .

"All right—I am Flag-Waving! And in a day when courts have to rule whether or not an American must take an oath of loyalty to his country—patriotism may seem somewhat corny and outmoded. But I will point out that patriotism — love of country was almost the sole motivating force of those whose memory we honor and cherish in this country. Name me such a man and I will be able to point out at what sacrifice of time and money—and even life itself, he served his country."

Repeaters In Court

One matter that continues to impress the regular attenders at sessions of Davie County Criminal Court is the number of repeaters that are brought to trial time and again.

Although we have made no formal survey, we suspect the number of individuals involved as compared to the number of cases tried to represent quite a deferential. In other words, we doubt if there has been more than 300 individuals tried in County Court since its inception whereas the dockets indicate that well over 1,000 cases have been tried.

Time and again the now well-worn question of a defendant: "What have you been tried and convicted of?" . . . brings a recitation of a record of several previous convictions.

It would seem to the average layman that a court conviction and subsequent

punishment should exert enough influence on an individual as to deter further breaking of the law. However, from the long list of repeaters this definitely is not the case.

A law enforcement officer recently said that if we could get rid of about 50 or 60 people in the county, we would have but little court. The possible truth of this statement is being borne out each week as more and more offenders build-up a record for themselves.

The constellation Andromeda is the most distant object visible to the unaided eye. Its light, traveling 186,000 miles a second, requires about two million years to reach the earth. Its diameter measures 100,000 light years. Until a few decades ago astronomers though Andromeda was a nebula — a luminous cloud of gas. Observations from a 100-inch telescope on Mount Wilson proved the misty patch was a system of separate stars, the first that man had discovered outside his own galaxy, the National Geographic Magazine says.

The Galapagos Islands off Ecuador were nicknamed "Las Islas Encantadas" (the Enchanted Isles) by Spanish navigators. It seemed to the passing skippers that the capricious currents there alternately attracted and repelled ships as if by magic, the National Geographic Magazine says.

"First, We Fill the Hole With Money— Then Push 'Em Together"

60 SECOND SERMONS

By FRED DODGE

TEXT: "Weight not thyself in the scales of thine own opinion." —Browne.

While they were playing together, Bobby struck Billy with a stick. Their mother, ended the argument by putting the boys to bed. She tucked Billy in, saying,

"Now you must forgive your brother before you go to sleep. You might die during the night." Billy stopped sobbing long enough to say,

"Well, I'll forgive him tonight, but if I don't die, he'd better look out—in the morning."

People praise those who offer forgiveness to others. It is an admirable trait. Just as admirable and often more necessary, is the ability to forgive ourselves.

Too many of us go through life hating ourselves. We are blighted socially and morally because we cannot forgive ourselves for some error that everyone else has forgotten. We suffer. We inflit ourselves with mental and even physical torture, by not forgiving ourselves.

That is silly. We have useful lives to live. We have time to correct our errors, but there isn't time to waste blaming ourselves. Let us admit error and make amends if possible. Then turn every effort toward avoiding the same error. But, above all, begin by forgiving ourselves. All genuine improvement starts there. Copyright 1958 Fred Dodge

Letters To The Editor

Dear Editor: The VFW and Ladies' Auxiliary want to thank each and everyone who had any dealings with the play we presented last week. The VFW is an organization of men who answered to the nation's call of duty. This call was to defend your loved ones as well as ours. When we asked for volunteers to be in our play, we had an excellent response, but the public as a whole didn't seem to care to support our VFW organization. Lot of the Davie County people know that we have a loan wheel chair and crutches service. These wheel chairs and crutches are loaned out to people without any cost whatsoever. Our organization put on the campaign so they could be patriotic. We do not know if there was some misunderstanding causing the poor attendance. If there was we would appreciate it very much if someone would tell us so we could clear it up. The VFW, being a non-profit organization (Continued On Page 2)

SENATOR SAM ERVIN SAYS

WASHINGTON — There seems to be some misunderstanding as to the function of the Senate Rackets Committee on which I serve.

Rackets Committee Function The purpose of the committee is to conduct investigations to determine whether or not any new Federal law is necessary and not to determine who is right or wrong in industrial disputes. This purpose and function will be followed in the Henderson strike matter. The determination of whether new laws are needed is based on what we find in many areas of activity in the labor and management field. The correct title of the McClellan Committee is "Senate Select Committee to Investigate Improper Activities in the Labor or Management Field."

We have investigated a pattern of violence in labor-management disputes in Wisconsin and Indiana. The hearings on the Henderson strike will be for the purpose of determining what, if any, recommendations should be made to the Senate on the subject of bringing about effective bargaining or preventing violence in industrial controversies. How does the committee function once a decision is made to conduct an investigation? The selection of witnesses is left to

the staff of the committee without interference from its members. The chief counsel of the committee interrogates the witness and the committee members ask questions for the purpose of securing information.

Let me reassert that the committee does not function to settle strikes nor does it attempt this mission which is outside of its purpose as a legislative committee. As a member of the committee I will hear the evidence on the Henderson strike solely for the purpose of determining whether the committee should recommend additional Federal laws.

Action Needed Now Action is needed now on labor reform legislation, despite the pressures from some organized labor and some management organizations who feel that the Senate-passed labor reform measure does not provide precisely what they want. If my judgment is correct — and I believe it is sound — the people of the country expect action to curb corruption uncovered by the McClellan Committee. To further delay reform measures by a "whole hog or none" approach on the part of labor and management will be a sad day for this nation and may well signal the death of reform legislation for a long time.

out one at a time so he'll be able to pay as he goes. The people of Utah ought to send this fellow to Congress, maybe elect him President.

The experts is beginning to make guesses and predictions about the 1960 census. One expert claims it's going to be very alarming the way the census will show women outnumbering the men in this country. I don't see anything alarming about women outnumbering the men. My old lady, fer instance, has been outnumbering me two to one fer years.

All the newspapers, Mister Editor, seems agreed on one thing, that the country is enjoying prosperity the likes of which this nation has never saw. One writer was asking where was the wolf that used to camp at the door. I'll grant him that the wolf is gone, but instead of the wolf at the door, we got the tax collector. Between you and me, I'd just about as soon try to make a deal with the wolf. The wolf might listen to a little reason, but if a fellow shows signs of having any reason about him, the Government ain't got no idea of hiring him fer a tax collector. Yours truly, Uncle Dave

BIGGEST . . . Within the next six months work will begin here on what promises to be one of the most handsome modern buildings in the Nation.

Raleigh realtors are already watching with interest for the announcement of the location of the new, multi-million-dollar Legislative Building we have written so much about in these columns.

Very few people in Raleigh outside the innards of the Hodges administration thought the 1958 Legislature would be able to swing it. A tract of land sufficiently large for the building — and for parking space, too — was purchased 18 months ago on North Wilmington Street one large block north of the Capitol and only a few feet from the Governor's Mansion on nearby Blount Street.

Although the State recently purchased property large enough for the building just across the street from the Capitol — at the corner of Salisbury and Hillsboro Streets and adjacent to the First Baptist Church, there would be no parking space available for employees at this spot.

Anyhow, when we predicted here some months ago that this group of lawmakers would give its financial stamp of approval to a Legislative Building, we were gently chided by well meaning friends who knew not Luther Hodges' determination to leave a building he and his'n could point to in years to come . . . as a physical accomplishment: something needed a thing of beauty, an item to admire, something one could touch, lean against, brag about, walk around, under, through and in.

Thanks to the Works Progress Administration, builder of armories, etc., Gov. Clyde R. Hoey's administration got two buildings — the Justice Building and the Education Building. Gov. Kerr Scott, appropriately enough, came through with the magnificent Highway Building.

Matching these, and more, will be the Legislative Building. 1958-62 . . . Thus Downtown Raleigh, staring for streamlined business-built structures — and not getting its share — comes up with a goodly number of face-lifting constructions in the 1957-62 era:

The News and Observer Building, the Baptist Convention Building, a four level parking structure, a new, ultra modern City Hall, the Legislative Building, a Wachovia Bank Office Building, a modern as tomorrow Belk Store.

WHEAT IT COSTS . . . Somebody asked us the other day what it cost the "average" legislator per day to stay in Raleigh. We would estimate that the cost, including room, meals, etc., between \$10-\$15 per day. Since June 3, they have received \$8 per day.

WHAT THEY KNOW . . . Just to give you some idea of how hard it is to guess when a legislative machine will run down:

Lt. Gov. Luther Barnhardt, presiding officer of the State Senate, and Addison Hewlett, presiding officer of the House, both predicted a few weeks ago that the Legislature would adjourn early in June.

As of June 15 they were wondering if work could be finished by June 20. SPEECHES . . . The word we get is that some of John Larkins' most outstanding speeches these days are not concerned with politics — or with his plans to run for Governor — but with what we are now doing in this state and in the Nation toward controlling cancer.

Larkins is scheduled to speak in Raleigh on June 22. OUT OF BARBECUE . . . Speaking of John Larkins, reminds us that homefolks in the Jones County area had a 50th birthday party for him on June 8.

Although planned to be only a local affair, between 1,800 and 2,000 people attended. They ran out of barbecue — and that's the best sign of a well attended affair in Eastern North Carolina. But let's hope that nobody went away hungry. We doubt they did.

IN THE FUTURE . . . We are convinced that North Carolina will be producing oil, gas, or both, commercially before many years. When we were coaching down in Gulfport, Miss., in 1933, various concerns were testing for oil, finding nothing, and capping the

Senator Jordan Reports:

By SEN. B. EVERETT JORDAN

WASHINGTON — The tobacco price stabilization bill has finally passed both the House and Senate after many months of bickering and wrangling that at times put the future of the entire tobacco program in jeopardy.

The bill has been sent to the White House and I see no reason why the President should not sign it. The opposition to the bill, which stabilizes prices at the 1958 level until further pronounced increases in production take place, came mainly from those who want to destroy all price supports and acreage controls. It goes without saying that removing price supports would virtually run North Carolina's farm economy.

Now that the proposal has weathered its biggest storms, I think all of those interested in agriculture should take a long hard look at the future, and the prospects it holds for tobacco.

There is no doubt that the legislation will help increase tobacco exports. It serves notice to manufacturers all over the world that United States tobacco intends to hold its own in expanding world markets.

The importance of the legislation was dramatically illustrated last week during a visit of Italian tobacco officials in the United States. They made clear that it is extremely important for them to plan the purchase of American tobacco on a long-range basis, not a year to year, piecemeal basis. This, plus maintaining high quality, seem to be the controlling factors. I am sure if this is the case in Italy, which has been using increasing volumes of American tobacco in recent years, it is true in many other foreign markets.

It must be remembered that the price stabilization bill will not solve all of tobacco's problems. Tobacco has a great many problems, and solutions to them are becoming more difficult to find as more and more anti-farm sentiment is stirred up by those who are trying to break down the farm program.

The future of tobacco, to a very great extent, then, depends on the degree of unity with which growers, warehousemen, exporters, manufacturers, and others in the industry work together. All segments of the industry were completely unified on the price stabilization bill, and I am certain that this unity, demonstrated time and again under extremely difficult circumstances, made the difference between success and failure.

The N. C. State Highway Patrol was judged the nation's No. 1 law enforcement organization both in 1956 and 1957 by the International Association of Chiefs of Police.

ASC News

Closing Date For Applying For 1960 Wheat Allotment Announced. The ASC County office is accepting wheat allotment applications for certain farms. A producer who intends to seed wheat for 1960 on a farm on which no wheat was seeded for harvest as grain in 1957 and for which a 1958 and 1959 allotment was not established, irrespective of whether or not wheat was seeded for harvest as grain in either 1958 or 1959, and who desires to be considered for an allotment must make application for an allotment according to J. G. Crawford, Chairman of the Davie County Agricultural Stabilization and Conservation Committee. Application forms are available in the ASC county office for use in filing a request for an allotment. The producer must apply in writing prior to July 1, 1959. Farm Performance Check Begins. Approximately 2,700 reporters trained in acreage measurement work are now beginning the summer job of checking crop acreages on farms participating in the acreage allotment, price support, and Soil Bank programs, according to H. D. Godfrey, State Administrative Officer of the ASC Office. In announcing the start of the 1959 measurement work, Godfrey urged the cooperation of farmers in assisting the reporters. "Producer cooperation," he said, "can help us do this performance job faster and more economically. Some of the ways the farmer can help are: (1) See that stakes are in place on premeasured farms; (2) make sure plantings are within the staked area on premeasured farms; and (3) have someone who is familiar with the crop available to help the reporter if the operator is away from the farm." Crops being measured at this time are tobacco, cotton and peanuts. Where acreage in excess of the farm's allotment is found, and if the farmer desired to bring his acreage within his allotment, then the acreage must be rechecked after the disposition is made. Performance reporters in North Carolina will check approximately 318,000 allotments this year, with a total acreage of 1,425,000 acres. In addition to acreage included in approximately 7,069 contracts under the Conservation Reserve of the Soil Bank. The work of the reporters is only part of the performance check, Godfrey points out. The reporter outlines planted acreage on an aerial photograph, and that is returned to the county office where the acreage is computed by the office staff by means of a

planimeter, an instrument which accurately computes the area outlined. Production Adjustment In Conservation. Production adjustment is a definite part of any Conservation Program, according to Zeno O. Ratcliff, Jr., chairman of the State ASC Committee. Adjustment of crop production through quota programs is just as much a part of conservation as rebuilding pasture or farming on the contour, says Ratcliff. Soil fertility used in the production of farm commodities for which there is no market wastes that fertility just as much as thought it were being washed or blown away. Adjusting the acreage in such crops to a production in line with market demand is using the soil for the good of the people who depend on the soil, both the farmer and the consumer. Ratcliff further says that if land taken out of production to get the desired balance is put into a conserving use, both the farmer and the consumer stand to gain. The farmer is improving his land for future production and the consumer is assured of soil reserves to meet future increased demands for food production. Production of most crops require an extensive outlay for the plant foods, nitrogen, phosphate, and potash. In addition, smaller amounts of magnesium, iron, boron, zinc, copper, and manganese are needed. That means that in addition to the labor, use of machinery, moisture, and seed, this much fertilizer is lost in every unit of the crop produced in excess of what can be sold or used. The same principle holds for tobacco, peanuts, cotton, wheat and other crops. Therefore, Ratcliff explained, adjusting acreage of crops, through ASC's acreage allotment and marketing quota programs, to market demand is as much a part of conservation as the physical conservation structures such as terraces and dams.

What Every Veteran Should Know. In the past month several county war veterans needed their discharge for hospitalization and other purposes and have not been able to find them, causing a delay in securing the requested benefits, according to W. J. Wilson, Davie County Veterans Service Officer. The Service Officer suggested that all veterans who cannot find their discharge "secure" one and have it recorded in their County Register of Deeds office. There is no fee for this service and acceptable certified copies may be secured when needed. Those veterans who have lost their discharge may secure assistance in applying for a Certificate

clings to curves like a cat on a carpet! the travel-lovin' Chevrolet

Nothing else but a dyed-in-the-wool sports car like the Corvette can take a turn with such solid assurance!

It's easy to see where Chevrolet gets its road sense. With big coil springs at every wheel, a firm, wider stance and all of its pounds distributed with painstaking care, Chevy's born with it.

The only thing that may be hard to understand is how it can offer the ride it does, along with so many other luxury-car virtues, and still compete in the low-price field.

We use the word *compete* only in the sense of price. For with a ride as special as Chevy's, real competitors are hard to come by. There's a world of difference between Chevrolet's coil springs at all four wheels and the leaf springs that most other cars still use. Take a Chevy down a snaky back road and you'll feel the difference in the sure way it holds through curves and shoots over rough spots with hardly a ripple.

Six Indicted For Assaulting Youth In Hospital Corridor

Attack Follows Wreck Last Saturday Night

A teen-age gang attacked an Iredell County youth in the corridor of the Davie County Hospital Saturday night, gave him a severe beating about the head and face and splattered blood over the corridor.

Participating in the attack were six Davie County youths, reportedly incensed because the fellow boy was with their girl friend.

Indicted on the charge of assault and aiding and abetting, in assault are: Paul Melvin Gregory, John Lewis Gregory, Jerry Doyle McCullough, James Franklin Patton, Marvin Gray Byerly, David Alton Beauchamp. They are accused of assaulting John Henry Faulk, 19, of Statesville.

Faulk, driving a 1955 Chevrolet, and accompanied by Frances Turner, age 15, of Mocksville, wrecked his car around 11:15 p.m. Saturday night on Highway 64 west, in front of the residence of Van Frost.

State Highway Patrolman R. C. Blalock said that his investigation showed that Faulk was heading west at a high rate of speed, lost control on a curve, ran off the road and turned over in the garden of Van Frost.

Following the wreck, the gang of boys attempted to fight the Faulk boy at the scene of the accident but were restrained from doing so by others present. It was reported that they made a threat at this time that they would "get Faulk" at the hospital.

Frances Turner suffered a shoulder injury and was taken to the hospital. The Faulk boy was reported to have been in the hospital waiting room when the gang of boys entered and attempted to flee down the hospital corridor where he was caught and beaten.

As a result of the wreck, Faulk was charged with reckless driving and improper registration. Damage to the car was estimated at \$700.

Alton Sheek Is At R.O.T.C. Camp

Cadet Alton J. Sheek, son of Mr. and Mrs. Harry G. Sheek of Route 1, Advance, has been assigned to ROTC summer camp at Fort Bragg. The encampment will continue until July 31, 1959.

Cadet Sheek will undergo a thorough indoctrination in all phases of military operations. He will participate in a variety of field combat exercises including one week in bivouac.

Act Passes Reimbursing Bob James For Injuries

House Bill 246 which provides for the reimbursement to Bob James of Mocksville for injuries he received when aiding a State Highway Patrolman making an arrest has passed the House and Senate and was ratified last week.

This bill, introduced by Rep. Ed Kemp of High Point and co-sponsored by Rep. B. C. Brock of Davie, provides that Mr. James can receive compensation up to \$2,000 for the injuries sustained. It reads as follows:

"A BILL TO BE ENTITLED AN ACT TO REIMBURSE ROBERT JAMES OF DAVIE COUNTY FOR INJURIES RECEIVED BY HIM IN AIDING AN OFFICER IN THE ARREST OF ONE JACK PEACOCK."

WHEREAS, on the first day of June, 1957, Pfc. A. W. Cox, a State Highway Patrolman, was attempting to arrest one Jack Peacock who at the time was driving a stolen automobile; and

WHEREAS, the State Highway Patrolman was having difficulty in placing Peacock under arrest and called upon Robert James to aid him in making the arrest, Robert James responded to the request and while aiding in placing Peacock in custody, Peacock kicked him to the ground and in the course of the struggle inflicted serious injuries on James which resulted in a broken leg and other injuries requiring extensive hospital and medical

Seining Season To Open Here July 1st

The North Carolina Wildlife Resources Commission announces the 1959 seining season will open on July 1, 1959. Streams open for seining in Davie County will include the Yadkin River, the South Yadkin River, and Dutchman Creek, below U. S. Highway 601 Bridge.

To be legal to seine these streams, each seine must be tagged and each person in the party must have in his possession a permit as required by the General Statutes of North Carolina and the special devices regulations set forth by the Wildlife Resources Commission.

These permits may be secured in Davie County from either the Firestone Store or Wilkins Drug Co., Inc. in Mocksville.

Only non-game fish such as carp, catfish, or suckers may be legally taken with a seine in the above designated waters of the county.

4-H Camp To Be Held July 13-18

The Davie County 4-H Camp will be held July 13-18 at Camp Millstone. Camp Millstone is located near Rockingham, on a lake in a State Forestry Preserve.

Davie County has a quota of 60 boys and girls who may attend this camp. At the present we have vacancies for four more girls and 14 more boys. BOYCE D. WHITENER

Lutheran Student Pastor Assumes Duties

Boyce D. Whitener, a rising senior at the Lutheran Theological Southern Seminary, Columbia, S. C., has assumed his duties as student pastor for the Lutheran Mission now well underway in Mocksville. He is a graduate of Lenoir Rhyne College, Hickory.

This spring he completed his second year of training at the seminary.

Three weeks ago the work was undertaken in Mocksville through the efforts of many interested Lutherans in this area, and the United Evangelical Lutheran Synod of North Carolina. Since that time there has been constant increase in the interest and activity of the mission.

Services are presently being held in the National Guard Armory on Railroad Street. The Sunday School begins at 10:45 a.m., with the worship service at 11:45 a.m.

The primary purpose for establishing a Lutheran church here is to provide a church home for Lutherans in the Mocksville-Coolce area.

Mr. Whitener is staying at the home of Glenn Travis, Sr., 606 North Main Street. His telephone number is ME 4-2411. If you have any questions concerning the work please call Mr. Whitener at any time.

Local Legion Juniors Drop Second Game Of Season To Statesville

Hendrix and Boger To Attend Lions International

H. R. Hendrix, Jr., president of the local Lions Club, and James Boger, director, will leave Charlotte by plane June 29 to attend the 42nd annual Convention of the International Association of Lions Clubs being held in New York City, June 30-July 3.

The locals plan to stay an extra day after the convention to attend the July 4th doubleheader between the New York Yankees and Washington Senators baseball teams. They will return to Charlotte by plane and then home here by car.

The North Carolina headquarters in New York at the Convention will be the West Olympia Room of the Manhattan Hotel, where Hubert Kanipe of Haw Creek and his committee will "show off" some North Carolina products and extend real Tar Heel hospitality to thousands of Lions from throughout the world.

The annual North Carolina breakfast is set for Tuesday morning, June 30, in the Astor Hotel when several hundred Tar Heels will have a gala affair. District Governor Wayne C. Simpson, of China Grove, will be Master of Ceremonies.

The big Lions Parade will be held Tuesday afternoon, June 30, with parade chairman Jesse Jones of Kinston in charge of Tar Heel Uniformed Delegation honoring President Dudley L. Sims, of Charleston, West Virginia.

The big difference in the game was the tremendous hitting displayed by the locals. Joby Pott collected three hits in four times at bat. Outfielder Leon Phillips plated four runs with two hits, including a triple. Outfielders Ron Spry and James Latham also pounded out two hits each. Right hander Monte Matthews was relieved in the eighth inning by knuckleballer, Bruce Driver, who received credit for the win.

On Saturday night Coach Jack Ward's boys defeated Salisbury 6 to 2. It was a very wild contest between pitchers Dave Snow of Davie and Barry Moore of Salisbury. Between the two, there were 29 strikeouts and 17 walks yielded. Dave Snow fanned 13 batters to run his total to 51 in four games. He has won four games against no losses.

Snow also led the team at bat as he batted in three runs. His big blow was a two-run double in the last inning.

Through Saturday night's game, the leading hitters were as follows: Dave Snow, .500; Joby Pott, .410; Leon Phillips, .333; Jerry Sims, .290. Snow leads in runs batted in with 14.

Thursday night the locals play Lexington at Holt - Moffitt field. They return Saturday night to Mocksville and meet Greensboro here at 8 p.m. On Tuesday night they play at Thomasville.

Next week plans have been made for the craft work to be making of molds. Also, a ping pong and horseshoe tournament are planned for next week.

Library Services Explained To Rotary

Mrs. J. Frank Clement, Davie County Librarian, explained the services of the library to members of the Mocksville Rotary Club, Tuesday.

Mrs. Clement explained that the national average for a library is 2 1/2 books per citizen and that Davie County with a population of over 5,000 had less than 13,000 books in the library.

Mrs. Clement also explained the memorial gift program of the local library and discussed plans for setting up a "Friends of the Library" auxiliary.

She also had words of praise for the Hanes Chair and Furniture Co. for their generosity and assistance in providing furnishings for the library. She said that the estimated value of the furnishings for the local library had been set at between \$10,000 and \$12,000.

"Of course we could have never afforded such furnishings if we had to pay the full amount," said Mrs. Clement.

Mrs. Clement also explained the method of selection of books and the service the library rendered both to individuals and to organizations.

President Grady Ward presided and introduced Mrs. Clement. Special guests included Mrs. Eugene Bowman, chairman of the library board of trustees; Ernest Murphy; Paul Anders of Charlotte.

Ten-Year-Old Hit By Car On Highway 801

A ten-year-old boy suffered head and leg injuries last Friday evening when he ran in front of a car on Highway 801 in front of the residence of P. P. Tucker.

Roger Gray Boger, 10, son of Mr. and Mrs. Wesley Boger of Advance, Rt. 2, was carried to the Davie County Hospital after being struck by a car driven by Daniel Carl Lawrence, 23, of Clemmons, Route 1.

State Highway Patrolman R. C. Blalock said that his investigation showed that Lawrence, operating a 1956 Ford, was heading South on Highway 801 when the child ran in front of the car. Patrolman Blalock said that 87 feet of light skid marks showed on the pavement up to the point of impact and that the vehicle travelled 78 feet after the impact.

The accident occurred around 6:40 p.m., Friday. No charges were preferred.

Escaped Prisoner Who Went To Work Given Break By Judge

Weldon Key, who has been working in Forsyth County since escaping from the local jail last September, made arrangements to pay fines and costs on two charges Tuesday in Davie County Court so that he could continue to support his wife and three small children.

Key was taken into custody last week in Winston - Salem as he was leaving the courtroom and was turned over to Davie authorities.

Sheriff Ben Boyles testified Tuesday that Key escaped from the local jail last September 17 while waiting on bond pending an appeal for larceny of gasoline. Sheriff Boyles explained that through a mistake the door was left open and that Key just walked out to his freedom while no

County Commissioners And Board Of Education Approve Bond Proposal

The Davie County Board of Commissioners and the Davie County Board of Education have approved plans calling for a school bond issue in the amount of \$1,300,000. The date of the election is expected to be set for sometime in the early fall.

The legal notice of intention to apply to the local government commission for approval of bonds appears elsewhere in this issue.

The bond vote will be for the purpose of providing funds for erecting additional school buildings and other school plant facilities.

Full details concerning the construction program to be provided if the bonds are approved, will be announced later.

The primary purpose of the bond issue will be the completion of the new Davie County Consolidated High School. This school has been existing for three years in buildings constructed from funds accruing the county from state bond issues. Needs at this school include additional classrooms, an auditorium, gymnasium, cafeteria and athletic field.

In-Law Trouble Comes Into Court

In-law trouble came in for court settlement Tuesday and resulted in one man paying a fine of \$25 and cost and his son-in-law paying the cost on the charge of simple assault.

Grady Moody of Mocksville was found guilty of the charge of assault with a deadly weapon and was fined \$25 and cost. Moody was also charged in the same warrant with trespass and drunk and disorderly.

His son-in-law, J. Harold Bledsoe, was found guilty of simple assault against his brother-in-law.

Bascom Bledsoe of the Four Corners community testified that Moody came to his home on May 30th, pulled a knife from his pocket and using profane language threatened to cut him. He said that Moody appeared to be either drunk or crazy at the time.

Bledsoe said that Moody's daughter was married to his son and that Moody asked her if she was going home with him. The girl told him "no," and that Moody using profane language, started cursing and accusing the young couple of owing him money, which the couple said that they had paid to Mrs. Moody.

Bledsoe said that Moody was brought to their home by a girl driving a taxi.

Moody was found guilty of the charge of assault with a deadly weapon and was fined \$25 and cost.

Bridal Couple Is Honored

Mr. and Mrs. Duke Tutterow were hosts at a dinner Friday evening prior to the rehearsal for the wedding of Miss Alice Anderson and Mickel Barnette. The dinner was given at their home on Route 1. Pastel summer flowers were used to decorate the home. The menu consisted of baked ham, fried chicken, English peas, creamed corn, potato salad, pickles, olives, pineapple and pear salad, hot rolls, strawberry short cake and iced tea.

The couple was presented with a vegetable bowl in their china pattern. Members of the wedding party attended.

Following the rehearsal for their wedding, Miss Anderson and Mr. Barnette were again honored with a cake cutting in the Fellowship Hall of the First Methodist Church. Hostesses were Mrs. C. H. Tomlinson, Mrs. Lee Koch and Mrs. Zolite Anderson, aunts of the bride-elect. White wedding bells, lilies, magnolia blossoms, bell of Ireland and ivy were used for decorations. The bride's table overlaid with a linen cut work cloth, held silver epergnes with pink and whiteroses, a crystal punch bowl, a tiered wedding cake decorated with pink and white roses and compotes with pink and white mints.

Mrs. Gordon Tomlinson assisted the hostesses in serving the wedding cake, cranberry punch, nuts and mints.

The bridal pair presented their attendants with gifts. Approximately 75 guests attended.

On Saturday, Mrs. John Anderson and daughter, Miss Ferri Anderson, entertained with a luncheon for Miss Anderson and her wedding attendants. Mixed garden flowers decorated their home on Route 1. The hostesses presented the honoree with a gift of crystal.

Sarah Sherry is Married To Floyd Mitchell, USMC

Miss Sarah Imelda Sherry of Salisbury and Staff Sergeant Floyd Gilmer Mitchell of the United States Marines were married in a military ceremony on Sunday, June 21, at four o'clock in the afternoon at Sacred Heart Catholic Church, Salisbury, by the Rev. Cletus Helfrich, pastor.

The bride is the daughter of Lieutenant Commander George Gregory Sherry, of the United States Navy (Retired), and Mrs. Sherry of 531 Hedgic Avenue, Salisbury. The bridegroom is the son of Mr. and Mrs. Floyd Mitchell of Route 4, Mocksville.

Mrs. David Rouche, soloist, of Salisbury and Mrs. Vera Sherry of Salisbury presented a program of nuptial music.

The bride was given in marriage by her father who wore his dress uniform, as did the bridegroom and other men participating in the wedding. The bride was dressed in a wedding gown which had been worn by her only sister. It was of white lace and tulle over net and satin, waltz-length, and featuring two wide lace panels in front and back of the bodice. The bodice was fashioned of lace with small high collar and long sleeves ending in points at the hands. A lace Juliet cap trimmed with pearls held a tiered elbow-length tulle veil. She carried a colonial bouquet of miniature roses.

Mrs. John H. Heyer, Jr., of Minneapolis, Minn., sister of the bride, was matron of honor. She wore white dotted swiss with very full skirt, blue satin cummerbund with large bow in the back, and a picture hat to match the dress, blue mits and blue satin shoes. She carried a small colonial bouquet of pink carnations.

Miss Ann Reed of Salisbury was flower girl and wore pink organza with a pink floral headpiece. Michael Brincefield of West Council Street was ring bearer. Both are cousins of the bride.

William Mitchell of the U. S. Marines of Mocksville and Jacksonville, N. C., brother of the bridegroom, was best man. Staff Sgt. Larry McCullish, stationed in Richmond, Va., and Sgt. Sam Henson, stationed in Jacksonville, N. C., were ushers.

The bride is an honor graduate of Boyden High School, class of 1958. Staff Sgt. Mitchell entered the Marine Corps soon after his graduation from Cooleemee High School and is now stationed in Cleveland, Ohio.

Mrs. Mitchell wore a sleeveless pink sheath dress of summer cotton with jacket embroidered in white to match white accessories and a white orchid corsage for her wedding trip.

Following the wedding rehearsal the bride's parents gave a

cake cutting in the Parish Hall of Sacred Heart Church on Saturday evening. The bride's table was laid with a white crocheted table cloth over pale pink and was centered with a white antique china bowl of pink and white gladiolus and snapdragons. At one end was a three-tiered wedding cake decorated in pink and white with a miniature bride and bridegroom. Wedding cake, punch, cream mints and salted nuts were served to members of the wedding party and about 35 friends and relatives.

Who cares if it's 95° in the shade? It's Heat Pump Weather Inside Have more fun, enjoy more comfort with an electric heat pump cooling and heating your home! A recent survey* shows that grown-ups enjoy more restful sleep, actually average an hour more per night than in non-air-conditioned homes. Besides being more rested, you will find that the electric heat pump provides other advantages. Using only air and electricity, the heat pump eliminates soot, grime, etc.; thus your house stays cleaner. Filters remove pollen and dust. Duke Power neither sells nor installs the electric heat pump but its specialists would welcome the opportunity to provide heat pump information and the names of qualified dealers in your area. *Sponsored by the National Association of Home Builders DUKE POWER COMPANY Serving the Piedmont Carolinas

Dam Bids Are Opened In Yadkin

Bids on the first of 17 water retarding structures in the Deep Creek Watershed of Yadkin County were opened Thursday at the Soil Conservation office in Yadkinville.

Ned Hood, conservationist, said he was unable to name the low bidder among the eight firms submitting bids. He said the bids ranged from \$18,000 to \$25,000 for the work. He pointed out that some accounting work will have to be done before it is determined who will get the contract.

Hood estimated that the analysis of the bids can be completed so that the contract can be awarded in time for construction to begin within three weeks.

The bids opened Thursday were for Dam No. 10 which will be constructed about 5 1/2 miles northwest of Yadkinville.

Firms bidding on the dam project are:

Carl Rose and Son of Elkin, Boyd Adams of Taylorsville, James M. Parks of Union Grove, Todd Construction Co. of Yadkinville, Pulp Grading Co. of Old Town, Troy Smith Construction Co. of Mount Airy, L. A. Reynolds and Co. of Winston-Salem, Arrow Engineering Co. of Charlotte and J. M. Butler of Greensboro.

Bids on Dam No. 14 to be constructed one mile southwest of Boonville will be opened at 2 p.m. next Thursday.

Another dam will be constructed this summer, but plans for it are not ready at this time, Hood said.

Hood said the bids were, apparently within funds allotted for the dam. A total of \$823,349 is available for the 17 dams.

Area of Frequent Floods

The Deep Creek Watershed consists of 75,300 acres of which more than 6,000 are low-lying areas along the creek and its tributaries which are subject to frequent flooding.

CARD OF THANKS HOLMAN

The Holman family wishes to express their sincerest gratitude for the thoughtfulness and many kindnesses extended by friends during the illness of their mother, Mrs. Clementine Holman. The family also acknowledges with deep appreciation the floral wreaths, sympathy cards and telegrams sent during the hours of bereavement.

THE NEWSPAPER . . . ALL THINGS TO ALL MEN . . . AND BY ALL TAKEN FOR GRANTED

THINK OF RUNNING A HOME WITHOUT NEWSPAPERS!

Take for example your own favorite newspaper. The index of its contents is an index of your interests . . . a listing of and an answer to your wants. Help for you and your home!

Instead of struggling singlehandedly with scores of perplexities, the homemaker, thanks to your newspaper, has recourse to skilled experts galore, whose counsel and help is always at hand when needed. Food, health, child care . . . columns on these and many other home subjects are in your newspaper. Fashion, society, beauty, budgeting . . . the cavalcade of columns goes on. Included are entertainment, sports, stock market listings, the comics, everything from international commentaries to local obituaries. All this in addition to a bundle of information about your community, your nation, your world, and the universe around you.

A modern realist has said: "One who drops a coin on the newsstand and picks up a paper buys a piece of himself every day." Look back a bit. Socrates stands in the first rank of philosophers, yet his ultimate advice to the world was "Know Thyself."

Today's great text book on self is your newspaper! Your taken-for-granted newspaper, is packed with living lessons on self . . . is the continuing study of man, his successes and failures, his glories and weaknesses, his inspirations and aspirations, his life and death . . . and yours, and ours. The daily recordings of our times, the lives of ourselves and our fellow men is found only in the print of our newspapers.

It's intensely interesting, this deepening drama of man and the world around him. Instructive too, because the truths in this newsprint text book are basic, and adaptable to every phase of our lives.

Newspapers help families live more intelligently, and help them to better enjoy living. They help them understand themselves, and their neighbors. They help them bear trouble and make money. And, because these printed text book truths are a record, not a recollection, they—more than any other daily expressions—find constant and repeated use in the home.

DIARY OF THE WORLD . . . BOOKKEEPER OF ITS BUSINESS . . . DEFENDER OF ITS HUMAN LIBERTIES AND THE GREAT TEXT BOOK ON SELF! YOUR NEWSPAPER IS ALL OF THESE THINGS! . . . THINK OF RUNNING YOUR HOME WITHOUT NEWSPAPERS!

Swine Field Day

A Swine Field Day will be held at the Animal Husbandry Farm, Raleigh, on Friday, July 3, starting at 1 p.m. All the latest research information will be discussed on pork production at this meeting. People growing swine could certainly afford the time to attend this meeting.

Five Steps For More Grain Dollars

1. Cut only ripe, dry grain. Losses occur in both harvesting and storing if grain is too wet.
2. Plan to store your grain for greater profits. Prices are lowest at harvest when markets are flooded.
3. Store dry grain to prevent loss of quality and necessity for turning while in storage. Safe storage level for small grain is 12-13 per cent.
4. Market your grain on a grade and quality basis. Learn the grades and factors considered in grades for all grains produced.
5. Deal with reputable grain handlers when selling grain. Check government support prices and daily market reports. Know something about current prices for various grades before asking "What am I offered." Shop around for the best price.

DID YOU KNOW?

Farmers in North Carolina are receiving 23-24c less per bushel for oats than they did a year ago. Wheat prices are 28c (Eastern) to 44c (Western) per bushel lower than in 1958. These prices reflect the lower 1959 support rate for small grains which are considerably below the normal season-end prices on the old crop. During the harvest peak, oats and barley will be economical "buys" compared to corn and milo. Feeders will find it profitable to substitute these grains in their feed rations whenever possible.

FUNERALS

Mrs. G. A. Sheets, 80. Funeral services for Mrs. Carrie Lou Ella Sheets, 80, wife of G. A. Sheets, will be held Thursday at the Fork Baptist Church. The Rev. A. M. Kiser, the Rev. Everett R. Freeman and the Rev. J. Mack Brandon, Sr., will officiate. Burial will be in the church cemetery.

Mrs. Sheets died Tuesday at the home of daughter, Mrs. Mate Lyerly of 1921 Statesville Road, Salisbury. She had been in declining health several months.

Mrs. Sheets was born Oct. 1, 1878, in Davidson County, daughter of W. E. and Cynthia Williams Nance.

She had been living at the home of the daughter for 3 1/2 years. She was married to Mr. Sheets in 1898.

She lived in the Fork Church community of Davie County for 60 years.

Surviving besides the husband are four sons, Roy P. and George E. Sheets of Winston - Salem, Henry C. Sheets of Philadelphia, Pa., and Gray Sheets of Mocksville, Rt. 3; the daughter, Mrs. Lyerly of Salisbury; a stepbrother, Billy Laughlin of Linwood; seven grandchildren; and 14 great-grandchildren.

Buying these grains now while prices are low and storing them for later use will result in lower feed cost and more profit for the feeder.

There was a fellow at the plant who was always asking me to go with him to church.

In a way, this picture portrays his zeal. For there was something boyishly enthusiastic about his eagerness; something joyously genuine in his confidence.

And his fervor reminded one of the disciples of old who became "fishers of men."

Well, he brought my family to church. Not because he was a salesman or a saint. Simply because he encouraged us to seek the convictions he was so eager to share.

Betty and I, and little Ricky, really owe our cherished faith to the moment that fellow at the plant said, "I'LL STOP BY YOUR PLACE ON SUNDAY MORNING."

Now, we too, find happiness in bringing our friends and neighbors to church.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storhouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Local National Guard Unit Ends Summer Training At Fort Bragg

Summer field training ended Sunday, June 21, for 9,000 Tar-Heel National Guardsmen, as the 30th (Old Hickory) Infantry Division ended its annual active duty training.

Fifty-one members of the local 2nd Rifle Platoon, Co. D, 3rd Battle Group, 120th Infantry, which is a part of the 30th Division, returned to Mocksville Sunday by convoy from Ft. Bragg. The encampment began on June 7, with the division moving to the RTC Area at Fort Bragg, where they have trained for several summers.

The first week of training for the units included such schools as military intelligence, squad tactics, vehicle maintenance, and chemical, biological, and radiological warfare.

Highlight of the first week of training was the annual division review, held Saturday, June 13, in honor of Governor Luther Hodges.

During the second week the division moved to the west range area of Fort Bragg for four days of intensive field training under simulated battle conditions.

Aggressor forces in green uniforms provided realism for a night tactical problem, with the defending troops armed with blank ammunition. The entire division operated under blackout conditions during this period.

The field bivouac was the highlight of the entire encampment for the artillery units of the division. Men who had dry-fired their big weapons during the armory training at home had an opportunity to fire round after round of live shells at targets miles away.

A big stick was added to the division's arsenal, when the eight-inch howitzer was added to the artillery. Firing these for the first time, the heavy artillery specialists agreed that handling the huge weapon was a real challenge to them.

All units returned from the field bivouac area on Thursday, June 18. Maintenance of equipment and cleaning of weapons and vehicles were first on the list of preparations for return home.

A payroll of more than \$850,000 was disbursed to the men of the division on Friday. National Guard troops are paid on the same basis as Active Army personnel.

Friday was also payoff day for competing rifle teams of the di-

CAR OF THE YEAR

by Motor Trend Magazine

"Pontiac with Wide-Track Wheels is the best combination of ride, handling and performance of any '59 car."

Before you buy any new car you owe it to yourself to road-test the Wide-Track Pontiac. Pontiac's wheels are 5 inches farther apart. This widens the stance, not the car. Gives you a steadier, balanced, road-hugging ride. Come in and drive a Pontiac . . . put it through its paces over any route you please.

State Withholding Tax Plan

(North Carolina has adopted a measure providing for state withholding income tax. This was one of the most bitterly debated issues of the 1959 General Assembly and will affect most every person in this county. We are giving our editorial space this week to an article written by Rep. Ed Kemp of Guilford County in which he explains what the system does to you and for you. This article was written by Rep. Kemp at the request of columnist Lynn Nisbet).

WITHHOLDING . . . Many vital issues have faced this 1959 session of the General Assembly, but the one with the greatest, most direct impact upon the people is the issue of withholding state income taxes from wages earned in North Carolina.

From the ranks of those who have formed a hard core of resistance to tax withholding have at various intervals come such charges as "fiscal foolishness" and "financial legerdemain" and "budgetary subterfuge." All such charges contain at least an element of qualification.

More verbose opponents to the "withholding scheme" contend that this General Assembly has failed to face up to its fiscal responsibility by balancing the budget with a one-time-only "windfall" of 27 1/2 million dollars. Certainly there is substantiation for this charge.

Some say the people have not been told and do not understand that they must pay two years' state income taxes in 1960 . . . that their personal income taxes have been doubled for one year . . . that withholding is, in effect, an increase in taxes despite administration charges that the so-called "go-forward" budget for the 1959-61 biennium has been brought into balance without the imposition of new taxes.

In the clear light of fact there is substance to these charges. Contentions to the contrary notwithstanding, the "hard core" of opposition to the withholding gimmick has stood on firm ground and solid principle . . . and did not snipe at the tax withholding simply because they were "anti-administration."

True, the withholding opponents numbered in their ranks several legislators who, based on past performance, should be classified as anti-Hodges. However, the record shows that many who stood in opposition were, in past sessions, and are now considered loyal supporters of our businessman governor. So, principle, like politics, often makes strange bedfellows.

THE WINDFALL . . . Let's look at the facts about the windfall from institution of the withholding system . . . where it comes from . . . where it is going.

First consider the source of the mystic millions. Starting next January, your employer will deduct from your already painfully-deducted pay check what, according to a table given him by the Commissioner of Revenue, would be the amount of state income tax you would, under normal circumstances, owe the state for that pay period. Throughout 1960 and forevermore, unless some future Legislature decides withholding is contrary to the wishes of the people, your boss man is gonna be a tax collector for the State and take still another whack at your dwindling take-home pay.

The gimmick comes next April 15. On that day you'll owe the state a full year's taxes despite the fact that starting 3 1/2 months earlier the state began slicing little weekly slivers from your earnings. So in 1960 you will pay all your 1960 taxes plus all your 1959 taxes . . . in other words your tax bill to the state doubles during the next calendar year. It's just as simple as that.

The source of the windfall is the gimmick. By doubling the taxes on the salaried worker in North Carolina in 1960 the state collects almost twice the normal revenue from personal taxes without changing the basic rate of the tax.

Where does the budget for the coming biennium appropriate this one-shot windfall of 27 1/2 million? To current operations of the state agencies and institutions including the operation of the public schools. Therein lies the substance for the charge of fiscal foolishness . . . the charge that this Legislature is balancing the budget with the use of mirrors.

What happens in 1961 after the 1959

Legislature appropriated for recurring expenditures \$27 1/2 million in non-recurring revenue? Everything will be rosy if the base upon which North Carolina spreads its all-embracing tax structure expands and prospers to the extent that existing tax levies bring in \$27 1/2 million more, than liberally-increased estimates predict. The Department of Revenue, pushed to the limit revenues of 8.9 per cent about current collections must in effect collect over 14.5 per cent above that for the current biennium to clear the budgetary subterfuge sprinkled over the money bills of this session. Like the Michigan State Legislature of 1957 said, it could happen.

If it does not happen (and one must look to the future through rose-colored glasses to believe it will) then the 1961 General Assembly will be \$27 1/2 million in the hole when it starts . . . will need \$27 1/2 million to start even. This Legislature has passed the buck, left the staggering demands of public education facing seven leaner days ahead.

NO RETURN . . . Adoption of the withholding system of this Legislature is, in effect, a point of no return. There is reason to believe that the people, when they are slugged with two years taxes in one next Spring, will not think that withholding is all sweetness and light.

Suppose in 1961, they send to Raleigh legislators dedicated to ditching withholding. Where then would the 1961 Legislature stand? Answer: \$55 million in the hole, because to ditch withholding and go back to the current system of collecting state income taxes would mean a \$27 1/2 million windfall in reverse . . . or balancing the budget without one full year's collection from the state's salaried workers. The '61 crowd might have a double headache: digging out of the \$27 1/2 million hole the '59 boys dug for them, plus finding another \$27 1/2 to get back where we are now. Wow!

ADVANCE PAYMENT . . . Those who plugged so hard for withholding have often shrugged their shoulders and said that "all we're doing is bringing the folks up current in the payment of their taxes . . . a pay-as-you-go proposition if you please." Well, that is less than 50 per cent true.

Take a man with a wife and two kids who earns \$100 a week: Under our state income tax law, he has automatic exemptions totaling \$2800 per year. He owes no taxes until he earns as much as \$2800 . . . so under withholding he is paying his state income taxes, not as he owes them, but IN ADVANCE until the second week in July of the calendar year. The state is using his money 28 weeks of a year without interest. Thousands upon thousands of workers will be paying in advance over a longer period than this . . . some for the full year. He's not paying as he owes it, but as he earns it which, in almost every case, is in advance.

Those who greased the skids for sliding this carefully-camouflaged scheme through the house, periodically and with great confidence compared the North Carolina withholding plan with that now employed by the Federal government. What they did not say, if they knew, was that when the Federal instituted the withholding system they "forgave" three-quarters of a year's taxes to set the plan in motion. To illustrate, let's suppose the Federal was beginning the withholding from pay checks next January and next April 15 you would owe only one-fourth of your 1959 taxes instead of the full dose as under the North Carolina program. That takes away three-fourths of the pain.

Other proponents simply say that withholding and the use of the windfall to meet current appropriations "is the easiest way out." This is head-in-the-sand, hide-from-the-problem attitude, but exists nonetheless.

FORGIVENESS . . . If this Legislature had accepted withholding on its merit, believing it in the public interest to collect income taxes this way, then it should have forgiven three-quarters or a full year's taxes. (In 1957 the withholding plan was considered on its merit at a time when the Legislature was rubbing its hands over a \$61 million surplus and the proposal was killed overwhelmingly in the House Finance Committee.) It's just that the 1959 General Assembly, with a skimpy \$13 million surplus, found itself backed in a corner and, unwilling to face up to the problem, resorted to the use of mirrors.

KIDD BREWER'S Raleigh Roundup

SENATOR SAM ERVIN SAYS

REASONS . . . Not a very good mixer is State Sen. J. Spencer Bell of Mecklenburg County—and that is one of the reasons given for the last-ditch defeat of the court reform plan in the Legislature last week.

Bell worked like a dog on the project, which never had what you could call rank and file endorsement from the attorneys of the State.

In the courtroom, meantime, the magistrates or justices of the peace knifed at the change which would sharply alter the process of appointment and pay for these august offices.

Here in the Legislature the proposal—for the most part stayed perched up there on Cloud Twenty. The House members who would have to carry the ball were not lobbied enough on the bill. It became too much of a Senate thing. So when it got mixed up with constitutional changes, etc., John Kerr, Jr. and Friends able men, too—could hardly wait to get their hands on Court Reform.

In our opinion, one of the real statesmen in the 1959 edition of the N. C. General Assembly which held forth here for more than four months was J. Spencer Bell. Bald, blue eyed, cupid red faced and cocky in a quiet way is one of the real big men of North Carolina. But he's no lobbyist, no hall fellow well met, and he had a big load to carry with a short number of shoulders under the log.

Court reform is needed in North Carolina—and it will come. But it seems that nothing connected with courts can ever attain much speed in this State. If you have ever been plaintiff, defendant, witness, member of jury, judge or attorney, you know we mean.

NOT OFTEN . . . As the Legislature ground to a faltering stop last week, there was some talk amidst farewells that House Speaker Addison Hewlett might become a candidate for Governor next year.

Well, we doubt it. In the first place, Hewlett is completing about 15 months of the hardest work of his career—running an extremely hard race for Speaker; and then serving as referee, umpire, and head linesman for that always ramunctious House of Representatives.

Also, while now well known and generally liked by most legislators, easy going and prematurely gray Addison Hewlett is not yet a familiar up the lanes, around the outhouses, and down the streets where votes are made in North Carolina. He knows that.

THE SPEAKERS . . . What becomes of North Carolina House Speakers once their tenure in this prominent and powerful position has come to an end?

To our memory, only two of them in modern times have gone to greater things on the political

horizon. Willis Smith went to the U. S. Senate about 20 years after his service as Speaker. Gregg Cherry became Governor ten years after stepping down from the post.

Some other speakers of recent years were: Kerr Craig Ramsay of Salisbury, who served just a decade ago, was at 38 one of our youngest men to serve in this place. He died suddenly a few months later.

John Kerr Jr., Speaker in 1953, has served time both in the Senate and House; and was in the House very muchly this session. Larry Moore, Wilson, was the star lobbyist in the vain attempt to bring the dogs and the rabbit back to Morehead and Currituck this time. He served in 1955.

Gene Bost, Kannapolis, was defeated in the runoff with Bedford Black last year. He was Speaker in 1953.

Frank Taylor of Goldsboro, 1951 Speaker, is an effective lobbyist and attorney. Tom Pearsall, Rocky Mount, is the daddy of the now famous (and apparently successful) Pearsall Plan for the solution of racial problems in the schools. He has extensive farming interests in Nash and Edgecombe counties.

J. K. Doughton, Sparta, became 75 this past May 18, and, like his kin, looks as much like white oak as a Doughton. He was in the recent House.

NEXT TIME . . . While, as you can see, the Speakership seldom leads to fame or fortune, the office undoubtedly carries prestige—hence the hard battles for it. The fight has already begun for 1961, with candidates seeming to be Honorable Clyde Philpott of Lexington, Joe Hunt of Greensboro, Marcellus Buchanan of Sylva, and Clyde Harris of Salisbury, to name a few.

Harris, who served as chairman of the Appropriations Committee in the House this time, will have a lot of Hewlett strength in his corner as a nucleus for this campaign.

HOUND DOG . . . A couple of weeks back, the Rev. Bones McKinney, Wake Forest basketball coach, was giving the address in his delightfully informal way for the special ceremony honoring R. S. Halliwanger, retiring as principal of Hanes High in Winston-Salem.

Prof. Halliwanger is much loved by everyone who knows him. When old Bones bore down once very eloquently on what he had meant to education, one of the good patrons, deeply impressed, shouted "Amen."

Bones halted for a moment and in his charming way said: "Glad you agree, Friend, but please don't say amen to me, or we just might be here all night. Saying amen to a Baptist preacher is just like saying 'sic' im' to a hound dog."

IT PAYS TO ADVERTISE

WASHINGTON—Hearings having been completed, the Subcommittee on Constitutional Rights of the Senate Judiciary Committee last week began consideration of numerous so-called civil rights bills.

Civil Rights Again

As a member of that Subcommittee I was encouraged by the lack of support for restoration of the old Part III of the 1957 bill. In fact, the initial vote last week in executive session was five to three against including its harsh provisions. You will recall that the Senate by a vote of 52 to 38 killed Part III of the 1957 bill, the section authorizing the use of federal injunctions where one

alleges he is denied the equal protection of the laws, language so broad as to jeopardize Constitutional principles and to vest in a single human being, namely, the Attorney General of the United States, complete authority over the States, the counties and municipalities. While it is impossible to predict where the future course will lead with respect to this type of legislation, it is heartening to see that the Senate's repudiation of Part III in 1957 has sobered the thinking of the country. Not even the Administration wants old Part III now—a complete reversal of its original stand.

It is well to remember that these peace-meal victories, coming after long hours of hearings, study, and debate, are not only victories for the South; they are victories for the preservation of reason and Constitutional principles.

Hope For Reason

In the deliberations of the subcommittee and later the full committee, I hope that reason will prevail against those who seek to impose the harsh measures. While there is not great national attention focused on so-called civil rights bills at the moment, interest will develop as time goes on this summer. I want the people of North Carolina and the Nation to be informed of developments. It is a good thing that the so-called civil rights bills evoke long national debate; the great debate of 1957 vividly disclosed that the people of the country, the President, the press, the majority of Congress did not know what was in the bill until its dangers were disclosed by a meticulous course of action based on common sense and reason. As a consequence the bill was shorn of its harsher provisions. One of the leading newspapers of the country said that in talking on the Civil Rights Bill, the Senate has used its ancient privilege to clear up obscure issues. Debate in the Senate can again serve to develop the dangers in the bills now before Congress.

South A Minority

As I have said repeatedly, the South is a minority in the Senate

SO THIS IS NEW YORK

By NORTH CALLAHAN

Sitting beside Charles P. Wood, a friendly and successful engineer, I listened to a luncheon speech by Hamilton Fish, Jr., and then Mr. Wood told me about a young college graduate who approached Mr. Fish's father about prospects for the future. The young man was asked what he wanted to become. "I want to be a millionaire," replied the recent graduate, "and as soon as possible." Mr. Fish looked at his sternly. "Young man," he said, "if you'll pay your bills promptly and keep your mouth shut, nobody will ever know whether you're a millionaire or not."

A local doctor who makes a specialty of helping pudgy business men reduce their weight, says that the trouble with most of us is that we eat more than we need every day and consequently the body stores it as fat. Even 50 extra calories a day could mean 3 pounds extra a year or thirty pounds overweight in ten years. The farmer who once walked behind the plow using 400 calories an hour, the doctor observed, now rides his tractor at 130 calories an hour. The housewife who used to wash clothes at 20 calories an hour now uses a washing machine at 120 calories an hour.

Walter Bennett celebrated his 75th anniversary here the other day and when asked if golf was his hobby replied that the game is a waste of time. He is chairman of the Phelps Dodge Refining Corporation and appears to be 15 years younger. His physical exercise, he said, is moving rocks and building fences at his summer home in the Pocono Mountains. "Why worry yourself to death chasing a little white ball across the country," he quipped regarding golf, "when there are so many more interesting things to do?"

Now that bumper-to-bumper days are here, a Canadian oil company official points out that a driver does not shuck off part of himself or become another person when he gets behind the wheel of a car. The driver who resents authority and restrictions upon his behavior tends to view traffic regulations as unnecessary or feels that they are meant for poor drivers and not for himself, it is observed. As a consequence, he will overlook them or even flaunt them while driving.

Not long before getting into difficulty with the city license department about alleged non-payment of her models, Candy Jones Conover, head of the big agency here stated that there is a big shortage of girls for work in television commercials and urged qualified girls to get into this work. Years ago I interviewed her husband, Harry Conover, then a handsome and successful young man who is also involved in the agency's present troubles. Sometimes, it seems that success is harder to take than failure.

A traveler back from overseas tells me that London police were so often interrupted by people who asked for the time, that an experiment was tried in which the bobbies wore plainly visible clocks on the front of their helmets. This worked fine except for one thing: people now stop the cops to ask if the clock is right.

It is always interesting to drop into the lobby of the New York Daily News which has a giant compass showing 58 principal cities and their relative distance from New York. The black glass walls of the lobby are four stories high. In the center of the floor is a big globe of the world, 12 feet in diameter and weighing 2 tons. Seventeen panels contain weather and meteorological instruments and charts of conditions all over the world. The News Lobby is open 24 hours a day to the public, and is visited by thousands of curious humans. But no one gets into the spacious city room of the newspaper without permission.

and the House; we do not have the votes to deny the will of Congress. The one thing on our side is that we do have the abiding conviction of the soundness of our precepts and we take our task seriously in the battle for sound principles. The only way we can reach the ears of our colleagues and the country is by meaningful and meritorious debate to show that we are attempting to preserve constitutional principles for all Americans of all races.

Uncle Dave From Davie Says:

DEAR MISTER EDITOR:

I'm the sort of feller that puts a heap of importance to the little things in life. For instance, I saw a filler in the paper yesterday where the consumption of soap in the United States was down 14 per cent in 1958. This looks mighty bad fer our country, especially since 1958 had a extra Saturday night in it. We ain't had too much Godliness in this country fer quite a spell, and now it looks like we're losing our cleanliness. But with all these taxes they're adding from year to year, I reckon folks figger they're gitting took to the cleaners without any soap.

On top of that soap item, I see where the Custom Tailors Guild aims to save cloth and out prices by tightening up on men's pants, making 'em much tighter in the seat. I don't see no objection to it. If taxes keep going up a feller ain't going to have time to set down nohow.

Well, Mister Editor, I'm coming over to your place Monday and git me some signs printed. I'm beginning to feel like the store keeper did about one of his customers. This feller would come in the store, reach over and git a banana and eat it, then reach over and git a apple and eat it, then pinch off a piece of cheese and eat it. Then he'd give the store keeper a 50-cent order. At the end of the month the store keeper sent him a bill fer five bucks fer grazing. These folks that let their stock run all over a feller's land ought to be quoted a regular price fer grazing. That's why I'm fixing to have me some signs printed. I'll word 'em: Grazing, Per Day Rates — pigs 50 cents, cows \$1, horses \$1, Payable in Advance.

I see where Ike says the U. S. Retailers Association still ain't answered his question. Several years ago he made 'em a speech and give 'em this question: "What have you done with the cracked barrel and pickle jar? What are you giving kids from 6 to 12 to leave memories such as my generation had?" I can tell him without further ado that the cracked barrel has been replaced with a juke box, the pickle jar is full of comic books, and the country store has turned into a super market. And when the kids now 6 to 12 git grown they'll be in such a pickle trying to pay off the barreled-up national debt they won't have time fer no memories.

Rhode Island is bragging about the lowest traffic death rate of any state for the last 12 months. It's no wonder. With these high powered cars, by the time a feller in Rhode Island gets in high gear he's run clear out of the state.

Yours truly,
Uncle Dave

60 SECOND SERMONS

By FRED DODGE

TEXT: "When a man doesn't know his harbor, no wind is right." — Seneca.

A small boy was learning to roller skate. He fell again and again until a by-stander, in pity asked,

"Sonny, you're getting all banged up. Why don't you stop for a while and just watch the others?"

The boy lifted his tear-stained cheeks and looked up at the man.

"Mister," he said, "I didn't get these skates to give up with, I got them to learn on."

The boy with the skates strapped on his feet knew what he wanted. He had a goal. He was determined to reach it. He wanted to learn to skate.

A surprising number of well-regarded people cannot tell you their goals, definitely. If you manage to get them to declare a purpose in life, you are surprised at how vague or shallow it is. Somehow you expect more from such people. They seem almost ashamed to have a serious purpose for living.

This is an unfortunate situation in which to find your fellow men. However, all is not lost. You can reduce this unfortunate situation by one, now. Be certain that you have set your goal. Then go everlastingly after it. "When a man doesn't know his harbor, no wind is right."

FUNERALS

Mrs. Mattie Jane Barnes, 72, wife of J. D. Barnes of Advance, Rt. 2, died at 10:40 a. m., Sunday at Davie County Hospital. She had been in declining health several months and critically ill one week.

Funeral services were conducted at 2 p. m. Tuesday at Bailey's Chapel Methodist Church by the Rev. Ed Fitzgerald and the Rev. Elvin Latham. Burial was in the church cemetery. Grandsons were the pallbearers.

Mrs. Barnes was born in Davie County Jan. 7, 1887, daughter of Greene W. and Mary Ann Howard Minor. She was married to Mr. Barnes in 1909. She spent all her life in the Bailey's Chapel community.

Surviving are the husband; three daughters, Mrs. Algie McCarter of High Point, Mrs. Elbert A. Hardman of Winston - Salem, and Mrs. J. H. Platt of Advance, Route 2; seven sons, Howard, Greene, Jay and Coy Barnes, all of Advance, Rt. 2, Calvin Barnes of Advance, Rt. 1; Homer Barnes of Mocksville, Rt. 3, and Thomas Barnes of Lewisville; 23 grandchildren; eight great-grandchildren; one sister, Mrs. Della Minor Stewart of Jetersville, Va.; and two brothers, John Minor of 110 E. Sprague Street, Winston-Salem, and Charles Minor of Advance, Rt. 2.

ASC News

Wool Payment Rate To Be Announced

Payments under the 1958 wool incentive payments program will be made this summer. Under this program payments on shorn wool are made at a percentage rate which will bring the national average price received by all growers for wool sold during the 1958-59 marketing year up to the announced 62 cent per pound incentive level. The 1958 program percentage payment rate is expected to be announced sometime this month, when the 1958 average price can be determined.

On the basis of sales already made, indications are that prices received for wool sold during the 1959 marketing season will be substantially above 1958.

Excess Notices

Farmers who receive a notice showing their farm to be overplanted are reminded of the following:

TOBACCO: He has 7 days from the date of the notice to make request for remeasurement or disposition. This date cannot be extended.

COTTON: He has 15 days from date of the notice to make request for remeasurement or disposition; however, if the request is not made within 7 days from the date of his notice an additional charge of \$1.00 per day will be made.

The minimum cost on tobacco and cotton is \$8 for remeasurement and \$5.00 for disposition (if the acreage is disposed of in one place). A charge of \$1.00 will be added for each additional place.

Support For 1959 Grain Crops Price support will be carried out, as in previous years, through farm and warehouse stored loans and purchase agreements. Support will be available from harvest time through Jan. 31, 1960, on the following grain crops:

BARLEY: The basic county price support rate for 1959 crop barley will be 88c per bushel. This rate applies to barley grading No. 2 or better. The county rate will be further adjusted for grades below No. 2 in determining support prices for individual producers. Discounts are the same as under the 1958 program.

County rates reflect changed transportation costs from producing areas to terminals and changed relationships between terminal market prices.

OATS: Prices for 1959 crop of oats will be supported at 60c per bushel for Grade No. 3.

To be eligible for support, the oats must grade No. 3 or better or No. 4 on the factor of test weight only under the revised grain standards effective on June 1 of this year.

Premiums: 1 cent per bushel for Grade No. 2 or better, 1 cent for heavy test weight, and 2 cents for extra heavy test weight.

Discounts: One cent per bushel for Grade No. 4 on the basis of test weight only and 3 cents for garlicky.

RYE: Prices for this year's crop of rye will be supported at a basic rate of \$1.07 per bushel. Rye eligible for support must grade No. 2 or better or No. 3

on the factor of test weight only and may not contain in excess of 1 percent ergot.

The county rate applies to loans on rye stored on the farm or in a local warehouse. For a warehouse loan, storage must be prepared or deducted from the loan rate.

WHEAT: The 1959 crop of wheat will be supported at \$2.00 per bushel for grade No. 1. This price is subject to premiums and discounts depending on the grade and quality of the grain.

To be eligible for price support on the 1959 wheat crop the farmer must be in compliance with the 1959 wheat acreage allotment and be eligible to receive a wheat marketing card on all other farms in the county in which he has an interest.

Farmers who are interested in a loan should contact the ASC office for further information.

Social Security In Davie County

According to J. G. Liebensberger, District manager of the Salisbury social security office, the 1958 changes to the social security law may now make some people not previously entitled, eligible for parents benefits.

Parents who were dependent on a deceased son or daughter may now qualify for benefits, even though the deceased was survived by a widow, widower, or child. Before this change, if a deceased individual was survived by a spouse or child, the dependent parents could not qualify.

In order for a dependent mother, age 62 or over, or a dependent

father age 65 or over, to qualify for benefits, they must prove that they were dependent. This proof must be filed with the social security office before August, 1960, or within two years after the date of the son or daughter's death.

If you were denied dependent parents benefits because your son or daughter was survived by a spouse or child you are urged to contact your social security office as soon as possible.

The social security office in this area is located at 105 Cowher Avenue, Salisbury, N. C. If you are unable to come in person to this office, you may get additional information by phoning ME 3-4512.
